

# GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE 1974 RECOMMENDATION CONCERNING EDUCATION FOR INTERNATIONAL UNDERSTANDING, CO-OPERATION AND PEACE AND EDUCATION RELATING TO HUMAN RIGHTS AND FUNDAMENTAL FREEDOMS

## I. Introduction

### A. About the 1974 Recommendation

1. UNESCO's *1974 Recommendation concerning Education for International Understanding, Co-operation and Peace and Education relating to Human Rights and Fundamental Freedoms*<sup>1</sup> (the "*1974 Recommendation*") aims to promote international education and world peace through understanding, solidarity and cooperation. It was adopted on 19 November 1974 by the General Conference of UNESCO at its 18th session.

2. The *1974 Recommendation* applies to formal, non-formal and informal education and to all levels, from pre-primary to tertiary and adult education and lifelong learning. The General Conference recommended "*that Member States should apply*" the provisions included in the *1974 Recommendation* "*by taking whatever legislative or other steps*" that provide institutional (e.g. policies and legal frameworks) and pedagogical (e.g. curricula, teacher training, educational materials, equipment, and student assessment) support for its implementation, based on the "*objectives*", referred to in paragraph 4 of the *1974 Recommendation*, "*regarded as major guiding principles of education policy*" including: an international dimension and a global perspective on education, cultural diversity, interdependence, communication, rights and responsibilities, international solidarity and cooperation, and problem solving.

3. Today, the principles of the *1974 Recommendation* apply equally well to Education for Sustainable Development (ESD) and to Global Citizenship Education (GCED) and therefore represent a powerful tool for promoting the 2030 Agenda for Sustainable Development and in particular SDG Target 4.7 on the promotion of sustainable development and global citizenship through education, Target 12.8 on access to information on sustainable development and Target 13.3 on climate change education.

4. The General Conference in its 39th session recommended the use of the *1974 Recommendation* reporting process to support the implementation and monitoring of Target 4.7 of Sustainable Development Goal 4 (39 C/Resolution 79). The UNESCO Executive Board at its 209th session approved the use of the current guidelines for both the monitoring of the *1974 Recommendation* and the collection of data needed for the following global SDG indicator for which UNESCO is custodian (209 EX/Decision 18.II):

4.7.1, 12.8.1 and 13.3.1: *The extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education and (d) student assessment.*

5. Questions marked with an asterisk (\*) will be used in the calculation of the respective indicators (**Table 1**). As approved by the Inter-Agency and Expert Group on the SDG Indicators, the indicators will be calculated for primary and secondary education only.

**Table 1 Questions used in the calculation of the global SDG indicator for Targets 4.7, 12.8 and 13.3**

| Policies        | Curricula       | Teacher education   | Student assessment |
|-----------------|-----------------|---------------------|--------------------|
| A2, A4, A5, E1a | B2, B3, B4, E1b | C2, C3, C4, C5, E1c | D2, D3, E1d        |

### B. Reporting obligations

6. The General Conference, at its 18th session, when adopting the *1974 Recommendation* recommended “*that Member States submit [...] reports concerning the action taken by them in pursuance of this recommendation*”. Moreover, in accordance with Article VIII of UNESCO’s Constitution “*Each Member State shall submit to the Organization [...] reports [...] on the action taken upon the recommendations and conventions referred to in Article IV, paragraph 4.*”

7. Thus, **all UNESCO Member States are expected to report on the steps they have taken to implement the 1974 Recommendation** preferably by completing the following questionnaire. Such reporting takes place every four years.

## **II. Guidelines for completion of the questionnaire**

8. This questionnaire and its accompanying guidelines are addressed to Ministers responsible for relations with UNESCO. The questionnaire is typically completed by Ministries of Education and other government authorities responsible for education. Responses should cover, as far as possible, education at all levels of government, including sub-national levels where applicable as well as education outside the government sector.

9. National respondents are encouraged to **consult widely** both within, across and beyond government, including with Ministries of Environment, with national human rights institutions, the education sector, civil society partners and others, as necessary, to gather the information needed to complete the questionnaire.

10. Responses to the seventh consultation should cover:

- (i) the time period 2017-2020;
- (ii) education at all levels of formal education from pre-primary to tertiary education as well as non-formal education;
- (iii) all levels of government that have responsibility for education within the country; and
- (iv) where possible, education outside the government sector.

11. To assist countries in responding to this questionnaire, UNESCO has developed the following set of global citizenship education and education for sustainable development themes. The list is based on a review of current common practices in many countries as well as a review of relevant literature. While the terms ESD and GCED may be used differently in some countries, the list of themes typically captures what are seen as key elements of Target 4.7. Please refer to the definitions of key terms in **Section III** before completing the questionnaire.

### Global citizenship education and education for sustainable development

- 1. cultural diversity and tolerance
  - 1.1 international or intercultural understanding, solidarity and cooperation
  - 1.2 intercultural and interreligious dialogue
  - 1.3 local, national and/or global citizenship
- 2. gender equality education
  - 2.1 gender-based equal opportunities
  - 2.2 gender equality and justice
  - 2.3 gender roles, identity and stereotypes

3. human rights education
  - 3.1 equality and non-discrimination based on race, colour, language, religion, disability, political or other opinion, national or social origin, birth or other status
  - 3.2 human rights values, human dignity, justice, inclusion and participation
  - 3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)
4. peace and non-violence
  - 4.1 friendly relations among peoples and nations
  - 4.2 challenging negative stereotypes, promoting peaceful solutions, learning to live together, including others and preventing violent extremism
  - 4.3 preventing all forms of violence including bullying, verbal abuse and gender-based violence
5. climate change education
  - 5.1 mitigation
  - 5.2 adaptation
  - 5.3 impact reduction
  - 5.4 early warning
6. environmental sustainability
  - 6.1 caring for the planet, protecting nature
  - 6.2 environmental justice
  - 6.3 biodiversity, water
7. human survival and well-being
  - 7.1 environmental health as it pertains to human well-being, disaster risk reduction
  - 7.2 health of the planet for future generations
  - 7.3 sustainable cities and communities
8. sustainable consumption and production
  - 8.1 responsible and sustainable lifestyles
  - 8.2 green economy, green jobs
  - 8.3 sustainable energy

