

GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE 1960 CONVENTION AND RECOMMENDATION AGAINST DISCRIMINATION IN EDUCATION

Preparation of the 11th Consultation

Combating discrimination in education

Eleventh consultation of Member States on the application of the Convention and the Recommendation against Discrimination in Education (1960) (2024-2025)

GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE 1960 CONVENTION AND RECOMMENDATION AGAINST DISCRIMINATION IN EDUCATION

1. Introduction

The Convention against Discrimination in Education (“the Convention”) and the Recommendation against Discrimination in Education (“the Recommendation”), adopted by UNESCO’s General Conference in 1960, are aligned with UNESCO’s constitutional mandate to “advance the ideal of equality of educational opportunities without regard to race, sex or any distinctions, economic or social”. The Convention is the first legally binding international instrument focused on the **right to education** and the only one exclusively dedicated to it.

The right to education is one of the key principles underpinning the Education 2030 agenda and Sustainable Development Goal 4 (SDG4) adopted by the international community in 2015. SDG 4 seeks to ensure the full enjoyment of the right to education as fundamental to achieving sustainable development. Its scope captures the multidimensional nature of the right to education.

Representing a powerful tool to advance SDG 4 by ensuring effective articulation between normative and operational work, the Convention has been recognized as a cornerstone of Education 2030 agenda.

The present Guidelines are intended to assist Member States in the preparation of country reports on the implementation of the Convention and the Recommendation in the context of the 11th consultation.

2. Scope of the Consultation

Considering the Education 2030 agenda, the monitoring of the Convention and the Recommendation is of crucial importance to ensure an education that is truly inclusive for all and to counter persistent inequalities in access, participation and learning outcomes at all levels, particularly for the most vulnerable groups. This is particularly true under the current context in which countries are making efforts to recover from the learning disruption caused by the COVID-19 pandemic. Concrete measures taken by countries in accordance with their legal obligations under these instruments contribute to implementing the Education 2030 agenda.

As the scope and content of the legal obligations under the right to education are aligned with the 10 targets of SDG 4, efforts are being made to ensure that the components of the targets are included in the guidelines and that these guidelines serve as a valuable contribution to monitoring progress towards SDG 4 targets.

Beyond SDG 4, the Convention is also closely aligned with the normative content on the right to education of other international human rights instruments such as the International Covenant on Economic, Social and Cultural Rights (1966), Convention on the Elimination of All Forms of

Discrimination against Women (1979), the Convention on the Rights of the Child (1989) and the Convention on the Rights of Persons with Disabilities (2006).

In addition, this Consultation is an opportunity to inform the ongoing **UNESCO Initiative on the Evolving Right to Education within a lifelong learning perspective**¹ (launched in December 2021). The Initiative investigates how the right to education could be reinforced placing it within a lifelong learning perspective and in light of the new demands being placed on education. This Initiative builds on the **Report from the International Commission on the Futures of Education**², which suggests to broaden our understanding of the right to education to clearly apply it to all ages and across all times and spaces. The initiative is also in-line with the **Vision Statement of the United Nations Secretary General on Transforming Education**³, and the **Report on the 2022 Transforming Education Summit**⁴ which call for the transformation of education systems to 'include everyone, regardless of circumstance, context or background'. The Initiative on the Evolving Right to Education aims to open a collaborative and participatory discussion about the international framework to ensure the effective enforcement of the right to education and learning throughout life for all. Finally, the Initiative builds on recent inter-governmental dialogues, including the Marrakech Framework for Action for Adult Learning and Education⁵ and the Tashkent Declaration on Early Childhood Care and Education.⁶

It is also important to note that previous consultations on the Convention and Recommendation revealed that countries now understand the right to education in an extended manner. The 11th consultation builds on the findings of the previous national reports to include various areas that have direct repercussions on the right to education such as, for instance, digital learning, climate considerations, lifelong learning entitlement, and the role of non-state actors in education.

3. Reporting obligations

There are differences in the legal nature of the obligations under the Convention, as distinguished from those under the Recommendation. The Convention has binding force and the States Parties are under the obligation to incorporate its provisions into their domestic frameworks. The Recommendation, non-binding in nature, has political and moral force. Its adoption sought to take into account the difficulties that certain States might experience in ratifying the Convention, in particular with respect to their federal structure.

Bearing in mind the differences in legal scope inherent to the nature of these two categories of instruments, the content of the Recommendation is identical to that of the Convention. Member States are expected to give effect to it in national legislation and education policies.

The reporting obligation under the provisions of Article VII of the Convention and of the Recommendation is the same. Article VIII of UNESCO's Constitution states that *"Each Member State shall submit to the Organization, at such times and in such manner as shall be determined by the General Conference, reports on the laws, regulations and statistics relating to its educational, scientific and cultural institutions and activities, and on the action taken upon the recommendations and conventions referred to in Article IV, paragraph 4"*. Therefore, even if a country is not a State Party to the Convention, it needs to submit a report on the implementation of the Recommendation, which means that **all UNESCO Member States are expected to submit a national report** on the implementation of these instruments in the context of monitoring consultations.

4. Participation in consultations

The reporting period for the 11th consultation on the implementation of the Convention and the Recommendation covers four years (2021-2024).

The Futures of Education Report calls for a new social contract for education, which requires to understand education as a common good and a shared societal endeavour. To ensure this, extensive consultations involving a broad range of stakeholders is needed. The reporting process therefore needs to be **participatory**. This includes ensuring cooperation between ministries of education and other ministries dealing with aspects of the right to education as well as consulting social partners and **civil society organizations** and other relevant bodies.

The preparation of national reports provides a **good opportunity** for Member States to assess the implementation of the right to education in their country, identify specific challenges, build constructive dialogue with other actors involved in this field and share good practices.

In the preparation of reports, Member States are encouraged to provide **substantive and relevant information in a concise manner**. In addition to a description of the constitutional, legislative, administrative, and policy framework established for the implementation of the provisions guaranteed by the instruments, the information supplied by Member States should demonstrate how legal norms and practices comply with the Convention and the Recommendation.

Relevant information supplied for other reporting instances may be reproduced or referred to with precise indication as to its retrieval. Similarly, hyperlinks to any useful documents or relevant legal and policy texts are most welcome and texts can also be added in the annex.

Country reports submitted for previous consultations can be found on the **Observatory on the right to education**⁷ in the monitoring section of the country profile. The information provided in the reports are valuable both for the Observatory on the right to education as well as for **HerAtlas**⁸, the online monitoring tool for girls' and women's right to education. Information and data regarding countries' education systems are also available through the UNESCO Institute for Statistics database⁹. Beyond monitoring purposes, the consultation findings and reports inform broader work - serving for knowledge generation, advocacy, and technical cooperation.

5. Modalities and structure

The Guidelines are structured around three chapters:

- The **first chapter** covers general information on adherence to the Convention.
- The **second chapter** aims to gather information on the implementation of the Convention and Recommendation in the context of Sustainable Development Goal 4. As the most extensive part of the Guidelines, this chapter covers: inclusion and non-discrimination in education (section 1), all levels and forms of education (section 2), quality education provision and learning environment (section 3) and finally, strengthening governance systems (section 4).
- The **third chapter** seeks to obtain information on the methods used to draw the attention of the various authorities in the country to the instruments.

