

GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE 1974 RECOMMENDATION CONCERNING EDUCATION FOR INTERNATIONAL UNDERSTANDING, CO-OPERATION AND PEACE AND EDUCATION RELATING TO HUMAN RIGHTS AND FUNDAMENTAL FREEDOMS

I. Introduction

A. About the 1974 Recommendation

1. UNESCO's *1974 Recommendation concerning Education for International Understanding, Co-operation and Peace and Education relating to Human Rights and Fundamental Freedoms*¹ (the "1974 Recommendation") aims to promote international education and world peace through understanding, solidarity and cooperation. It was adopted on 19 November 1974 by the General Conference of UNESCO at its 18th session.

2. The *1974 Recommendation* applies to formal, non-formal and informal education and to all levels, from pre-primary to tertiary and adult education and lifelong learning. The General Conference recommended "*that Member States should apply*" the provisions included in the *1974 Recommendation* "*by taking whatever legislative or other steps*" that provide institutional (e.g. policies and legal frameworks) and pedagogical (e.g. curricula, teacher training, educational materials, equipment, and student assessment) support for its implementation, based on the "*objectives*", referred to in paragraph 4 of the *1974 Recommendation*, "*regarded as major guiding principles of education policy*" including: an international dimension and a global perspective on education, cultural diversity, interdependence, communication, rights and responsibilities, international solidarity and cooperation, and problem solving.

3. Today, the principles of the *1974 Recommendation* apply equally well to Education for Sustainable Development (ESD) and to Global Citizenship Education (GCED) and therefore represent a powerful tool for promoting the 2030 Agenda for Sustainable Development and in particular SDG Target 4.7 on the promotion of sustainable development and global citizenship through education, Target 12.8 on access to information on sustainable development and Target 13.3 on climate change education.

4. The General Conference in its 39th session recommended the use of the *1974 Recommendation* reporting process to support the implementation and monitoring of Target 4.7 of Sustainable Development Goal 4 (39 C/Resolution 79). The UNESCO Executive Board at its 209th session approved the use of the current guidelines for both the monitoring of the *1974 Recommendation* and the collection of data needed for the following global SDG indicator for which UNESCO is custodian (209 EX/Decision 18.II):

4.7.1, 12.8.1 and 13.3.1: *The extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education and (d) student assessment.*

5. Questions marked with an asterisk (*) will be used in the calculation of the respective indicators (**Table 1**). As approved by the Inter-Agency and Expert Group on the SDG Indicators, the indicators will be calculated for primary and secondary education only.

Table 1 Questions used in the calculation of the global SDG indicator for Targets 4.7, 12.8 and 13.3

Policies	Curricula	Teacher education	Student assessment

B. Reporting obligations

6. The General Conference, at its 18th session, when adopting the *1974 Recommendation* recommended “*that Member States submit [...] reports concerning the action taken by them in pursuance of this recommendation*”. Moreover, in accordance with Article VIII of UNESCO’s Constitution “*Each Member State shall submit to the Organization [...] reports [...] on the action taken upon the recommendations and conventions referred to in Article IV, paragraph 4.*”

7. Thus, **all UNESCO Member States are expected to report on the steps they have taken to implement the 1974 Recommendation** preferably by completing the following questionnaire. Such reporting takes place every four years.

II. Guidelines for completion of the questionnaire

8. This questionnaire and its accompanying guidelines are addressed to Ministers responsible for relations with UNESCO. The questionnaire is typically completed by Ministries of Education and other government authorities responsible for education. Responses should cover, as far as possible, education at all levels of government, including sub-national levels where applicable as well as education outside the government sector.

9. National respondents are encouraged to **consult widely** both within, across and beyond government, including with Ministries of Environment, with national human rights institutions, the education sector, civil society partners and others, as necessary, to gather the information needed to complete the questionnaire.

10. Responses to the seventh consultation should cover:

- (i) the time period 2017-2020;
- (ii) education at all levels of formal education from pre-primary to tertiary education as well as non-formal education;
- (iii) all levels of government that have responsibility for education within the country; and
- (iv) where possible, education outside the government sector.

11. To assist countries in responding to this questionnaire, UNESCO has developed the following set of global citizenship education and education for sustainable development themes. The list is based on a review of current common practices in many countries as well as a review of relevant literature. While the terms ESD and GCED may be used differently in some countries, the list of themes typically captures what are seen as key elements of Target 4.7. Please refer to the definitions of key terms in **Section III** before completing the questionnaire.

Global citizenship education and education for sustainable development

- 1. cultural diversity and tolerance
 - 1.1 international or intercultural understanding, solidarity and cooperation
 - 1.2 intercultural and interreligious dialogue
 - 1.3 local, national and/or global citizenship
- 2. gender equality education
 - 2.1 gender-based equal opportunities
 - 2.2 gender equality and justice
 - 2.3 gender roles, identity and stereotypes

3. human rights education
 - 3.1 equality and non-discrimination based on race, colour, language, religion, disability, political or other opinion, national or social origin, birth or other status
 - 3.2 human rights values, human dignity, justice, inclusion and participation
 - 3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)
4. peace and non-violence
 - 4.1 friendly relations among peoples and nations
 - 4.2 challenging negative stereotypes, promoting peaceful solutions, learning to live together, including others and preventing violent extremism
 - 4.3 preventing all forms of violence including bullying, verbal abuse and gender-based violence
5. climate change education
 - 5.1 mitigation
 - 5.2 adaptation
 - 5.3 impact reduction
 - 5.4 early warning
6. environmental sustainability
 - 6.1 caring for the planet, protecting nature
 - 6.2 environmental justice
 - 6.3 biodiversity, water
7. human survival and well-being
 - 7.1 environmental health as it pertains to human well-being, disaster risk reduction
 - 7.2 health of the planet for future generations
 - 7.3 sustainable cities and communities
8. sustainable consumption and production
 - 8.1 responsible and sustainable lifestyles
 - 8.2 green economy, green jobs
 - 8.3 sustainable energy