### III. Definitions of key terms

| Term                                                                          | Definition                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Themes of global citizenship and education for sustainable development</b> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1. Cultural diversity and tolerance                                           | <i>Education about and for diversity including language, ethnicity, race, religion as well as the development of tolerance, mutual respect and appreciation for cultural diversity. It includes intercultural and interreligious dialogue, understanding, solidarity and co-operation, and citizenship education.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2. Gender equality education                                                  | <i>Education that addresses the wider issue of gender equality by promoting new attitudes and patterns of belief, transforming the way people think about traditional gender roles and helping to build long-term sustainable change. It examines how gender roles, activities, needs, opportunities, rights and entitlements affect men, women, girls and boys differently. It deals with the relationships between females and males, their access to and control of resources and the constraints they face relative to each other. It respects the rights of all learners – women, men, boys and girls – equally and gives equal access to learning opportunities, resources and protections. All learners benefit from and are treated in education equally without the limitations set by stereotypes, rigid gender roles and prejudices. It covers gender-based equal opportunities, gender equality and justice, and gender roles, identity and stereotypes.</i> |
| 3. Human rights education                                                     | <i>Education that promotes universal respect for and observance of all human rights and fundamental freedoms and thus contributes, inter alia, to the prevention of human rights violations and abuses by providing persons with knowledge, skills and understanding and developing their attitudes and behaviours, to empower them to contribute to the building and promotion of a universal culture of human rights.</i><br><i>It includes equality and non-discrimination, human rights values, dignity, justice, inclusion and participation and respect for human rights and fundamental freedoms.</i>                                                                                                                                                                                                                                                                                                                                                             |
| 4. Peace and non-violence                                                     | <i>Education about peace and peace-building, mediation, conflict prevention and resolution, non-violence, reconciliation and living together peacefully. It includes advocating for friendly relations among peoples and nations, challenging negative stereotypes, promoting peaceful solutions, learning to live together and preventing violent extremism and other forms of violence including bullying.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 5. Climate change education                                                   | <i>Education to help people, in particular youth, understand, address, mitigate, and adapt to the impacts of climate change. It encourages changes in attitudes and behaviours needed to put the world on a more sustainable development path, and build a new generation of climate change-aware citizens.</i><br><i>It covers various responses to climate change including mitigation, adaptation, impact reduction and early warning.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 6. Environmental sustainability                                               | <i>Education about responsible interactions with the environment to avoid depletion or degradation and to promote environmental quality and health. It includes, caring for the planet and protecting nature, environmental justice, biodiversity and water.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 7. Human survival and well-being          | <i>Education that promotes social well-being and harmony including in future generations due to healthy environmental systems. It includes health of the planet and environment related to human well-being, disaster risk reduction and sustainable cities and communities.</i>                                                                                                                                                                                                                                                                                                     |
| 8. Sustainable consumption and production | <i>Education on the use and production of resources, products and services that have a minimal adverse impact on the environment. It promotes resource and energy efficiency, sustainable infrastructure and green jobs. It includes responsible and sustainable lifestyles, the green economy and sustainable energy.</i>                                                                                                                                                                                                                                                           |
| Dimensions of learning                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Knowledge                                 | <i>Factual information and understanding acquired through study and/or experience.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Skills                                    | <i>The ability to carry out a task well as a result of training, practice and innate aptitude. Skills may be physical, mental or both.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Values                                    | <i>Principles that form the foundation on which individuals conduct themselves and interact with others and with the environment around them.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Attitudes and behaviours                  | <i>Ability to act on the basis of beliefs and knowledge acquired through study or experience.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Levels of education                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Pre-primary                               | <i>Education designed to support children's early cognitive, physical, social and emotional development and introduce young children to organized instruction outside of the family context. Participants are usually aged from three years.</i>                                                                                                                                                                                                                                                                                                                                     |
| Primary and secondary                     | <p><i>Education designed to:</i></p> <ul style="list-style-type: none"> <li><i>(i) provide students with fundamental skills in reading, writing and mathematics (i.e. literacy and numeracy) and establish a solid foundation for learning and understanding core areas of knowledge and personal development (primary education); and</i></li> <li><i>(ii) prepare students for further education at post-secondary and tertiary levels and for entry into the labour market (secondary education).</i></li> </ul> <p><i>It includes both general and vocational education.</i></p> |
| Tertiary                                  | <i>Education designed to provide learning activities in specialised fields of education. It aims at learning at a high level of complexity and specialisation. It includes both what is commonly understood as academic education and advanced vocational or professional education.</i>                                                                                                                                                                                                                                                                                             |
| Types of education                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Adult education                           | <i>Education specifically targeted at individuals who are regarded as adults by their society to improve their technical or professional qualifications, further develop their abilities, enrich their knowledge with the purpose to complete a level of formal education, or to acquire, refresh or update their knowledge, skills and competencies in a particular field.</i>                                                                                                                                                                                                      |

|                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formal education     | <i>Education that is institutionalized, intentional and planned through public organizations and recognized private bodies which – in their totality – constitute the formal education system of a country. Formal education programmes are recognized by the relevant national or sub-national education authorities. Formal education consists mostly of initial education (e.g., pre-primary, primary, secondary and tertiary education).</i>                                                                                                                                                                                                                                                                                                                                                                                           |
| Non-formal education | <i>Education that is an addition, alternative and/or a complement to formal education within the process of the lifelong learning of individuals. It is often provided to guarantee the right of access to education for all. It caters to people of all ages but does not necessarily apply a continuous pathway-structure. It may be short in duration and/or low-intensity, and it is typically provided in the form of short courses, workshops or seminars. Non-formal education mostly leads to qualifications that are not recognized by the relevant national or sub-national education authorities or to no qualifications at all. Non-formal education includes programmes on life skills including literacy and numeracy, work skills, and social or cultural development. Most types of adult education are also included.</i> |
| Vocational education | <i>Education that is designed for learners to acquire the knowledge, skills and competencies specific to a particular occupation or trade or class of occupations or trades. Vocational education may have work-based components (e.g. apprenticeships). Successful completion of such programmes leads to labour-market relevant vocational qualifications acknowledged as occupationally-oriented by the relevant national authorities and/or the labour market. Vocational education can be offered at secondary and post-secondary or tertiary levels of education.</i>                                                                                                                                                                                                                                                                |

#### **IV. Information about the respondent**

Country:

*ITALY*

Name of the respondent:

Position of the respondent:

Organization:

*Ministry of Education*

Email address:

Telephone (please include the country code):

Date of submission:

**V. Other contributors consulted during the completion of this questionnaire**

Please indicate below the names of other organizations and contributors consulted during the completion of this questionnaire.

**Government institutions including other Ministries** (please specify):

**National human rights institutions** (please specify):

**Local and regional authorities responsible for education** (please specify):

**Other local and regional authorities** (please specify):

**Organizations representing education stakeholders** (e.g. teachers, students, parents, etc.) (please specify):

**Other civil society organizations** (please specify):

**Others** (please specify):

## VI. Questionnaire

### A. Laws and policies (preamble and paras 4 and 7 of the 1974 Recommendation)

A1a. Please describe any specific national or sub-national laws, legislation or legal framework(s) in your country that govern the promotion of global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes<sup>2</sup> are mentioned explicitly or are inferred and what types or levels of education are covered.

In the Italian school system, the promotion of global citizenship education (GCED) and education for sustainable development (ESD) is included in Civic Education.

Civic Education is seen as one of the fundamental aims of school education as a whole: Citizenship and the Constitution have been the subject integrated into the curricula. *Indicazioni Nazionali per il curricolo della scuola dell'infanzia e del primo ciclo di istruzione* (2012) regard Citizenship as a framework for knowledge and skills integrated into the curricula of the all subjects, Citizenship's knowledge and skills are included in students assessment at the end of Secondary school into Profilo Educativo Culturale e Professionale (PECUP) since 2005.

In the time period 2017-2020 considered, *Indicazioni Nazionali e nuovi scenari* (2018) reaffirmed the importance of citizenship education as a support for students in becoming active, informed and responsible citizens, who are willing and able to take responsibility for themselves and for their communities at the local, regional, national and international level.

In 2019, a new law about Civic Education regards civic education as a sphere of values and issues for all school subjects. Law 20th August 2019, n. 92 introduced the school teaching of civic education for Pre-Primary, Primary and Secondary School as a framework for knowledge and skills. Civic Education focuses on:

- the Italian Constitution and the fundamental rights and duties of (global) citizens that it specifies and guarantees. (GCED)
- The Sustainable Development (ESD)
- Digital Citizenship Education

In 2017, a new document about teaching and learning Philosophy *Orientamenti per l'apprendimento della Filosofia nella società della conoscenza* regards themes of global citizenship (GCED) and education for sustainable development (ESD). It includes all dimensions of learning (knowledge, skills, values, attitudes and behaviours) for all level of education (pre-primary, primary and secondary, tertiary) and types of education (adult education, formal education, non-formal education, vocational education). It is inspired by the UNESCO Publication *Philosophy. A School of Freedom*, 2007.