With a view to simplify the Guidelines while providing necessary substantive information to assist Member States in the preparation of responses, through a participatory process, **two types of guidance** are provided:

- (1) Open-ended and closed-ended questions to be directly filled in by Member States. Please note that multiple answers may be provided where relevant.
- (2) Additional information aimed at guiding Members States to structure and detail their responses to the open-ended questions (including remarks on how to respond efficiently to the questions raised). These elements are presented in italics.

II. Information on the implementation of the Convention or Recommendation in the context of Sustainable Development Goal 4 (SDG4)

1. Towards an inclusive non-discriminatory education system

For reference: This section relates to the main purpose of the Convention/Recommendation that is to underscore the state obligation to proscribe any form of discrimination in education while promoting equality of educational opportunity as laid out in Articles/Paragraphs 1(1), 2 and 3 of the Convention/Recommendation.

It further corresponds to the overall aspiration of SDG4 which aims to “ensure inclusive and equitable quality education and promote lifelong learning opportunities for all” by 2030. While it covers all the SDG4 targets, it also specifically covers SDG target 4.5.¹²

- Please indicate whether the rights and principles laid out in the Convention/Recommendation informed the elaboration of the education legal and/or policy framework:

☒ Yes ☐ No

- If yes, please provide reference:

Los derechos y principios establecidos en el Convenio/Recomendación influyeron significativamente en la elaboración de políticas públicas y el marco jurídico en materia de educación. Esto se refleja en varias normativas y políticas implementadas por el Ministerio de Educación, respaldado en el Reglamento General de la Ley Orgánica de Educación Intercultural, su Artículo 3 establece la inclusión educativa como un principio fundamental, reconociendo la diversidad y la eliminación de barreras para garantizar una educación de calidad. Además, el Artículo 153, 154, y 157 refuerzan la necesidad de ambientes educativos accesibles, utilizando recursos metodológicos y tecnológicos adecuados para atender a la población escolar. La influencia del Convenio/Recomendación también se evidencia en la alineación con la Agenda 2030 para el desarrollo sostenible, específicamente con el Objetivo de Desarrollo Sostenible (ODS) 4, que busca garantizar una educación inclusiva, equitativa y de calidad, y promover oportunidades de aprendizaje durante toda la vida para todos.
--

¹¹ Judicial mechanisms play an important role in enforcing the right to education by ensuring legal accountability and therefore contributing to the practical realization of the right to education.

¹² Which calls on states to “eliminate gender disparities in education and ensure equal access to all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations”.

El Ministerio ha implementado políticas y programas específicos para cumplir con estos principios, como la oferta de servicios educativos en los niveles de educación inicial, básica, bachillerato y alfabetización en diversas modalidades formales. Estos programas están diseñados para reducir la brecha educativa, prevenir el abandono escolar y mejorar las oportunidades de inserción laboral, cumpliendo así con las metas del ODS 4. Entre estas metas se incluyen:

Meta 4.1: Garantizar que todos los niños y niñas terminen la educación primaria y secundaria, que ha de ser gratuita, equitativa y de calidad, con resultados de aprendizaje pertinentes y efectivos.

Meta 4.3: Asegurar el acceso igualitario de todos los hombres y mujeres a una formación técnica, profesional y superior de calidad, incluida la enseñanza universitaria.

Meta 4.4: Aumentar el número de jóvenes y adultos que tienen las competencias necesarias, en particular técnicas y profesionales, para acceder al empleo, el trabajo decente y el emprendimiento.

Meta 4.5: Eliminar las disparidades de género en la educación y asegurar el acceso igualitario a todos los niveles de la enseñanza y la formación profesional para las personas vulnerables.

A través de estas acciones, el Ministerio de Educación trabaja para garantizar una educación inclusiva y de calidad, alineada con los objetivos internacionales de desarrollo sostenible.

- Please list the prohibited grounds of discrimination in education as laid out in legal texts:

A continuación, se enumeran los principales motivos prohibidos de discriminación en el ámbito educativo:

Origen Étnico: No se puede discriminar a ninguna persona por su etnia o pertenencia a un grupo indígena, afroecuatoriano, montubio, o cualquier otro grupo étnico.

Raza: La discriminación racial está prohibida en todos los niveles educativos.

Sexo y Género: No se permite la discriminación por razones de sexo o identidad de género.

Orientación Sexual: La orientación sexual no puede ser motivo de discriminación en el acceso y permanencia en el sistema educativo.

Edad: La discriminación por edad está prohibida, garantizando la educación para todas las personas sin importar el momento de su ciclo vital.

Idioma: No se puede discriminar a los estudiantes por el idioma que hablan, promoviendo la interculturalidad y el respeto por las lenguas ancestrales.

Religión: La discriminación por creencias religiosas está prohibida, garantizando el derecho a la libertad de culto.

Opinión: Las diferencias de opinión, sean políticas, ideológicas o de cualquier índole, no deben ser causa de discriminación.

Estado de Salud: Las personas con problemas de salud, incluyendo discapacidades, tienen el derecho a una educación inclusiva y sin discriminación.

Situación Socioeconómica: No se puede discriminar a los estudiantes por su condición económica, asegurando igualdad de oportunidades en el acceso a la educación.

Condición Migratoria: La condición de migrante no puede ser motivo de discriminación en la educación.

Características Físicas: La discriminación basada en la apariencia física está prohibida.

Condición de Identificación: No poseer una identificación oficial no debe ser motivo de discriminación. Esto está alineado con la normativa que protege los derechos de todos los niños y adolescentes a recibir educación, sin importar su situación documental.

Situación Legal: independientemente de su situación legal, las personas tienen acceso a una educación sin discriminación

La Constitución de la República del Ecuador establece de manera clara los principios de no discriminación en todos los ámbitos, incluyendo la educación. En su artículo 11, numeral 2, se establece el principio general de no discriminación en todos los derechos y garantías constitucionales. El artículo 66, numeral 4, reitera el derecho a la igualdad y a no ser discriminado. El artículo 347 se refiere específicamente al sistema educativo, subrayando la necesidad de promover la igualdad y evitar la discriminación¹⁶.

Asimismo, la **Ley Orgánica de Educación Intercultural (LOEI) de Ecuador** aborda la

¹⁶ Constitución de la República del Ecuador. (2008).

prohibición de la discriminación en la educación, estableciendo un marco legal para garantizar la igualdad de oportunidades y la no discriminación en el ámbito educativo. Entre los artículos relevantes de la LOEI, el artículo 2 establece los principios fundamentales del sistema educativo, incluyendo la no discriminación por razones de etnia, lugar de nacimiento, edad, sexo, identidad de género, entre otros. El artículo 6 especifica las obligaciones del Estado para garantizar los derechos de los estudiantes, a ser tratados con dignidad y sin discriminación alguna. Por último, el artículo 132 en las que se enumeran las prohibiciones específicas dentro del ámbito educativo, incluyendo cualquier forma de discriminación y la exclusión de estudiantes por diversos motivos.¹⁷

Por otro lado, el **Reglamento a la Ley Orgánica de Educación Intercultural (LOEI)** define situaciones de vulnerabilidad en el artículo 156, para quienes también está dirigida la educación inclusiva y sin discriminación.