III. Definitions of key terms

Term	Definition
Themes of global citizenship and education for sustainable development	
1. Cultural diversity and tolerance	<i>Education about and for diversity including language, ethnicity, race, religion as well as the development of tolerance, mutual respect and appreciation for cultural diversity. It includes intercultural and interreligious dialogue, understanding, solidarity and co-operation, and citizenship education.</i>
2. Gender equality education	<i>Education that addresses the wider issue of gender equality by promoting new attitudes and patterns of belief, transforming the way people think about traditional gender roles and helping to build long-term sustainable change. It examines how gender roles, activities, needs, opportunities, rights and entitlements affect men, women, girls and boys differently. It deals with the relationships between females and males, their access to and control of resources and the constraints they face relative to each other. It respects the rights of all learners – women, men, boys and girls – equally and gives equal access to learning opportunities, resources and protections. All learners benefit from and are treated in education equally without the limitations set by stereotypes, rigid gender roles and prejudices. It covers gender-based equal opportunities, gender equality and justice, and gender roles, identity and stereotypes.</i>
3. Human rights education	<i>Education that promotes universal respect for and observance of all human rights and fundamental freedoms and thus contributes, inter alia, to the prevention of human rights violations and abuses by providing persons with knowledge, skills and understanding and developing their attitudes and behaviours, to empower them to contribute to the building and promotion of a universal culture of human rights.</i> <i>It includes equality and non-discrimination, human rights values, dignity, justice, inclusion and participation and respect for human rights and fundamental freedoms.</i>
4. Peace and non-violence	<i>Education about peace and peace-building, mediation, conflict prevention and resolution, non-violence, reconciliation and living together peacefully. It includes advocating for friendly relations among peoples and nations, challenging negative stereotypes, promoting peaceful solutions, learning to live together and preventing violent extremism and other forms of violence including bullying.</i>
5. Climate change education	<i>Education to help people, in particular youth, understand, address, mitigate, and adapt to the impacts of climate change. It encourages changes in attitudes and behaviours needed to put the world on a more sustainable development path and build a new generation of climate change-aware citizens.</i> <i>It covers various responses to climate change including mitigation, adaptation, impact reduction and early warning.</i>
6. Environmental sustainability	<i>Education about responsible interactions with the environment to avoid depletion or degradation and to promote environmental quality and health. It includes, caring for the planet and protecting nature, environmental justice, biodiversity and water.</i>
7. Human survival and well-being	<i>Education that promotes social well-being and harmony including in future generations due to healthy environmental systems. It includes health of the planet and environment related to human well-being, disaster risk reduction and sustainable cities and communities.</i>

8. Sustainable consumption and production	<i>Education on the use and production of resources, products and services that have a minimal adverse impact on the environment. It promotes resource and energy efficiency, sustainable infrastructure and green jobs. It includes responsible and sustainable lifestyles, the green economy and sustainable energy.</i>
Dimensions of learning	
Knowledge	<i>Factual information and understanding acquired through study and/or experience.</i>
Skills	<i>The ability to carry out a task well as a result of training, practice and innate aptitude. Skills may be physical, mental or both.</i>
Values	<i>Principles that form the foundation on which individuals conduct themselves and interact with others and with the environment around them.</i>
Attitudes and behaviours	<i>Ability to act on the basis of beliefs and knowledge acquired through study or experience.</i>
Levels of education	
Pre-primary	<i>Education designed to support children's early cognitive, physical, social and emotional development and introduce young children to organized instruction outside of the family context. Participants are usually aged from three years.</i>
Primary and secondary	<i>Education designed to:</i> <i>(i) provide students with fundamental skills in reading, writing and mathematics (i.e. literacy and numeracy) and establish a solid foundation for learning and understanding core areas of knowledge and personal development (primary education); and</i> <i>(ii) prepare students for further education at post-secondary and tertiary levels and for entry into the labour market (secondary education).</i> <i>It includes both general and vocational education.</i>
Tertiary	<i>Education designed to provide learning activities in specialised fields of education. It aims at learning at a high level of complexity and specialisation. It includes both what is commonly understood as academic education and advanced vocational or professional education.</i>
Types of education	
Adult education	<i>Education specifically targeted at individuals who are regarded as adults by their society to improve their technical or professional qualifications, further develop their abilities, enrich their knowledge with the purpose to complete a level of formal education, or to acquire, refresh or update their knowledge, skills and competencies in a particular field.</i>
Formal education	<i>Education that is institutionalized, intentional and planned through public organizations and recognized private bodies which – in their totality – constitute the formal education system of a country. Formal education programmes are recognized by the relevant national or sub-national education authorities. Formal education consists mostly of initial education (e.g., pre-primary, primary, secondary and tertiary education).</i>
Non-formal education	<i>Education that is an addition, alternative and/or a complement to formal education within the process of the lifelong learning of individuals. It is often provided to guarantee the right of access to education for all. It caters to people of all ages but does not necessarily apply a continuous pathway-structure. It may be short in duration and/or low-intensity, and it is typically provided in the form of short courses, workshops or seminars. Non-formal education mostly leads to qualifications that are not</i>

	<i>recognized by the relevant national or sub-national education authorities or to no qualifications at all. Non-formal education includes programmes on life skills including literacy and numeracy, work skills, and social or cultural development. Most types of adult education are also included.</i>
Vocational education	<i>Education that is designed for learners to acquire the knowledge, skills and competencies specific to a particular occupation or trade or class of occupations or trades. Vocational education may have work-based components (e.g. apprenticeships). Successful completion of such programmes leads to labour-market relevant vocational qualifications acknowledged as occupationally-oriented by the relevant national authorities and/or the labour market. Vocational education can be offered at secondary and post-secondary or tertiary levels of education.</i>

IV. Information about the respondent

Country:

New Zealand

Organization:

New Zealand Ministry of Education

Date of submission:

31 January 2021

V. Other contributors consulted during the completion of this questionnaire

Please indicate below the names of other organizations and contributors consulted during the completion of this questionnaire.