From the end of 2018 to today, in Italy the strengthening of UNESCO Associated School Project for pre-primary, primary, secondary school contributed to :

- integrate GCE and ESD into the teaching and learning processes
- experiment innovative approaches on GCE and ESD
- share information, experiences and good practices on GCE and ESD

A3a. Please describe any specific current national or sub-national education policies, frameworks or strategic objectives in your country that promote global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes<sup>3</sup> are mentioned explicitly or are inferred and what types or levels of education are covered.

---

<sup>3</sup> See the schema described in paragraph 11 of Section II of these guidelines.

Civic Education is an educational objective of the school system as a whole. GCED and ESD are some fundamental aims of school education. In this perspective, GCED and ESD are strategic aims in the Civic Education's framework.

The construction of knowledge that is more directly related to civic education involves a great many school subjects of the different levels making up the Italian school system. The contents of these subjects are established by the document entitled *Indicazioni nazionali e nuovi scenari* (2018), that established the fundamental guidelines for curricula.

In 2019, the Law about Civic Education introduced GCED and ESD as aims for all subjects.

In the time period 2017-2020 considered, some websites were built and many activities were organized explicitly in order to promote global citizenship education (GCED) and education for sustainable development (ESD) for all level education and types of education.

| Teacher education and training           |             |                       |          |                      |
| Assessment of student outcomes           |             |                       |          |                      |

**B. Curriculum** (paras 4 and 10-19 of the *1974 Recommendation*)

B1a. Please describe in which ways GCED and ESD are mainstreamed in school curricula. Indicate whether topics are taught as standalone subjects or are integrated into the curricula of other subjects. Explain whether GCED and/or ESD themes<sup>4</sup> are mentioned explicitly or are inferred and what types or levels of education are covered.

---

<sup>4</sup> See the schema described in paragraph 11 of Section II of these guidelines.

Global citizenship education and education for sustainable development are civic education's aims and included topics of the 1974 *Recommendation*. GCED and ESD are taught as integrated into the curricula of all subjects.

Civic Education covers the topics mentioned in the 1974 *Recommendation*:

1. cultural diversity and tolerance
  - 1.1 international or intercultural understanding, solidarity and cooperation
  - 1.2 intercultural and interreligious dialogue
  - 1.3 local, national and/or global citizenship
2. gender equality education
  - 2.1 gender-based equal opportunities
  - 2.2 gender equality and justice
  - 2.3 gender roles, identity and stereotypes
3. human rights education
  - 3.1 equality and non-discrimination based on race, colour, language, religion, disability, political or other opinion, national or social origin, birth or other status
  - 3.2 human rights values, human dignity, justice, inclusion and participation
  - 3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)
4. peace and non-violence
  - 4.1 friendly relations among peoples and nations
  - 4.2 challenging negative stereotypes, promoting peaceful solutions, learning to live together, including others and preventing violent extremism
  - 4.3 preventing all forms of violence including bullying, verbal abuse and gender-based violence
5. climate change education
  - 5.1 mitigation
  - 5.2 adaptation
  - 5.3 impact reduction
  - 5.4 early warning
6. environmental sustainability
  - 6.1 caring for the planet, protecting nature
  - 6.2 environmental justice
  - 6.3 biodiversity, water
7. human survival and well-being
  - 7.1 environmental health as it pertains to human well-being, disaster risk reduction
  - 7.2 health of the planet for future generations
  - 7.3 sustainable cities and communities
8. sustainable consumption and production
  - 8.1 responsible and sustainable lifestyles
  - 8.2 green economy, green jobs
  - 8.3 sustainable energy

The Italian Schools UNESCO ASPnet.

GCED and ESD are mainstreamed in the projects involved in UNESCO ASPnet experience. Topics and taught are integrated into the curricula of other subjects. GCED and ESD themes are mentioned explicitly in the projects and covered from pre-primary to secondary schools.

B1b. Please provide examples of curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents.

| 3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)                                                       | 1           | 1                     |          |                      |

**C. Teacher education** (including the training of trainers and educators) (paras 4 and 33-37 of the 1974 Recommendation)

C1a. Please describe in which ways GCED and ESD are mainstreamed in initial training and in continuing professional development of teachers, trainers and educators. Indicate whether all teachers, trainers and educators or only some are required to receive training to teach GCED and/or ESD.

GCED and ESD are mainstreamed in Civic Education's training and in continuing professional development of teachers, trainers and educators.

The Training Plan 2016-2019 regarded Global Citizenship Education as an important aim (cf. 4.7 *Integrazione, competenze di cittadinanza, cittadinanza globale*). The training objectives focused on Recommendation 1974 topics:

1. cultural diversity and tolerance
2. gender equality education
3. human rights education
4. peace and non-violence
5. climate change education
6. environmental sustainability
7. human survival and well-being
8. sustainable consumption and production

Civic Education Training Plan 2019 proposes a conceptual framework for goals and means of citizenship education in school. It addresses different aspects of teacher education, professional development and support for Civic Education:

1. Topics about Constitution, ESD, Digital Citizenship Education
2. Integrated approach for Civic Education (GCED and ESD) that is taught throughout the whole curriculum
3. Civic Education Assessments for Primary and Secondary School
4. Learning setting for the whole school system (Pre-Primary, Primary, Secondary)

Since 2018, a Summer School is dedicated to GCED, ESD, Agenda 2030 for Sustainable Development (in particular SDG 4 Target 4.7), for teacher education, including the training of trainers and educators from pre-primary to tertiary and adult education and lifelong learning.

In the spring of 2020, Ministry of Education and INDIRE (the Italian teacher-training institution) realized for teacher education a new Project, titled PATHS *A Philosophical Approach to Thinking Skills*, in order to develop the training objectives focused on Recommendation topics through the critical thinking during the COVID pandemic.

C1b. Please provide examples of teacher training policies or curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents. If possible, include examples related to initial training and to continuing professional development.

**D. Student assessment** (paras 4 and 5 of the 1974 Recommendation)

D1a. Please describe in which ways GCED and ESD are covered in student assessments and examinations. Indicate whether students are assessed only on their knowledge of and skills related to the topics being tested or also on their values, attitudes and/or behaviours.

GCED and ESD are covered in student assessments in Primary and Secondary school and examinations only at the end of Secondary school.

GCED and ESD are evaluated in student assessments on Civic Education knowledge and skills related to the topics, values, attitudes and behaviours.

