

GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE 1974 RECOMMENDATION CONCERNING EDUCATION FOR INTERNATIONAL UNDERSTANDING, CO-OPERATION AND PEACE AND EDUCATION RELATING TO HUMAN RIGHTS AND FUNDAMENTAL FREEDOMS

I. Introduction

A. About the 1974 Recommendation

1. UNESCO's *1974 Recommendation concerning Education for International Understanding, Co-operation and Peace and Education relating to Human Rights and Fundamental Freedoms*¹ (the "*1974 Recommendation*") aims to promote international education and world peace through understanding, solidarity and cooperation. It was adopted on 19 November 1974 by the General Conference of UNESCO at its 18th session.

2. The *1974 Recommendation* applies to formal, non-formal and informal education and to all levels, from pre-primary to tertiary and adult education and lifelong learning. The General Conference recommended "*that Member States should apply*" the provisions included in the *1974 Recommendation* "*by taking whatever legislative or other steps*" that provide institutional (e.g. policies and legal frameworks) and pedagogical (e.g. curricula, teacher training, educational materials, equipment, and student assessment) support for its implementation, based on the "*objectives*", referred to in paragraph 4 of the *1974 Recommendation*, "*regarded as major guiding principles of education policy*" including: an international dimension and a global perspective on education, cultural diversity, interdependence, communication, rights and responsibilities, international solidarity and cooperation, and problem solving.

3. Today, the principles of the *1974 Recommendation* apply equally well to Education for Sustainable Development (ESD) and to Global Citizenship Education (GCED) and therefore represent a powerful tool for promoting the 2030 Agenda for Sustainable Development and in particular SDG Target 4.7 on the promotion of sustainable development and global citizenship through education, Target 12.8 on access to information on sustainable development and Target 13.3 on climate change education.

4. The General Conference in its 39th session recommended the use of the *1974 Recommendation* reporting process to support the implementation and monitoring of Target 4.7 of Sustainable Development Goal 4 (39 C/Resolution 79). The UNESCO Executive Board at its 209th session approved the use of the current guidelines for both the monitoring of the *1974 Recommendation* and the collection of data needed for the following global SDG indicator for which UNESCO is custodian (209 EX/Decision 18.II):

4.7.1, 12.8.1 and 13.3.1: *The extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education and (d) student assessment.*

5. Questions marked with an asterisk (*) will be used in the calculation of the respective indicators (**Table 1**). As approved by the Inter-Agency and Expert Group on the SDG Indicators, the indicators will be calculated for primary and secondary education only.

Table 1 Questions used in the calculation of the global SDG indicator for Targets 4.7, 12.8 and 13.3

Policies	Curricula	Teacher education	Student assessment

B. Reporting obligations

6. The General Conference, at its 18th session, when adopting the *1974 Recommendation* recommended “*that Member States submit [...] reports concerning the action taken by them in pursuance of this recommendation*”. Moreover, in accordance with Article VIII of UNESCO’s Constitution “*Each Member State shall submit to the Organization [...] reports [...] on the action taken upon the recommendations and conventions referred to in Article IV, paragraph 4.*”

7. Thus, **all UNESCO Member States are expected to report on the steps they have taken to implement the 1974 Recommendation** preferably by completing the following questionnaire. Such reporting takes place every four years.

II. Guidelines for completion of the questionnaire

8. This questionnaire and its accompanying guidelines are addressed to Ministers responsible for relations with UNESCO. The questionnaire is typically completed by Ministries of Education and other government authorities responsible for education. Responses should cover, as far as possible, education at all levels of government, including sub-national levels where applicable as well as education outside the government sector.

9. National respondents are encouraged to **consult widely** both within, across and beyond government, including with Ministries of Environment, with national human rights institutions, the education sector, civil society partners and others, as necessary, to gather the information needed to complete the questionnaire.

10. Responses to the seventh consultation should cover:

- (i) the time period 2017-2020;
- (ii) education at all levels of formal education from pre-primary to tertiary education as well as non-formal education;
- (iii) all levels of government that have responsibility for education within the country; and
- (iv) where possible, education outside the government sector.

11. To assist countries in responding to this questionnaire, UNESCO has developed the following set of global citizenship education and education for sustainable development themes. The list is based on a review of current common practices in many countries as well as a review of relevant literature. While the terms ESD and GCED may be used differently in some countries, the list of themes typically captures what are seen as key elements of Target 4.7. Please refer to the definitions of key terms in **Section III** before completing the questionnaire.

