

# GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE 1974 RECOMMENDATION CONCERNING EDUCATION FOR INTERNATIONAL UNDERSTANDING, CO-OPERATION AND PEACE AND EDUCATION RELATING TO HUMAN RIGHTS AND FUNDAMENTAL FREEDOMS

## I. Introduction

### A. About the 1974 Recommendation

1. UNESCO's *1974 Recommendation concerning Education for International Understanding, Co-operation and Peace and Education relating to Human Rights and Fundamental Freedoms*<sup>1</sup> (the "*1974 Recommendation*") aims to promote international education and world peace through understanding, solidarity and cooperation. It was adopted on 19 November 1974 by the General Conference of UNESCO at its 18th session.

2. The *1974 Recommendation* applies to formal, non-formal and informal education and to all levels, from pre-primary to tertiary and adult education and lifelong learning. The General Conference recommended "*that Member States should apply*" the provisions included in the *1974 Recommendation* "*by taking whatever legislative or other steps*" that provide institutional (e.g. policies and legal frameworks) and pedagogical (e.g. curricula, teacher training, educational materials, equipment, and student assessment) support for its implementation, based on the "*objectives*", referred to in paragraph 4 of the *1974 Recommendation*, "*regarded as major guiding principles of education policy*" including: an international dimension and a global perspective on education, cultural diversity, interdependence, communication, rights and responsibilities, international solidarity and cooperation, and problem solving.

3. Today, the principles of the *1974 Recommendation* apply equally well to Education for Sustainable Development (ESD) and to Global Citizenship Education (GCED) and therefore represent a powerful tool for promoting the 2030 Agenda for Sustainable Development and in particular SDG Target 4.7 on the promotion of sustainable development and global citizenship through education, Target 12.8 on access to information on sustainable development and Target 13.3 on climate change education.

4. The General Conference in its 39th session recommended the use of the *1974 Recommendation* reporting process to support the implementation and monitoring of Target 4.7 of Sustainable Development Goal 4 (39 C/Resolution 79). The UNESCO Executive Board at its 209th session approved the use of the current guidelines for both the monitoring of the *1974 Recommendation* and the collection of data needed for the following global SDG indicator for which UNESCO is custodian (209 EX/Decision 18.II):

4.7.1, 12.8.1 and 13.3.1: *The extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education and (d) student assessment.*

5. Questions marked with an asterisk (\*) will be used in the calculation of the respective indicators (**Table 1**). As approved by the Inter-Agency and Expert Group on the SDG Indicators, the indicators will be calculated for primary and secondary education only.

**Table 1 Questions used in the calculation of the global SDG indicator for Targets 4.7, 12.8 and 13.3**

| Policies        | Curricula       | Teacher education   | Student assessment |
|-----------------|-----------------|---------------------|--------------------|
| A2, A4, A5, E1a | B2, B3, B4, E1b | C2, C3, C4, C5, E1c | D2, D3, E1d        |

## B. Reporting obligations

6. The General Conference, at its 18th session, when adopting the *1974 Recommendation* recommended “*that Member States submit [...] reports concerning the action taken by them in pursuance of this recommendation*”. Moreover, in accordance with Article VIII of UNESCO’s Constitution “*Each Member State shall submit to the Organization [...] reports [...] on the action taken upon the recommendations and conventions referred to in Article IV, paragraph 4.*”

7. Thus, **all UNESCO Member States are expected to report on the steps they have taken to implement the 1974 Recommendation** preferably by completing the following questionnaire. Such reporting takes place every four years.

## II. Guidelines for completion of the questionnaire

8. This questionnaire and its accompanying guidelines are addressed to Ministers responsible for relations with UNESCO. The questionnaire is typically completed by Ministries of Education and other government authorities responsible for education. Responses should cover, as far as possible, education at all levels of government, including sub-national levels where applicable as well as education outside the government sector.

9. National respondents are encouraged to **consult widely** both within, across and beyond government, including with Ministries of Environment, with national human rights institutions, the education sector, civil society partners and others, as necessary, to gather the information needed to complete the questionnaire.

10. Responses to the seventh consultation should cover:

- (i) the time period 2017-2020;
- (ii) education at all levels of formal education from pre-primary to tertiary education as well as non-formal education;
- (iii) all levels of government that have responsibility for education within the country; and
- (iv) where possible, education outside the government sector.

11. To assist countries in responding to this questionnaire, UNESCO has developed the following set of global citizenship education and education for sustainable development themes. The list is based on a review of current common practices in many countries as well as a review of relevant literature. While the terms ESD and GCED may be used differently in some countries, the list of themes typically captures what are seen as key elements of Target 4.7. Please refer to the definitions of key terms in **Section III** before completing the questionnaire.