\*D2 Please indicate whether the GCED and ESD themes below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

**KEY:** 0 = no, 1 = yes, 9 = unknown

|                                           | Pre-primary | Primary and secondary | Tertiary | Non-formal education |
|-------------------------------------------|-------------|-----------------------|----------|----------------------|
| 1. Cultural diversity and tolerance       | 1           | 1                     |          |                      |
| 2. Gender equality                        | 1           | 1                     |          |                      |
| 3. Human rights                           | 1           | 1                     |          |                      |
| 4. Peace and non-violence                 | 1           | 1                     |          |                      |
| 5. Climate change                         | 1           | 1                     |          |                      |
| 6. Environmental sustainability           | 1           | 1                     |          |                      |
| 7. Human survival and well-being          | 1           | 1                     |          |                      |
| 8. Sustainable consumption and production | 1           | 1                     |          |                      |

\*D3 Please indicate which of the dimensions of learning in GCED and ESD below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

**KEY:** 0 = no, 1 = yes, 9 = unknown

|                          | Pre-primary | Primary and secondary | Tertiary | Non-formal education |
|--------------------------|-------------|-----------------------|----------|----------------------|
| Knowledge                |             | 1                     |          |                      |
| Skills                   |             | 1                     |          |                      |
| Values                   |             | 1                     |          |                      |
| Attitudes and behaviours |             | 1                     |          |                      |

**E. Mainstreaming of GCED and ESD in laws and policies, curricula, teacher education and student assessment** (paras 4-5, 7, 10-19 and 33-37 of the 1974 Recommendation)

\*E1 Based on your responses to questions in the previous four sections (laws and policies, curricula, teacher education and student assessment) please indicate to what extent global citizenship education (GCED) and education for sustainable development (ESD) are mainstreamed<sup>5</sup> in (a) education laws and policies, (b) curricula (c) teacher education (including the training of trainers and educators) and (d) student assessment in your country. Please enter the appropriate number in each white cell in the table below.

**KEY:**

**0 Not at all** GCED and ESD are not mainstreamed.

**1 Partially** Some GCED and/or ESD themes are mainstreamed. Select this option if GCED is mainstreamed but ESD is not (or vice versa).

**2 Extensively** Most GCED and ESD themes are mainstreamed.

**9 Not known** It is not known whether GCED and ESD are mainstreamed or not.

**99 Not applicable** The given level of government does not have responsibility for the given component (policies, curricula, teacher education or student assessment) and/or does not have responsibility for the given level or type of education. This may occur at the national level in federal countries where education is the responsibility of individual states or at the sub-national level in small countries where there is only one level of government.

|                                 | Pre-primary | Primary and secondary | Tertiary | Non-formal education |
|---------------------------------|-------------|-----------------------|----------|----------------------|
| National                        |             |                       |          |                      |
| (a) Education laws and policies | 1           | 1                     |          |                      |
| (b) Curricula                   | 1           | 2                     |          |                      |
| (c) Teacher education           | 1           | 1                     |          |                      |
| (d) Student assessment          | 1           | 1                     |          |                      |
| Sub-national                    |             |                       |          |                      |
| (a) Education laws and policies |             |                       |          |                      |
| (b) Curricula                   |             |                       |          |                      |
| (c) Teacher education           |             |                       |          |                      |
| (d) Student assessment          |             |                       |          |                      |

**F. Technical and vocational education and training** (paras 25-29 of the 1974 Recommendation)

F1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in technical and vocational education and training. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

<sup>5</sup> GCED and ESD are mainstreamed if their themes are mentioned explicitly in relevant documents and are expected to be implemented by the relevant authorities (e.g. Ministries, regional or local education authorities), educational institutions (e.g. schools, colleges and universities) and/or education professionals (e.g. teachers, lecturers, trainers and educators) as appropriate.

For ESD, Ministry of Education and ASviS (Alleanza italiana per lo Sviluppo sostenibile) signed [Memorandum of Understanding](#) on promotion Sustainable Development in the school system as a whole and for teachers training. Ministry and ASviS also promote a schools contest about 17 SDGs. The last edition's competition notice is available [here](#).

Italian VET system has a multilevel governance with the involvement of national, regional and local stakeholders. The Ministry of Education and the Ministry of Labour and Social Policies lay down general rules and common principles for the system, whilst Regions and Autonomous Provinces are in charge of VET programs and most apprenticeship-type schemes. Updating technical and vocational education to improve students' career readiness and help break gender stereotypes in VET is a key priority for Italy.

To provide solutions, the Italian Ministry of Education has revised vocational education in the formal national sector. The 2017 Vocational School Reform (IP Reform) has designed a demand driven model with an outcome-oriented approach, in view of meeting expectations of learners in terms of skills which ensure employability and adaptability. It has come into force during the school year 2018/2019.

Pending a decision to establish the "National Network of vocational Schools" to coordinate national, regional and local stakeholder, the Ministry of Education has promoted the creation of eleven School Networks in accordance with the eleven courses of studies of the national vocational system, among which the new pathway for sustainable development "Water management and environmental rehabilitation". The eleven Vocational School Networks aim to enhance and implement new didactic and organizational approaches as well as innovation for Sustainability by appropriate state funding.

The national reform of vocational education was accompanied by the entry into force of the new National Repertoire of professional qualifications and diplomas (leFP Reform) of regional matrix, with the introduction of new professional figures and the revision of the exit profiles of the previous ones. The new regional training paths of the leFP system have strong elements of connection with the paths of national vocational education, allowing students to reconsider their choices through the possibility of transition from one system to another. The two reforms have deeply innovated the Italian education system promoting ESD and GCED in the VET sector.

In addition, other 6 Technical Education Networks with about 500 Technical Schools are promoting activities and school-work transition pathways (i. e. Transversal skills and guidance pathways -2018 PCTO) on innovation and sustainable development, on gender equality and competences for Democratic culture, on active environmental citizenship.

Furthermore Erasmus+ VET supports activities for international mobility which impact on GCED, while the Ministry of Education and ASviS (Italian Alliance for Sustainable Development with more than 270 Stakeholders) has signed 2019 [Memorandum of Understanding](#) to promote Sustainable Development in the school system (and in teachers training) and to support competitions on the 17 SDGs of the 2030 Agenda.

**G. Adult education (para 30 of the 1974 Recommendation)**

- G1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in adult education and other forms of non-formal education including youth education, out-of-school education, etc. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

The CPIA, in addition to the legal courses aimed at obtaining educational qualifications, carries out interventions to expand the training offer in order to enhance citizenship skills and to promote the employability of the adult population, by concluding agreements with local authorities and other public and private entities, and in particular with the training structures accredited by the Regions.

In the 2017/2018 school year, CPIAs carried out 3.032 expansion projects, of which:

- 1.132 courses aimed to achieve pre-A1 language skills with 19.436 participants;
- 721 courses aimed to achieve above A2 level language skills with 11.825 participants;
- 349 courses aimed to achieve computer skills with 3.478 participants;
- 709 courses aimed to achieve foreign language skills with 9.228 participants;
- 73 adult education pathways in coordination with the PF pathways with 784 participants, 46 adult education pathways in coordination with the IFP pathways with 721 participants, 2 adult education pathways in coordination with the IFTS pathways with 26 participants.

In order to implement the Article 4, paragraphs 55-69 of Law 92/12 statement (which established lifelong learning in our country) and the European Recommendation "Upskilling Pathways", MI has prepared the [Piano Nazionale di Garanzia delle Competenze della Popolazione Adulta](#).

The Piano was:

- announced at the "Conferenza Nazionale sull'Apprendimento Permanente" held on the 24th January 2018;
- presented at the "Tavolo Interistituzionale sull'Apprendimento Permanente" (CU 20.12.2012) at its meeting held on the 30th January 2018;
- transposed, on the 16th of May 2019, in the ["Implementazione in Italia della Raccomandazione del Consiglio Percorsi di miglioramento del livello delle competenze nuove opportunità per gli adulti – Rapporto ai sensi del Punto 16 della Raccomandazione del Consiglio del 19 dicembre 2016"](#) document;
- incorporated in the "Piano strategico per lo sviluppo delle competenze della popolazione adulta" document, prepared by the ["Tavolo interistituzionale per l'apprendimento permanente"](#) which is referred to the CU of 20.12.12 agreement.