Este cuerpo normativo, asimismo, aborda la prohibición de la discriminación en la educación en Ecuador en el artículo 157, complementando y detallando las disposiciones establecidas, reafirma el derecho al acceso universal a la educación, destacando la no discriminación por razones de vulnerabilidad como de etnia, lugar de nacimiento, edad, sexo, identidad de género, movilidad humana, entre otras. Este mismo artículo 7 especifica el derecho y acceso universal a la educación en un ambiente libre de discriminación.¹⁸

Así mismo, el **Código de la Niñez y Adolescencia de Ecuador** establece claramente la prohibición de la discriminación en el ámbito educativo, asegurando que todos los niños y adolescentes tengan acceso a una educación inclusiva y equitativa. El artículo 6 prohíbe explícitamente cualquier forma de discriminación en el acceso, permanencia y egreso del sistema educativo, ya que todos los niños son iguales ante la ley. En el artículo 37 asegura el derecho de los niños y adolescentes a una educación de calidad, garantizando el acceso, educación flexible, programas y proyectos abiertos, respetando la condición étnica, morales, religiosas, permanencia, lugar de nacimiento, entre otras.¹⁹

El **Reglamento General de la Ley Orgánica de las Personas Adultas Mayores** determina en su artículo 5 los deberes del Estado ecuatoriano en cuanto a garantizar la atención a las personas adultas, a través de la promoción de procesos de educación continua en modalidades, virtual o presencial, los cuales están dirigidos a personas cuidadoras de personas adultas mayores.

Asimismo, el artículo 29 dispone en cuanto al acceso a la Educación de las Personas Adultas Mayores, que *“el ente rector del Sistema Nacional Especializado de Protección Integral de los Derechos de las Personas Adultas Mayores coordinará con el ente rector en educación, el acceso a la educación de las personas adultas mayores, en todos los niveles, con adaptación de mallas curriculares que faciliten su aprendizaje (...)”*.

El **Código Orgánico Integral Penal** estipula en su artículo 704 el eje de educación, cultura y deporte que *“se organizarán actividades educativas de acuerdo con el*

Ecuador ha implementado políticas y programas para prohibir y prevenir la discriminación, garantizando la igualdad de acceso a la educación para todos sus ciudadanos. Estas medidas reflejan el compromiso del gobierno ecuatoriano de promover una educación inclusiva, donde se respeten y valoren las diferencias individuales. Las iniciativas buscan erradicar cualquier forma de discriminación en las instituciones educativas y crear un ambiente equitativo y accesible. Gracias a estos esfuerzos, Ecuador avanza hacia una sociedad más justa, donde cada persona tiene la oportunidad de recibir una educación de calidad, independientemente de su origen, género, capacidad o condición social.

Educación preescolar: El Ministerio de Educación amplía la cobertura para asegurar que niñas y niños de tres y cuatro años accedan a una educación de calidad, proporcionando una atención inclusiva y equitativa en diversos sostenimientos y modalidades.

Educación primaria: Las políticas de Educación General Básica prohíben la discriminación y garantizan la igualdad de acceso a la educación. Se implementan normativas inclusivas, programas de sensibilización y capacitación para docentes, y el desarrollo de infraestructuras accesibles, creando un entorno educativo equitativo y respetuoso.

Educación secundaria: La educación secundaria superior, o Bachillerato General, es el último nivel de educación formal obligatoria. Se ofrece en dos modalidades: bachillerato en ciencias y bachillerato técnico. Este último se centra en áreas técnicas, artísticas o deportivas, preparando a los estudiantes para el mercado laboral o estudios superiores.

Formación técnica y profesional: El Bachillerato Técnico Productivo y el Bachillerato Complementario en Artes ofrecen formación específica que facilita la inserción laboral y la generación de microemprendimientos. El "Plan de Educación y Formación Técnica Profesional (EFTP) 2021" fortalece el sistema educativo técnico,

promoviendo competencias integrales para el trabajo digno y el desarrollo social.

Educación superior y aprendizaje alternativo: Las políticas y programas para la educación de adultos y el aprendizaje alternativo garantizan la igualdad de acceso a la educación y promueven el desarrollo de competencias técnicas. Estos esfuerzos buscan insertar a jóvenes y adultos en el mercado laboral, contribuyendo al crecimiento económico del país.

En contextos especiales: El Ministerio de Educación garantiza la continuidad educativa de personas con analfabetismo o escolaridad inconclusa, incluyendo a personas privadas de libertad, ofreciendo bachillerato técnico en diversas áreas. Estas iniciativas aseguran que todos los ciudadanos tengan acceso a una educación de calidad, promoviendo la inclusión y la igualdad de oportunidades.

1.2 Equality of opportunities and inclusion in education

- Please indicate the actions taken/planned to ensure equality of opportunities (in terms of access, participation and completion), equal treatment and to support the inclusion of all learners in learning processes (*several items may be ticked*):

General measures:

- | | |
|--|---|
| ☐ Legislation provides for inclusive education for all | ☐ Multiple and flexible learning pathways ²¹ are provided for |
| ☐ Policy measures aim to enhance inclusion in education for all | ☐ Curricula and teaching methods are inclusive in design ²² |
| ☒ Teachers are trained on inclusive education ²⁰ and to value diversity | ☐ Multilingual and intercultural education is supported |
| ☐ Initiatives to address discrimination and promote cultural diversity and mutual acceptance | |
| ☐ Other: | |

- Please elaborate and, where appropriate, indicate the legal and policy measures taken:

The training of teachers in inclusive education and the appreciation of diversity are based on a solid legal and political framework. The Constitution of the Republic of Ecuador (2008) guarantees the right to quality education for all citizens, without discrimination, and promotes inclusion policies for people with disabilities. The Organic Law of Intercultural Education (LOEI) establishes principles of equity, inclusion, and appreciation of diversity, emphasizing the continuous training of teachers in inclusive education. Specific regulations, such as the General Regulation to the LOEI and Ministerial Agreement No. 020A-2019, provide guidelines to ensure inclusive education. National policies and plans, such as the National Development Plan 2017-2021 and the National Inclusive Education Policy, promote quality and inclusion in education. The Ministry of Education offers training programs in inclusive competencies and collaborates with higher education institutions. Supportive organizations, such as the National Directorate of Inclusive Education and the National Council for the Equality of Disabilities, oversee and promote educational inclusion.

- In general, what challenges were encountered in the implementation of non-discrimination and equal opportunities principles in education? If needed, brief quantitative information may be added.

²⁰ Teachers are prepared to teach all student (beyond just students with disabilities), equipping them with knowledge, values and attitudes that permit every student to succeed. See: [UNESCO policy paper](#): Inclusive teaching: preparing all teachers to teach all students, 2020, p.14.

²¹ Multiple and flexible learning pathways are 'entry points and re-entry points at all ages and all educational levels, strengthened links between formal and non-formal structures, and recognition, validation and accreditation of the knowledge, skills and competencies acquired through nonformal and informal education' ([Education 2030 Framework for Action](#), para. 33). This may include student transfers between courses and institutions and diverse learning modalities (online, in-person, full-time, part-time, etc.) to respond to individual needs and interests.

²² In designing the curricula and teaching methods, care is given to ensure that all students are provided with an inclusive and supportive learning experience that offers them the opportunity to succeed whatever their background.