Global citizenship education and education for sustainable development

- 1. cultural diversity and tolerance
 - 1.1 international or intercultural understanding, solidarity and cooperation
 - 1.2 intercultural and interreligious dialogue
 - 1.3 local, national and/or global citizenship
- 2. gender equality education
 - 2.1 gender-based equal opportunities
 - 2.2 gender equality and justice
 - 2.3 gender roles, identity and stereotypes

3. human rights education
 - 3.1 equality and non-discrimination based on race, colour, language, religion, disability, political or other opinion, national or social origin, birth or other status
 - 3.2 human rights values, human dignity, justice, inclusion and participation
 - 3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)
4. peace and non-violence
 - 4.1 friendly relations among peoples and nations
 - 4.2 challenging negative stereotypes, promoting peaceful solutions, learning to live together, including others and preventing violent extremism
 - 4.3 preventing all forms of violence including bullying, verbal abuse and gender-based violence
5. climate change education
 - 5.1 mitigation
 - 5.2 adaptation
 - 5.3 impact reduction
 - 5.4 early warning
6. environmental sustainability
 - 6.1 caring for the planet, protecting nature
 - 6.2 environmental justice
 - 6.3 biodiversity, water
7. human survival and well-being
 - 7.1 environmental health as it pertains to human well-being, disaster risk reduction
 - 7.2 health of the planet for future generations
 - 7.3 sustainable cities and communities
8. sustainable consumption and production
 - 8.1 responsible and sustainable lifestyles
 - 8.2 green economy, green jobs
 - 8.3 sustainable energy

III. Definitions of key terms

Term	Definition
Themes of global citizenship and education for sustainable development	
1. Cultural diversity and tolerance	<i>Education about and for diversity including language, ethnicity, race, religion as well as the development of tolerance, mutual respect and appreciation for cultural diversity. It includes intercultural and interreligious dialogue, understanding, solidarity and co-operation, and citizenship education.</i>
2. Gender equality education	<i>Education that addresses the wider issue of gender equality by promoting new attitudes and patterns of belief, transforming the way people think about traditional gender roles and helping to build long-term sustainable change. It examines how gender roles, activities, needs, opportunities, rights and entitlements affect men, women, girls and boys differently. It deals with the relationships between females and males, their access to and control of resources and the constraints they face relative to each other. It respects the rights of all learners – women, men, boys and girls – equally and gives equal access to learning opportunities, resources and protections. All learners benefit from and are treated in education equally without the limitations set by stereotypes, rigid gender roles and prejudices. It covers gender-based equal opportunities, gender equality and justice, and gender roles, identity and stereotypes.</i>
3. Human rights education	<i>Education that promotes universal respect for and observance of all human rights and fundamental freedoms and thus contributes, inter alia, to the prevention of human rights violations and abuses by providing persons with knowledge, skills and understanding and developing their attitudes and behaviours, to empower them to contribute to the building and promotion of a universal culture of human rights.</i> <i>It includes equality and non-discrimination, human rights values, dignity, justice, inclusion and participation and respect for human rights and fundamental freedoms.</i>
4. Peace and non-violence	<i>Education about peace and peace-building, mediation, conflict prevention and resolution, non-violence, reconciliation and living together peacefully. It includes advocating for friendly relations among peoples and nations, challenging negative stereotypes, promoting peaceful solutions, learning to live together and preventing violent extremism and other forms of violence including bullying.</i>
5. Climate change education	<i>Education to help people, in particular youth, understand, address, mitigate, and adapt to the impacts of climate change. It encourages changes in attitudes and behaviours needed to put the world on a more sustainable development path, and build a new generation of climate change-aware citizens.</i> <i>It covers various responses to climate change including mitigation, adaptation, impact reduction and early warning.</i>
6. Environmental sustainability	<i>Education about responsible interactions with the environment to avoid depletion or degradation and to promote environmental quality and health. It includes, caring for the planet and protecting nature, environmental justice, biodiversity and water.</i>
7. Human survival and well-being	<i>Education that promotes social well-being and harmony including in future generations due to healthy environmental systems. It includes health of the planet and environment related to human well-being, disaster risk reduction and sustainable cities and communities.</i>