The Piano is divided into two areas (1. Research, experimentation and development activities and 2. Paths to guarantee the skills of the adult population) and four actions.

In order to implement the "Piano Nazionale di Garanzia delle Competenze della Popolazione Adulta", CPIAs have promoted activities aimed to the planning and the implementation of "percorsi di garanzia delle competenze" which are focused on the acquisition of basic language and digital skills, key competences for lifelong learning, citizenship skills, as well as the competences provided for in Agenda 2030 (creative thinking, critical thinking, etc...) taking into account the provisions of the Raccomandazione del Consiglio del 22 maggio 2018 (DD 98/2019).

To support the planning and the implementation of "percorsi di garanzia delle competenze della popolazione adulta", the UU.SS.RR. promoted, follow the MI - Direzione Generale per gli Ordinamenti Scolastici tips, the activation of regional groups for the definition of "Piani regionali di garanzia delle competenze della popolazione adulta" (note DGOSV prot. n. 18171 of the 23rd October 2018; note DGOSV prot. n.19955 of the 25th September 2019; [Decreto dipartimentale n. 98 del 07/02/2019](#)).

To homogenize and standardize the "percorsi di garanzia delle competenze", the RIDAP National Network has provided, follow MI - Direzione Generale per gli Ordinamenti Scolastici suggestions, to draw up the Piano Nazionale Triennale dei "Percorsi di Garanzia" in the CPIAs; the document was presented to the ["Gruppo di Lavoro Nazionale Paideia"](#) which will provide for any updating and improvement (note DGOSV prot. n.175 of the 7th January 2019).

In that context the ["EDUFIN\\_CPIA"](#) project promoted by the MI is particularly important; the project aims to help combat the adult population educational deficit in financial education; EDUFIN\_CPIA provides for the planning and delivery of specific learning units for adults enrolled in CPIAs in first level education - second teaching period, to allow them to acquire

**H. Research and International Co-operation** (paras 41-45 of the 1974 Recommendation)

- H1 Please describe what kinds of research or experimentation have been carried out to improve the implementation of GCED and/or ESD. Describe briefly how the results of such activities have influenced education policies, curricula and/or teaching practices.

Many Italian universities, research bodies and centers, teacher-training institutions, adult education training centers, international scientific societies and appropriate non-governmental organizations have been carried out to organize actions, activities, projects and improve the implementation GCED and ESD. The results of such activities have influenced education policies, curricula and teaching practices.

Recently, in November 2020, during the III International Congress of Transdisciplinary, some Italian School of UNESCO APnet have been invited to present their projects about GCED and ESD in COVID times in the presence of the International Coordinator UNESCO ASPnet.

Ministry of Education organized the International Final of 27<sup>th</sup> International Philosophy Olympiad to promote global citizenship education. Italy hosted 350 participants (professors, teachers, students, experts from 50 Countries around the world. Rome May 16<sup>th</sup>-19<sup>th</sup> 2019.

- H2 Please indicate which types of activities are available that promote international co-operation at each level of education by entering the appropriate number in each white cell.

**KEY:** 0 = no, 1 = yes, 9 = unknown

|                                                                              | Pre-primary | Primary and secondary | Tertiary | Non-formal education |

| Joint research projects on GCED and/or ESD with foreign institutions         |             |                       |          |                      |
| Other activities (please specify):                                           |             |                       |          |                      |
|                                                                              |             |                       |          |                      |

**I. Any other comments**

- I1 Please indicate whether your country has faced any constraints, in particular related to global or national crises, including natural disasters, in implementing the 1974 Recommendation during the reporting period.

- 12 Please provide any other relevant information or clarifications regarding the implementation of the 1974 Recommendation or the mainstreaming of GCED and ESD in your country's education system.

# GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE 1974 RECOMMENDATION CONCERNING EDUCATION FOR INTERNATIONAL UNDERSTANDING, CO-OPERATION AND PEACE AND EDUCATION RELATING TO HUMAN RIGHTS AND FUNDAMENTAL FREEDOMS

## I. Introduction

### A. About the 1974 Recommendation

1. UNESCO's *1974 Recommendation concerning Education for International Understanding, Co-operation and Peace and Education relating to Human Rights and Fundamental Freedoms*<sup>1</sup> (the "*1974 Recommendation*") aims to promote international education and world peace through understanding, solidarity and cooperation. It was adopted on 19 November 1974 by the General Conference of UNESCO at its 18th session.

2. The *1974 Recommendation* applies to formal, non-formal and informal education and to all levels, from pre-primary to tertiary and adult education and lifelong learning. The General Conference recommended "*that Member States should apply*" the provisions included in the *1974 Recommendation* "*by taking whatever legislative or other steps*" that provide institutional (e.g. policies and legal frameworks) and pedagogical (e.g. curricula, teacher training, educational materials, equipment, and student assessment) support for its implementation, based on the "*objectives*", referred to in paragraph 4 of the *1974 Recommendation*, "*regarded as major guiding principles of education policy*" including: an international dimension and a global perspective on education, cultural diversity, interdependence, communication, rights and responsibilities, international solidarity and cooperation, and problem solving.

3. Today, the principles of the *1974 Recommendation* apply equally well to Education for Sustainable Development (ESD) and to Global Citizenship Education (GCED) and therefore represent a powerful tool for promoting the 2030 Agenda for Sustainable Development and in particular SDG Target 4.7 on the promotion of sustainable development and global citizenship through education, Target 12.8 on access to information on sustainable development and Target 13.3 on climate change education.

4. The General Conference in its 39th session recommended the use of the *1974 Recommendation* reporting process to support the implementation and monitoring of Target 4.7 of Sustainable Development Goal 4 (39 C/Resolution 79). The UNESCO Executive Board at its 209th session approved the use of the current guidelines for both the monitoring of the *1974 Recommendation* and the collection of data needed for the following global SDG indicator for which UNESCO is custodian (209 EX/Decision 18.II):

4.7.1, 12.8.1 and 13.3.1: *The extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education and (d) student assessment.*

5. Questions marked with an asterisk (\*) will be used in the calculation of the respective indicators (**Table 1**). As approved by the Inter-Agency and Expert Group on the SDG Indicators, the indicators will be calculated for primary and secondary education only.

**Table 1 Questions used in the calculation of the global SDG indicator for Targets 4.7, 12.8 and 13.3**

| Policies        | Curricula       | Teacher education   | Student assessment |

<sup>1</sup> [http://portal.unesco.org/en/ev.php-URL\\_ID=13088&URL\\_DO=DO\\_TOPIC&URL\\_SECTION=201.html](http://portal.unesco.org/en/ev.php-URL_ID=13088&URL_DO=DO_TOPIC&URL_SECTION=201.html)

## B. Reporting obligations

6. The General Conference, at its 18th session, when adopting the *1974 Recommendation* recommended “*that Member States submit [...] reports concerning the action taken by them in pursuance of this recommendation*”. Moreover, in accordance with Article VIII of UNESCO’s Constitution “*Each Member State shall submit to the Organization [...] reports [...] on the action taken upon the recommendations and conventions referred to in Article IV, paragraph 4.*”

7. Thus, **all UNESCO Member States are expected to report on the steps they have taken to implement the 1974 Recommendation** preferably by completing the following questionnaire. Such reporting takes place every four years.

