

**Canada's Response to the
7th Consultation on the Implementation of the UNESCO Recommendation
concerning Education for International Understanding, Co-operation and Peace
and Education relating to Human Rights and Fundamental Freedoms
(1974 Recommendation)**

December 2020

**Prepared by the Council of Ministers of Education, Canada
in collaboration with
The Canadian Commission for UNESCO**

GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE 1974 RECOMMENDATION CONCERNING EDUCATION FOR INTERNATIONAL UNDERSTANDING, CO-OPERATION AND PEACE AND EDUCATION RELATING TO HUMAN RIGHTS AND FUNDAMENTAL FREEDOMS

I. Introduction

A. About the 1974 Recommendation

1. UNESCO's 1974 *Recommendation concerning Education for International Understanding, Co-operation and Peace and Education relating to Human Rights and Fundamental Freedoms*¹ (the "1974 Recommendation") aims to promote international education and world peace through understanding, solidarity and cooperation. It was adopted on 19 November 1974 by the General Conference of UNESCO at its 18th session.

2. The 1974 *Recommendation* applies to formal, non-formal and informal education and to all levels, from pre-primary to tertiary and adult education and lifelong learning. The General Conference recommended "that Member States should apply" the provisions included in the 1974 *Recommendation* "by taking whatever legislative or other steps" that provide institutional (e.g. policies and legal frameworks) and pedagogical (e.g. curricula, teacher training, educational materials, equipment, and student assessment) support for its implementation, based on the "objectives", referred to in paragraph 4 of the 1974 *Recommendation*, "regarded as major guiding principles of education policy" including: an international dimension and a global perspective on education, cultural diversity, interdependence, communication, rights and responsibilities, international solidarity and cooperation, and problem solving.

3. Today, the principles of the 1974 *Recommendation* apply equally well to Education for Sustainable Development (ESD) and to Global Citizenship Education (GCED) and therefore represent a powerful tool for promoting the 2030 Agenda for Sustainable Development and in particular SDG Target 4.7 on the promotion of sustainable development and global citizenship through education, Target 12.8 on access to information on sustainable development and Target 13.3 on climate change education.

4. The General Conference in its 39th session recommended the use of the 1974 *Recommendation* reporting process to support the implementation and monitoring of Target 4.7 of Sustainable Development Goal 4 (39 C/Resolution 79). The UNESCO Executive Board at its 209th session approved the use of the current guidelines for both the monitoring of the 1974 *Recommendation* and the collection of data needed for the following global SDG indicator for which UNESCO is custodian (209 EX/Decision 18.II):

4.7.1, 12.8.1 and 13.3.1: *The extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education and (d) student assessment.*

5. Questions marked with an asterisk (*) will be used in the calculation of the respective indicators (Table 1). As approved by the Inter-Agency and Expert Group on the SDG Indicators, the indicators will be calculated for primary and secondary education only.

Table 1 Questions used in the calculation of the global SDG indicator for Targets 4.7, 12.8 and 13.3

Policies	Curricula	Teacher education	Student assessment
A2, A4, A5, E1a	B2, B3, B4, E1b	C2, C3, C4, C5, E1c	D2, D3, E1d

B. Reporting obligations

6. The General Conference, at its 18th session, when adopting the *1974 Recommendation* recommended “that Member States submit [...] reports concerning the action taken by them in pursuance of this recommendation”. Moreover, in accordance with Article VIII of UNESCO’s Constitution “Each Member State shall submit to the Organization [...] reports [...] on the action taken upon the recommendations and conventions referred to in Article IV, paragraph 4.”

7. Thus, **all UNESCO Member States are expected to report on the steps they have taken to implement the 1974 Recommendation** preferably by completing the following questionnaire. Such reporting takes place every four years.

II. Guidelines for completion of the questionnaire

8. This questionnaire and its accompanying guidelines are addressed to Ministers responsible for relations with UNESCO. The questionnaire is typically completed by Ministries of Education and other government authorities responsible for education. Responses should cover, as far as possible, education at all levels of government, including sub-national levels where applicable as well as education outside the government sector.

9. National respondents are encouraged to **consult widely** both within, across and beyond government, including with Ministries of Environment, with national human rights institutions, the education sector, civil society partners and others, as necessary, to gather the information needed to complete the questionnaire.

10. Responses to the seventh consultation should cover:

- (i) the time period 2017-2020;
- (ii) education at all levels of formal education from pre-primary to tertiary education as well as non-formal education;
- (iii) all levels of government that have responsibility for education within the country; and
- (iv) where possible, education outside the government sector.

11. To assist countries in responding to this questionnaire, UNESCO has developed the following set of global citizenship education and education for sustainable development themes. The list is based on a review of current common practices in many countries as well as a review of relevant literature. While the terms ESD and GCED may be used differently in some countries, the list of themes typically captures what are seen as key elements of Target 4.7. Please refer to the definitions of key terms in **Section III** before completing the questionnaire.

Global citizenship education and education for sustainable development

- 1. cultural diversity and tolerance
 - 1.1 international or intercultural understanding, solidarity and cooperation
 - 1.2 intercultural and interreligious dialogue
 - 1.3 local, national and/or global citizenship
- 2. gender equality education
 - 2.1 gender-based equal opportunities
 - 2.2 gender equality and justice
 - 2.3 gender roles, identity and stereotypes

3. human rights education
 - 3.1 equality and non-discrimination based on race, colour, language, religion, disability, political or other opinion, national or social origin, birth or other status
 - 3.2 human rights values, human dignity, justice, inclusion and participation
 - 3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)
4. peace and non-violence
 - 4.1 friendly relations among peoples and nations
 - 4.2 challenging negative stereotypes, promoting peaceful solutions, learning to live together, including others and preventing violent extremism
 - 4.3 preventing all forms of violence including bullying, verbal abuse and gender-based violence
5. climate change education
 - 5.1 mitigation
 - 5.2 adaptation
 - 5.3 impact reduction
 - 5.4 early warning
6. environmental sustainability
 - 6.1 caring for the planet, protecting nature
 - 6.2 environmental justice
 - 6.3 biodiversity, water
7. human survival and well-being
 - 7.1 environmental health as it pertains to human well-being, disaster risk reduction
 - 7.2 health of the planet for future generations
 - 7.3 sustainable cities and communities
8. sustainable consumption and production
 - 8.1 responsible and sustainable lifestyles
 - 8.2 green economy, green jobs
 - 8.3 sustainable energy