### Global citizenship education and education for sustainable development

- 1. cultural diversity and tolerance
  - 1.1 international or intercultural understanding, solidarity and cooperation
  - 1.2 intercultural and interreligious dialogue
  - 1.3 local, national and/or global citizenship
- 2. gender equality education
  - 2.1 gender-based equal opportunities
  - 2.2 gender equality and justice
  - 2.3 gender roles, identity and stereotypes

3. human rights education
  - 3.1 equality and non-discrimination based on race, colour, language, religion, disability, political or other opinion, national or social origin, birth or other status
  - 3.2 human rights values, human dignity, justice, inclusion and participation
  - 3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)
4. peace and non-violence
  - 4.1 friendly relations among peoples and nations
  - 4.2 challenging negative stereotypes, promoting peaceful solutions, learning to live together, including others and preventing violent extremism
  - 4.3 preventing all forms of violence including bullying, verbal abuse and gender-based violence
5. climate change education
  - 5.1 mitigation
  - 5.2 adaptation
  - 5.3 impact reduction
  - 5.4 early warning
6. environmental sustainability
  - 6.1 caring for the planet, protecting nature
  - 6.2 environmental justice
  - 6.3 biodiversity, water
7. human survival and well-being
  - 7.1 environmental health as it pertains to human well-being, disaster risk reduction
  - 7.2 health of the planet for future generations
  - 7.3 sustainable cities and communities
8. sustainable consumption and production
  - 8.1 responsible and sustainable lifestyles
  - 8.2 green economy, green jobs
  - 8.3 sustainable energy

### III. Definitions of key terms

| Term                                                                          | Definition                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Themes of global citizenship and education for sustainable development</b> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1. Cultural diversity and tolerance                                           | <i>Education about and for diversity including language, ethnicity, race, religion as well as the development of tolerance, mutual respect and appreciation for cultural diversity. It includes intercultural and interreligious dialogue, understanding, solidarity and co-operation, and citizenship education.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2. Gender equality education                                                  | <i>Education that addresses the wider issue of gender equality by promoting new attitudes and patterns of belief, transforming the way people think about traditional gender roles and helping to build long-term sustainable change. It examines how gender roles, activities, needs, opportunities, rights and entitlements affect men, women, girls and boys differently. It deals with the relationships between females and males, their access to and control of resources and the constraints they face relative to each other. It respects the rights of all learners – women, men, boys and girls – equally and gives equal access to learning opportunities, resources and protections. All learners benefit from and are treated in education equally without the limitations set by stereotypes, rigid gender roles and prejudices. It covers gender-based equal opportunities, gender equality and justice, and gender roles, identity and stereotypes.</i> |
| 3. Human rights education                                                     | <i>Education that promotes universal respect for and observance of all human rights and fundamental freedoms and thus contributes, inter alia, to the prevention of human rights violations and abuses by providing persons with knowledge, skills and understanding and developing their attitudes and behaviours, to empower them to contribute to the building and promotion of a universal culture of human rights.</i><br><i>It includes equality and non-discrimination, human rights values, dignity, justice, inclusion and participation and respect for human rights and fundamental freedoms.</i>                                                                                                                                                                                                                                                                                                                                                             |
| 4. Peace and non-violence                                                     | <i>Education about peace and peace-building, mediation, conflict prevention and resolution, non-violence, reconciliation and living together peacefully. It includes advocating for friendly relations among peoples and nations, challenging negative stereotypes, promoting peaceful solutions, learning to live together and preventing violent extremism and other forms of violence including bullying.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 5. Climate change education                                                   | <i>Education to help people, in particular youth, understand, address, mitigate, and adapt to the impacts of climate change. It encourages changes in attitudes and behaviours needed to put the world on a more sustainable development path, and build a new generation of climate change-aware citizens.</i><br><i>It covers various responses to climate change including mitigation, adaptation, impact reduction and early warning.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 6. Environmental sustainability                                               | <i>Education about responsible interactions with the environment to avoid depletion or degradation and to promote environmental quality and health. It includes, caring for the planet and protecting nature, environmental justice, biodiversity and water.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 7. Human survival and well-being                                              | <i>Education that promotes social well-being and harmony including in future generations due to healthy environmental systems. It includes health of the planet and environment related to human well-being, disaster risk reduction and sustainable cities and communities.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| 8. Sustainable consumption and production | <i>Education on the use and production of resources, products and services that have a minimal adverse impact on the environment. It promotes resource and energy efficiency, sustainable infrastructure and green jobs. It includes responsible and sustainable lifestyles, the green economy and sustainable energy.</i>                                                                                                                                                                                                                                                           |
| Dimensions of learning                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Knowledge                                 | <i>Factual information and understanding acquired through study and/or experience.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Skills                                    | <i>The ability to carry out a task well as a result of training, practice and innate aptitude. Skills may be physical, mental or both.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Values                                    | <i>Principles that form the foundation on which individuals conduct themselves and interact with others and with the environment around them.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Attitudes and behaviours                  | <i>Ability to act on the basis of beliefs and knowledge acquired through study or experience.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Levels of education                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Pre-primary                               | <i>Education designed to support children's early cognitive, physical, social and emotional development and introduce young children to organized instruction outside of the family context. Participants are usually aged from three years.</i>                                                                                                                                                                                                                                                                                                                                     |
| Primary and secondary                     | <p><i>Education designed to:</i></p> <ul style="list-style-type: none"> <li><i>(i) provide students with fundamental skills in reading, writing and mathematics (i.e. literacy and numeracy) and establish a solid foundation for learning and understanding core areas of knowledge and personal development (primary education); and</i></li> <li><i>(ii) prepare students for further education at post-secondary and tertiary levels and for entry into the labour market (secondary education).</i></li> </ul> <p><i>It includes both general and vocational education.</i></p> |
| Tertiary                                  | <i>Education designed to provide learning activities in specialised fields of education. It aims at learning at a high level of complexity and specialisation. It includes both what is commonly understood as academic education and advanced vocational or professional education.</i>                                                                                                                                                                                                                                                                                             |
| Types of education                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Adult education                           | <i>Education specifically targeted at individuals who are regarded as adults by their society to improve their technical or professional qualifications, further develop their abilities, enrich their knowledge with the purpose to complete a level of formal education, or to acquire, refresh or update their knowledge, skills and competencies in a particular field.</i>                                                                                                                                                                                                      |
| Formal education                          | <i>Education that is institutionalized, intentional and planned through public organizations and recognized private bodies which – in their totality – constitute the formal education system of a country. Formal education programmes are recognized by the relevant national or sub-national education authorities. Formal education consists mostly of initial education (e.g., pre-primary, primary, secondary and tertiary education).</i>                                                                                                                                     |
| Non-formal education                      | <i>Education that is an addition, alternative and/or a complement to formal education within the process of the lifelong learning of individuals. It is often provided to guarantee the right of access to education for all. It caters to people of all ages but does not necessarily apply a continuous pathway-structure. It may be short in duration and/or low-intensity, and it is typically provided in the form of short courses, workshops or seminars. Non-formal education mostly leads to qualifications that are not</i>                                                |