## II. Guidelines for completion of the questionnaire

8. This questionnaire and its accompanying guidelines are addressed to Ministers responsible for relations with UNESCO. The questionnaire is typically completed by Ministries of Education and other government authorities responsible for education. Responses should cover, as far as possible, education at all levels of government, including sub-national levels where applicable as well as education outside the government sector.

9. National respondents are encouraged to **consult widely** both within, across and beyond government, including with Ministries of Environment, with national human rights institutions, the education sector, civil society partners and others, as necessary, to gather the information needed to complete the questionnaire.

10. Responses to the seventh consultation should cover:

- (i) the time period 2017-2020;
- (ii) education at all levels of formal education from pre-primary to tertiary education as well as non-formal education;
- (iii) all levels of government that have responsibility for education within the country; and
- (iv) where possible, education outside the government sector.

11. To assist countries in responding to this questionnaire, UNESCO has developed the following set of global citizenship education and education for sustainable development themes. The list is based on a review of current common practices in many countries as well as a review of relevant literature. While the terms ESD and GCED may be used differently in some countries, the list of themes typically captures what are seen as key elements of Target 4.7. Please refer to the definitions of key terms in **Section III** before completing the questionnaire.

### Global citizenship education and education for sustainable development

- 1. cultural diversity and tolerance
  - 1.1 international or intercultural understanding, solidarity and cooperation
  - 1.2 intercultural and interreligious dialogue
  - 1.3 local, national and/or global citizenship
- 2. gender equality education
  - 2.1 gender-based equal opportunities
  - 2.2 gender equality and justice
  - 2.3 gender roles, identity and stereotypes

3. human rights education
  - 3.1 equality and non-discrimination based on race, colour, language, religion, disability, political or other opinion, national or social origin, birth or other status
  - 3.2 human rights values, human dignity, justice, inclusion and participation
  - 3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)
4. peace and non-violence
  - 4.1 friendly relations among peoples and nations
  - 4.2 challenging negative stereotypes, promoting peaceful solutions, learning to live together, including others and preventing violent extremism
  - 4.3 preventing all forms of violence including bullying, verbal abuse and gender-based violence
5. climate change education
  - 5.1 mitigation
  - 5.2 adaptation
  - 5.3 impact reduction
  - 5.4 early warning
6. environmental sustainability
  - 6.1 caring for the planet, protecting nature
  - 6.2 environmental justice
  - 6.3 biodiversity, water
7. human survival and well-being
  - 7.1 environmental health as it pertains to human well-being, disaster risk reduction
  - 7.2 health of the planet for future generations
  - 7.3 sustainable cities and communities
8. sustainable consumption and production
  - 8.1 responsible and sustainable lifestyles
  - 8.2 green economy, green jobs
  - 8.3 sustainable energy

### III. Definitions of key terms

| Term                                                                          | Definition                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Themes of global citizenship and education for sustainable development</b> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1. Cultural diversity and tolerance                                           | <i>Education about and for diversity including language, ethnicity, race, religion as well as the development of tolerance, mutual respect and appreciation for cultural diversity. It includes intercultural and interreligious dialogue, understanding, solidarity and co-operation, and citizenship education.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2. Gender equality education                                                  | <i>Education that addresses the wider issue of gender equality by promoting new attitudes and patterns of belief, transforming the way people think about traditional gender roles and helping to build long-term sustainable change. It examines how gender roles, activities, needs, opportunities, rights and entitlements affect men, women, girls and boys differently. It deals with the relationships between females and males, their access to and control of resources and the constraints they face relative to each other. It respects the rights of all learners – women, men, boys and girls – equally and gives equal access to learning opportunities, resources and protections. All learners benefit from and are treated in education equally without the limitations set by stereotypes, rigid gender roles and prejudices. It covers gender-based equal opportunities, gender equality and justice, and gender roles, identity and stereotypes.</i> |
| 3. Human rights education                                                     | <i>Education that promotes universal respect for and observance of all human rights and fundamental freedoms and thus contributes, inter alia, to the prevention of human rights violations and abuses by providing persons with knowledge, skills and understanding and developing their attitudes and behaviours, to empower them to contribute to the building and promotion of a universal culture of human rights.</i><br><i>It includes equality and non-discrimination, human rights values, dignity, justice, inclusion and participation and respect for human rights and fundamental freedoms.</i>                                                                                                                                                                                                                                                                                                                                                             |
| 4. Peace and non-violence                                                     | <i>Education about peace and peace-building, mediation, conflict prevention and resolution, non-violence, reconciliation and living together peacefully. It includes advocating for friendly relations among peoples and nations, challenging negative stereotypes, promoting peaceful solutions, learning to live together and preventing violent extremism and other forms of violence including bullying.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 5. Climate change education                                                   | <i>Education to help people, in particular youth, understand, address, mitigate, and adapt to the impacts of climate change. It encourages changes in attitudes and behaviours needed to put the world on a more sustainable development path, and build a new generation of climate change-aware citizens.</i><br><i>It covers various responses to climate change including mitigation, adaptation, impact reduction and early warning.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 6. Environmental sustainability                                               | <i>Education about responsible interactions with the environment to avoid depletion or degradation and to promote environmental quality and health. It includes, caring for the planet and protecting nature, environmental justice, biodiversity and water.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 7. Human survival and well-being                                              | <i>Education that promotes social well-being and harmony including in future generations due to healthy environmental systems. It includes health of the planet and environment related to human well-being, disaster risk reduction and sustainable cities and communities.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| Term                                      | Definition                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| 8. Sustainable consumption and production | <i>Education on the use and production of resources, products and services that have a minimal adverse impact on the environment. It promotes resource and energy efficiency, sustainable infrastructure and green jobs. It includes responsible and sustainable lifestyles, the green economy and sustainable energy.</i>                                                                                                                                                                                                                                                           |
| Dimensions of learning                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Knowledge                                 | <i>Factual information and understanding acquired through study and/or experience.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Skills                                    | <i>The ability to carry out a task well as a result of training, practice and innate aptitude. Skills may be physical, mental or both.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Values                                    | <i>Principles that form the foundation on which individuals conduct themselves and interact with others and with the environment around them.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Attitudes and behaviours                  | <i>Ability to act on the basis of beliefs and knowledge acquired through study or experience.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Levels of education                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Pre-primary                               | <i>Education designed to support children's early cognitive, physical, social and emotional development and introduce young children to organized instruction outside of the family context. Participants are usually aged from three years.</i>                                                                                                                                                                                                                                                                                                                                     |
| Primary and secondary                     | <p><i>Education designed to:</i></p> <ul style="list-style-type: none"> <li><i>(i) provide students with fundamental skills in reading, writing and mathematics (i.e. literacy and numeracy) and establish a solid foundation for learning and understanding core areas of knowledge and personal development (primary education); and</i></li> <li><i>(ii) prepare students for further education at post-secondary and tertiary levels and for entry into the labour market (secondary education).</i></li> </ul> <p><i>It includes both general and vocational education.</i></p> |
| Tertiary                                  | <i>Education designed to provide learning activities in specialised fields of education. It aims at learning at a high level of complexity and specialisation. It includes both what is commonly understood as academic education and advanced vocational or professional education.</i>                                                                                                                                                                                                                                                                                             |
| Types of education                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Adult education                           | <i>Education specifically targeted at individuals who are regarded as adults by their society to improve their technical or professional qualifications, further develop their abilities, enrich their knowledge with the purpose to complete a level of formal education, or to acquire, refresh or update their knowledge, skills and competencies in a particular field.</i>                                                                                                                                                                                                      |
| Formal education                          | <i>Education that is institutionalized, intentional and planned through public organizations and recognized private bodies which – in their totality – constitute the formal education system of a country. Formal education programmes are recognized by the relevant national or sub-national education authorities. Formal education consists mostly of initial education (e.g., pre-primary, primary, secondary and tertiary education).</i>                                                                                                                                     |
| Non-formal education                      | <i>Education that is an addition, alternative and/or a complement to formal education within the process of the lifelong learning of individuals. It is often provided to guarantee the right of access to education for all. It caters to people of all ages but does not necessarily apply a continuous pathway-structure. It may be short in duration and/or low-intensity, and it</i>                                                                                                                                                                                            |