III. Definitions of key terms

Term	Definition
Themes of global citizenship and education for sustainable development	
1. Cultural diversity and tolerance	<i>Education about and for diversity including language, ethnicity, race, religion as well as the development of tolerance, mutual respect and appreciation for cultural diversity. It includes intercultural and interreligious dialogue, understanding, solidarity and co-operation, and citizenship education.</i>
2. Gender equality education	<i>Education that addresses the wider issue of gender equality by promoting new attitudes and patterns of belief, transforming the way people think about traditional gender roles and helping to build long-term sustainable change. It examines how gender roles, activities, needs, opportunities, rights and entitlements affect men, women, girls and boys differently. It deals with the relationships between females and males, their access to and control of resources and the constraints they face relative to each other. It respects the rights of all learners – women, men, boys and girls – equally and gives equal access to learning opportunities, resources and protections. All learners benefit from and are treated in education equally without the limitations set by stereotypes, rigid gender roles and prejudices. It covers gender-based equal opportunities, gender equality and justice, and gender roles, identity and stereotypes.</i>
3. Human rights education	<i>Education that promotes universal respect for and observance of all human rights and fundamental freedoms and thus contributes, inter alia, to the prevention of human rights violations and abuses by providing persons with knowledge, skills and understanding and developing their attitudes and behaviours, to empower them to contribute to the building and promotion of a universal culture of human rights.</i> <i>It includes equality and non-discrimination, human rights values, dignity, justice, inclusion and participation and respect for human rights and fundamental freedoms.</i>
4. Peace and non-violence	<i>Education about peace and peace-building, mediation, conflict prevention and resolution, non-violence, reconciliation and living together peacefully. It includes advocating for friendly relations among peoples and nations, challenging negative stereotypes, promoting peaceful solutions, learning to live together and preventing violent extremism and other forms of violence including bullying.</i>
5. Climate change education	<i>Education to help people, in particular youth, understand, address, mitigate, and adapt to the impacts of climate change. It encourages changes in attitudes and behaviours needed to put the world on a more sustainable development path, and build a new generation of climate change-aware citizens.</i> <i>It covers various responses to climate change including mitigation, adaptation, impact reduction and early warning.</i>
6. Environmental sustainability	<i>Education about responsible interactions with the environment to avoid depletion or degradation and to promote environmental quality and health. It includes, caring for the planet and protecting nature, environmental justice, biodiversity and water.</i>
7. Human survival and well-being	<i>Education that promotes social well-being and harmony including in future generations due to healthy environmental systems. It includes health of the planet and environment related to human well-being, disaster risk reduction and sustainable cities and communities.</i>

8. Sustainable consumption and production	<i>Education on the use and production of resources, products and services that have a minimal adverse impact on the environment. It promotes resource and energy efficiency, sustainable infrastructure and green jobs. It includes responsible and sustainable lifestyles, the green economy and sustainable energy.</i>
Dimensions of learning	
Knowledge	<i>Factual information and understanding acquired through study and/or experience.</i>
Skills	<i>The ability to carry out a task well as a result of training, practice and innate aptitude. Skills may be physical, mental or both.</i>
Values	<i>Principles that form the foundation on which individuals conduct themselves and interact with others and with the environment around them.</i>
Attitudes and behaviours	<i>Ability to act on the basis of beliefs and knowledge acquired through study or experience.</i>
Levels of education	
Pre-primary	<i>Education designed to support children's early cognitive, physical, social and emotional development and introduce young children to organized instruction outside of the family context. Participants are usually aged from three years.</i>
Primary and secondary	<i>Education designed to:</i> <i>(i) provide students with fundamental skills in reading, writing and mathematics (i.e. literacy and numeracy) and establish a solid foundation for learning and understanding core areas of knowledge and personal development (primary education); and</i> <i>(ii) prepare students for further education at post-secondary and tertiary levels and for entry into the labour market (secondary education).</i> <i>It includes both general and vocational education.</i>
Tertiary	<i>Education designed to provide learning activities in specialised fields of education. It aims at learning at a high level of complexity and specialisation. It includes both what is commonly understood as academic education and advanced vocational or professional education.</i>
Types of education	
Adult education	<i>Education specifically targeted at individuals who are regarded as adults by their society to improve their technical or professional qualifications, further develop their abilities, enrich their knowledge with the purpose to complete a level of formal education, or to acquire, refresh or update their knowledge, skills and competencies in a particular field.</i>
Formal education	<i>Education that is institutionalized, intentional and planned through public organizations and recognized private bodies which – in their totality – constitute the formal education system of a country. Formal education programmes are recognized by the relevant national or sub-national education authorities. Formal education consists mostly of initial education (e.g., pre-primary, primary, secondary and tertiary education).</i>
Non-formal education	<i>Education that is an addition, alternative and/or a complement to formal education within the process of the lifelong learning of individuals. It is often provided to guarantee the right of access to education for all. It caters to people of all ages but does not necessarily apply a continuous pathway-structure. It may be short in duration and/or low-intensity, and it is typically provided in the form of short courses, workshops or seminars. Non-formal education mostly leads to qualifications that are not recognized by the relevant national or sub-national education authorities or to no qualifications at all. Non-formal education</i>

	<i>includes programmes on life skills including literacy and numeracy, work skills, and social or cultural development. Most types of adult education are also included.</i>
Vocational education	<i>Education that is designed for learners to acquire the knowledge, skills and competencies specific to a particular occupation or trade or class of occupations or trades. Vocational education may have work-based components (e.g. apprenticeships). Successful completion of such programmes leads to labour-market relevant vocational qualifications acknowledged as occupationally-oriented by the relevant national authorities and/or the labour market. Vocational education can be offered at secondary and post-secondary or tertiary levels of education.</i>

IV. Information about the respondent

Country:

Canada

Organization:

Council of Ministers of Education, Canada

Date of submission:

February 12, 2021

***Note on the Canada response:** Education in Canada is under the exclusive jurisdiction of each of the 13 provinces and territories. Given the differences in curriculum, education policies, and frameworks across the provinces and territories, the responses to the following questions may not directly reflect the specific context of each individual jurisdiction. In particular, responses to questions requiring a numerical response in the charts below (e.g., A.2, A.4, A.5) may indicate “unknown/not applicable” in cases where policy differs across provinces and territories, such as when a given theme is embedded in one province/territory’s curriculum but not in another.