Según el Reglamento General a la Ley Orgánica de Educación Intercultural que establece:

“Art. 45 Recursos educativos y recursos complementarios. - Para una adecuada comprensión de las disposiciones contenidas en el presente Reglamento, en lo que respecta a las instituciones educativas públicas y fiscomisionales, se considerarán las siguientes referencias:

1. *Recursos educativos: Se entenderá como recurso educativo todo material y medio, tanto físico como digital, que brinde apoyo a la labor didáctica y pedagógica, entre los que constan los siguientes:*
 - a. *Textos escolares: Se refiere a material curricular didáctico ya sea impreso y/o en medios magnéticos, que son utilizados tanto por estudiantes como por docentes durante los procesos de enseñanza-aprendizaje.*
 - b. *Fondo bibliográfico: Conjunto de material bibliográfico para bibliotecas, ambientes de lectura o estudiantes de las instituciones educativas.*
 - c. *Material didáctico: Es todo aquel material elaborado con la intención de facilitar los procesos de enseñanza-aprendizaje.*
 - d. *Equipamiento y mobiliario: Son aquellos bienes utilizados en una institución educativa, necesarios para los procesos de enseñanza-aprendizaje, como pupitres, sillas, pizarras, escritorios, material lúdico, etcétera.*
 - e. *Equipamiento técnico específico: Equipamiento técnico específico: Es el material y equipos técnicos y tecnológicos orientados al desarrollo de las habilidades y destrezas relacionadas con la aplicación del bachillerato.*
2. *Recursos complementarios: Son aquellos que la Autoridad Educativa Nacional provee de forma complementaria a los recursos educativos y que guardan relación con:*
 - a. *Alimentación escolar: Combinación de productos de alimentación destinada a garantizar el derecho a la alimentación y nutrición de niñas, niños y adolescentes en edad escolar.*
 - b. *Uniformes escolares: Indumentaria distintiva y unificada, utilizada por niñas, niños y adolescentes en instituciones educativas.*
 - a. *Transporte escolar: Constituye un servicio para los estudiantes que requieren movilización desde sus hogares o la parada correspondiente, hacia las instituciones educativas y viceversa, de acuerdo con los criterios técnicos establecidos.*

La Autoridad Educativa Nacional determinará tanto su necesidad como la periodicidad de su provisión, en atención a la planificación y disponibilidad presupuestaria institucional”.

De conformidad con lo antes citado, el Ministerio de Educación garantiza la provisión de los recursos educativos y recursos educativos complementarios, de acuerdo con la cobertura de cada recurso y capacidad institucional, con el objetivo de eliminar las barreras de ingresos al sistema educativo y garantizando el acceso a la educación de niños, niñas y adolescentes de las instituciones educativas públicas y fiscomisionales

del país.

La implementación de la Ley Orgánica de Educación Intercultural (LOEI) de 2011, que en su capítulo sexto aborda las necesidades educativas específicas, ha encontrado diversos desafíos en la realización del derecho a la educación de las personas con discapacidad. Según el Artículo 47, la normativa exige que tanto la educación formal como la no formal consideren las necesidades afectivas, cognitivas y psicomotrices de estas personas. A pesar de estos esfuerzos, se han identificado varios obstáculos:

Barreras Físicas: La infraestructura escolar a menudo no es accesible para estudiantes con discapacidades físicas. Muchos edificios carecen de rampas, ascensores y baños adaptados, lo que dificulta la movilidad y la inclusión plena de estos estudiantes.

Barreras Metodológicas y Organizativas: Las metodologías de enseñanza y las estructuras organizativas tradicionales no siempre están adaptadas para atender las necesidades específicas de aprendizaje. Los docentes a menudo carecen de formación especializada para implementar estrategias inclusivas efectivas.

Barreras Comunicacionales: Las dificultades en la comunicación, especialmente para estudiantes con discapacidades sensoriales como la sordoceguera, limitan significativamente su participación en el proceso educativo. La falta de recursos como intérpretes de lengua de señas y materiales educativos en braille agravan esta situación.

Barreras Actitudinales: La discriminación y los prejuicios hacia las personas con discapacidad persisten en algunos entornos educativos. Estas actitudes pueden provenir tanto de otros estudiantes como del personal educativo, creando un ambiente excluyente.

Barreras Sociales: Factores socioeconómicos y culturales influyen negativamente en la inclusión educativa. Las familias con menos recursos pueden tener dificultades para proporcionar los apoyos adicionales que sus hijos con discapacidad puedan necesitar.

Falta de Detección y Atención Temprana: Aunque la normativa promueve la detección y atención temprana de problemas de aprendizaje, en la práctica, muchos niños y niñas no son evaluados a tiempo. Esto retrasa la implementación de estrategias de intervención y apoyo.

Compromisos y Retos Futuros: El Sistema Educativo Nacional está comprometido a generar y actualizar políticas públicas que promuevan la inclusión y la eliminación de barreras de aprendizaje. Esto incluye la formación continua de docentes en educación inclusiva, la adaptación de infraestructuras y metodologías, y la implementación de programas específicos para la atención de estudiantes con discapacidades severas y múltiples, como la sordoceguera.

En resumen, aunque Ecuador ha avanzado en la normativa y políticas para la educación inclusiva, queda un largo camino por recorrer para asegurar que todos los estudiantes con discapacidad puedan ejercer plenamente su derecho a una educación de calidad.

2. Progress made with respect to implementing the right to education across all levels and forms of education

2.1 Early childhood care and education

For reference: Early childhood care and education (ECCE) is not explicitly provided for in the Convention/Recommendation. However, the international community has increasingly recognized the

importance of ECCE over the years. The Committee on the Rights of the Child initially recognized “the right to education during early childhood as beginning at birth” (General Comment No. 7). This became more explicit with the 2010 Moscow Framework for Action and Cooperation⁴¹ and more recently, the Tashkent Declaration and Commitments to Action for Transforming Early Childhood Care and Education⁴². In the current context of the Education 2030 agenda, under SDG target 4.2, states have now committed to “the provision of at least one year of free and compulsory pre-primary education”.

- Please indicate the measures taken to ensure access to quality ECCE (several items may be ticked):

- | | |
|---|--|
| ☐ Prior to pre-primary education, ECCE services are free | ☐ ECCE services respect a child’s need for early cognitive and social development, foundational learning, responsive care, nutrition, health, safety, protection, and play. |
| ☐ Prior to pre-primary education, ECCE services are affordable | |
| ☐ ECCE services are accessible on a non-discriminatory basis | |

- Please elaborate further on the measures taken:

Ecuador ha implementado diversas medidas para **garantizar el acceso, la atención** y la educación en la primera infancia (AEPI), desde modalidades educativas formales presenciales y a distancia reguladas por la Autoridad Educativa Nacional, con pertinencia cultural y lingüística.

La modalidad educativa formal presencial, se brinda en Instituciones Educativas de **sostenimiento** fiscal, fiscomisional y municipal, lo que garantiza que todos los niños tengan la oportunidad de recibir atención temprana sin importar su situación económica, independientemente de su origen étnico, cultural o cualquier otra característica personal.

Además, se cuenta con la modalidad de educación a distancia asistida que se ofertará en las Instituciones Educativas de sostenimiento fiscal autorizadas y se caracterizará por la asistencia personalizada de un docente que visita a niñas y niños de 3 y 4 años en entornos comunitarios y/o domiciliarios para que, en conjunto con sus familias, promuevan el desarrollo integral, de conformidad con los parámetros determinados por la Autoridad Educativa Nacional y acorde al cronograma escolar. Además de estas opciones fiscales y fiscomisionales, existen instituciones educativas privadas que ofrecen servicios a la primera infancia.