8. Sustainable consumption and production	<i>Education on the use and production of resources, products and services that have a minimal adverse impact on the environment. It promotes resource and energy efficiency, sustainable infrastructure and green jobs. It includes responsible and sustainable lifestyles, the green economy and sustainable energy.</i>
Dimensions of learning	
Knowledge	<i>Factual information and understanding acquired through study and/or experience.</i>
Skills	<i>The ability to carry out a task well as a result of training, practice and innate aptitude. Skills may be physical, mental or both.</i>
Values	<i>Principles that form the foundation on which individuals conduct themselves and interact with others and with the environment around them.</i>
Attitudes and behaviours	<i>Ability to act on the basis of beliefs and knowledge acquired through study or experience.</i>
Levels of education	
Pre-primary	<i>Education designed to support children's early cognitive, physical, social and emotional development and introduce young children to organized instruction outside of the family context. Participants are usually aged from three years.</i>
Primary and secondary	<i>Education designed to:</i> <i>(i) provide students with fundamental skills in reading, writing and mathematics (i.e. literacy and numeracy) and establish a solid foundation for learning and understanding core areas of knowledge and personal development (primary education); and</i> <i>(ii) prepare students for further education at post-secondary and tertiary levels and for entry into the labour market (secondary education).</i> <i>It includes both general and vocational education.</i>
Tertiary	<i>Education designed to provide learning activities in specialised fields of education. It aims at learning at a high level of complexity and specialisation. It includes both what is commonly understood as academic education and advanced vocational or professional education.</i>
Types of education	
Adult education	<i>Education specifically targeted at individuals who are regarded as adults by their society to improve their technical or professional qualifications, further develop their abilities, enrich their knowledge with the purpose to complete a level of formal education, or to acquire, refresh or update their knowledge, skills and competencies in a particular field.</i>
Formal education	<i>Education that is institutionalized, intentional and planned through public organizations and recognized private bodies which – in their totality – constitute the formal education system of a country. Formal education programmes are recognized by the relevant national or sub-national education authorities. Formal education consists mostly of initial education (e.g., pre-primary, primary, secondary and tertiary education).</i>
Non-formal education	<i>Education that is an addition, alternative and/or a complement to formal education within the process of the lifelong learning of individuals. It is often provided to guarantee the right of access to education for all. It caters to people of all ages but does not necessarily apply a continuous pathway-structure. It may be short in duration and/or low-intensity, and it is typically provided in the form of short courses, workshops or seminars. Non-formal education mostly leads to qualifications that are not</i>

	<i>recognized by the relevant national or sub-national education authorities or to no qualifications at all. Non-formal education includes programmes on life skills including literacy and numeracy, work skills, and social or cultural development. Most types of adult education are also included.</i>
Vocational education	<i>Education that is designed for learners to acquire the knowledge, skills and competencies specific to a particular occupation or trade or class of occupations or trades. Vocational education may have work-based components (e.g. apprenticeships). Successful completion of such programmes leads to labour-market relevant vocational qualifications acknowledged as occupationally-oriented by the relevant national authorities and/or the labour market. Vocational education can be offered at secondary and post-secondary or tertiary levels of education.</i>

IV. Information about the respondent

Country:

Lithuania

Organization:

Ministry of Education, Science and Sport

Date of submission:

12.02.2021

V. Other contributors consulted during the completion of this questionnaire

Please indicate below the names of other organizations and contributors consulted during the completion of this questionnaire.

Government institutions including other Ministries (please specify):

National Agency for Education (<https://www.nsa.smm.lt/english/>)

National human rights institutions (please specify):

Local and regional authorities responsible for education (please specify):

Other local and regional authorities (please specify):

Organizations representing education stakeholders (e.g. teachers, students, parents, etc.)
(please specify):

Other civil society organizations (please specify):

Others (please specify):

VI. Questionnaire

A. Laws and policies (preamble and paras 4 and 7 of the 1974 Recommendation)

A1a. Please describe any specific national or sub-national laws, legislation or legal framework(s) in your country that govern the promotion of global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes² are mentioned explicitly or are inferred and what types or levels of education are covered.

The main principles/aspects of global citizenship education (GCED) and education for sustainable development (ESD) are included in our national laws (in the field of education these are the Law on Education, the Law on Vocational Education and Training, the Law on Higher Education and Research, the Law on Nonformal Adult Education and Continuous Learning) as well as in national long-term strategic documents with the aim to ensure successful development of responsible, active, independent, creative personalities who can add fruitfully to their own future as well as to sustainable growth of their society and the world. For this purpose, GCED and ESD related themes are integrated and represented in all levels of education – from ECEC to adult education.

Lithuania's Progress Strategy "Lithuania 2030" reflects a national vision and priorities for development as well as guidelines for their implementation by 2030. The Strategy identifies national development policies and is built on the principles of sustainable development. The implementation of a vision set in "Lithuania 2030" is guided by progress-relevant values such as openness (to a different view, to positive initiatives, to a dialogue, cooperation, and innovations), creativity (in generation and implementation of new ideas, treating challenges as new possibilities of building success), responsibility (for actions taken, morality, active concern not only about themselves, but also the environment, community and the country at large). Changes should take place in the areas of "smart society", "smart economy" as well as "smart governance".