Government institutions including other Ministries (please specify):

National human rights institutions (please specify):

Local and regional authorities responsible for education (please specify):

Other local and regional authorities (please specify):

Organizations representing education stakeholders (e.g. teachers, students, parents, etc.)
(please specify):

Other civil society organizations (please specify):

Others (please specify):

VI. Questionnaire

A. Laws and policies (preamble and paras 4 and 7 of the 1974 Recommendation)

A1a. Please describe any specific national or sub-national laws, legislation or legal framework(s) in your country that govern the promotion of global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes² are mentioned explicitly or are inferred and what types or levels of education are covered.

The Education and Training Act 2020 establishes and regulates the education system in New Zealand with the purpose of (among other things) providing New Zealanders and those studying in New Zealand with the skills, knowledge and capabilities they need to fully participate in the labour market, society and their communities.

Section 5 of this Act includes education and learning objectives for pre-primary and primary/secondary, including the promotion of “resilience, determination, confidence and creative and critical thinking”, “good social skills”, and “participation in community life and fulfilment of civic and social responsibilities”. This section also provides that education should “instill in each child and young person an appreciation of the importance of the inclusion of different groups and persons with different personal characteristics” and “diversity, cultural knowledge, identity, and the different official languages”.

Section 127 provides that the objectives for primary and secondary schools include to “give effect to relevant student rights... and the Human Rights Act 1993”; and to take “all reasonable steps to eliminate racism, stigma, bullying, and any other form of discrimination within the school”.

The Act, at section 90, enables the Minister of Education to publish foundation curriculum policy statements and national curriculum statements. The content of these curriculum statements is not prescribed in the law.

A1b. Please provide the full names of any laws, legislation or legal frameworks referred to in A1a and, where possible, web links to relevant documents.

[Education and Training Act 2020 No 38 \(as at 25 September 2020\), Public Act Contents – New Zealand Legislation](#)

² See the schema described in paragraph 11 of Section II of these guidelines.

*A2 Please indicate which GCED and ESD themes are covered in national or sub-national laws, legislation or legal frameworks on education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown, 99 = not applicable (e.g. where the given level of government is not responsible for education)

	National				Sub-national			
	Pre-primary	Primary/secondary	Tertiary*	Non-formal	Pre-primary	Primary/secondary	Tertiary	Non-formal
1. Cultural diversity and tolerance	1	1	99	99	99	99	99	99
2. Gender equality	0	0	99	99	99	99	99	99
3. Human rights	0	0	99	99	99	99	99	99
4. Peace and non-violence	0	0	99	99	99	99	99	99
5. Climate change	0	0	99	99	99	99	99	99
6. Environmental sustainability	0	0	99	99	99	99	99	99

8. Sustainable consumption and production	0	0	99	99	99	99	99	99

* New Zealand tertiary education providers have autonomy over the programmes of study and training that they provide. This autonomy is provided for in legislation.

A3a. Please describe any specific current national or sub-national education policies, frameworks or strategic objectives in your country that promote global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes³ are mentioned explicitly or are inferred and what types or levels of education are covered.

The Statement of National Education and Learning Priorities (NELP) sets priorities pre-primary and primary and secondary education, and the Tertiary Education Strategy (TES) 2020 sets priorities for tertiary education.

The objectives and priorities are:

- **OBJECTIVE 1: LEARNERS AT THE CENTRE**
 - **Priority 1:** Ensure places of learning are safe, inclusive and free from racism, discrimination and bullying
 - **Priority 2:** Have high aspirations for every learner/ākongā, and support these by partnering with their whānau and communities to design and deliver education that responds to their needs, and sustains their identities, languages and cultures
- **OBJECTIVE 2: BARRIER-FREE ACCESS**
 - **Priority 3:** Reduce barriers to education for all, including for Māori and Pacific learners/ākongā, disabled learners/ākongā and those with learning support needs

³ See the schema described in paragraph 11 of Section II of these guidelines.

- **Priority 4:** Ensure every learner/ ākonga gains sound foundation skills, including language, literacy and numeracy
- **OBJECTIVE 3: QUALITY TEACHING AND LEADERSHIP**
 - **Priority 5:** Meaningfully incorporate te reo Māori and tikanga Māori into the everyday life of the place of learning
 - **Priority 6:** Develop staff to strengthen teaching, leadership and learner support capability across the education workforce
- **OBJECTIVE 4: FUTURE OF LEARNING AND WORK**
 - **Priority 7:** Collaborate with industries and employers to ensure learners/ ākonga have the skills, knowledge and pathways to succeed in work
- **OBJECTIVE 5: WORLD-CLASS INCLUSIVE PUBLIC EDUCATION**
 - **Priority 8:** Enhance the contribution of research and mātauranga Māori in addressing local and global challenges (TES only)

A3b. **Please provide the full names of any education policies, frameworks or strategic objectives referred to in A3a and, where possible, web links to relevant documents.**

The Statement of National Education and Learning Priorities and the Tertiary Education Strategy 2020. These can be found at [The Statement of National Education and Learning Priorities \(NELP\) and the Tertiary Education Strategy \(TES\) – Education in New Zealand](#).

*A4. Please indicate which GCED and ESD themes are covered in national or sub-national education policies, frameworks or strategic objectives affecting each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education

B. Curriculum (paras 4 and 10-19 of the *1974 Recommendation*)

B1a. Please describe in which ways GCED and ESD are mainstreamed in school curricula. Indicate whether topics are taught as standalone subjects or are integrated into the curricula of other subjects. Explain whether GCED and/or ESD themes⁴ are mentioned explicitly or are inferred and what types or levels of education are covered.