Los servicios para la atención y la educación de la primera infancia (AEPI) están diseñados para ofrecer un desarrollo integral, garantizando que los niños y niñas reciban una **atención integral** que promueva su desarrollo en todas las áreas. Estas medidas reflejan el compromiso del Ecuador en **garantizar el acceso equitativo** a una Atención a la Primera Infancia.

- ☐ Pre-primary education is compulsory. Please provide the age of enrolment and duration:

⁴¹ Which states that “ECCE is part of the right to education and the main foundation for holistic human development”.
⁴² Which commits states to “Enhance policy and legal frameworks to ensure that the right to education includes ECCE”

En Ecuador, la atención y la educación de la primera infancia (AEPI) forman como parte del Sistema Nacional de Educación, en conformidad con lo establecido en la Constitución de la Republica del Ecuador específicamente en su artículo 28⁴³ Este artículo enfatiza que la educación “(...) responderá al interés público y no al interés individuales o corporativos. Se garantiza el acceso universal, la permanencia, la movilidad y el egreso sin discriminación alguna y la obligatoriedad en el nivel inicial, básico y bachillerato, o sus equivalentes”.

Aunque la educación inicial no es obligatorio, es de gran importancia para el desarrollo integral de los niños según lo estipulado en el artículo 40 de la Ley Orgánica de Educación Intercultural define “El nivel de educación inicial es el proceso de acompañamiento al desarrollo integral que considera los aspectos cognitivo, afectivo, psicomotriz, social, de identidad, autonomía y pertenencia a la comunidad y región de los niños y niñas desde los tres años hasta los cinco años de edad, garantiza y respeta sus derechos, diversidad cultural y lingüística, ritmo propio de crecimiento y aprendizaje, y potencia sus capacidades, habilidades y destrezas”.

La edad de inscripción de los niños esta parametrizado según lo estipula en el artículo 1 del Acuerdo Nro. MINEDUC-MINEDUC-2023-00019-A. que define que “las y los niños que estén por cumplir los tres (3) y/o cuatro (4) años de edad hasta noventa (90) días calendario posteriores al primer día del año lectivo de cada régimen escolar, podrán ingresar a los servicios educativos de Educación Inicial en instituciones del sostenimiento fiscal, siempre y cuando provengan de servicios de atención a la primera infancia provistos por establecimientos y/o instituciones tanto públicas como privadas”⁴⁴,

Por otra parte, de acuerdo con el ACUERDO Nro. MINEDUC-MINEDUC-2023-00066-A⁴⁵, artículo 4, se dispone la organización de grupos de niños y niñas en ambientes pedagógicos del nivel de Educación Inicial. Estos grupos pueden consistir en “Aulas de una misma edad para niñas y niños de tres (3) o de cuatro (4) años; o, aulas multiedad que agrupen a niñas y niños de tres (3) y cuatro (4) años”. Esta disposición implica que el nivel inicial se ajusta según la edad de los niños y niñas, y que cada niño avanza cada año lectivo conforme a su edad correspondiente, es decir, de tres a cuatro años, y de cuatro a cinco años.

Sin embargo, según lo estipulado en el Reglamento de la LOEI en el 127⁴⁶.- “Servicios de atención a la primera infancia y educación inicial de niñas y niños de cero (0) a cinco (5) años. - Una misma institución educativa en un mismo predio, en estricto acatamiento a los procedimientos y requisitos legalmente exigidos para estos efectos, podrá ofertar servicios de atención a primera infancia y educación inicial para niñas y niños de cero (0) a cinco (5) años”. Eso equivale que los niños y niñas debe pasar por 5 años en el Nivel de Educación Inicial.

El Ecuador, se enfrentaron diversos desafíos para garantizar la atención y la educación de la primera infancia (AEPI). Uno de los principales fue la necesidad de **ampliar la cobertura** de atención a las niñas y niños del nivel de Educación Inicial, especialmente en parroquias rurales de difícil acceso y parroquias rurales o urbanas con demanda de educación inicial insatisfecha para niños y niñas de tres y cuatro años.

En respuesta a este desafío se implementa el Servicio de Atención Familiar para la Primera Infancia - SAFPI superando los obstáculos logísticos, así como adaptar las estrategias educativas para satisfacer las necesidades específicas de estas comunidades para reducir la brecha de atención en el Nivel de Educación Inicial y garantizar un acceso equitativo a una educación de calidad para todos los niños y niñas en Ecuador.

- Please elaborate. Brief quantitative information may be added.

En el 2023 en Ecuador según INEC existieron 70.10 niñas y niños entre 3 y 4 años de edad, de este grupo el 59.9%, equivalente a 341.585 niñas y niños participan en servicios educativos del Nivel Educación Inicial tanto en sostenimiento público y privado. Esto evidencia que un 40.1% de este grupo etario no estaba recibiendo atención educativa en el nivel de Educación Inicial, lo que significa que existe un alto porcentaje de niños y niñas de este rango de edad que no tienen acceso a ningún servicio educativo que se ajuste a sus necesidades, lo cual vulnera su derecho a la educación.

Con el objetivo de abordar esta situación, se implementan estrategias para motivar la atención temprana hacia estos niños y niñas, así como campañas de concientización dirigidas a las familias sobre la importancia de inscribir a sus hijos en el nivel de educación inicial.⁴⁸

2.3 Higher education

For reference: Article/Paragraph 4(a) of the Convention/Recommendation provides for higher education. Ensuring higher education is essential to achieve SDG4, both targets 4.3⁵⁰, and target 4.4⁵¹. Article 4 of the Convention requires states to make “higher education equally accessible to all

⁵⁰ Which calls on states to “ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university”.

⁵¹ Which recommends to “substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship”.

on the basis of individual capacity". Article 13 of the International Covenant on Economic, Social and Cultural Rights (1966) further adds that this should be pursued by "every appropriate means, and in particular by the progressive introduction of free education". Higher education includes technical and vocational education and training.

- Please indicate efforts made to ensure that higher education, including technical, vocation education and training, is equally accessible to all on the basis of individual capacity and/or is available free of charge (*several items may be ticked*):

- ☐ Higher education is free of charge
- ☐ Higher education is accessible on the basis of individual capacity (as assessed by reference to relevant qualifications and experience)
- ☐ Higher education is accessible through financial incentives and scholarships
- ☐ Higher education is accessible through positive or affirmative action measures
- ☐ Higher education is accessible through credit transfer system between states
- ☐ Higher education allows for multiple and flexible learning pathways (flexible entry and re-entry, recognition, validation, and accreditation of knowledge and skills acquired through non-formal and informal education).
- ☐ Other:

- Please list the relevant laws and policies. Where applicable, provide information on the direct costs (e.g., enrolment fees and tuition fees) and indirect costs (e.g., exam fees, university supplies, transport, accommodation). Brief quantitative information may be added.