V. Other contributors consulted during the completion of this questionnaire

Please indicate below the names of other organizations and contributors consulted during the completion of this questionnaire.

Government institutions including other Ministries (please specify):

National human rights institutions (please specify):

Local and regional authorities responsible for education (please specify):

Other local and regional authorities (please specify):

Organizations representing education stakeholders (e.g. teachers, students, parents, etc.) (please specify):

Other civil society organizations (please specify):

Others (please specify):

VI. Questionnaire

A. Laws and policies (preamble and paras 4 and 7 of the 1974 Recommendation)

A1a. Please describe any specific national or sub-national laws, legislation or legal framework(s) in your country that govern the promotion of global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes² are mentioned explicitly or are inferred and what types or levels of education are covered.

Examples from provinces and territories:

- New Brunswick: Although no GCED and/or ESD themes are specifically mentioned in the legislation, they are set per the minister through the curriculum.
- Saskatchewan: The Ministry of Education provides provincial curricula, policy frameworks, guidelines and funding to support schools. Boards of education in Saskatchewan are provided the authority under sections 85, 87, 176 and 184 of The Education Act, 1995 to administer, develop and manage the educational activities and policies for their school division. As a result, each of the 27 boards of education in Saskatchewan will have different policies and procedures in place concerning global citizenship education and education for sustainable development.
- Alberta: The Ministerial Order on Student Learning No. 028/2020 addresses cultural diversity and tolerance, human rights, peace, non-violence, human survival, and well-being explicitly, and which are inferred throughout. The ministerial order covers primary and secondary levels in formal education. For example, the order addresses intellectual curiosity and humility, inherited traditions, engaging with new ideas and diverse viewpoints, questioning assumptions with reason, evaluating sources of information with discernment, and applying learning in a variety of life and work situations.
- Quebec: The Quebec Education Program handles curricula for preschool, elementary, and secondary education. The program is based on skills development (in other words, students' acquisition and mobilization of resources and knowledge). It includes progression of learning for each discipline (essential knowledge and skills) as well as a learning assessment framework. Under the responsibility of the school service centres and in keeping with the subsidiarity concept under the Education Act, GCED and ESD are part of the day-to-day experience through cross-curricular competencies, broad areas of learning (including "Environmental Awareness and Consumer Rights and Responsibilities" and "Citizenship and Community Life"), knowledge and skills, and disciplinary content, in accordance with teachers' professional autonomy.

A1b. Please provide the full names of any laws, legislation or legal frameworks referred to in A1a and, where possible, web links to relevant documents.

- New Brunswick Early Childhood Development: The Education Act and its associated Regulations: <http://laws.gnb.ca/fr/BrowseTitle?letter=E>
- Saskatchewan: The Education Act, 1995: <https://publications.saskatchewan.ca/#/products/487>
Canadian Charter of Rights and Freedoms: <https://laws-lois.justice.gc.ca/eng/const/page-15.html>; The Saskatchewan Human Rights Code, 2018: <https://saskatchewanhumanrights.ca/wp-content/uploads/2020/03/Code2018.pdf>
- Alberta: Ministerial Order on Student Learning: <https://open.alberta.ca/dataset/270e1a34-3338-461d-b761-c761f943fa2d/resource/5a510797-645e-419f-acbd-6a9dfdb41cd0/download/edc-mo-28-2020-student-learning.pdf>

Quebec Education Program: <http://www.education.gouv.qc.ca/en/teachers/quebec-education-program/>

² See the schema described in paragraph 11 of Section II of these guidelines.

*A2 Please indicate which GCED and ESD themes are covered in national or sub-national laws, legislation or legal frameworks on education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown, 99 = not applicable (e.g. where the given level of government is not responsible for education)

	National				Sub-national			
	Pre-primary	Primary/secondary	Tertiary	Non-formal	Pre-primary	Primary/secondary	Tertiary	Non-formal
1. Cultural diversity and tolerance	99	99	99	99	9	1	1	1
2. Gender equality	99	99	99	99	9	1	1	1
3. Human rights	99	99	99	99	9	1	1	9
4. Peace and non-violence	99	99	99	99	9	1	1	9
5. Climate change	99	99	99	99	9	1	1	1
6. Environmental sustainability	99	99	99	99	9	1	1	1
7. Human survival and well-being	99	99	99	99	9	1	1	1
8. Sustainable consumption and production	99	99	99	99	9	1	1	1

A3a. Please describe any specific current national or sub-national education policies, frameworks or strategic objectives in your country that promote global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes³ are mentioned explicitly or are inferred and what types or levels of education are covered.

Examples from provinces and territories:

- New Brunswick: The 10-year Education Plan has valuing diversity as one of its main themes. The NB Curriculum Framework for Early Learning and Child Care – English is a value-based framework designed for early learning and childcare. Diversity and Social Responsibility is represented in one of the framework's four goals focused on inclusiveness and equity, democratic practices and sustainable futures.
- Ontario: The Citizenship Education Framework is designed to increase and integrate citizenship education across the curricula. Students are given opportunities to learn about what it means to be a responsible, active citizen in the community of the classroom and diverse communities (local, national, and global) to which they belong within and outside the school.
- Saskatchewan: In October 2019, the Deepening the Discussion: Gender and Sexual Diversity Toolkit was released to encourage school, family and community collaboration in support of student health and well-being. It built upon work released in 2015, Deepening the Discussion: Gender and Sexual Diversity and the Student Alliances for Gender and Sexual Diversity in Saskatchewan Schools policy statement. School boards are provided the authority under The Education Act, 1995, to develop their own policies.
- Alberta: Alberta Education Ministry Business Plan - Education infers the themes of cultural diversity and tolerance and human rights education, covering primary and secondary levels in formal education. For example, Outcome 2: First Nations, Métis and Inuit students in Alberta are successful in which the ministry works collaboratively with First Nations, Métis and Inuit

³ See the schema described in paragraph 11 of Section II of these guidelines.

governments, organizations, communities and partners to be an international leader in Indigenous education.