|                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|                      | <i>recognized by the relevant national or sub-national education authorities or to no qualifications at all. Non-formal education includes programmes on life skills including literacy and numeracy, work skills, and social or cultural development. Most types of adult education are also included.</i>                                                                                                                                                                                                                                                                 |
| Vocational education | <i>Education that is designed for learners to acquire the knowledge, skills and competencies specific to a particular occupation or trade or class of occupations or trades. Vocational education may have work-based components (e.g. apprenticeships). Successful completion of such programmes leads to labour-market relevant vocational qualifications acknowledged as occupationally-oriented by the relevant national authorities and/or the labour market. Vocational education can be offered at secondary and post-secondary or tertiary levels of education.</i> |

#### **IV. Information about the respondent**

Country:

*Sultanate of Oman*

Organization:

*Ministry of Education*

Date of submission:

*28/1/2021*

## **V. Other contributors consulted during the completion of this questionnaire**

Please indicate below the names of other organizations and contributors consulted during the completion of this questionnaire.

### **Government institutions including other Ministries (please specify):**

*Ministry of Higher Education, Research and Innovation*

### **National human rights institutions (please specify):**

*Sada Al Shabab Foundation*

### **Local and regional authorities responsible for education (please specify):**

*UNESCO Doha Office and UNESCO Beirut Office*

### **Other local and regional authorities (please specify):**

-

### **Organizations representing education stakeholders (e.g. teachers, students, parents, etc.) (please specify):**

-

### **Other civil society organizations (please specify):**

-

### **Others (please specify):**

-

## VI. Questionnaire

### A. Laws and policies (preamble and paras 4 and 7 of the 1974 Recommendation)

A1a. Please describe any specific national or sub-national laws, legislation or legal framework(s) in your country that govern the promotion of global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes<sup>2</sup> are mentioned explicitly or are inferred and what types or levels of education are covered.

Several laws and legislations have been issued in relation to education for global citizenship or education for sustainable development, some of which explicitly mention these aspects while others do implicitly point to them. These include:

- The Basic Statute of the State:

The principles of citizenship are evident in most chapters of the Basic Statute of the State (constitution), which has set legal and methodological foundations toward building the modern state and forming Omanis as people who practice nationalism. The Statute defines the system of rights, duties, national identity, societal responsibility, political participation, national values, national belonging and loyalty, and global citizenship.

- Oman Vision 2040

The future vision Oman 2040 sets a number of basic goals and priorities, including the priority of citizenship, identity, heritage and national culture. These aim to create a society that is proud of its identity, citizenship, and culture, and works to preserve and document its heritage and promote it globally.

- National Education Strategy 2040

The vision of the National Education Strategy in the Sultanate of Oman 2040 aims at building human resources that possess the values, knowledge and skills necessary for work and life, and enabling them to live productively in the world of knowledge, besides being capable of adapting to changes, preserving their national identity and their inherent values, and contributing to the advancement of humanity.

- The educational philosophy of the Sultanate of Oman

The educational philosophy in the Sultanate of Oman includes a set of principles that stem from the educational objectives which guide building and developing all elements of the educational system in all stages and types of education. Among these principles are identity, citizenship and education for sustainable development.

- Ministerial decision establishing the Department of Citizenship Programs in 2012, which was renamed later to the Department of Citizenship according to Ministerial decision No. 381 of 2017.

The levels of education covered are pre-school, primary (basic), secondary and higher education.