Early Childhood Education

In New Zealand, learning and development in the early childhood setting is holistic – fostering learning partnerships between teachers, parents and families to provide wider context of the child's world. The curriculum framework and Te Whāriki (the Ministry of Education's early childhood curriculum policy statement) set expectations that children will be empowered to learn and grow in a holistic way, as part of their families and communities and through responsive and reciprocal relationships.

Licensed early childhood service providers are required to plan, implement, and evaluate a curriculum that enhances children's learning and development. Their curriculum must provide experiences that encourage children to be confident in their own culture and develop an understanding of and respect for other cultures. Their curriculum must acknowledge and reflect the unique place of Māori in New Zealand society. This socio-cultural context reflects the principles of cultural diversity and tolerance and also upholds equality and non-discrimination practices.

Schools

Schools in New Zealand are self-managing which means that each school makes decisions on learning programmes that best fit the needs of their students within the framework of the National Curriculum. The

⁴ See the schema described in paragraph 11 of Section II of these guidelines.

National Curriculum sets the direction for student learning and comprises two documents: The New Zealand Curriculum (NZC) for English-medium schools and Te Mātauranga o Aotearoa (TMoA) for Māori Medium schools.

The National Curriculum establishes what is important to include in school learning and teaching programmes including curriculum that is engaging, challenging, future focused and inclusive and affirms New Zealand's unique identity.

The NZC sets-out values that are to be encouraged, modelled, explored and expressed including: diversity; equity; and community and participation for the common good associated with notions of peace, and citizenship. These values are expressed through individual school curriculum that is guided by school and community values and aspirations. It is expected that these values are evident in the school's philosophy, structures, curriculum, classrooms and relationships.

TMoA has an integrated approach to education providing students with opportunities to learn about total health and well-being of spirit, mind, body and heart, as well as environmental health.

Through provision of resources, professional development for teachers, funding of specific programmes etc. the Ministry of Education supports schools to ensure these guiding principles and values are visible in their local teaching and learning programmes.

Tertiary

New Zealand tertiary education providers have autonomy over the programmes of study and training that they provide. This autonomy is provided for in legislation. Many tertiary education programmes reflect and promote the guiding principles in their curriculum and in the skills and values that they teach.

All tertiary education providers are subject to New Zealand law concerning human rights and non-discrimination. Public tertiary education institutions have legal duties to: acknowledge the principles of the Treaty of Waitangi; encourage the greatest possible participation by the communities they serve (with emphasis on groups under-represented among their students); ensure they do not discriminate unfairly; and ensure proper standards of integrity, including in concern for students' wellbeing.

The Government is required by law to publish a Tertiary Education Strategy (TES) that addresses its long-term economic, social and environmental goals and the development aspirations of Māori and other population groups. Key priorities in the current TES include improving outcomes for Māori and Pacific people, getting at-risk young people into a career, and improving adult literacy and numeracy. Funding and quality assurance systems include requirements, performance measures and incentives for providers to continually lift their performance in improving education outcomes for priority groups.

Many providers have strong equity plans to promote the achievement of particular groups such as learners from low socio-economic backgrounds, people with disabilities, and refugee and migrant learners. Numerous sector and provider-level strategies and programmes are in place to advance participation of groups in particular areas, such as women in trades and engineering. The Government expects that activity of this kind will continue to be built upon so that all learners experience an inclusive tertiary education system that supports achievement and therefore improves outcomes from study.

B1b. Please provide examples of curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents.

The New Zealand Curriculum sets out eight principles that should underpin all school decision making in New Zealand schools. These principles put students at the centre of their learning and include concepts about cultural diversity, inclusion, community engagement, and the Treaty of Waitangi, New Zealand's founding document. Through this, human rights education can be taught across the curriculum, and can be found in social studies from the early curriculum levels.

Recent curriculum resources that promote human rights education include a series of products designed to challenge racism and promote diversity (the Not Part of My World: Challenging Racism classroom kit; *The*

Same Game story book), and *Pūtātara: A Call to Action* and *Climate Change: Prepare today, live well tomorrow*, which looks to environmental sustainability and focuses on participation for change.

Peace and non-violence

In 2020 the Ministry of Education produced a new resource *Relationship and Sexuality Guidelines* - it is a revision of *Sexuality Education: A guide for principals, boards of trustees, and teachers* (2015). Printed copies of this resource were distributed to schools in Term 4.

Relationships and sexuality education cannot be left to chance in schools. When this education begins from early childhood and builds consistently, year after year, it prepares young people for navigating a range of relationships throughout their childhood, teen years, and adult life.

All young people equally deserve an education that enables them to develop healthy relationships, to become positive in their own identities, and to develop competencies for promoting and sustaining their own wellbeing and that of others.

This resource is a revision of *Sexuality Education: A guide for principals, boards of trustees, and teachers* (2015). They make explicit the key learning at each curriculum level. This key learning includes ideas for building a young person's life skills – emotional, mental, social, spiritual, and environmental. The revised title reflects the Ministry's focus on relationships as an essential part of sexuality education. This resource is intended for all state and state integrated English-medium schools in Aotearoa New Zealand with students in years 1–8 and 9–13.

It considers the cultural and social changes and the related interagency work to prevent violence. They also reflect Aotearoa New Zealand's ongoing commitments to national and international legislation, including the Treaty of Waitangi and the Human Rights Act (1993).

Learning about relationships and sexuality is part of the New Zealand Curriculum and is one aspect of health education (within health and physical education). Other learning in health education includes mental health education, drug and alcohol education, safety and violence-prevention education, and food and nutrition studies. Learning about health more broadly is essential for the ongoing wellbeing of all the communities in Aotearoa New Zealand.

