There is also a special committee for children who are not subscribed in a school (Geschillencommissie Passend Onderwijs). As a parent, you can submit a case here concerning the (refusal of) admission of a child who needs extra support, the removal of a child or the decision on or adjustment of the development perspective of a child who needs extra support. https://www.onderwijsgeschillen.nl/en/educational-disputes-alternative-dispute-resolution-in-education/ The Dutch government has appointed a national coordinator against discrimination and racism. This coordinator is an independent commissioner who advises the government on this issue. He is working for society as a whole, so not only focussing on educational issues. https://www.rijksoverheid.nl/documenten/rapporten/2021/06/11/functie-en-opdracht-nationaal-coordinator-tegen-discriminatie-en-racisme

The government initiated the 'Equal Opportunities Alliance', in which schools, municipalities and civil society partners are working together to improve equal opportunities in education. Within the programme, there is special attention to the wider living environment, like at home, within the neighbourhood, and public places like libraries. The alliance has an active role in several programmes around equal opportunities, for example the programme 'School and Environment', in which several extra-curricular activities are offered on culture, sports, technique and nature. The government has made a fund available for coalitions and schools to offer these activities. For 2023/2024 and 2024/2025, the budget of the fund is €563.103.423 per year.

In the Netherlands, there are several legal obligations that prescribes schools and educational institutions to ensure gender equality. For example, there is a 'General law for equal treatment' (Algemene wet gelijke behandeling). Also there are legal requirements for citizenship and social safety, in which gender equality is included.

The internship pact of vocational education and training (VET) focuses on four themes, one of the themes is eliminating internship discrimination. Within the programme representatives of employers, schools, students, teachers and government work together on a set of goals and measures to eliminate internship discrimination of VET students. An example of a measure is that VET school must have an easy-to-reach reporting point where students can report internship discrimination and obtain support and after-care. Or that schools start with objectively matching students with internships in their first year, to prevent discrimination in recruitment and selection of internships.

The program 'Inclusief onderwijs' aims for an inclusive education system in the Netherlands in 2035. In this school system quality education is provided and all children can develop optimally within their mental and physical capabilities. This approach respects their individual personalities, talents, creativity, and mental and physical abilities. All children are prepared for full and equal participation in society.

Other measures adopted to both prevent and eliminate discrimination in education and ensure equal access to all levels and types of education:**Doorstroomtoets**

Aan het eind van het basisonderwijs krijgen alle leerlingen een advies van de basisschool welk schooltype het beste bij het kind past in het voortgezet onderwijs. Basisscholen moeten daarnaast bij alle leerlingen een doorstroomtoets afnemen, zowel in het regulier onderwijs, speciaal onderwijs en speciaal basisonderwijs. De doorstroomtoets is een objectieve beoordeling van het niveau dat leerlingen hebben op het gebied van taal en rekenen (de referentieniveaus voor taal en rekenen). De doorstroomtoets laat zien welk type vervolgonderwijs bij een leerling past.

What challenges were encountered in achieving gender equality in and through education? If needed, brief quantitative information may be added.

Research by the Education Council shows that differences between boys and girls are not so much due to differences in skills and brains, and that boys do not perform worse due to an overrepresentation of women in primary education. Differences in educational and professional careers arise at home, among peers, at school and in society. They are mainly related to conscious or unconscious ideas about gender. Teachers, pupils and students take these ideas into education. It concerns ideas about what boys and girls are good at and about professions that suit them. This can lead to boys and girls being given unequal opportunities and their freedom of choice being limited.

Does the legal minimum age for marriage conform to international standards (18 years) [1]: Please note that child marriage is a discriminatory practice as often girls can marry at a younger age than boys. Child marriage violates the child's right to education as they are more likely to drop out of school and children who are not in school are more likely to get married. [1] Please note that according to the Joint general recommendation No. 31 of the Committee on the Elimination of Discrimination against Women/general comment No. 18 of the Committee on the Rights of the Child on harmful practice, para. 20: "a marriage of a mature, capable child below 18 years of age may be allowed in exceptional circumstances, provided that the child is at least 16 years of age and that such decisions are made by a judge based on legitimate exceptional grounds defined by law and on the evidence of maturity, without deference to culture and tradition."