The National Progress Plan 2021-2030 is focused on the most important future developments, forthcoming changes and social, economic, environmental, security progress. The plan is related to the Lithuania's Progress Strategy "Lithuania 2030" and is strongly based on all the SDGs. The main horizontal principles of this plan are sustainable development, innovation (creativity), equal opportunities for all.

National Strategy for Sustainable Development ensures national commitment and implementation of the SDGs. It aligns with the SDGs and stresses commitment to policy coherence as a main implementation principle. The integration of economic, social and environmental actions in overarching strategic documents is a key principle of the national strategy to ensure they are coherent and mutually reinforcing.

GCED as well as ESD related themes are incorporated in the programme of the new Government (national Parliamentary election took place in October 2020). One of the foreseen projects in the programme is focused on the creation of the Lithuanian society as a partner for green transformation. Evidence based as well as sustainable political decisions are examples of horizontal principles of the Programme.

² See the schema described in paragraph 11 of Section II of these guidelines.

A1b. Please provide the full names of any laws, legislation or legal frameworks referred to in A1a and, where possible, web links to relevant documents.

8. Sustainable consumption and production	1	1	1	99	99	99	99	99

A3a. Please describe any specific current national or sub-national education policies, frameworks or strategic objectives in your country that promote global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes³ are mentioned explicitly or are inferred and what types or levels of education are covered.

Global citizenship education (GCED) and education for sustainable development (ESD) are promoted in the mentioned long-term national strategic documents (i.e., Lithuania's Progress Strategy "Lithuania 2030", National Strategy for Sustainable Development, National Progress Plan 2021-2030), the main principles/aspects of GCED and ESD are also covered in our National Education Strategy 2013-2022 - the overarching strategic document in the field of education, covering all levels of education.

The main aim of the National Education Strategy 2013-2022 is to make education a stable basis for the State's welfare, and to foster independent and active mindsets of citizens capable of creating goods for themselves and other individuals/societies, keeping up with sustainable growth. The Strategy is developed in accordance with the EU strategic framework Education and training 2020 (ET 2020) and focuses on the EU-related targets in the field of education, it also incorporates the main principles of the UNESCO's 2030 Agenda.

The Interinstitutional Action Plan for Civic and National Education (2016-2020) is focused on effective civic and national education by promoting democratic values, tolerance, active citizenship, community development, critical thinking, participation in various social activities – all those principles/means are closely related to GCED/ESD.

The Guidelines for the Development of General Education School (2017) are aimed at identifying the areas and strategic objectives of systemic change (in national curriculum, teacher education, educational research, strategic governance of schools, financing) in Lithuanian general education. The goal of such changes is to concentrate the efforts of educators, the whole school community to reveal the individuality of each student, to ensure personal maturity, achievements and progress, to develop competencies important for a successful professional career, responsible social activities and self-expression in accordance with humanistic values. The background of the mentioned changes is related to principles of sustainable development.

Our national (general) curriculum is currently being redesigned. The goal is to ensure inclusive, high quality education and lifelong learning for all geared towards sustainable development. The renewal of national curriculum takes into account both global and regional recommendations and frameworks and is developed in line with UNESCO's 2030 Agenda, EU agenda and OECD guidelines.

The new curriculum concept (Guidelines for Updating the General Curriculum Framework – approved by the Minister's decree in November 2019) defines curriculum renewal priorities, learning goals, quality criteria, cross-curriculum priorities, the structure of the new curriculum, etc. The Guidelines contribute to the implementation of provisions of our long-term strategic documents (i.e., Lithuania's Progress Strategy "Lithuania 2030") as well as sustainable developments goals (especially SDG4). Out of three cross-curriculum priorities one directly represents the SDGs.

The Programme of the XVIII Government (2020) states that strong education system is key for sustainable future and national growth, therefore one of the main goals to achieve – equal opportunities for quality education for all. Language, numeracy, science, IT, financial, cultural and civic literacy are presented as basis for curriculum development. Although the content of non-formal education is not imperatively regulated, there are many non-formal education programs (e.g. "In Harmony with Nature", "Sustainably. Consciously. Actively", "Bridges of Cultures", "So Different, so Similar" and many others) as

³ See the schema described in paragraph 11 of Section II of these guidelines.

well as initiatives (Globe, campaign “We do!”, Baltic Summer Academies, etc.) which respond to the GCED and ESD topics. The Concept of Non-formal Education of Children states the aim to develop competencies that provide opportunities for a person to become an active member of society, to function successfully in society, to help meet the needs of cognition and self-expression. Among the main goals of non-formal education of children is to develop respect for human rights, dignity, citizenship, nationality, democratic attitudes towards the diversity of worldviews, beliefs and ways of life.