The Ministry of Education supports the [Positive Behaviour for Learning Programme](#), which helps schools develop a positive culture that is more accepting of diversity.

The [Bullying Prevention Advisory Group](#) (BPAG) is a cross-sector collaboration of 17 organisations committed to the issue of bullying in New Zealand schools. BPAG is focussed on the provision of information and resources to support schools to implement effective bullying prevention approaches. The [BullyingfreeNZ](#) website has been established (2016) as the repository for BPAG's resources for schools. The Ministry of Education (the Ministry), as a member of BPAG, is primarily responsible for the development of the bullying.

Cultural diversity and tolerance

To commemorate the centenary of the First World War and New Zealand's significant contribution, the Ministry led an interagency group to design relevant resources for primary and secondary schools. The resources support students in years 1 to 13 to meet several National Curriculum achievement objectives. Students will be able to explore how the events and experiences of the First World War are relevant to today and the future. The resources focus learning around the following themes:

- Heritage and Identity
- Making Connections
- Citizen Perspectives
- New Zealand in the Pacific
- Peace and Reconciliation

***B2** Please indicate which GCED and ESD themes are taught as part of the curriculum at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)	9	9	9	99

C. Teacher education (including the training of trainers and educators) (paras 4 and 33-37 of the *1974 Recommendation*)

C1a. Please describe in which ways GCED and ESD are mainstreamed in initial training and in continuing professional development of teachers, trainers and educators. Indicate whether all teachers, trainers and educators or only some are required to receive training to teach GCED and/or ESD.

Initial teacher education

The Teaching Council of Aotearoa New Zealand (the Council) is the independent statutory body responsible for setting the standards for initial teacher education (ITE) qualifications. The Council enforces the standards for ITE qualifications, including structure, content and entry requirements, through its programme approval and monitoring process.

The Council recently reviewed the standards for ITE and released the new *ITE Programme Approval, Monitoring and Review Requirements* (the ITE Requirements) in 2019, following extensive consultation with the sector. The new ITE Requirements are intended to strengthen the quality of ITE programmes and ensure that graduate teachers meet the Standards for the Teaching Profession (in a supported environment).

Rather than setting specific programme content, the ITE Requirements provide broad, general standards for the structure, content and outcomes of ITE programmes. Providers have considerable flexibility in how they design programmes to meet the ITE Requirements.

GCED and ESD are reflected indirectly across the ITE Requirements, through the expectation for programme design and content to ensure that graduates are able to meet the *Standards for the Teaching Profession* (in a supported environment) and that graduates have sufficient depth of curriculum knowledge for the context they will be teaching in. More information about the Standards for the Teaching Profession is available here: [Our-Code-Our-Standards.pdf \(teachingcouncil.nz\)](#) and they are discussed further below.

In-service professional development

Centrally funded professional learning and development is focused on three priority areas:

- Cultural capability
- Local curriculum design
- Assessment for learning

Together, these help to ensure schools can meet the expectations and outcomes set out in the National Curriculum. Section B of this report provides a description of the National Curriculum and how it supports GCED and ESD.

Ongoing development also supports teachers to maintain their practising certificates, which is linked to attestation that teachers are meeting the Code of Professional Responsibility and the Standards for the Teaching Profession (the Code and Standards). The section below describes how the Code and Standards link to elements of GCED and ESD.

C1b. Please provide examples of teacher training policies or curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents. If possible, include examples related to initial training and to continuing professional development.

ITE Programme Approval Requirements (the ITE Requirements) – [link here](#)

As outlined in the curriculum section of this report (Section B), the concepts within the GCED and ESD frameworks are largely encompassed in New Zealand's National Curriculum. The National Curriculum is incorporated into ITE programmes through the following requirements:

- The ITE Requirements specify several core elements to be incorporated in the structure and content of ITE programmes to ensure that graduates are able to meet the Standards for the Teaching Profession. This includes ensuring graduates have sufficient depth of curriculum knowledge [requirement 2.4].
- The ITE Requirements set the expectation for ITE programmes to prepare students to meet the Standards for the Teaching Profession (in a supported environment). Several approved resources, including the National Curriculum documents, are identified as a point of reference to assist providers to meet this requirement. [requirements 1.1, 2.2]

The Code and Standards – [link here](#)

The Code of Professional Responsibility (the Code) sets out the standards for ethical behaviour that are expected of every teacher, while the Standards for the Teaching Profession (the Standards) describe the expectations of effective teaching practice.

In order to meet the Standards, teachers are expected to design learning based on curriculum and pedagogical knowledge, assessment information and an understanding of each learner's strengths, interests, needs, identities, languages and cultures. Under the Code, teachers are expected to promote and protect the principles of human rights, sustainability and social justice.

The ITE Requirements set a clear expectation for ITE programmes to prepare graduates to be able to meet the Standards (in a supported environment) and uphold the expectations of the Code and the values that underpin it.

National Education and Learning Priorities – [link here](#)

The Government has recently issued the first statement of National Education and Learning Priorities (NELP). The NELP is a statutory document which sets out the priorities for schools that will ensure the success and wellbeing of all learners. They encourage all places of learning to focus on:

- ensuring that they are safe and inclusive and free from racism, discrimination, and bullying
- strengthening the quality of teaching our learners receive to giving our learners the skills they need to succeed in education, work and life
- collaborating more with families, employers, industry and communities
- taking account of learners' needs, identities, languages and cultures in their practice, and
- incorporating the indigenous Māori language and culture into everyday activities.

The NELP is one of the five resources identified in the ITE Requirements to support providers to develop ITE programmes that prepare high-quality graduates.

NOTE: Most of our scoring below is a '9 / unknown'. While the ITE Requirements broadly incorporate GCED and ESD themes (as described above), we do not know the extent to which GCED and ESD are covered over the course of individual ITE programmes. This is because the specific content of ITE programmes are not prescribed and ITE providers have considerable flexibility in how they design programmes to meet the ITE Requirements.