Yes

- Please provide reference to the relevant laws and provisions and indicate the exceptions to the legal age of marriage as well as the absolute minimum age:

- Please elaborate and, where appropriate, indicate the legal and policy measures taken: In the Netherlands, all children have the right to education (including undocumented children and children without a residence permit). For children who have just arrived in the Netherlands it's possible to start in a reception class if needed. Schools and municipalities will at least once a year discuss how they will guarantee education for all migrant children. Temporary educational facilities for refugees from Ukraine in times of massive influx: https://www.government.nl/topics/reception-of-refugees-from-ukraine/education In July 2022 new legislation was adopted to support education for pupils from Ukraine. Extra measures were taken to provide schools with more capacity to offer educational programs to Ukrainian refugees, including opportunities for Ukrainian teachers. Temporary newcomers facilities for (all) refugee children: Because of the waiting lists in reception / immersion classes and staff shortages, new legislation was provided in October 2023 to ensure that all migrant children have access to education as soon as possible. Municipalities that are dealing with waiting lists and large groups of migrants, may apply to the Minister of Education to open a temporary newcomer facility (tijdelijke nieuwkomersvoorziening, tnv). In a tnv, a school may an adapted curriculum and programme and schools may deviate from regular school hours (at least 12,5h / week) and qualifications. To support learners, schools may use other languages of instruction than Dutch. In 2024 the Ministry of Education, Culture and Science started an in depth exploration on a future view on education for migrants. The first results will be announced at the end of this year. https://open.overheid.nl/documenten/ronl-f5dbdcaf-2d00-4c49-9911-09c319b1864e/pdf https://duo.nl/zakelijk/primair-onderwijs/bekostiging-en-subsidies/aanvullende-bekostiging/

Het beleidskader maakt duidelijk wat Nederland onder inclusief onderwijs verstaat en wat de kenmerken zijn van een inclusieve leeromgeving. Het beleidskader is een uitwerking van het VN-Verdrag Handicap (2016), het Internationale Verdrag inzake de Rechten van het Kind (1989) en de Verklaring van Salamanca (1994), die de overheid verplichten zich in te spannen voor inclusief onderwijs en ervoor te zorgen dat alle kinderen welkom zijn binnen het reguliere onderwijs. Het uitgangspunt is dat toe wordt gewerkt naar scholen waar kwalitatief goed onderwijs wordt gegeven en waar alle kinderen zich, binnen hun mogelijkheden, optimaal kunnen ontwikkelen. Waarbij recht wordt gedaan aan de eigen persoonlijkheid, talenten, creativiteit en mentale en fysieke mogelijkheden. 2. Progress made with respect to implementing the right to education across all levels and forms of education

2.1 Early childhood care and education For reference: Early childhood care and education (ECCE) is not explicitly provided for in the Convention/Recommendation. However, the international community has increasingly recognized the importance of ECCE over the years. The Committee on the Rights of the Child initially recognized “the right to education during early childhood as beginning at birth” (General Comment No. 7). This became more explicit with the 2010 Moscow Framework for Action and Cooperation[1] and more recently, the Tashkent Declaration and Commitments to Action for Transforming Early Childhood Care and Education[2]. In the current context of the Education 2030 agenda, under SDG target 4.2, states have now committed to “the provision of at least one year of free and compulsory pre-primary education”. - Please indicate the measures taken to ensure access to quality ECCE (several items may be ticked): [1] Which states that “ECCE is part of the right to education and the main foundation for holistic human development”. [2] Which commits states to “Enhance policy and legal frameworks to ensure that the right to education includes ECCE” [Prior to pre-primary education, ECCE services are free]