A3b. Please provide the full names of any education policies, frameworks or strategic objectives referred to in A3a and, where possible, web links to relevant documents.

B. Curriculum (paras 4 and 10-19 of the 1974 Recommendation)

B1a. Please describe in which ways GCED and ESD are mainstreamed in school curricula. Indicate whether topics are taught as standalone subjects or are integrated into the curricula of other subjects. Explain whether GCED and/or ESD themes⁴ are mentioned explicitly or are inferred and what types or levels of education are covered.

Topics of GCED and ESD are integrated in school curricula and are mainstreamed through lessons of various subjects. The general curriculum framework foresees strengthening the integration of curricula. e.g., the Program of development of general competencies and life skills consists of the following integrative programs:

- Learning to Learn Integrative Program;
- Communication integration program;
- Integrated Program for Sustainable Development;
- Health and Life Skills Integration Program;
- Integrated Cultural Awareness Program;
- Prevention programs

https://www.smm.lt/uploads/documents/svietimas/ugdymo-programos/11_Bendruju_kompetenciju_.pdf

The development of citizenship, social cognition, sustainability, cultural and ethical competences is coded in the general education curriculum from pre-school to secondary education (<https://www.nsa.smm.lt/ugdymo-turinio-departamentas/ugdymo-turiny/bendrosios-programos/>).

These competencies are broadly integrated and are planned to be developed in the updated general curriculum framework (<https://www.nsa.smm.lt/2019/11/19/patvirtintos-bendruju-programu-atnaujinimo-gaires/>)

The renewal of general curriculum framework includes strengthening the development of personal values, social and emotional abilities, self-confidence, resilience, creativity; the development of trust, respect and tolerance for dissent, cultural diversity, national identity, citizenship, including culture of democratic dialogue and sustainable development

B1b. Please provide examples of curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents.

Some examples of curricula in which GCED and ESD are mainstreamed:

Ethical education

https://www.smm.lt/uploads/documents/svietimas/ugdymo-programos/2_Dorinis_ugdymas.pdf

Social education (History, geography, citizenship education, economics and entrepreneurship)

https://www.smm.lt/uploads/documents/svietimas/ugdymo-programos/6_Socialinis-ugdymas.pdf

Natural science education

https://www.smm.lt/uploads/documents/svietimas/ugdymo-programos/5_Gamtamokslinis-ugdymas.pdf

⁴ See the schema described in paragraph 11 of Section II of these guidelines.

***B2** Please indicate which GCED and ESD themes are taught as part of the curriculum at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
1. Cultural diversity and tolerance	1	1	1	1
2. Gender equality	1	1	1	1
3. Human rights	1	1	1	1

***B4** Please indicate the approaches used to teach GCED and ESD in primary and secondary education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Global citizenship and education for sustainable development
GCED/ESD are taught as separate subject(s)	
Cross-curriculum approach (e.g. GCED/ESD are taught in more than one subject but not throughout the curriculum)	
Integrated approach (e.g. GCED/ESD are taught throughout the whole curriculum)	1
Whole school approach (e.g. GCED/ESD are integrated in the school ethos, management, governance, curriculum, teacher training, teaching practices, the learning environment and in learning experiences in the community and life outside school)	1

B5 Please indicate which human rights education themes are taught as part of the curriculum at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
3. Human rights education				
3.1 equality and non-discrimination based on race, colour, language, religion, disability, political or other opinion, national or social origin, birth or other status	1	1	1	1
3.2 human rights values, human dignity, justice, inclusion and participation	1	1	1	1
3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)	1	1	1	1

C. Teacher education (including the training of trainers and educators) (paras 4 and 33-37 of the 1974 Recommendation)

C1a. Please describe in which ways GCED and ESD are mainstreamed in initial training and in continuing professional development of teachers, trainers and educators. Indicate whether all teachers, trainers and educators or only some are required to receive training to teach GCED and/or ESD.