*C2 Please indicate whether teachers, trainers and educators are trained to teach GCED and ESD during initial or pre-service training and/or through continuing professional development. Please enter the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Initial or pre-service training				
For teachers of selected subjects only (in which GCED or ESD are typically taught)	n/a	1	1	99
For teachers of other subjects	n/a	9	9	99
Continuing professional development				
For teachers of selected subjects only (in which GCED or ESD are typically taught)	1	1	1	99
For teachers of other subjects	9	9	9	99

*C3 Please indicate on which GCED and ESD themes pre-service or in-service training is available for teachers, trainers and educators at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
1. Cultural diversity and tolerance	1	1	1	99
2. Gender equality	1	1	1	99
3. Human rights	1	1	1	99
4. Peace and non-violence	1	1	9	99
5. Climate change	0	9	9	99
6. Environmental sustainability	9	1	9	99
7. Human survival and well-being	1	1	1	99
8. Sustainable consumption and production	0	0	0	99

*C4 Please indicate whether teachers, trainers and educators are trained to teach the following dimensions of learning in GCED and ESD. Please enter the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Knowledge	1	1	9	99
Skills	1	1	9	99
Values	1	1	9	99
Attitudes and behaviours	1	1	9	99

*C5 Please indicate whether teachers, trainers and educators are trained to use the following approaches to teach GCED and ESD in primary and secondary education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Global citizenship and education for sustainable development
GCED/ESD are taught as separate subject(s)	0
Cross curriculum approach (e.g. <i>GCED/ESD are taught in more than one subject but not throughout the curriculum</i>)	1
Integrated approach (e.g. <i>GCED/ESD are taught throughout the whole curriculum</i>)	9
Whole school approach (e.g. <i>GCED/ESD are integrated in the school ethos, management, governance, curriculum, teacher training, teaching practices, the learning environment, and in learning experiences in the community and life outside school</i>)	9

D. Student assessment (paras 4 and 5 of the *1974 Recommendation*)

D1a. Please describe in which ways GCED and ESD are covered in student assessments and examinations. Indicate whether students are assessed only on their knowledge of and skills related to the topics being tested or also on their values, attitudes and/or behaviours.

The New Zealand Curriculum sets out eight principles that should underpin all school decision making in New Zealand schools- including assessment. Schools are autonomous and make choices based on the needs of their learners and communities. New Zealand currently has no standardised assessments but rather uses assessment for learning.

Assessment for learning is driven by the concept of “ako”, meaning “to teach and to learn”. Assessment for learning should enable reciprocal learning where teachers and students share and value each other’s sense-making processes and put students at the centre of their learning and assessment- including concepts about cultural diversity, inclusion, community engagement, and the Treaty of Waitangi.

Knowledge of the learner is vital to ensure assessment is appropriate and fit for purpose. The National Curriculum and the National Certificates of Educational Achievement (NCEA) offers schools the opportunity to contextualise assessments to their students. Subjects within the Social Science Learning Area, such as Education for Sustainability, Senior Social Studies, Media Studies, and Geography, may be delivered using content related to GCED and ESD in assessment. The flexibility provided by the curriculum and NCEA, allows schools to determine how assessments assess knowledge and skills related to GCED and ESD.

New Zealand has no standardised assessments in primary schooling.

*D2 Please indicate whether the GCED and ESD themes below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
1. Cultural diversity and tolerance	9	9	9	99
2. Gender equality	9	9	9	99
3. Human rights	9	9	9	99
4. Peace and non-violence	9	9	9	99
5. Climate change	9	9	9	99
6. Environmental sustainability	9	9	9	99
7. Human survival and well-being	9	9	9	99
8. Sustainable consumption and production	9	9	9	99

*D3 Please indicate which of the dimensions of learning in GCED and ESD below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Knowledge	9	9	9	99
Skills	9	9	9	99
Values	9	9	9	99
Attitudes and behaviours	9	9	9	99

E. Mainstreaming of GCED and ESD in laws and policies, curricula, teacher education and student assessment (paras 4-5, 7, 10-19 and 33-37 of the 1974 Recommendation)

*E1 Based on your responses to questions in the previous four sections (laws and policies, curricula, teacher education and student assessment) please indicate to what extent global citizenship education (GCED) and education for sustainable development (ESD) are mainstreamed⁵ in (a) education laws and policies, (b) curricula (c) teacher education (including the training of trainers and educators) and (d) student assessment in your country. Please enter the appropriate number in each white cell in the table below.

KEY:

0 Not at all

GCED and ESD are not mainstreamed.

1 Partially

Some GCED and/or ESD themes⁶ are mainstreamed. Select this option if GCED is mainstreamed but ESD is not (or vice versa).

2 Extensively

Most GCED and ESD themes are mainstreamed.

9 Not known

It is not known whether GCED and ESD are mainstreamed or not.

99 Not applicable

The given level of government does not have responsibility for the given component (policies, curricula, teacher education or student assessment) and/or does not have responsibility for the given level or type of education. This may occur at the national level in federal countries where education is the responsibility of individual states or at the sub-national level in small countries where there is only one level of government.

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
National				
(a) Education laws and policies	1	1	99	99
(b) Curricula	1	1	99	99
(c) Teacher education	1	1	99	99
(d) Student assessment	9	9	99	99
Sub-national				
(a) Education laws and policies	99	99	99	99
(b) Curricula	99	99	99	99
(c) Teacher education	99	99	99	99
(d) Student assessment	99	99	99	99

⁵ GCED and ESD are mainstreamed if their themes are mentioned explicitly in relevant documents and are expected to be implemented by the relevant authorities (e.g. Ministries, regional or local education authorities), educational institutions (e.g. schools, colleges and universities) and/or education professionals (e.g. teachers, lecturers, trainers and educators) as appropriate.