As for private schools or national sub-government education, curricula were developed at the local level by national curriculum specialists and regional educational institutions, using a set of

---

<sup>2</sup> See the schema described in paragraph 11 of Section II of these guidelines.

documents that support education for global citizenship and education for sustainable Development, including:

Document of Standards for Integrated Social Studies Curricula for Speakers of Non-Arabic Language - attached

Document of the Kalman Curriculum Standards for Arabic Language for Non-Arabic Speakers - attached

Curriculum Framework for Business Studies, Entrepreneurship and Economics – attached

The following sample of international frameworks are applied in private schools with international programs for grades 1-12:

Cambridge Assessment Center - Department of International Education  
<http://www.cambridgeinternational.org>

Pearson Academic Qualifications (Edexcel <https://qualifications.pearson.com>)

Oxford AQA – International <https://www.oxfordaqaexams.org.uk>

International Baccalaureate Organization (IB) <http://ibo.org>

Fieldwork Education <https://fieldworkeducation.com>

A1b. Please provide the full names of any laws, legislation or legal frameworks referred to in A1a and, where possible, web links to relevant documents.

Among the most important legal frameworks are the following:

A3a. Please describe any specific current national or sub-national education policies, frameworks or strategic objectives in your country that promote global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes<sup>3</sup> are mentioned explicitly or are inferred and what types or levels of education are covered.

- Oman Vision 2040

The future vision Oman 2040 has set basic goals and priorities, including the priority of national citizenship, identity, heritage and culture, aiming to create a society proud of its identity, citizenship and culture and works to preserve and document its heritage and promote it globally.

- The objectives of the five-year plans

The tenth five-year plan marks the start of the Oman 2040 vision, which is based on 4 main axes. The first axis - "a society with a creative human" - deals with education, learning, scientific research, national capabilities, health, citizenship, identity, heritage, national culture, welfare, social protection and youth development.

- Vision of the Ministry of Education

<sup>3</sup> See the schema described in paragraph 11 of Section II of these guidelines.

“To develop the teaching and learning processes in a manner that ensures building a skilled generation loyal to its country and capable of continuous learning and coexistence with others with commitment and responsibility”.

- National Education Strategy 2040

The vision of the National Education Strategy in the Sultanate of Oman 2040 aims at building human resources that possess the values, knowledge and skills necessary for work and life, and enabling them to live productively in the world of knowledge, besides being capable of adapting to changes, preserving their national identity and their inherent values, and contributing to the advancement of the human civilization.

- Including some concepts of global citizenship and education for sustainable development in Social Studies, Islamic Education, and Arabic and English language curricula books across the different school grades either directly or indirectly. Add to that, education for global citizenship and education for sustainable development have also been included in the Educational philosophy of the Sultanate of Oman.

The levels of education covered are pre-school, primary (basic), secondary and higher education.

**A3b. Please provide the full names of any education policies, frameworks or strategic objectives referred to in A3a and, where possible, web links to relevant documents.**

**B. Curriculum** (paras 4 and 10-19 of the 1974 Recommendation)

B1a. Please describe in which ways GCED and ESD are mainstreamed in school curricula. Indicate whether topics are taught as standalone subjects or are integrated into the curricula of other subjects. Explain whether GCED and/or ESD themes<sup>4</sup> are mentioned explicitly or are inferred and what types or levels of education are covered.

Including some concepts of education for global citizenship and education for sustainable development in Social Studies, Islamic Education, and Arabic and English language curricula books across different school grades either directly or indirectly.

The Islamic education curricula include a set of units and lessons to boost citizenship, such as love for one's homeland and the values of belonging to it. For example, first grade lessons cover patriotism, sixth grade lessons cover defending and protecting one's homeland, tenth grade lessons cover national rights and duties and citizenship, and eleventh grade lessons cover realizing the values of national belonging.

Entire units related to sustainable development and citizenship are taught within the school curricula for all subjects and in various educational stages, including various topics like cooperation - preservation of the environment – assistance, reconciliation and keenness to do good - preserving public and private property - social solidarity - the culture of volunteer work - marine life protection - natural disasters, prevention and assistance methods, and rights and duties. For example, unit 6 of The World Around Me (subject) is entitled (Our world: how we can be happy with it?). The unit deals with environmental issues and future concerns, and stands for

<sup>4</sup> See the schema described in paragraph 11 of Section II of these guidelines.

environmental issues via individual volunteer work, international cooperation for environmental protection and conferences on institutional volunteer work.

There is also the life skills subject taught for most educational levels in the Sultanate of Oman. It covers topics, such as: maintaining public facilities, community service and dealing with emergencies.

Various topics related to sustainable development and citizenship are taught at all educational levels. These topics are presented in several ways like summer and extra-curricular activities, exploration, research, visits, pictograms, trips, awareness promotion and teamwork.

Moreover, many topics are studied, discussed and dealt with, including tolerance, good manners, forgiveness, avoiding abuse, adherence to values and moderation, fighting extremism and intolerance, equality and justice, harmony with other cultures, work ethics, dealing with laws, intellectual property, honesty, dialogue, time management and punctuality.

Ministerial decision No. 251/2011 was issued to form a working group to study the reality of teaching values in school curricula.

B1b. Please provide examples of curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents.

Textbooks of Social Studies, Islamic Education, Arabic Language, Life Skills, Science and English Language curricula for different grades.

\*B2 Please indicate which GCED and ESD themes are taught as part of the curriculum at each level of education by entering the appropriate number in each white cell.