These strategic national documents describe requirements for teacher initial training programmes and stipulates that EVERY initial training programme should include concepts and ideas related to

GCED and ESD

<https://e-seimas.lrs.lt/portal/legalAct/lt/TAD/5c4afaf0a04a11e591078486468c1c39?positionInSearchResults=4&searchModelUUID=a83925c4-16b7-43c3-85a7-ab>

<https://e-seimas.lrs.lt/portal/legalAct/lt/TAD/TAIS.364217/asr>

Among other subjects, the following are included:

- Education science theory, historical, philosophical, sociological and intercultural aspects of analysis of education and training
- Personal development and personal maturity
- Diversity of learners, taking into account the context of those with special educational needs (inclusive education) and those who are talented
- Healthy living and human safety
- Sustainable development of a person, society, organisation

Numerous continuing development courses in ESD or GCED are offered to teachers, trainers and educators by three main National Teacher Training Centers, as well as by regional Centers of Education, that aim to strengthen skills and competencies of education professionals (e.g. <https://www.fsf.vu.lt/paslaugos/neformalios-studijos/pedagogines-studijos#tvarios-inovacijos-ir-i-ateiti-orientuotas-mastybas-pamokoje>;

<https://www.fsf.vu.lt/paslaugos/neformalios-studijos/pedagogines-studijos#lytis-ir-svietimas-lyciu-stereotipai-svietime-ir-profesiniame-konsultavime>)

Regional Centers of Education also offer, e.g.

<http://www.marsc.lt/programos/klimato-svyravimai-bei-prognostiniai-scenarijai/id:5006>

It is worth to stress out that in 2018 Lithuania adopted The Code of Ethics for Educators (https://www.smm.lt/uploads/documents/en_versijai/legal_information/kodeksasEN%20internetui.pdf). The Code defines main principles of conduct and activity for educators such as respect, justice, responsibility, fairness, care and solidarity but the principle of recognition of human rights is considered to be a key aspect of teachers' activities. Each school sets its own ethical and behavioral norms for its community, albeit in accordance with this document.

C1b. Please provide examples of teacher training policies or curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents. If possible, include examples related to initial training and to continuing professional development.

6. Environmental sustainability	1	1	1	1
7. Human survival and well-being	1	1	1	1
8. Sustainable consumption and production	1	1	1	1

*C4 Please indicate whether teachers, trainers and educators are trained to teach the following dimensions of learning in GCED and ESD. Please enter the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Knowledge	1	1	1	9
Skills	1	1	1	9
Values	1	1	1	9
Attitudes and behaviours	1	1	1	9

*C5 Please indicate whether teachers, trainers and educators are trained to use the following approaches to teach GCED and ESD in primary and secondary education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Global citizenship and education for sustainable development
GCED/ESD are taught as separate subject(s)	
Cross curriculum approach (e.g. GCED/ESD are taught in more than one subject but not throughout the curriculum)	
Integrated approach (e.g. GCED/ESD are taught throughout the whole curriculum)	1
Whole school approach (e.g. GCED/ESD are integrated in the school ethos, management, governance, curriculum, teacher training, teaching practices, the learning environment, and in learning experiences in the community and life outside school)	1

D. Student assessment (paras 4 and 5 of the *1974 Recommendation*)

D1a. Please describe in which ways GCED and ESD are covered in student assessments and examinations. Indicate whether students are assessed only on their knowledge of and skills related to the topics being tested or also on their values, attitudes and/or behaviours.

In general education, GCED and ESD topics are assessed through external examinations of student achievements in grades 4, 8, 10, and 12. These topics are reflected in world cognition, social science tests in grades 4, 8, and 10, respectively. The topics of GCED and ESD are included into the tasks of State Matura exams in grade 12 (in history, geography and partly in biology exams). In all the above-mentioned assessments and examinations students must demonstrate not only their knowledge, but also their ability to apply, evaluate, analyze and interpret it.

*D2 Please indicate whether the GCED and ESD themes below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
1. Cultural diversity and tolerance	1	1	1	99
2. Gender equality	1	1	1	99
3. Human rights	1	1	1	99
4. Peace and non-violence	1	1	1	99
5. Climate change	1	1	1	99
6. Environmental sustainability	1	1	1	99
7. Human survival and well-being	1	1	1	99
8. Sustainable consumption and production	1	1	1	99

*D3 Please indicate which of the dimensions of learning in GCED and ESD below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Knowledge	1	1	1	99
Skills	1	1	1	99
Values	1	1	1	99
Attitudes and behaviours	1	1	1	99

E. Mainstreaming of GCED and ESD in laws and policies, curricula, teacher education and student assessment (paras 4-5, 7, 10-19 and 33-37 of the 1974 Recommendation)

*E1 Based on your responses to questions in the previous four sections (laws and policies, curricula, teacher education and student assessment) please indicate to what extent global citizenship education (GCED) and education for sustainable development (ESD) are mainstreamed⁵ in (a) education laws and policies, (b) curricula (c) teacher education (including the training of trainers and educators) and (d) student assessment in your country. Please enter the appropriate number in each white cell in the table below.