⁶ Refer to the schema in paragraph 11 of Section II of these guidelines.

F. Technical and vocational education and training (paras 25-29 of the 1974 Recommendation)

F1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in technical and vocational education and training. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

New Zealand is implementing the Reform of Vocational Education (RoVE) to create a strong, unified, sustainable system for all New Zealand vocational education that delivers the skills that learners, employers and communities need to thrive.

RoVE is the biggest transformation New Zealand's vocational education and training system has seen in 30 years. In relation to the Education for Sustainable Development and Global Citizenship Education goals, the new unified system will enhance culturally inclusive and equitable vocational training and education (goals 4 and 1 respectively). It aims to deliver to the unique needs of all learners, including those who have been traditionally under-served, such as Māori, Pacific peoples, and disabled learners:

- For Māori, the new system will prioritise Māori success and work with Māori to shift to increased culturally responsive teaching and learning, where learners know they are valued. The new Te Pūkenga – New Zealand Institute of Skills and Technology (see <https://xn--tepkenga-szb.ac.nz/our-pathway/>) will be expected to reflect Māori Crown partnerships in its decision making and actions to deliver for Māori, and a commitment to Māori Crown partnerships is included as part of the legislative provisions for Te Pūkenga. RoVE is also a chance to make sure there is a much stronger voice for Māori businesses and iwi development through the creation of Workforce Development Councils (see <https://www.tec.govt.nz/rove/workforce-development-councils/>).
- For Pacific, Te Pūkenga will promote equitable access to learning opportunities and provide culturally responsive delivery approaches through on the job training or through providers. Te Pūkenga also aims to foster stronger relationship building with Pacific employers and communities to design a system that allows a sense of belonging and integrates Pacific identities, languages, and cultural values.
- For disabled learners and those with additional learning needs, the changes will make vocational education more accessible through stronger connections between providers and schools, and between providers and employers. These connections will help disabled learners and learners with additional learning support needs transition into vocational education and employment. Te Pūkenga's charter also creates expectations, responsibilities and opportunities to support disabled learners and people with additional learning support needs.

More information on RoVE can be found here:

<https://conversation.education.govt.nz/conversations/reform-of-vocational-education/>

G. Adult education (para 30 of the 1974 *Recommendation*)

G1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in adult education and other forms of non-formal education including youth education, out-of-school education, etc. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

The Government funds specific non-formal adult education programmes to provide adults with community-based education, foundation skills, and pathways into other learning opportunities that meet community learning needs.

The Government has increased funding for adult and community education (ACE) by \$3.56m a year from 2021 to strengthen health and wellbeing within communities, promote social inclusion and participation, and address barriers to the labour market in light of COVID-19. Total funding for ACE in 2021 will be around \$27m.

Of particular relevance to GCED goals is the availability of government funding for ACE programmes that promote:

- social inclusion and participation through courses in languages including Te Reo Māori, New Zealand Sign Language, English language (including ESOL), Pacific languages (especially Realm languages) and Asian languages, and courses supporting digital inclusion
- health and wellbeing, covering courses in topics such as parenting, mental health and resilience, and conflict resolution/anger management.

The government also funds ACE courses that improve employability, literacy, numeracy and/or digital literacy.

ESD is not a specific priority for Government-funded ACE programmes. However, courses are required to be tailored to meet the learning needs of local communities, and a wide range of content is delivered through ACE courses. Therefore, it is likely that content relevant to ESD is delivered through ACE courses.

H. Research and International Co-operation (paras 41-45 of the 1974 *Recommendation*)

H1 Please describe what kinds of research or experimentation have been carried out to improve the implementation of GCED and/or ESD. Describe briefly how the results of such activities have influenced education policies, curricula and/or teaching practices.

- New Zealand implemented global competence questionnaire items as part of PISA 2018. See [PISA 2018: Global competence of New Zealand 15-year-olds | Education Counts](#).
- TALIS 2018 had a section on diversity and the prevalence of policies and practices aimed at reducing discrimination in schools. Findings are in Volume I, Chapter 3 of the TALIS 2018 international report: <http://www.oecd.org/education/talis-2018-results-volume-i-1d0bc92a-en.htm>
- The New Zealand National Commission for UNESCO's work in Global Citizenship Education (GCED) provides opportunities for individuals and groups to build capability and share expertise, strengthening networks and making Aotearoa New Zealand initiatives visible and empowering to all. UNESCO's work in this area is guided by the Education 2030 Agenda and Framework for Action, notably Sustainable Development Goals (SDG) 4 on Quality Education. Target 4.7 calls on countries to ensure that all learners are provided with the knowledge, skills, values, attitudes, and behaviours to promote sustainable development through GCED. The National Commission acts as

catalyst for GCED collaborations and works to support the implementation of the SDGs in New Zealand.