For reference: Article/Paragraph 4(c) of the Convention/Recommendation provides for adult education and alternative learning. While SDG4 aims to “ensure inclusive and equitable quality education and promote lifelong learning opportunities for all”, target 4.6 specifically calls on states to “ensure that all youth and a substantial proportion of adults, both men and women, achieve literacy and numeracy”. Furthermore, under target 4.4, states are called “to increase and diversify learning opportunities, using a wide range of education and training modalities, so that all youth and adults, especially girls and women, can acquire relevant knowledge, skills and competencies for decent work and life.”

- Please indicate the measures taken to establish a system of continuing education and equitable access to learning and training opportunities (several items may be ticked):

- ☐ Provision of education for persons who have not received or completed the whole period of their primary education
- ☐ Provision of literacy programmes
- ☐ Provision of continuous learning (such as learning programmes to develop knowledge, skills, abilities, or competencies for personal and professional development)
- ☐ Provision of free of charge learning opportunities
- ☐ Provision of professional training including reskilling and upskilling programmes
- ☐ Recognition, validation and certification of non-formal and informal learning
- ☐ Provision of free of charge career guidance and counselling
- ☐ Lifelong learning entitlements including learning accounts, vouchers, etc.

En Ecuador existe una problemática importante en torno a la escolaridad inconclusa que afecta a personas jóvenes, adultas y adultas mayores, que, por disímiles razones, no pudieron acceder o tuvieron que abandonar sus estudios.

La educación de jóvenes, adultos y adultos mayores es fundamental para transformar nuestro futuro; implica un proceso de aprehensión de conocimientos formales, no formales e informales desarrollados a lo largo de la vida, siendo estos indispensables dentro del ámbito educativo ya que permiten que esta población pueda afrontar los desafíos sociales, económicos y políticos que se presentan en la actualidad.

En este sentido, el Ministerio de Educación a través de la Subsecretaría de Educación Especializada e Inclusiva y desde la Dirección Nacional de Educación para Personas con Escolaridad Inconclusa diseña políticas públicas, elabora normativas y lineamientos que regulan la educación formal para personas jóvenes, adultas y adultas mayores con escolaridad inconclusa, y que son implementadas en los niveles desconcentrados. Dado este contexto, se ofertan los servicios educativos de alfabetización, post alfabetización, educación general básica superior y bachillerato (en ciencias y técnico), a fin de que este segmento de la población pueda culminar su trayectoria educativa. Estas ofertas educativas se implementan en las modalidades semipresencial y a distancia de acuerdo con la siguiente distribución:

- **Modalidad semipresencial**

Es aquella que según el artículo 46 de la Ley Orgánica de Educación Intercultural, no exige asistencia regular y requiere de un trabajo estudiantil independiente, junto con el acompañamiento presencial de 4.363 docentes. Esta puede realizarse a través de internet o de otros medios de comunicación, combina la asistencia presencial en la institución educativa, con trabajo estudiantil independiente y acompañamiento de las familias.

Esta modalidad se implementa en las Instituciones Educativas para Personas con Escolaridad Inconclusa PCEI a nivel nacional en todas las provincias del país, en jornadas matutina, vespertina y nocturna. El proceso educativo se desarrolla en temporalidades intensiva de 5 meses y no intensiva de 10 meses, por cada grado o curso, para los servicios de alfabetización, post alfabetización, educación general básica superior, y, el nivel de bachillerato general en ciencias y técnico.

- **Modalidad a distancia**

La modalidad a distancia es aquella que, acorde a lo previsto en el artículo 46 de la Ley Orgánica de Educación Intercultural, propone un proceso autónomo para las y los estudiantes, con acompañamiento no presencial de un tutor o guía y la utilización de instrumentos pedagógicos de apoyo, podrá realizarse a través de internet o de otros medios de comunicación y se implementa a través de dos tipos: educación virtual y educación asistida.

El proceso educativo se desarrolla en temporalidad intensiva de 5 meses para cada nivel de educación general básica superior y bachillerato general en ciencias, a través de la enseñanza mediada por el uso de tecnologías en entornos virtuales de aprendizaje, que constituye el recurso principal para el desarrollo de este proceso formativo.

Esta modalidad se implementa a nivel nacional para ecuatorianos y personas en situación de movilidad, así como para ecuatorianos residentes en el exterior, en los siguientes países: Estados Unidos, España, Italia, Reino Unido, Bélgica, Hungría y Chile. La modalidad a distancia implementación virtual, para el sostenimiento fiscal, se desarrolla por medio de una plataforma educativa que provee el Ministerio de Educación.

El servicio educativo cumple con los estándares de aprendizaje y mallas curriculares adaptado a la población objetivo, establecidos por el Ministerio de Educación, por tanto, se asegura la misma calidad y resultados que en la educación presencial. Está dirigido personas de 15 años para educación general básica superior y de 18 años para bachillerato con escolaridad inconclusa. La modalidad a distancia se desarrolla en dos periodos académicos al año, la temporalidad es intensiva con una duración de 20 semanas para cada grado o curso.

Durante el 2023 se implementó la atención educativa para 39 Personas Sordas con escolaridad inconclusa, gracias al trabajo de 178 docentes de los cuales 4 atienden a las Personas Sordas.

3. Quality education provision and learning environment

For reference: Articles/Paragraphs 2, 4(b) and 5(b) of the Convention/Recommendation provide for quality education. Quality education is fundamental to achieve all targets of SDG4. It is also particularly highlighted in SDG target 4.a that recommends states to “build and upgrade education facilities that are child, disability and gender sensitive and provide safe, non-violent, inclusive and effective learning environments for all”.

3.1 General measures

- Please indicate whether the legal or regulatory framework lays out the conditions and minimum education standards for the establishment and functioning of public education institutions regarding:

- ☐ State monitoring and inspections
- ☐ Health and sanitation
- ☐ Safety (children learn in a safe environment free from violence or harassment, including school-related gender-based violence (in and around schools))
- ☐ Infrastructure
- ☐ Curriculum
- ☐ Student-teacher ratio
- ☐ School fees (if relevant)

3.2 Education personnel

For reference: Article/Paragraph 4(d) of the Convention/Recommendation provides for the education personnel. This corresponds to SDG target 4.c which is entirely devoted to the teaching profession as it calls on states to “substantially increase the supply of qualified teachers”.

- Please indicate the measures taken to improve the teaching and working conditions of education personnel, especially teaching staff at all levels and regarding the training for the teaching profession (several items may be ticked):

- ☒ Teacher training is provided without discrimination.
- ☒ Teachers’ average salaries are competitive or at least comparable to those paid in other professions requiring similar or equivalent qualifications (at all levels).
- ☒ Initial training and continuous professional development are provided.
- ☐ Minimum standards and qualifications required for the teaching profession.
- ☒ Measures taken to strengthen the social status and attractiveness of the teaching profession.
- ☐ Measures taken to promote diversity in the teaching workforce, including to redress gender imbalances at different levels of education.
- ☐ Establishment of performance monitoring systems.

|---|

- Please elaborate on each of the measures taken:

In Ecuador, programs have been implemented to address priority groups, such as individuals with special educational needs (SEN) and those in critical poverty situations. Inclusive education is conceived from a comprehensive and holistic perspective, providing opportunities for access, quality, and equity for all children and youth, without discrimination.