KEY:

0 Not at all

GCED and ESD are not mainstreamed.

1 Partially

Some GCED and/or ESD themes⁶ are mainstreamed. Select this option if GCED is mainstreamed but ESD is not (or vice versa).

2 Extensively

Most GCED and ESD themes are mainstreamed.

9 Not known

It is not known whether GCED and ESD are mainstreamed or not.

99 Not applicable

The given level of government does not have responsibility for the given component (policies, curricula, teacher education or student assessment) and/or does not have responsibility for the given level or type of education. This may occur at the national level in federal countries where education is the responsibility of individual states or at the sub-national level in small countries where there is only one level of government.

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
National				
(a) Education laws and policies	2	2	2	99
(b) Curricula	2	2	2	2
(c) Teacher education	2	2	2	99
(d) Student assessment	2	2	2	99
Sub-national				
(a) Education laws and policies	99	99	99	99
(b) Curricula	99	99	99	99
(c) Teacher education	99	99	99	99
(d) Student assessment	99	99	99	99

⁵ GCED and ESD are mainstreamed if their themes are mentioned explicitly in relevant documents and are expected to be implemented by the relevant authorities (e.g. Ministries, regional or local education authorities), educational institutions (e.g. schools, colleges and universities) and/or education professionals (e.g. teachers, lecturers, trainers and educators) as appropriate.

⁶ Refer to the schema in paragraph 11 of Section II of these guidelines.

F. Technical and vocational education and training (paras 25-29 of the 1974 Recommendation)

- F1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in technical and vocational education and training. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

The Action Plan for Lifelong Learning for 2017-2020 was adopted by the Ministry of Education and Science in June 2017.

The Action plan foresees updating VET curricula and VET methods, focusing on competitive 21st century competences; developing a sustainable network of VET institutions; increasing social inclusion; and setting up efficient conditions and incentives for lifelong learning. Priority has been given to designing modular VET programmes with a policy target that, by December 2020, all VET programmes should be modular.

Since 2021 curricula for all new modular programmes were designed to include competences of critical appreciation and curiosity, a concern for ethical issues and support for both safety and environmental sustainability, in particular as regards scientific and technological progress in relation to oneself, family, community, and global issues.

G. Adult education (para 30 of the 1974 Recommendation)

- G1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in adult education and other forms of non-formal education including youth education, out-of-school education, etc. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

In general, the provisions of the Law on Non-formal Adult Education and Continuous Learning, non-formal adult education programs (through the development of general competencies, e.g. cultural, as well as targeted programs, e.g. energy saving, ecosystem protection, etc.) contribute to the promotion of GCED and ESD.

Other relevant initiatives:

Projects (on the provision of basic skills, second change education, etc.)

The network of regional adult learning coordinators was established with the aim to foster adult participation in lifelong learning activities

In 2017 - 2018 the project "Epale" Lithuanian National Support Service was implemented for the development of an electronic learning platform for adult education professionals in Lithuania. The main goal of the project is to bring together a community of adult education professionals in a multilingual, dynamic, interactive and innovative space. The platform is open to adult educators, andragogues, lecturers, volunteers, as well as policy makers, researchers and teachers working in the field of adult education.

Lithuania has also developed an e-learning platform - the Adult Learning Information System (SMIS). This system is designed to develop non-formal adult education. The system includes more than 500 self-education digital learning programs in nine key competencies: foreign, native and state languages, computer and digital literacy,

entrepreneurship, legal, civic and political literacy, interpersonal and cultural communication, health, and artistic self-expression.

16 non-formal education programs on sustainable development, as well as 27 non-formal education programs on ecological education have been developed, approved and are being implemented. e.g., <https://www.aikos.smm.lt/Registrai/Kvalifikacijos-tobulinimo-programos/SitePages/Pagrindinis.aspx?ss=471edbfe-2049-451e-ab95-726343b6c016>

<https://www.aikos.smm.lt/Registrai/Kvalifikacijos-tobulinimo-programos/SitePages/Pagrindinis.aspx?ss=471edbfe-2049-451e-ab95-726343b6c016>

H. Research and International Co-operation (paras 41-45 of the 1974 *Recommendation*)

H1 Please describe what kinds of research or experimentation have been carried out to improve the implementation of GCED and/or ESD. Describe briefly how the results of such activities have influenced education policies, curricula and/or teaching practices.