A3b. Please provide the full names of any education policies, frameworks or strategic objectives referred to in A3a and, where possible, web links to relevant documents.

- New Brunswick: 10-year Education Plan: Everyone at their best (Anglophone Sector)
<https://www2.gnb.ca/content/dam/gnb/Departments/ed/pdf/K12/EveryoneAtTheirBest.pdf>
- Ontario: The Citizenship Education Framework is found in the following curricula: Social Studies Grades 1-8; History and Geography, Grades 7 and 8 (2018); and Canadian and World Studies, Grades 9 and 10 (2018) and Grades 11 and 12 (2015).
- Saskatchewan: Student Alliances for Gender and Sexual Diversity in Saskatchewan Schools

<https://open.alberta.ca/dataset/cea65c12-a239-4bd9-8275-3ab54d84f5b3/resource/5793ca56-f46d-4d37-98d5-9dc19c95b2d3/download/education-business-plan-2020-23-english.pdf>

*A4. Please indicate which GCED and ESD themes are covered in national or sub-national education policies, frameworks or strategic objectives affecting each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
1. Cultural diversity and tolerance	1	1	1	9
2. Gender equality	1	1	1	9
3. Human rights	9	1	1	9
4. Peace and non-violence	9	1	9	9
5. Climate change	1	1	9	9
6. Environmental sustainability	1	1	9	9
7. Human survival and well-being	9	1	9	9
8. Sustainable consumption and production	1	1	9	9

*A5 Please indicate whether national or sub-national education policies, frameworks or strategic objectives on education provide a mandate to integrate GCED and ESD in the following areas by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown, 99 = not applicable (e.g. where the given level of government is not responsible for education)

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
National				
Design or revision of the curricula	99	99	99	99
Setting of programme learning objectives	99	99	99	99
Textbook development	99	99	99	99
Teacher education and training	99	99	99	99
Assessment of student outcomes	99	99	99	99
Sub-national				
Design or revision of the curricula	9	1	9	9
Setting of programme learning objectives	9	1	9	9
Textbook development	9	1	9	9
Teacher education and training	9	1	9	9
Assessment of student outcomes	9	1	9	9

B. Curriculum (paras 4 and 10-19 of the 1974 Recommendation)

B1a. Please describe in which ways GCED and ESD are mainstreamed in school curricula. Indicate whether topics are taught as standalone subjects or are integrated into the curricula of other subjects. Explain whether GCED and/or ESD themes⁴ are mentioned explicitly or are inferred and what types or levels of education are covered.

Examples from provinces and territories:

- British Columbia: The curriculum is built around developing 3 Core Competencies, including Social Awareness and Responsibility, which involves the awareness, understanding, and appreciation of connections among people, including between people and the natural environment. Social Awareness and Responsibility focuses on interacting with others and the natural world in respectful and caring ways.
- New Brunswick: The Department of Education and Early Childhood Development's (anglophone sector) – the curriculum Framework for Early Learning and Child Care – English articulates common goals, values and learning principles. The four broad goals – Well Being, Play and Playfulness, Communication and Literacies, and Diversity and Social Responsibility – are interconnected and set the context for provisions and practices. The overarching goal that "Children experience socially inclusive, culturally sensitive environments in which consideration for others and social responsibility is enacted" is further reflected in the three facets of Diversity and Social Responsibility, which are inclusiveness and equity, democratic practices, and sustainable futures support. The Portrait of a Learner identifies the competencies and attitudes learners need to develop through educational and life experiences. It will inform updates to curricula, instructional decisions, assessment practices, policy development, and professional learning.
- New Brunswick: The Department of Early Childhood Development's (francophone sector): Citizenship education is integrated in study programs or is included in courses. Social studies programs at the secondary education level suggest a general learning result: indicate attributes of an active, open, and a modern citizenship.

⁴ See the schema described in paragraph 11 of Section II of these guidelines.

- Newfoundland and Labrador: ESD is established as a context for teaching and learning in all curricula, and ESD themes are integrated within Science curricula for Grades Kindergarten to 12.
- Ontario: Both GCED and ESD are integrated explicitly throughout Ontario's Kindergarten to Grade 12 curriculum. Stand-alone courses focused on GCED (e.g., Equity courses in Social Sciences and Humanities curriculum) and ESD (e.g., Environmental Science courses in Science curriculum) are also available in secondary school. By the time a student finishes Grade 12, all of the GCED and ESD themes would have been addressed through the curriculum.
- Saskatchewan: These topics are integrated into Kindergarten to Grade 12 curricula. Themes are mentioned explicitly in outcomes and indicators. Outcomes define what students are expected to know, understand, and be able to do by the end of a grade or secondary level course in a particular area of study. Indicators are representative of what students need to know and/or be able to do to achieve an outcome. GCED and ESD are inferred in descriptions of relevant Broad Areas of Learning and Cross-curricular Competencies. The three Broad Areas of Learning are: Sense of Self, Community and Place; Lifelong Learners; and Engaged Citizens. The Cross-curricular Competencies are four interrelated areas containing understanding, values, skills, and processes, which are considered important for learning in all areas of study and are intended to be addressed in each area of study at each grade. An ESD Framework is used by curriculum writers to guide the infusion of ESD in all renewed curricula.
- Alberta: Aspects of ESD are addressed in Grades 10-12 science curricula directly, through a unit of study in Grade 10 and also throughout Grades 10-12. Concepts relating to the environment and sustainability are integrated in the science curricula through critical consideration of societal, economic, ethical, and environmental perspectives. ESD is explicitly included where students consider the role of science in supporting a sustainable society, economy, and environment.
- Quebec: GCED and ESD are an integral part of the Quebec Education Program, which addresses the major contemporary issues facing young people individually and collectively in different aspects of their lives, under what it calls "broad areas of learning." These areas identify the learning required to clearly assess key elements, such as "Environmental Awareness and Consumer Rights and Responsibilities" and "Citizenship and Community Life," which enable students to take part in the democratic life of the class or the school and develop an attitude of openness to the world and respect for diversity.
- Quebec: At their own initiative, Quebec educational institutions set up extra-curricular activities that can expose students to democratic citizenship education and inclusive social development, for example, school or class council, student newspaper or radio, and student parliament.
- Quebec: To apply the concept of sustainable development, the Government of Quebec focuses on activities within the school system, mainstreamed into the Quebec Education Program, and works closely with partners in the field. Quebec's sustainable development approach aims to support educational institutions. Eco-responsible practices have been adopted and tools have been created to support them in their efforts. The development of pedagogical activities, starting with youth literacy in preschools and elementary schools on the themes and values of ESD, is also encouraged in schools. In addition, interdisciplinary learning situations on the themes of river and land protection and food, for example, have been created to promote understanding among elementary and secondary school students and to encourage the integration of sustainable development concepts both at school and at home.