| Term                 | Definition                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                      | <i>is typically provided in the form of short courses, workshops or seminars. Non-formal education mostly leads to qualifications that are not recognized by the relevant national or sub-national education authorities or to no qualifications at all. Non-formal education includes programmes on life skills including literacy and numeracy, work skills, and social or cultural development. Most types of adult education are also included.</i>                                                                                                                     |
| Vocational education | <i>Education that is designed for learners to acquire the knowledge, skills and competencies specific to a particular occupation or trade or class of occupations or trades. Vocational education may have work-based components (e.g. apprenticeships). Successful completion of such programmes leads to labour-market relevant vocational qualifications acknowledged as occupationally-oriented by the relevant national authorities and/or the labour market. Vocational education can be offered at secondary and post-secondary or tertiary levels of education.</i> |

#### **IV. Information about the respondent**

Country:

*ITALY*

Organization:

*MINISTERO DELL'UNIVERSITA' E DELLA RICERCA*

Date of submission:

*01/02/2020*

## **V. Other contributors consulted during the completion of this questionnaire**

Please indicate below the names of other organizations and contributors consulted during the completion of this questionnaire.

### **Government institutions including other Ministries** (please specify):

*Ministero per gli affari esteri e la cooperazione internazionale, Ministero dell'ambiente e della tutela del territorio e del Mare*

### **National human rights institutions** (please specify):

### **Local and regional authorities responsible for education** (please specify):

### **Other local and regional authorities** (please specify):

### **Organizations representing education stakeholders** (e.g. teachers, students, parents, etc.) (please specify):

*Conferenza dei Rettori delle Università Italiane (CRUI)*

### **Other civil society organizations** (please specify):

*Alleanza Italiana per lo Sviluppo Sostenibile (ASviS)*

### **Others** (please specify):

## VI. Questionnaire

### A. Laws and policies (preamble and paras 4 and 7 of the 1974 Recommendation)

A1a. Please describe any specific national or sub-national laws, legislation or legal framework(s) in your country that govern the promotion of global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes<sup>2</sup> are mentioned explicitly or are inferred and what types or levels of education are covered.

Italy adopted on 22 December 2017 the National Strategy for Sustainable Development (SNSvS) in line with the strategic objectives of the United Nations 2030 Agenda for sustainable development (2015), which defines the guidelines of the economic, social and environmental policies aimed at achieving the sustainable development goals by 2030.

As the policies to achieve the sustainable development goals are under responsibility of various ministries, regions and local authorities, the coordination of these activities is carried out by the Presidency of the Council of Ministers.

On March 16, 2018, the Directive of the President of the Council of Ministers was issued containing guidelines for the implementation of the United Nations 2030 Agenda and the National Strategy for Sustainable Development.

In order to ensure technical and scientific support, for the coordination action of the Presidency of the Council of Ministers on policies of sustainable development, it was established the "Cabina di regia Benessere Italia" (DPCM 11 June 2019), in which are present representatives of ministries and a Committee of experts, including the representative of the Italian Alliance for Sustainable Development.

The Italian Alliance for Sustainable Development (ASviS), that brings together over 290 member organizations among the civil society, aims to raise the awareness of the Italian society, economic stakeholders and institutions about the importance of the 2030 Agenda for Sustainable Development, and to mobilize them in order to pursue the Sustainable Development Goals (SDGs).

In July 2017, the Ministry of Education, University and Research presented the "Sustainability Education Plan", consisting of 20 actions grouped into four macro-areas: structures and construction - teaching and teacher training - universities and research - communication.

The Network of Universities for Sustainable Development (RUS), promoted by the Conference of Rectors of Italian Universities (CRUI), contributes to implementing the actions for the implementation of the sustainable development goals, among which are highlighted: dissemination of culture and good sustainability practices, both inside and outside universities (at urban, regional, national, international level); actions to develop the transdisciplinary educational dimension of university programs in order to contribute to the growth of the culture of sustainable development; training and updating on sustainable development issues for staff (teachers, technical-administrative staff and collaborators and linguistic experts) of all Italian universities, possibly also for teachers of other levels of schools

On 11 June 2020, the Interministerial Committee for Development Cooperation approved the Italian Strategy for Education for Global Citizenship, the process of which was initiated in 2017 by the Ministry for Foreign Affairs and International Cooperation with various subjects as Ministries, Universities, NGOs, Regions and Italian Alliance for sustainable development.

On 10 December 2020, "International Day for Human Rights", the Conference of Rectors of Italian Universities (Crui) presented the new "Network of Universities for Peace", where peace it must be considered an inalienable right. The new network will promote, among the various objectives, that of promoting, within universities, attention to building peace, as a constitutive vocation of the Academy and as basis of all disciplines in research, training and third mission activities

---

A3a. Please describe any specific current national or sub-national education policies, frameworks or strategic objectives in your country that promote global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes<sup>3</sup> are mentioned explicitly or are inferred and what types or levels of education are covered.

See answer A1a and the links in A1b

A3b. **Please provide the full names of any education policies, frameworks or strategic objectives referred to in A3a and, where possible, web links to relevant documents.**

See answer A1a and the links in A1b

<sup>3</sup> See the schema described in paragraph 11 of Section II of these guidelines.

\*A4. Please indicate which GCED and ESD themes are covered in national or sub-national education policies, frameworks or strategic objectives affecting each level of education by entering the appropriate number in each white cell.

**KEY:** 0 = no, 1 = yes, 9 = unknown

|                                           | Pre-primary | Primary and secondary | Tertiary | Non-formal education |
|-------------------------------------------|-------------|-----------------------|----------|----------------------|
| 1. Cultural diversity and tolerance       |             |                       | 1        |                      |

| Teacher education and training           |             |                       | 1        |                      |
| Assessment of student outcomes           |             |                       | 1        |                      |
| Sub-national                             |             |                       |          |                      |
| Design or revision of the curricula      |             |                       |          |                      |
| Setting of programme learning objectives |             |                       |          |                      |
| Textbook development                     |             |                       |          |                      |
| Teacher education and training           |             |                       |          |                      |
| Assessment of student outcomes           |             |                       |          |                      |

**B. Curriculum** (paras 4 and 10-19 of the *1974 Recommendation*)

B1a. Please describe in which ways GCED and ESD are mainstreamed in school curricula. Indicate whether topics are taught as standalone subjects or are integrated into the curricula of other subjects. Explain whether GCED and/or ESD themes<sup>4</sup> are mentioned explicitly or are inferred and what types or levels of education are covered.

Not applicable to higher education

B1b. Please provide examples of curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents.

Not applicable to higher education

\*B2 Please indicate which GCED and ESD themes are taught as part of the curriculum at each level of education by entering the appropriate number in each white cell.