**KEY:** 0 = no, 1 = yes, 9 = unknown

| 3. Human rights education                                                                                                                                               |             |                       |          |                      |
| 3.1 equality and non-discrimination based on race, colour, language, religion, disability, political or other opinion, national or social origin, birth or other status | 1           | 1                     | 1        | 1                    |
| 3.2 human rights values, human dignity, justice, inclusion and participation                                                                                            | 1           | 1                     | 1        | 1                    |
| 3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)                                                       | 1           | 1                     | 1        | 1                    |

**C. Teacher education** (including the training of trainers and educators) (paras 4 and 33-37 of the *1974 Recommendation*)

C1a. Please describe in which ways GCED and ESD are mainstreamed in initial training and in continuing professional development of teachers, trainers and educators. Indicate whether all teachers, trainers and educators or only some are required to receive training to teach GCED and/or ESD.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>1. Sessions dedicated to the values of citizenship and tolerance are provided in some strategic programs, such as programs for new teachers, senior teachers, school leadership, and programs dedicated experts in some subjects such as Arabic and English.</p> <p>2. All teachers in all programs and specializations are given training on the mechanism of including the values of citizenship and sustainable development in their lessons and plans. This is done through workshops and on the job training.</p> |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

C1b. Please provide examples of teacher training policies or curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents. If possible, include examples related to initial training and to continuing professional development.

Regarding teacher training policies or curricula: MOE regularly conducts workshops and programs GCED and/or ESD within the Ministry such as: Citizenship values in curricula and teaching methods, The teacher's role in developing students' citizenship values, Strategies to enhance the culture of dialogue among students, Training of supervisors and teachers on the application of the student and teacher guides for the project "For the Nation: Positive Interaction and a Sense of Responsibility", The toolkit for teacher's role in developing citizenship values, etc.

As for the web links: there is a link for the Department of Citizenship in which there are all the programs and studies carried out by the Department in the field of global citizenship and sustainable development <https://home.moe.gov.om/web/dodmond>

Regarding examples related to initial training and to continuing professional development: Participations in regional forums such as the UNESCO Forum on Global Citizenship and Shared Human Values in Riyadh, Saudi Arabia, the International Conference on Education for Global Citizenship in Korea, the UNESCO Regional Conference on Education for Sustainable Development and Global Citizenship in the Sultanate of Oman, the Regional Forum on Education on Global Citizenship: Promoting Arab Regional Action and Partnerships in the Arab Republic of Egypt, and the UNESCO Forum on Education for Sustainable Development and Global Citizenship.

Moreover, The Specialized Institute for Professional Training for Teachers offers:

- School leadership program: a training session on citizenship values
  - Supervisors' Program: activities and discussions that include instilling citizenship values , positive trends towards work and tolerance in dealing with others
  - Senior Teachers Program: a special session on citizenship values
  - New Teachers Program: special training sessions on citizenship values and practical activities for various disciplines
- 
- English Language Experts Programs: The ninth unit is dedicated to the topic of cultural awareness and includes the values of citizenship and tolerance
  - The Arabic Language Experts Program: an independent session on citizenship and other sessions that include implanting the values of citizenship in activities
  - The Second Educational Phase Experts Program: Educational activities that encourage positive attitudes and citizenship

\*C2 Please indicate whether teachers, trainers and educators are trained to teach GCED and ESD during initial or pre-service training and/or through continuing professional development. Please enter the appropriate number in each white cell.

\*C5 Please indicate whether teachers, trainers and educators are trained to use the following approaches to teach GCED and ESD in primary and secondary education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

|                                                                                                                                                                                                                                                    | Global citizenship and education for sustainable development |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------|
| GCED/ESD are taught as separate subject(s)                                                                                                                                                                                                         | 1                                                            |
| Cross curriculum approach (e.g. GCED/ESD are taught in more than one subject but not throughout the curriculum)                                                                                                                                    | 1                                                            |
| Integrated approach (e.g. GCED/ESD are taught throughout the whole curriculum)                                                                                                                                                                     | 1                                                            |
| Whole school approach (e.g. GCED/ESD are integrated in the school ethos, management, governance, curriculum, teacher training, teaching practices, the learning environment, and in learning experiences in the community and life outside school) | 1                                                            |

D. Student assessment (paras 4 and 5 of the 1974 Recommendation)

D1a. Please describe in which ways GCED and ESD are covered in student assessments and examinations. Indicate whether students are assessed only on their knowledge of and skills related to the topics being tested or also on their values, attitudes and/or behaviours.

Schools organize a range of student school activities to achieve the values of citizenship, including the activities of the National Day celebrations and the celebration of international days such as the International Day of Tolerance and Peace and other activities in school assembly programs, other school activities and Open Day activities.

The evaluation of student learning depends on the outputs / objectives of the curriculum. There are values that are cognitively evaluated in the tests, and others are evaluated in the classroom through daily observation and daily tasks provided by the teacher.