B1b. Please provide examples of curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents.

Examples from provinces and territories:

- British Columbia: The Social Studies curriculum is built around fostering intercultural understanding by having all students from K-12 understand multiple perspectives on complex issues and make ethical judgements of past and present events. The goal is to foster increased understanding of different cultures and values both within and between different cultures.
- New Brunswick: In the World Issues 120 curriculum, students examine the global challenges of building a sustainable and equitable future, focusing on current issues that demonstrate these challenges. Students investigate a range of topics relevant at the time of study. The course provides opportunity for student choice within the themes of humanity, interdependence, and geopolitics.
- New Brunswick Early Childhood Development (francophone sector): [New Brunswick Early Learning and Child Care Curriculum](#).
- Newfoundland and Labrador: ESD themes of climate change and environmental sustainability are integrated within [Science 1206 curriculum](#).
- Ontario: GCED is embedded throughout all grades and disciplines, specifically Health and Physical Education, Social Studies, History and Geography, Canadian and World Studies, Social Sciences and Humanities, and First Nations, Métis, and Inuit Studies. Mandatory learning about ESD is found throughout all grades and disciplines, particularly Social Studies, History and Geography, Social Sciences and Humanities, Science, and Technological Education.
- Saskatchewan: Environmental Studies 20 <https://www.edonline.sk.ca/webapps/moe-curriculum-BB5f208b6da4613/CurriculumHome?id=73>; Social Studies 20 <https://www.edonline.sk.ca/webapps/moe-curriculum-BB5f208b6da4613/CurriculumHome?id=174>; Social Studies 6 <https://www.edonline.sk.ca/webapps/moe-curriculum-BB5f208b6da4613/CurriculumHome?id=169>; Social Studies 7 <https://www.edonline.sk.ca/webapps/moe-curriculum-BB5f208b6da4613/CurriculumHome?id=170>.
- Alberta: In the Grade 10 Social Studies curriculum, students explore the effects of globalization on lands, cultures, human rights, and quality of life. This includes citizenship and identity, environmental sustainability and prosperity, issues facing women, children and youth, democratization and human rights, as well as civic responsibilities that individuals, governments, organizations, and businesses may have in addressing opportunities and challenges presented by globalization.
- Quebec: The mainstreaming of GCED varies by curriculum. For example:
 - The preschool curriculum includes a social development component to help students cultivate harmonious relationships with others (group belonging and social skills).
 - In elementary schools, the Geography, History and Citizenship Education curriculum is offered in each of the six years. The curriculum allows students to construct their representation of space, time and society. More specifically, students are encouraged to understand the organization of a society in its territory, interpret change in a society and in its territory, and be open to the diversity of societies and their territories.
 - In elementary and secondary schools, the linguistic, academic, and social integration curriculum prepares immigrant students for continuing their schooling in French in the regular classroom by specifying the essential learning that will allow them to acquire, as quickly as possible, knowledge of the language of interpersonal communication and specific forms of academic discourse, to understand the academic and social culture of their new environment, and to develop the appropriate behaviours and attitudes to ensure their smooth integration.

***B2** Please indicate which GCED and ESD themes are taught as part of the curriculum at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Alberta: Sociology and Anthropology		Alberta: Sociology	Alberta: International Politics 30				• New Brunswick: Applied Technology (Skilled Trades and Technology Education) • Saskatchewan: integrates civics, civil and citizenship education, as well as geography in Grades 1 to 9; also taught within the social studies and history curricula; do not comprise stand-alone curricula.

*B4 Please indicate the approaches used to teach GCED and ESD in primary and secondary education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Global citizenship and education for sustainable development
GCED/ESD are taught as separate subject(s)	1 (Varies among provinces and territories)
Cross-curriculum approach (e.g. GCED/ESD are taught in more than one subject but not throughout the curriculum)	1
Integrated approach (e.g. GCED/ESD are taught throughout the whole curriculum)	1
Whole school approach (e.g. GCED/ESD are integrated in the school ethos, management, governance, curriculum, teacher training, teaching practices, the learning environment and in learning experiences in the community and life outside school)	1 (Varies among provinces and territories)

B5 Please indicate which human rights education themes are taught as part of the curriculum at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
3. Human rights education				
3.1 equality and non-discrimination based on race, colour, language, religion, disability, political or other opinion, national or social origin, birth or other status	1	1	9	9
3.2 human rights values, human dignity, justice, inclusion and participation	1	1	9	9
3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)	1	1	9	9

C. Teacher education (including the training of trainers and educators) (paras 4 and 33-37 of the 1974 Recommendation)

C1a. Please describe in which ways GCED and ESD are mainstreamed in initial training and in continuing professional development of teachers, trainers and educators. Indicate whether all teachers, trainers and educators or only some are required to receive training to teach GCED and/or ESD.