**KEY:** 0 = no, 1 = yes, 9 = unknown

|                                           | Pre-primary | Primary and secondary | Tertiary | Non-formal education |
|-------------------------------------------|-------------|-----------------------|----------|----------------------|
| 1. Cultural diversity and tolerance       |             |                       | 1        |                      |
| 2. Gender equality                        |             |                       | 1        |                      |
| 3. Human rights                           |             |                       | 1        |                      |
| 4. Peace and non-violence                 |             |                       | 1        |                      |
| 5. Climate change                         |             |                       | 1        |                      |
| 6. Environmental sustainability           |             |                       | 1        |                      |
| 7. Human survival and well-being          |             |                       | 1        |                      |
| 8. Sustainable consumption and production |             |                       | 1        |                      |

<sup>4</sup> See the schema described in paragraph 11 of Section II of these guidelines.

**\*B3** Please indicate in which subjects or fields of study GCED and ESD are taught in primary and secondary education by entering the appropriate number in each white cell.\*

**KEY:** 0 = no, 1 = yes, 9 = unknown

**C. Teacher education** (including the training of trainers and educators) (paras 4 and 33-37 of the *1974 Recommendation*)

C1a. Please describe in which ways GCED and ESD are mainstreamed in initial training and in continuing professional development of teachers, trainers and educators. Indicate whether all teachers, trainers and educators or only some are required to receive training to teach GCED and/or ESD.

The Network of Universities for Sustainable Development (RUS), born in 2015, promoted by the Conference of Rectors of Italian Universities (CRUI), contributes to implementing the actions for the implementation of the sustainable development goals, among which are highlighted: dissemination of culture and good sustainability practices, both inside and outside universities (at urban, regional, national, international level); actions to develop the transdisciplinary educational dimension of university programs in order to contribute to the growth of the culture of sustainable development; training and updating on sustainable development issues for staff (teachers, technical-administrative staff and collaborators and linguistic experts) of all Italian universities, possibly also for teachers of other levels of schools.

The Italian Alliance for Sustainable Development also promotes the dissemination of education for sustainable development with educational initiatives and projects aimed at all components of the school of all levels, to promote knowledge, the dissemination of the objectives of the Agenda 2030.

C1b. Please provide examples of teacher training policies or curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents. If possible, include examples related to initial training and to continuing professional development.

| 7. Human survival and well-being          |             |                       | 1        |                      |
| 8. Sustainable consumption and production |             |                       | 1        |                      |

\*D3 Please indicate which of the dimensions of learning in GCED and ESD below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

**KEY:** 0 = no, 1 = yes, 9 = unknown

|                          | Pre-primary | Primary and secondary | Tertiary | Non-formal education |
|--------------------------|-------------|-----------------------|----------|----------------------|
| Knowledge                |             |                       | 1        |                      |
| Skills                   |             |                       | 1        |                      |
| Values                   |             |                       | 0        |                      |
| Attitudes and behaviours |             |                       | 0        |                      |

**E. Mainstreaming of GCED and ESD in laws and policies, curricula, teacher education and student assessment** (paras 4-5, 7, 10-19 and 33-37 of the 1974 Recommendation)

\*E1 Based on your responses to questions in the previous four sections (laws and policies, curricula, teacher education and student assessment) please indicate to what extent global citizenship education (GCED) and education for sustainable development (ESD) are mainstreamed<sup>5</sup> in (a) education laws and policies, (b) curricula (c) teacher education (including the training of trainers and educators) and (d) student assessment in your country. Please enter the appropriate number in each white cell in the table below.

**KEY:**

**0 Not at all**

*GCED and ESD are not mainstreamed.*

**1 Partially**

*Some GCED and/or ESD themes<sup>6</sup> are mainstreamed. Select this option if GCED is mainstreamed but ESD is not (or vice versa).*

**2 Extensively**

*Most GCED and ESD themes are mainstreamed.*

**9 Not known**

*It is not known whether GCED and ESD are mainstreamed or not.*

**99 Not applicable**

*The given level of government does not have responsibility for the given component (policies, curricula, teacher education or student assessment) and/or does not have responsibility for the given level or type of education. This may occur at the national level in federal countries where education is the responsibility of individual states or at the sub-national level in small countries where there is only one level of government.*

|                                 | Pre-primary | Primary and secondary | Tertiary | Non-formal education |
|---------------------------------|-------------|-----------------------|----------|----------------------|
| <b>National</b>                 |             |                       |          |                      |
| (a) Education laws and policies |             |                       | 2        |                      |
| (b) Curricula                   |             |                       | 2        |                      |
| (c) Teacher education           |             |                       | 2        |                      |
| (d) Student assessment          |             |                       | 2        |                      |
| <b>Sub-national</b>             |             |                       |          |                      |
| (a) Education laws and policies |             |                       |          |                      |
| (b) Curricula                   |             |                       |          |                      |
| (c) Teacher education           |             |                       |          |                      |
| (d) Student assessment          |             |                       |          |                      |

<sup>5</sup> GCED and ESD are mainstreamed if their themes are mentioned explicitly in relevant documents and are expected to be implemented by the relevant authorities (e.g. Ministries, regional or local education authorities), educational institutions (e.g. schools, colleges and universities) and/or education professionals (e.g. teachers, lecturers, trainers and educators) as appropriate.

<sup>6</sup> Refer to the schema in paragraph 11 of Section II of these guidelines.

**F. Technical and vocational education and training** (paras 25-29 of the 1974 *Recommendation*)

- F1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in technical and vocational education and training. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

Not applicable to higher education

**G. Adult education** (para 30 of the 1974 *Recommendation*)

- G1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in adult education and other forms of non-formal education including youth education, out-of-school education, etc. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

Not applicable to higher education

**H. Research and International Co-operation** (paras 41-45 of the 1974 *Recommendation*)

- H1 Please describe what kinds of research or experimentation have been carried out to improve the implementation of GCED and/or ESD. Describe briefly how the results of such activities have influenced education policies, curricula and/or teaching practices.

According to the Sustainability Education Plan -Miur (2017), research doctorates have been carried out on themes about 2030 Agenda and National Strategy for Sustainable Development and also the research funds have been oriented towards the objectives of sustainable development.

Examples of research doctorates on sustainable development issues

H2 Please indicate which types of activities are available that promote international co-operation at each level of education by entering the appropriate number in each white cell.

**KEY:** 0 = no, 1 = yes, 9 = unknown

|                                                                              | Pre-primary | Primary and secondary | Tertiary | Non-formal education |
|------------------------------------------------------------------------------|-------------|-----------------------|----------|----------------------|
| Hosting of international meetings on GCED and/or ESD                         |             |                       | 1        |                      |
| Participation in international meetings abroad on GCED and/or ESD            |             |                       | 1        |                      |
| Support for programmes hosting foreign students, researchers and/or teachers |             |                       | 1        |                      |
| Membership of international networks including ASPnet                        |             |                       | 0        |                      |
| Joint research projects on GCED and/or ESD with foreign institutions         |             |                       | 1        |                      |
| Other activities (please specify):                                           |             |                       |          |                      |
|                                                                              |             |                       |          |                      |

**I. Any other comments**

I1 Please indicate whether your country has faced any constraints, in particular related to global or national crises, including natural disasters, in implementing the 1974 Recommendation during the reporting period.

Since March 2020 international mobility of higher education students and teachers was suspended due to the pandemic crisis from Covid-19 and has been replaced by virtual mobility pending the end of the pandemic crisis.

I2 Please provide any other relevant information or clarifications regarding the implementation of the 1974 Recommendation or the mainstreaming of GCED and ESD in your country's education system.

Nothing to add