\*D2 Please indicate whether the GCED and ESD themes below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

|                                           | Pre-primary | Primary and secondary | Tertiary | Non-formal education |
|-------------------------------------------|-------------|-----------------------|----------|----------------------|
| 1. Cultural diversity and tolerance       | 1           | 1                     | 1        | 1                    |
| 2. Gender equality                        | 1           | 1                     | 1        | 1                    |
| 3. Human rights                           | 1           | 1                     | 1        | 1                    |

**E. Mainstreaming of GCED and ESD in laws and policies, curricula, teacher education and student assessment** (paras 4-5, 7, 10-19 and 33-37 of the 1974 Recommendation)

\*E1 Based on your responses to questions in the previous four sections (laws and policies, curricula, teacher education and student assessment) please indicate to what extent global citizenship education (GCED) and education for sustainable development (ESD) are mainstreamed<sup>5</sup> in (a) education laws and policies, (b) curricula (c) teacher education (including the training of trainers and educators) and (d) student assessment in your country. Please enter the appropriate number in each white cell in the table below.

**KEY:**

**0 Not at all**

*GCED and ESD are not mainstreamed.*

**1 Partially**

*Some GCED and/or ESD themes<sup>6</sup> are mainstreamed. Select this option if GCED is mainstreamed but ESD is not (or vice versa).*

**2 Extensively**

*Most GCED and ESD themes are mainstreamed.*

**9 Not known**

*It is not known whether GCED and ESD are mainstreamed or not.*

**99 Not applicable**

*The given level of government does not have responsibility for the given component (policies, curricula, teacher education or student assessment) and/or does not have responsibility for the given level or type of education. This may occur at the national level in federal countries where education is the responsibility of individual states or at the sub-national level in small countries where there is only one level of government.*

|                                 | Pre-primary | Primary and secondary | Tertiary | Non-formal education |
|---------------------------------|-------------|-----------------------|----------|----------------------|
| <b>National</b>                 |             |                       |          |                      |
| (a) Education laws and policies | 1           | 1                     | 1        | 9                    |
| (b) Curricula                   | 1           | 1                     | 1        | 1                    |
| (c) Teacher education           | 1           | 1                     | 1        | 9                    |
| (d) Student assessment          | 1           | 1                     | 1        | 9                    |
| <b>Sub-national</b>             |             |                       |          |                      |
| (a) Education laws and policies | 9           | 9                     | 9        | 9                    |
| (b) Curricula                   | 9           | 9                     | 9        | 1                    |
| (c) Teacher education           | 9           | 9                     | 9        | 1                    |
| (d) Student assessment          | 9           | 9                     | 9        | 1                    |

<sup>5</sup> GCED and ESD are mainstreamed if their themes are mentioned explicitly in relevant documents and are expected to be implemented by the relevant authorities (e.g. Ministries, regional or local education authorities), educational institutions (e.g. schools, colleges and universities) and/or education professionals (e.g. teachers, lecturers, trainers and educators) as appropriate.

<sup>6</sup> Refer to the schema in paragraph 11 of Section II of these guidelines.

**F. Technical and vocational education and training** (paras 25-29 of the 1974 Recommendation)

F1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in technical and vocational education and training. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

**Research study: the effectiveness of a training program in raising teachers' awareness of education for sustainable development in the Sultanate of Oman.** The study aimed to measure the effectiveness of a training program in raising the awareness of a sample of social studies and science teachers in the Sultanate of Oman on education for sustainable development. To achieve the aim of the study, a training program was designed in education for sustainable development, in addition to using two tools: the first was the Dimensions of Education for Sustainable Development scale, and the second tool was an interview that included ten questions that were asked to two focused groups of social studies and science teachers: five teachers from Every major. The results of the study indicated that the level of teachers' awareness of ESD issues increased after implementing the training program. In light of the results, the study recommended increasing the awareness of teachers of other school subjects by implementing classroom and extra-curricular activities that serve the topics of sustainable development, developing curricula for subjects in such a way that sustainable development topics are integrated in all stages, and strengthening the role of community partnerships to support school projects related to sustainable development and - **Implementation of the study recommendations:** at the Specialized Institute for Professional Training for Teachers: Provided dedicated sessions and educational activities in citizenship education and sustainable development in all strategic programs at the institute.

**Research study: social responsibility and its relationship to the organizational loyalty of the teaching profession among teachers in the Sultanate of Oman.** The Scientific Research Unit conducted an in-depth research on social responsibility titled "Social Responsibility and its Relation to the Organizational Loyalty to the Teaching Profession of the Teachers in the Sultanate of Oman," where the unit built two scales to measure social responsibility as well as to measure organizational loyalty to the teaching profession, which were applied to a sample of (762) A male and female teacher from the various governorates of the Sultanate. Several research studies have branched out from the study:

- The factorial structure of the social responsibility scale (accepted for publication in a scientific refereed journal)
- The factorial structure of the scale of organizational loyalty to the teaching profession (accepted for publication in a scientific refereed journal)
- Social responsibility and its relationship to the organizational loyalty of teachers in the Sultanate of Oman (in progress)

With the end of the study, it is expected to know the level of social responsibility of the Omani teacher represented in its four axes (personal responsibility, religious and moral responsibility, collective responsibility, and national responsibility). It is also expected that the study will provide indicators about the level of organizational loyalty to the teaching profession, and then find the relationship between responsibility and the Social and organizational loyalty. In addition, the study will provide two metrics that researchers can use to measure social responsibility and organizational loyalty and link them to other educational or psychological variables.