- The National Commission's GCED Strategic Plan 2018-2021 outlines that they will deliver at least one GCED related event per year in New Zealand. Past examples included the [GCED Award in 2018](#), which recognised a wide range of organisations, including schools, doing outstanding work across the country to encourage responsible and active global citizenship. In 2019 the National Commission commissioned five well-respected academics and thinkers: Māori, Pacific, academic, teacher, and youth to write [a paper discussing GCED](#) from their own unique position, ideas and experiences. A GCED panel discussion featuring their perspectives was then held. In 2020 the National Commission held a [GCED ideas exchange](#), which traversed subjects such as: the arts in dealing with trauma, spirituality, prison education, mental health and innovation – highlighting that GCED takes many forms and locations while reaching people of all ages. While the National Commission's GCED Strategy will be reviewed in 2021, it is likely that they will continue to develop similar initiatives in 2021 and years to come.
- The UNESCO Aotearoa Youth Leaders, a group of 10 young leaders, work as advisors to the National Commission, ambassadors to UNESCO's values and connectors to their own communities. They are actively engaged in GCED initiatives and examples include holding booths about the SDGs and te ao Māori at [Festival for the Future](#) and [Create1World](#), participating in a [Gamefroot hack-a-thon](#) to develop games centred around the SDGs, providing advice at the [Environmental Protection Agency's rangatahi Māori hui](#) on the importance of involving youth when addressing environmental issues, and many others. [The Youth Diversity Forum](#) was a key National Commission initiative developed in collaboration with the Ngāi Tahu and the Human Rights Commission; held in October 2019 to support a cross-ethnic discussion, addressing racism, education and spirituality in response to the mosque attacks of 15 March. A youth leader has been attending a series of [UNESCO online workshops](#) on the transformative power of Education for Sustainable Development (ESD) for the work beyond COVID-19.
- The National Commission also supports many GCED initiatives in New Zealand through its UNESCO Contestable Activity Fund. For example, we funded a project that explored ESD approaches in relation to benefits for Māori and Pacific Island early childhood children and whānau, incorporating notions of civic learning, democracy, equity, and social justice. A more recent example the National Commission supported is the development of [Te Rito Toi](#), an online resource for teachers to use the arts to support wellbeing as students returned to classrooms during COVID19. [The Ha Ora](#) section of the site in te reo Māori provided the first significant resources to assist teaching in Māori-medium schools in over fifteen years.
- New Zealanders are involved in many international UNESCO projects associated with ESD, including [Untouched World Foundation](#), which has been actively involved with UNESCO's Global Action Programme on ESD (GAP). Recently Associate Professors Jenny Ritchie and Sandy Morrison have led a New Zealand contribution to a global research project 'Reorienting Education and Training Systems to Improve the Lives of Indigenous and Marginalized Youth' led by UNESCO Chair Professor Charles Hopkins of York University, Toronto. The National Commission often participates in international GCED/ ESD engagements. In March 2017 the National Commission funded three representatives, including a high school student, to present at the Third UNESCO Forum on Global Citizenship Education in Ottawa, Canada. In November 2017, a UNESCO Aotearoa Youth leader participated in the Asia-Pacific Regional Workshop for Youth Leadership Training on Education for ESD. The workshop is part of a series of youth training taking place globally under the Global Action Programme on Education. In July 2019 it supported a delegation of a UNESCO Aotearoa Youth Leader, a teacher and an academic GCED expert to attend the UNESCO Forum on ESD/ GCED in Hanoi. The National Commission submitted a proposal to hold a booth and a workshop at the UNESCO ESD Conference in Berlin in May 2020, which was postponed due to COVID. We have instead attended the UNESCO ESD online webinars leading up to the Conference.
- The National Commission also supports GCED knowledge sharing with and learning from the Pacific. In 2018 we participated in a five-day workshop organised by the UNESCO Office for the Pacific States. The Secretariat and a GCED expert and teacher from Patea Area School (GCED

Award winner) presented on GCED in the New Zealand curriculum and various GCED initiatives, including those of Patea Area School and the National Commission.

H2 Please indicate which types of activities are available that promote international co-operation at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Hosting of international meetings on GCED and/or ESD	0 (The New Zealand National Commission for UNESCO's focus is domestic, so hosts national meetings on GCED but not international)	0 (The New Zealand National Commission for UNESCO's focus is domestic, so hosts national meetings on GCED but not international)	0 (The New Zealand National Commission for UNESCO's focus is domestic, so hosts national meetings on GCED but not international)	9
Participation in international meetings abroad on GCED and/or ESD	1	1	1	9
Support for programmes hosting foreign students, researchers and/or teachers	1	1	1	9
Membership of international networks including ASPnet	1	1	1	9
Joint research projects on GCED and/or ESD with foreign institutions	1	1	1	9
Other activities (please specify):				

I. Any other comments

- 11 Please indicate whether your country has faced any constraints, in particular related to global or national crises, including natural disasters, in implementing the 1974 Recommendation during the reporting period.

COVID-19

New Zealand is fortunate to have no current detected community transmission of COVID-19. New Zealand has a regular but very small number of new cases that are detected as part of border restrictions and government-managed isolation and quarantine.

In March of 2020 New Zealand closed all education institutions (early learning services, schools and tertiary providers) as part of a national lockdown and then reopened them over April and May. In August and September New Zealand closed and then reopened educational institutions in one region (Auckland) in response to a community outbreak.

We manage education responses to the level of COVID-19 risk by means of a four level Alert System. Details of the system and guidance for different types of education institutions can be found on [COVID-19 – Education in New Zealand](#). This site has links to more detailed information for education as well as to the National Alert system. It is important to note that education advice takes its lead from decisions and guidance from our Ministry of Health.

However, it is worth noting that this did not constrain the 1974 Recommendation as classes resumed online.

The New Zealand education system is highly devolved with limited pre-existing options for distance learning. During lockdown, schools had to rapidly switch from face-to-face to distance models of delivery, and different schools have taken different approaches. There was a stronger focus on keeping students engaged and being mindful of their wellbeing in the process of adapting to the new environment, taking in consideration family circumstances and emotional impacts of such unprecedented times.

- 12 Please provide any other relevant information or clarifications regarding the implementation of the 1974 Recommendation or the mainstreaming of GCED and ESD in your country's education system.

The Education and Training Act 2020 establishes and regulations the education system in New Zealand with the purpose of (among other things) providing New Zealanders and those studying in New Zealand with the skills, knowledge and capabilities that they need to fully participate in the labour market, society and their communities.

The Act enables the Minister of Education to publish foundation curriculum policy statements and national curriculum statements. The content of these curriculum statements is not prescribed in the law.

New Zealand tertiary education providers have autonomy over the programmes of study and training that they provide. This autonomy is provided for in legislation.

New Zealand does not have sub-national government or legislation.