Examples from provinces and territories (ministries):

- British Columbia: GCED and ESD components are integrated into all BC Teacher Education Programs (initial teacher training). Some programs have specific courses related to these topics while others thread the concepts throughout the programs.
- New Brunswick: Professional learning on global competencies (including global citizenship and sustainable development) is embedded in the implementation of new curricula. All teachers participated in a professional learning day to learn about the Portrait of a Learner, and the NB Global Competencies. School districts are provided funding to support professional learning to understand and use the global competencies. Training on the Curriculum Framework for Early Learning and Child Care-English is provided within the New Brunswick Community College's Early Childhood Education certificate program. The Department of Education and Early Childhood Education offers free, online curriculum training (30 hours) for educators working in licensed early learning and childcare facilities.
- Newfoundland and Labrador: Teachers participate in optional ESD professional learning provided by informal education partners (e.g., Learning for Sustainable Futures).
- Ontario: Teachers in publicly funded elementary and secondary schools must be members in good standing with the Ontario College of Teachers (OCT), which is responsible for the accreditation of teaching programs throughout the province and ensuring all teaching programs in Ontario follow ethical and practice standards and guidelines. GCED and ESD are embedded in several areas of the core content of Initial Teacher Education programs as outlined in the OCT's Accreditation Resource Guide.
- Alberta: Effective September 2019, Alberta introduced new and updated professional practice standards for teachers and teacher leaders. The standards align with and build on each other:

Teaching Quality Standard for teachers who work directly with students; Leadership Quality Standard for principals and school jurisdiction leaders; and Superintendent Leadership Quality Standard for superintendents. Competencies identified for the standards include establishing/supporting and/or ensuring inclusive learning environments and foundational knowledge about First Nations, Métis, and Inuit, for all students.

- Quebec: Sustainable development training is offered to teaching staff and educational consultants. Tools are made available to help them mainstream sustainable development and thus support students in understanding and applying the concept, addressing issues such as climate change, water, energy, deforestation, biodiversity, poverty reduction, and sustainable consumption.

Other examples:

- York University: Discussions with instructors on how to incorporate these diverse themes in the language curriculum (mainly English but using the SDGs as a thematic context).
- Learning for a Sustainable Future (LSF) trains over 2,500 teachers per year through professional development sessions contracted for by school boards and teacher federations, and accessed directly by teachers; topics include SDGs, outdoor learning, and climate change.
- Aga Khan Foundation Canada focuses its professional development workshops for educators on GCED and Gender. The classroom resource is the central focus of the workshops and is a collection of lesson plans and activities focused on GCED, the SDGs, quality of life, ESD, and action projects. Educators then continue their relationship with the organization through monthly newsletters that share short lesson plans/activities around GCED that can be used in the classroom.
- Trent University: Many aspects of GCED are addressed in a compulsory course that considers equity issues such as race and gender.

C1b. Please provide examples of teacher training policies or curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents. If possible, include examples related to initial training and to continuing professional development.

Examples from provinces and territories (ministries):

- British Columbia: An entire Bachelor of Education cohort at The University of British Columbia focuses on ESD; the cohort is called Education for Sustainability: <https://teach.educ.ubc.ca/bachelor-of-education-program/elementary-middle-years/#education-for-sustainability-2>. Individual courses within programs are related to the areas of GCED and ESD, for example: Sustainability & Teacher Identity (<https://www.viu.ca/courses/education#EDUC203>), and Global Education, Citizenship, and Cross-Cultural Conceptions of Teaching and Learning (<http://www.calendar.ubc.ca/okanagan/courses.cfm?code=EDUC>).
- New Brunswick: The school improvement process features 31 Indicators which are used by schools for self-assessment and to guide planning. Examples:
 - Indicator 21: New Brunswick global competencies, curriculum outcomes, achievement standards/indicators are the foundation for teacher planning (daily and long-term).
 - NB global competencies include sustainability and global citizenship.
 - New Brunswick Community College <https://nbcc.ca/programs-courses/full-time-programs>
 - Department of Education and Early Childhood Development <https://www2.gnb.ca/content/gnb/en/departments/education/elcc/content/curriculum.html>

- [New Brunswick Early Learning and Child Care Curriculum](#)
- Newfoundland and Labrador: Optional professional learning opportunities for practicing teachers (e.g., Learning for Sustainable Futures <http://lsf-lst.ca/>)
- Ontario: The OCT's Accreditation Resource Guide is a companion to requirements set out in Regulation 347/02, Accreditation of Teacher Education Programs, the purpose of which is to clarify the intent, through additional information and examples, of the core content that should be included in Ontario teacher education programs. GCED and ESD are woven throughout several sections (e.g., Child and Adolescent Development and Student Transitions, Indigenous Perspectives, Cultures, Histories and Ways of Knowing, Mental Health, Addictions and Well-Being, Creation of a Positive School Climate). The guide be accessed at: https://www.oct.ca/-/media/PDF/Accreditation%20Resource%20Guide/Accreditation_Resource_Guide_EN_WEB.pdf
- Quebec: Advisory support plan for sustainable development in the school system and L'éducation au développement durable (ESD) handbook (volumes 1, 2 and 3; French only): <http://www.education.gouv.qc.ca/references/tx-solrtyperecherchepublicationtx-solrpublicationnouveaute/resultats-de-la-recherche/detail/article/plan-daccompagnement-du-reseau-scolaire-en-matiere-de-developpement-durable/>

*C2 Please indicate whether teachers, trainers and educators are trained to teach GCED and ESD during initial or pre-service training and/or through continuing professional development. Please enter the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Initial or pre-service training				
For teachers of selected subjects only (in which GCED or ESD are typically taught)	1	1	9	9
For teachers of other subjects	1	1	9	9
Continuing professional development				
For teachers of selected subjects only (in which GCED or ESD are typically taught)	1	1	9	9
For teachers of other subjects	1	1	9	9

*C3 Please indicate on which GCED and ESD themes pre-service or in-service training is available for teachers, trainers and educators at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
1. Cultural diversity and tolerance	1	1	9	9
2. Gender equality	1	1	9	9
3. Human rights	1	1	9	9
4. Peace and non-violence	1	1	9	9
5. Climate change	1	1	9	9
6. Environmental sustainability	1	1	9	9
7. Human survival and well-being	1	1	9	9
8. Sustainable consumption and production	1	1	9	9

*C4 Please indicate whether teachers, trainers and educators are trained to teach the following dimensions of learning in GCED and ESD. Please enter the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Knowledge	9	9	9	9
Skills	9	9	9	9
Values	9	1	9	9
Attitudes and behaviours	9	1	9	9

*C5 Please indicate whether teachers, trainers and educators are trained to use the following approaches to teach GCED and ESD in primary and secondary education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Global citizenship and education for sustainable development
GCED/ESD are taught as separate subject(s)	0
Cross curriculum approach (e.g. GCED/ESD are taught in more than one subject but not throughout the curriculum)	1
Integrated approach (e.g. GCED/ESD are taught throughout the whole curriculum)	1
Whole school approach (e.g. GCED/ESD are integrated in the school ethos, management, governance, curriculum, teacher training, teaching practices, the learning environment, and in learning experiences in the community and life outside school)	9

D. Student assessment (paras 4 and 5 of the *1974 Recommendation*)

D1a. Please describe in which ways GCED and ESD are covered in student assessments and examinations. Indicate whether students are assessed only on their knowledge of and skills related to the topics being tested or also on their values, attitudes and/or behaviours.