Research, surveys and analyses on both subjects are being done by different Universities, NGOs, Research institutions. Their findings are being fed into the education policies through different channels – e.g. through renewal by Universities of initial and in-service training programmes for teachers, through public consultations (in case of the recent process of renewal of national core curriculum), etc. E.g. National Education NGO Network has prepared several studies on “Development of Citizenship in Formal and Non-formal Education”

<https://svietimotinklas.lt/en/tyrimas/feasibility-study-development-of-citizenship-in-formal-and-non-formal-education/>), the findings and recommendations of which were taken into consideration when working on the new core curriculum (the representatives of the Network were active participants of the national consultation process in the new curriculum).

H2 Please indicate which types of activities are available that promote international co-operation at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Hosting of international meetings on GCED and/or ESD	1	1	1	1
Participation in international meetings abroad on GCED and/or ESD	1	1	1	1
Support for programmes hosting foreign students, researchers and/or teachers	1	1	1	1
Membership of international networks including ASPnet	1	1	1	1
Joint research projects on GCED and/or ESD with foreign institutions	1	1	1	1
Other activities (please specify):				
Participation in various international education programmes/projects/initiatives (eg., Erasmus+, Nordplus, Globe, Baltic Summer Academies, etc.	1	1	1	1

I. Any other comments

I1 Please indicate whether your country has faced any constraints, in particular related to global or national crises, including natural disasters, in implementing the 1974 Recommendation during the reporting period.

Covid-19 related situation

- 12 Please provide any other relevant information or clarifications regarding the implementation of the 1974 Recommendation or the mainstreaming of GCED and ESD in your country's education system.

The majority of Lithuanian education institutions participate in various international programmes (Erasmus+, Nordplus) and bilateral projects. Considerable part of the mentioned international initiatives is directly related to GCED and ESD topics. Participation in international activities not only enhances intercultural understanding, increases tolerance for other cultures, but also provides opportunity to learn from one another and increase education quality by sharing best practices and acting together.

Some examples of Erasmus+ projects:

Programme for promotion of inclusiveness and tolerance in ECEC and primary education (non-formal education) - Erasmus+ project (2015-2017) compiled international picture book collections, approaches and activities that address three issues: Inclusion, Diversity and Identity. Identity and Diversity Picture Book Collections (IDPBC) have been proved to be valuable educational tool, bringing multiple learning benefits to diverse groups of learners. This tool strived to empower children from disadvantaged backgrounds to see themselves in the curriculum, enable all children to function within diverse/multicultural educational environments, and prepare teachers to teach diverse learners (<https://ec.europa.eu/programmes/erasmus-plus/projects/eplus-project-details/#project/2015-1-LT01-KA201-013492>)

Integrated programme of citizenship education (for grades 9-12) (formal education) - Erasmus+ project (2016-2018) promoted social education, that builds on the understanding of economics as an integral part of a complex social domain and the functioning of society, as a space for human action and human cooperation embracing different aspects of everyday life, decisions and assessments that inherently and invariably relate to ethical, social and civic considerations. Project provided a package of curriculum resources of 31 modules for grades 9 to 12 and an online teacher's platform with lesson plans, content, techniques for classwork and independent study, videos, and other supporting digital content (<https://ec.europa.eu/programmes/erasmus-plus/projects/eplus-project-details/#project/2016-1-LT01-KA201-023232>)

Nordplus Junior teacher exchange project "Eco-friendly Europe for a Future Green World" is being implemented in synergy with eTwinning project (2020-2021) (<https://twinspace.etwinning.net/130708/pages/page/1171992>).

Baltic Summer Academies are aimed at fostering an inclusive and democratic culture through promotion and implementation of citizenship and human rights education using whole school approach - <https://theewc.org/projects/baltic-summer-academy/>

ESD and GCED issues are also being addressed through different seminars, conferences, events, offered to teachers and educators, and organised by municipal education centers (centers, that offer consultation, in-service training for teachers and other pedagogical or non-pedagogical personnel) e.g. http://www.krsc.lt/index.php?option=com_content&view=article&id=638:tarptautine-konferencija-darnaus-vystymosi-svietimas-kokybiskas-svietimas&catid=65&Itemid=1057&lang=lt

GCED and ESD related topics are included in various OER platforms and practical online tools

e.g., Teacher's TV (<https://mokytojotv.emokykla.lt/search?q=globaliojo>), interactive environment for teachers and pupils

"Educational Garden" (<https://sodas.ugdome.lt/mokymo-priemones/4753>),

Education portal E-School (<https://www.emokykla.lt/bendrasis/nsa-skaitmenines-mokymo-priemones>), etc.