- The most important initiatives that have taken place in vocational education and training are the transformation of vocational training centers into vocational colleges, and the subsequent application of the professional diploma pathway that led to the graduation of students with a professional diploma certificate, which is equivalent to the technical

diploma in terms of career hierarchy, so that the career paths applied in vocational colleges are as follows:

- ❖ Professional diploma: The graduate obtains a diploma in vocational education and enables the graduate to pursue higher education. Students are registered through the Unified Admission Center.
- ❖ Apprenticeships: These are courses associated with employment and training is on the job. Students obtain training certificates according to the training period, which is a training year, two or three years, as follows:
- ❖ Professional competence for one year of training, the trainee will receive a certificate of (limited skill) level.
- ❖ Professional competence for two years of training, the trainee will obtain a certificate of (skillful) level.
- ❖ Professional competence for a period of three years of training, the trainee will receive a certificate of (professional) level.

Professional training courses, which range from 6 to 9 months, are as follows:

- A six-month training course for those enrolled from the sixth to the eighth grade, the trainee receives a certificate of (limited skill) level.
- A nine-month training course for those enrolled from the ninth to twelfth grades, the trainee receives a certificate of (skillful) level.

Results and impact of these initiatives:

- Curriculum development and increase in majors.
- Diversifying training paths.
- Increasing students 'and trainees' interest in enrolling in vocational training.
- Recognition of a professional diploma in the labor market and the possibility of continuing university studies in the same specialty.
- Institutional recognition of the college from external bodies.
- Examples of good practice
- Rehabilitation courses for the handicapped (the participant gets a training course certificate).
- Community service courses (the participant receives a certificate of participation).
- Summer professional and future engineer (the participant will receive a certificate of participation).

These technical and professional courses also helped to:

- ✓ Enhance opportunities for lifelong learning among the residents of the Sultanate, and to benefit from this type of education and training.
- ✓ Provide women with the opportunity to enroll in education and vocational and technical training, and opening many specializations suitable for women.
- ✓ Provide the opportunity for persons with disabilities to enroll in several specializations in technical education and vocational training.
- ✓ Link technical and vocational education majors to the changing needs of the labor market.

**G. Adult education** (para 30 of the 1974 Recommendation)

- G1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in adult education and other forms of non-formal education including youth education, out-of-school education, etc. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

Towards sustainable development and Oman vision (2040) and believing in the principle of "continuous education and lifelong learning", the Ministry of Education developed strategic plans, which included in its goals special initiatives to achieve and develop literacy programs and projects that would accelerate the elimination of illiteracy in the Sultanate. Some programs are still ongoing, and some new ones, according to the following:

**The educated village:** it had a great impact over various governorates of the Sultanate. It accelerated the pace of eliminating illiteracy. The project targets all illiterate people of the village at the same time. The project began in the academic year (2004/2005) and it is ongoing. The educated villages by the end of the year (2018) were (30) Educated Villages.

**Cooperating School:** Adult classes were offered in and off campus by a selection of public schools. This project began in the school year (2003/2004), and the number of cooperating schools by the end of 2018 reached (96) schools.

**Illiteracy eradication in islands and coastal villages:** a project that strived to spread literacy in: Al-Helaniyat Islands in Dhofar Governorate, Masirah Island in Al Sharqiyah South Governorate, and coastal Villages of Lima and Kumzar in Musandam Governorate. The project aimed to provide a studying period of 3 years starting in the academic year 2017/2018 and the number of students enrolled reached (75) male and female students.

**Illiteracy eradication for workers in the private sector:** It is one of the projects based on cooperation between the Ministry of Education and the private sector in the field of illiteracy eradication, as this project targets Omani illiterates working in the private sector, and the project began by an agreement with a private sector company to eradicate illiteracy starting the academic year (2018/2019), provided that the period of study in this project is one academic year, where an intensive study plan to teach Arabic, Islamic education and mathematics

**Illiteracy eradication of persons with disabilities:** It is one of the projects that were launched in the academic year (2018/2019) and targets Omani illiterate persons with disabilities who are able to learn in the Sultanate in cooperation between the Ministry and the competent authorities that support the target group.

**Adult education program for people with special cases:** This program is represented by the Al-Kifah Center for Adult Education, which includes grades (7-12) adult education for people with special cases in the Central Prison (the Reform Center), in which sentenced students are registered and transferred to adult education.

**Adult Education Programs for people with hearing impairment:** centers are running in three different parts of Oman: Al Buraimi , Dhofar and Muscat.

**Regular Adult schools:** regular system schools are opened all over Oman where the criteria to opening them is met

**Adult Education Program for Juveniles:** This program is offered by the Al Hoor Center in the Governorate of Muscat for arrested juveniles.

**Free study education programs:** In this program, students learn by self-teaching and then sit for exams at the end of each semester.

**Technology for adult learning:**

- ☐ Registration of adult education systems is via the educational portal [www.moe.gov.om](http://www.moe.gov.om)
- ☐ Regular announcements of continuing education programs and registration through social media sites, sms, television, radio and official newspapers.
- ☐ Activating the WhatsApp service for communication with teachers and specialists from the Continuing Education Department
- ☐ Activating video conference for workshops and forums to improve professional competence and identify all challenges and solutions.