Examples from provinces and territories (ministries):

- British Columbia: The Ministry of Education does not have subject-specific exams and has broader Literacy and Numeracy assessments. However, all BC's assessments include authentic Indigenous content, Indigenous educators in the development, and have integrated the First Peoples Principles of Learning into all assessment development. All assessments are also evaluated for social considerations.
- New Brunswick: Assessment and evaluation are done through the subject-area outcomes and the myBlueprint tool, which is currently under implementation and supports students to track the global competencies as they develop their online portfolio.
- Ontario: The development of learning skills and work habits is an integral part of a student's learning. Educators assess, evaluate, and report on a student's achievement of curriculum expectations, including GCED and ESD themes, separately from the student's demonstration of learning skills and work habits. In many subjects and disciplines in Grades 1 to 12, the development of learning skills and work habits is further strengthened through achievement of the curriculum expectations.
- Saskatchewan: Curricular outcomes clearly show that cultural diversity and tolerance and human rights are considerations when English Language Arts (ELA) texts are selected or are developed for ELA provincial examinations. Examination questions assess curricular outcomes (e.g., ELA A30 Outcome 30.4: "Read, demonstrate comprehension of, and apply knowledge from grade-required information and literary texts from First Nations, Métis, Saskatchewan, and Canadian authors as a basis for understanding self and the multiplicity of voices and perspectives that make up Canadian cultures"). Provincial examination questions are typically written to be gender-neutral, using terms such as "student" or "teacher" rather than specific names. Where this is not possible, names are chosen representing the various cultures present in Saskatchewan. Exams ensure a balance of male/female names, and gender bias is also considered.
- Alberta: Social Studies examples: Students taking the Grade 6 Social Studies Provincial Assessment Tests (PAT) are explicitly tested on their knowledge of the Canadian Charter of Rights and Freedoms, as well as active citizenship in relation to provincial and municipal contexts. Knowledge of principles of democracy is also a significant portion of the Grade 6 Social Studies PAT.

*D2 Please indicate whether the GCED and ESD themes below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
1. Cultural diversity and tolerance	9	1	9	9
2. Gender equality	9	1	9	9
3. Human rights	9	1	9	9
4. Peace and non-violence	9	1	9	9
5. Climate change	9	1	9	9
6. Environmental sustainability	9	1	9	9

7. Human survival and well-being	9	1	9	9
8. Sustainable consumption and production	9	1	9	9

*D3 Please indicate which of the dimensions of learning in GCED and ESD below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Knowledge	9	1	9	9
Skills	9	1	9	9
Values	9	1	9	9
Attitudes and behaviours	9	1	9	9

E. Mainstreaming of GCED and ESD in laws and policies, curricula, teacher education and student assessment (paras 4-5, 7, 10-19 and 33-37 of the 1974 Recommendation)

*E1 Based on your responses to questions in the previous four sections (laws and policies, curricula, teacher education and student assessment) please indicate to what extent global citizenship education (GCED) and education for sustainable development (ESD) are mainstreamed⁵ in (a) education laws and policies, (b) curricula (c) teacher education (including the training of trainers and educators) and (d) student assessment in your country. Please enter the appropriate number in each white cell in the table below.

KEY:

0 Not at all

GCED and ESD are not mainstreamed.

1 Partially

Some GCED and/or ESD themes⁶ are mainstreamed. Select this option if GCED is mainstreamed but ESD is not (or vice versa).

2 Extensively

Most GCED and ESD themes are mainstreamed.

9 Not known

It is not known whether GCED and ESD are mainstreamed or not.

99 Not applicable

The given level of government does not have responsibility for the given component (policies, curricula, teacher education or student assessment) and/or does not have responsibility for the given level or type of education. This may occur at the national level in federal countries where education is the responsibility of individual states or at the sub-national level in small countries where there is only one level of government.

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
National				
(a) Education laws and policies	99	99	99	99
(b) Curricula	99	99	99	99
(c) Teacher education	99	99	99	99
(d) Student assessment	99	99	99	99
Sub-national				
(a) Education laws and policies	9	1	9	99
(b) Curricula	9	1	9	99
(c) Teacher education	9	1	9	99
(d) Student assessment	9	1	9	99

⁵ GCED and ESD are mainstreamed if their themes are mentioned explicitly in relevant documents and are expected to be implemented by the relevant authorities (e.g. Ministries, regional or local education authorities), educational institutions (e.g. schools, colleges and universities) and/or education professionals (e.g. teachers, lecturers, trainers and educators) as appropriate.

⁶ Refer to the schema in paragraph 11 of Section II of these guidelines.

F. Technical and vocational education and training (paras 25-29 of the 1974 Recommendation)

- F1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in technical and vocational education and training. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

Examples from provinces and territories:

- Alberta: Advanced Education has a longstanding initiative to maintain the currency of apprenticeship programs, including content related to sustainable development. This content fits into two categories:
 1. Remediation/Prevention of Environmental Damage – e.g., water conservation – Plumber and Landscape Horticulturist.
 2. More Resource-Efficient (or less polluting) Products, Processes, or Services – e.g., Energy alternatives – Electrician, Boilermaker, Industrial Mechanic, and Welder. Renewable energy – Electrician, Autoservice Tech., Heavy Equipment Tech., Plumber, Powerline Tech., Power System Electrician, Water Well Driller (Earthloop Technician).
- New Brunswick: Global competencies are embedded in technology and vocational education. Although gender equity is considered a challenge in these areas, there are ongoing efforts to actively promote the trades as a career for everyone. The ministry works closely with Skills Canada NB and industry partners to support and promote interest in the sectors.
- Ontario: The Kindergarten to Grade 12 education system provides a range of curricula and experiential learning opportunities that increase students' awareness of skilled trades and expose students to the apprenticeship pathway, including: Science and Technology Curriculum, Grades 1 to 8, Technological Education Curriculum, Grades 9 to 12. Secondary students also have opportunities for hands-on learning through the following job skills programs: Cooperative Education (Co-op), Dual Credit Programs, Experiential Learning, Specialist High Skills Major (SHSM), and Ministry of Labour, Training and Skills Development's Ontario Youth Apprenticeship Program (OYAP). Engaging and relevant job skills programs such as cooperative education, Dual Credits, Experiential Learning, SHSM, and OYAP have contributed to improved student outcomes and an increase in the provincial graduation rate.
- Quebec: As of 2019, as part of the occupational analysis carried out during a vocational curriculum review, information is systematically collected from workers on the principles of sustainable development that are most relevant to the trades targeted by the program under review.