Teachers’ average salaries are competitive or at least comparable to those paid in other professions requiring similar or equivalent qualifications (at all levels):

Con la entrada en vigencia de la Ley Reformada a la Ley Orgánica de Educación Intercultural, la Disposición Transitoria Vigésima Sexta menciona: “Para la equiparación y homologación salarial el Ministerio de Economía y Finanzas realizará los ajustes, traspaso y reprogramaciones presupuestarias considerando los ingresos adicionales que se generen por el presupuesto considerando los ingresos adicionales que se generen por el incremento del precio del barril de petróleo, en aumento en las recaudaciones tributarias y por el restablecimiento del presupuesto para la educación en aplicación del artículo 20 y trigésima disposición transitoria de la presente ley y el mandato constitucional sobre el

presupuesto para la educación. La función Ejecutiva realizará el proceso para la equiparación y homologación salarial en el plazo de 90 días. De igual forma, los recursos deberán constar de manera obligatoria anualmente en el Presupuesto General del Estado.”.

Al respecto esta cartera de Estado, en estricto cumplimiento a la disposición enmarcada en la Ley, ha ejecutado el proceso de equiparación y homologación salarial de los docentes desde el año 2022 en adelante, beneficiando actualmente a más de 114.000 docentes fiscales del país, teniendo salarios que parten desde los \$817 USD en contratos ocasionales y nombramientos provisionales (Categorías H, I y J) y desde los \$986 USD (Categoría G) hasta los \$2.034 USD para los nombramientos definitivos (Categoría A):

CATEGORIA	ESCALA LOSEP	R.M.U. ANTERIOR	R.M.U. NUEVA
A	Servidor Público 9	\$1.676,00	\$2.034,00
B	Servidor Público 8	\$1.412,00	\$1.760,00
C	Servidor Público 7	\$1.212,00	\$1.676,00
D	Servidor Público 6	\$1.086,00	\$1.412,00
E	Servidor Público 5	\$986,00	\$1.212,00
F	Servidor Público 4	\$901,00	\$1.086,00
G	Servidor Público 3	\$817,00	\$986,00
H	Servidor Público 1	\$733,00	\$817,00
I	Servidor Público 1	\$675,00	\$817,00
J	Servidor Público 1	\$527,00	\$817,00

Con estos datos, se considera que los salarios de los docentes ecuatorianos se encuentran equiparados con la escala de servidores públicos que requieren calificaciones similares o equivalentes para docentes en nombramientos definitivos, es decir cuando un docente gana un concurso de méritos y oposición (categoría G) con el cual ingresa a la carrera docente la misma que ofrece oportunidades de ascenso o recategorización y que permitirá incrementar su salario progresivamente.

En cambio, los salarios de los docentes que son contratados o que poseen nombramiento definitivo, al no ser parte de la carrera docente pública, recibe un salario base contemplado en la Ley, equivalente a la escala SP1.

Minimum standards and qualifications required for the teaching profession:

Conforme lo determina el artículo 111 de la Ley Orgánica de Educación Intercultural, el escalafón tiene la siguiente definición: *“El escalafón del magisterio nacional, constituye un sistema de categorización de las y los docentes pertenecientes a la carrera docente pública, según sus funciones, títulos, desarrollo profesional, tiempo de servicio, formación continua y resultados en los procesos de evaluación implementados por el Instituto Nacional de Evaluación Educativa, lo que determina su remuneración y los ascensos de categoría”.*

Bajo esta definición, el artículo 113 de la LOEI determina que el escalafón docente se divide en diez categorías, cuyos detalles y requisitos están relacionados con la formación académica, desarrollo profesional, tiempo de servicio y nota de evaluación del desempeño.

Así mismo la Disposición General Décima Octava de la LOEI indica: *“Se entenderá por*

ascenso de categoría cuando el docente sube una categoría, es decir pasa de la escala en que se encuentra ubicado a la inmediata superior, siempre cuando cumpla con los requisitos establecidos en la presente Ley; se entenderá por recategorización el proceso de cambio de categoría de forma acelerada que se tramita por una sola vez en la carrera”; por lo mencionado esta cartera de Estado ha ejecutado procesos de ascenso y recategorización docente en los años 2014-2015 y 2018 y en el año 2022 ejecutó el proceso destinado únicamente al ascenso de categoría de los docente quienes cumplían los requisitos antes descritos, con estas acciones como Cartera de Estado mejoramos las condiciones económicas de los docentes, en estricto cumplimiento de la Ley.

- Please elaborate. Brief quantitative information may be added.

Shortages of teaching staff

En el proceso de selección de personal para la incorporación de docentes por renuncia, desistimiento, o fallecimiento, proceso que se lo hace a través de la plataforma informática “Educa Empleo”, existe falta de aspirantes a docentes que apliquen a vacantes que se encuentran ubicadas en zonas de difícil acceso y que adicionalmente cuenten con el certificado de suficiencia lingüística, esto exclusivamente para ofertas disponibles en Instituciones Educativas Interculturales Bilingües. Adicionalmente, cuando existen casos que aplican a estas ofertas, en la mayoría de los casos desisten, debido a la dificultad para llegar o falta de transporte hacia la Institución, esto impide contar con el personal docente de manera inmediata que cubra la necesidad de la Institución.

En el levantamiento de la información de la plantilla óptima de docentes que realizó esta Cartera de Estado, se identificó que existe una brecha o déficit de 2.169 docentes, para continuar con el normal desarrollo de las Instituciones Educativas.

En la Ley Orgánica de Comunicación se establece, en el artículo 8: *“Art. 8.- Prevalencia en la difusión de contenidos. - Los medios de comunicación, en forma general, difundirán contenidos de carácter informativo, educativo y cultural, en forma prevalente. Estos contenidos deberán propender a la calidad y ser difusores de los valores y los derechos contenidos en los instrumentos internacionales ratificados por el Ecuador y en la Constitución de la República del Ecuador”. Así también, se establece en el artículo 74: “Los medios de comunicación, radio y televisión de señal abierta tendrán la obligación de prestar gratuitamente los siguientes servicios sociales de información de interés general: c. Destinar una hora diaria, no acumulable para programas oficiales de tele-educación, cultura, salubridad y derechos elaborados por los Ministerios o Secretarías con competencia en estas materias”.*

En el Acuerdo Nro. MINEDUC-ME-2016-00015-A de 5 de febrero 2016, se establece como misión de la Subsecretaría para la Innovación Educativa y el Buen Vivir (SIEBV) *“Generar políticas, programas y proyectos innovadores, para los actores de la comunidad educativa, con el propósito de fomentar el desarrollo integral de los y las estudiantes, con metodologías sostenidas en el tiempo que permitan alcanzar los objetivos educativos y del Buen Vivir”.*

En el mismo acuerdo Nro. MINEDUC-ME-2016-00015-A, del 5 de febrero 2016, se define como misión de la Dirección Nacional de Tecnologías para la Educación (DNTE) *“Proponer políticas para la apropiación de tecnologías para el aprendizaje y comunicación educativa en los ambientes en los que*

se desarrollen los procesos de enseñanza-aprendizaje con el fin de lograr una comunidad educativa cada vez más empoderada”.

Teniendo en cuenta las atribuciones y responsabilidades, así como los productos (Acuerdo Nro. MINEDUC-ME-2016-00015-A, de 5 de febrero 2016) de la Dirección Nacional de Tecnologías para la Educación, como antecedente, ejecutó el programa Agenda Educativa Digital 2017-2021, misma que fue lanzada oficialmente, el 22 de noviembre de 2017.