**The (Al-Rashideen Library) project:** for those who are liberated from illiteracy and who were unable to continue their studies to the higher levels for one reason or another. The Al-Rashideen Library began with (16) booklets, and then developed to (30) booklets. These booklets included various historical, religious, scientific, health, and social topics. The aim of its establishment was to strengthen and develop the national culture of adult learners to face the threat of cultural dependency (ref: <https://home.moe.gov.om/pages/14/show/20> )

Higher education, research and innovation has no age limits. Universities and other higher education facilities offer their services for all age groups.

**H. Research and International Co-operation** (paras 41-45 of the 1974 Recommendation)

H1 Please describe what kinds of research or experimentation have been carried out to improve the implementation of GCED and/or ESD. Describe briefly how the results of such activities have influenced education policies, curricula and/or teaching practices.

Many researches were conducted, including: a case study on the reality of citizenship education in public schools in Oman, and a study on the teacher's role in developing citizenship values among students, which clarifies the role of IT supervisors in activating modern technologies for students' citizenship.

A project entitled "For the sake of the homeland ... positive interaction and a sense of responsibility" where students implement a set of projects related to society to work on finding sustainable solutions for the environment and some social issues related to globalization and contemporary social issues. a database was prepared about these projects.

Implementing activities on digital citizenship entitled (I am a digital citizen).

H2 Please indicate which types of activities are available that promote international co-operation at each level of education by entering the appropriate number in each white cell.

### I. Any other comments

I1 Please indicate whether your country has faced any constraints, in particular related to global or national crises, including natural disasters, in implementing the 1974 Recommendation during the reporting period.

Non

I2 Please provide any other relevant information or clarifications regarding the implementation of the 1974 Recommendation or the mainstreaming of GCED and ESD in your country's education system.

**"Our Heritage, Our Future" initiative** is launched by Oman ASPnet schools within the framework of activating the SDG related to cultural heritage.

The goals of the initiative were formulated to be consistent with the principles of education for sustainable development and are as follows:

- Enhance knowledge, skills and values related to heritage and culture
- Mobilize youth volunteers to safeguard heritage sites including sites registered on the World Heritage List
- Prepare the next generation to take on the responsibility of preserving cultural heritage
- Provide lifelong learning skills
- Activate partnerships with different segments of society in the field of heritage

- Promote the preservation of Oman assets and legacies
- Encourage innovation and entrepreneurship by using cultural legacies, both tangible and intangible
- Create a fertile school environment for cultural exchange

**Outputs:**

- a Heritage related debate in Al-Iraqi Fort in Al-Dhahirah Governorate between two schools (Fatima Bint Qais School vs Imam Saif bin Sultan School) grades(10-12)
- a regional twinning with a high school in Kuwait (Fara'a Bint Abi Al-Salt School) under the title of Omani and Kuwaiti Heritage, through video conferencing
- Project (Emerging tour guide) by Belarab Bin Sultan School
- My Crafts My Future project by Al-Wafa School
- My Heritage Project by Hawa Bint Yazid School.

**Intercultural Competencies for Peace in Oman**

24 to 26 February 2020 at Royal Tulip Hotel, Muscat

The trained trainers of the Manual on intercultural competences based on human rights included 46 ASPnet school teachers from Oman and Kuwait and few employees of the Ministry of Education. The overall goal of the training was to strengthen intercultural competencies, the prerequisite skills and behaviors needed to enhance intercultural dialogue and understanding in the region. By improving, the capacity to understand each other and dialogue better, this training directly contributed to SDG 16 Peace, Justice and Strong Institutions as enabling intercultural dialogue is to promote the understanding of contemporary social transformations and ensure peaceful societies. Furthermore, it makes a crosscutting contribution to the aspirations of the International Decade for the Rapprochement of Cultures (2013 – 2022) of which UNESCO is the lead agency within the UN system

**A comprehensive school approach to climate change project- ASPnet schools**

A global initiative launched by UNESCO in cooperation with the Republic of Japan under the title "Today for Tomorrow" to implement and achieve the goals of the Global Action Program for Sustainable Development, which was launched at the UNESCO World Conference in Nagoya - Japan in 2015. The project aims to encourage Omani schools affiliated with UNESCO to implement school projects on sustainable development in the field of climate change.

UNESCO launched this global initiative in September 2016. The project was implemented at the national level through selecting (10) schools from the Omani schools affiliated with UNESCO as an initial stage. Then, in the second phase of the project, it expanded to the rest of the Omani schools affiliated with UNESCO.

**Outputs:**

- 1- The school takes measures to address and reduce the factors affecting climate change in all aspects of school life
- 2- Male and female students acquire techniques, skills, values and knowledge to ensure sustainable development

- 3- Spreading awareness among male and female students of the importance of not wasting energy and water resources and innovating technologies in this field.

**The Shell Road Safety Award:**

One of the sustainable development initiatives launched in partnership with the private sector.

The award aims to raise awareness and traffic practices, and to promote sound traffic values and trends in the school and local community, with an emphasis on partnership in sustainable activities and projects that serve the school community and the local community in the field of traffic safety. And to confirm the sustainability of the projects, a special award was designated as the Sustainability Prize, in which all the winning schools in the first year compete for the sustainability of their projects for the following year, and to confirm their effectiveness and impact on society.