G. Adult education (para 30 of the 1974 Recommendation)

- G1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in adult education and other forms of non-formal education including youth education, out-of-school education, etc. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

Examples from provinces and territories (ministries):

- Newfoundland and Labrador: The 5-year Adult Literacy Action Plan, launched in 2019, identifies 30 actions government and stakeholders will target to ensure Newfoundlanders and Labradorians have the opportunity to acquire and enhance literacy skills, increase their education, and improve employability, well-being, and quality of life. These actions focus on the provision of foundational skills and education, including support of Adult Basic Education, a program providing skills from the foundational level up to and including high school equivalency.
- Ontario: Adult learners have free access to all secondary courses, including courses in social studies, history, and geography; these courses provide opportunities to learn about what it means to be a responsible, active citizen in the community of the classroom and the diverse communities to which learners belong within and outside the school. Ontario elementary and

secondary curriculum includes a Citizenship Education Framework, that includes learning about Active Participation, Identity, Attributes and Structures.

- Quebec: Quebec's educational mission includes three components: instruct, socialize, and qualify. In keeping with the second component, adult education promotes the development of the civic and cultural dimension of the adult's social and personal life and their autonomy. More specifically, with regard to democratic citizenship education and inclusive social development, the new curriculum for general adult basic education, in addition to preparing adults for employment, focuses on the development of citizenship and cultural skills throughout their lives. To that end, the curricula for common and diversified adult basic education include, with a few slight variations, four general areas of training: health and wellness; environmental awareness and consumer rights and responsibilities; job market; and citizenship (cooperation and civic responsibility; citizens' rights and responsibilities; living together in a pluralistic and democratic society). Through the different curricula, adults are called upon to develop a better understanding of the world and to participate in it.

Other examples:

- York University participated in the UNHack organized by Lassonde School of Engineering at York University.
- In Trent University, teacher candidates undertake alternative setting placements that include some with GCED and ESD themes.
- The Saskatchewan Regional Centre of Expertise on ESD (<http://saskrce.ca/>) reaches out to communities, including K-12 schools, by hosting an annual ESD Awards event that recognizes achievement in advancing ESD goals.
- Aga Khan Foundation Canada has done GECD work with youth service groups (including Girl Guides Canada) and educational groups (including Historica Encounters) and presentations to adult service clubs (including Rotary).

H. Research and International Co-operation (paras 41-45 of the *1974 Recommendation*)

H1 Please describe what kinds of research or experimentation have been carried out to improve the implementation of GCED and/or ESD. Describe briefly how the results of such activities have influenced education policies, curricula and/or teaching practices.

Examples from provinces and territories (ministries):

- New Brunswick: The Department of Early Childhood Development (anglophone sector) is funding initiatives that promote action research at the school level, whereby staff who develop a proposal that demonstrates how they will implement global competencies through local projects are awarded small grants. The results of these projects are shared in a variety of ways (teacher forums, written accounts, etc.) at the district level.
- Ontario: The ministry conducted research and scans on how students' global competencies are fostered, assessed, evaluated, and reported on, as well as on related professional learning and supports for educators. The province also engaged school districts in professional development to foster global competency skills in students. Collectively, this research laid the groundwork for Ontario's approach to transferable skills: critical thinking and problem solving, innovation, creativity and entrepreneurship, self-directed learning, collaboration, communication, global citizenship and sustainability, and digital literacy.

Other examples:

- LSF and Lakehead University undertook a survey of over 3,200 Canadian general public, parents (K-12), teachers (K-12) and student (grades 7-12) entitled "Canada, Climate Change and Education". LSF hosted Knowledge Mobilization sessions across Canada to influence education policy, curricula and teaching practice.

- Saskatchewan Polytechnic participates in the worldwide EcoCar competition that exposes students and faculty to new technologies and challenges.

H2 Please indicate which types of activities are available that promote international co-operation at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Hosting of international meetings on GCED and/or ESD	9	9	1	9
Participation in international meetings abroad on GCED and/or ESD	9	9	1	1
Support for programmes hosting foreign students, researchers and/or teachers	9	9	1	9
Membership of international networks including ASPnet	9	9	1	9
Joint research projects on GCED and/or ESD with foreign institutions	9	9	1	1
Other activities (please specify):				

I. Any other comments

I1 Please indicate whether your country has faced any constraints, in particular related to global or national crises, including natural disasters, in implementing the 1974 Recommendation during the reporting period.

The COVID-19 pandemic has affected everyone in 2020.

I2 Please provide any other relevant information or clarifications regarding the implementation of the 1974 Recommendation or the mainstreaming of GCED and ESD in your country's education system.

- In New Brunswick, there has been a constant shift to improving French second language programming which impacts the work of learning specialists at the ministry and the capacity for the system to manage change. For example, updates to science education, the implementation of new curricula, and the focus on climate education has been delayed and curriculum development paused twice from 2010-2017.
- Alberta – Education Act: The themes that are explicit or inferred throughout are cultural diversity and tolerance, peace and non-violence, gender equality education, and human rights education, covering primary and secondary levels in formal education.
- Comments from CCUNESCO:
 - Many institutions have international students from different countries, and their role is to prepare these students to transition and integrate into Canadian culture, to educate them to be not only Canadian citizens, but also global citizens.
 - The absence of any reference to freedom of expression as a basic human right, including the diversity of opinions, is noteworthy. Freedom of expression is essential and should be included in the recommendation somewhere.