- ☒ Core legislations, policies, strategies or plans for the management, privacy, security, storage, transfer, use, and sharing of education data internally and externally to ensure the right to privacy of learners and education stakeholders (e.g., informed consent, transparent usage policies, etc.)
- ☐ Regulatory framework establishes minimum education standards for digital education to which all actors in education must comply.
- ☐ Measures to remove barriers to accessing digital content⁵⁶, including ensuring access to curriculum-aligned digital content available on free, public, multi-modal national platforms; high-quality content is available in core subjects, official national language(s), and designed with inclusive features to assist learners with disabilities.
- ☒ Digital skills incorporated into pre- and in-service teacher and leadership training curricula to create a culture of digital innovation and growth anchored in equity and inclusion that enables ongoing professional development for existing and emerging staff.
- ☐ Future-ready skills (including digital skills, data and AI competencies, critical thinking, etc.) integrated into formal curriculum at all levels of education
- ☐ Measures address the digital divide, including ensuring access to reliable electricity, meaningful internet connectivity at school and at home, devices suitable for learning and teaching, safe and sustainable software and secure platforms, and integrated education data systems.
- ☐ A well-established, sustainable, and cost-effective budget secured from a range of funding sources and intersectoral cooperation, supported by impact focused reporting linked to regional strategic goals.

- Please elaborate on each of the measures taken:

- **Agenda Educativa Digital 2021-2025**

La Agenda Educativa Digital 2021-2025 es un instrumento de política pública orientado a la transformación digital de la educación en el Ecuador. La agenda permite la planificación, ejecución y evaluación de estrategias y acciones destinadas al desarrollo del Aprendizaje Digital y a la conformación de una Ciudadanía Digital con todos los miembros de la comunidad educativa (estudiantes, docentes, personal educativo, directivos y familias). A través de este documento, se traza el camino para generar las condiciones necesarias para establecer una comunidad que aprende acerca y mediante herramientas tecnológicas en entornos digitales.

El objetivo de la Agenda Educativa Digital es “Diseñar planes, políticas y programas educativos

enfocados en el Aprendizaje Digital, la Alfabetización Digital y la Ciudadanía Digital en el Sistema Nacional de Educación". Y, sus objetivos específicos son: 1) "Impulsar el Aprendizaje Digital a través de procesos de formación, creación y gestión de recursos digitales y acceso oportuno a entornos digitales en la comunidad educativa; y, 2) "Promover la Alfabetización Digital y la construcción de una Ciudadanía Digital universal, incluyente e intercultural en la comunidad educativa". Para conseguir estos objetivos se establecen dos ejes: Aprendizaje Digital y Alfabetización Digital y Ciudadanía Digital.

- **Ruta Metodológica de Aulas Digitales Multipropósito**

La Ruta Metodológica para Aulas Digitales Multipropósito (RMADM) propone la integración de las tecnologías digitales en los procesos educativos, lo cual implica el desarrollo de múltiples proyectos, estrategias y acciones, con el fin de mejorar la calidad educativa, analizando un diagnóstico de la conectividad, equipamiento tecnológico, formación docente y participación de actores estratégicos. Esta ruta incluye estrategias de integración de herramientas tecnopedagógicas, metodologías activas y desarrollo de habilidades STEAM+H, para que los docentes fomenten la interacción y el aprendizaje colaborativo entre los estudiantes, así como el uso de herramientas digitales y el aprendizaje basado en proyectos.

La Ruta Metodológica contempla los Ambientes de Experimentación Tecnológica (AET), los cuales son entornos educativos integrados a las Aulas Digitales Multipropósito, diseñados para fomentar el aprendizaje a través de la tecnología. Se caracterizan por ofrecer experiencias de aprendizaje activas, participativas y motivadoras, donde los estudiantes pueden explorar, investigar, experimentar y resolver problemas de manera vivencial, lo que desarrolla de manera integral habilidades cognitivas, emocionales, sociales y físicas. Los AET que se encuentran explicados en esta ruta son: Ciudadanía Digital, Gamificación, Pensamiento Computacional, Robótica, STEAM+H, Realidad Aumentada, Realidad Virtual, Asistentes Virtuales, Simuladores de Drones.

A su vez, para orientar a los y las docentes sobre cómo favorecer los aprendizajes en los diferentes Ambientes de Experimentación Tecnológica se plantean las Rutas Metodológicas Específicas (RME). Estas promueven el aprendizaje colaborativo, facilitan el intercambio de conocimientos, ideas y experiencias entre estudiantes y docentes. Así también, en las rutas específicas se establecen los pasos que los y las docentes deben seguir para implementarlas en el proceso de enseñanza-aprendizaje.

En suma, la Ruta Metodológica de Aulas Digitales Multipropósito es una guía para los docentes, que les permite aprovechar al máximo el potencial de las aulas digitales para fortalecer los procesos de aprendizaje de los estudiantes estén preparados en un mundo cada vez más digitalizado. Con un enfoque centrado en el estudiante y la utilización efectiva de la tecnología, esta ruta metodológica representa una pieza clave para una educación moderna, innovadora y en constante evolución. También, la ruta metodológica se puede aplicar en escenarios que tengan a disposición tecnología digital o no, pues plantea dos escenarios: manual y digital. Así los docentes, pueden plantear actividades online y offline.

- **Portal de Recursos Educativos Digitales**

Los recursos educativos digitales son definidos por el Ministerio de Educación en la Agenda Educativa Digital (AED) como "(...) herramientas diseñadas con una intención educativa, lo que implica apuntar a un objetivo pedagógico (...)". En este sentido, un recurso educativo digital es cualquier material o herramienta que se utiliza para apoyar el proceso de enseñanza y aprendizaje mediante el uso de tecnologías digitales. Estos recursos pueden incluir, entre otros: videos educativos, animaciones, simulaciones, juegos educativos, software educativo, presentaciones multimedia, e-books, podcasts, etcétera.

Para fortalecer la gestión de recursos educativos, implementar opciones de búsqueda y mejorar la catalogación, en el 2023, se generó un portal web de libre acceso para la comunidad educativa que no requiere de usuarios ni contraseñas, se encuentra en línea desde noviembre de 2022 y se accede a

través de la ruta recursos.educacion.gob.ec. En este espacio se alojan recursos educativos digitales relacionados con el currículo nacional en destrezas, criterios de evaluación o competencias, para reducir el tiempo de búsqueda del docente. El portal registra las siguientes estadísticas:

Tabla 1. Estadísticas del portal de recursos educativos digitales

Criterio	Estadísticas
Recursos publicados	+2000
Visitas	5,3 millones
Descargas	867 000
Usuarios	638 000
Medios de acceso	43,4% dispositivos móviles 55,5% computadores 1,2% tabletas

Fuente: Portal de recursos educativos digitales (<https://recursos.educacion.gob.ec/>).

Elaborado por: Dirección Nacional de Tecnologías para la Educación.

Si bien el portal permite el acceso y descarga de recursos educativos digital, es pertinente plantear estrategias de experiencias de aprendizaje (basadas en clase inversa, gamificación, aprendizaje colaborativo y aprendizaje basado en proyectos) con la finalidad de proporcionar a los estudiantes un camino estructurado y claro para adquirir o desarrollar conocimientos o habilidades de manera secuencial, autónoma y/o con acompañamiento docente. Así también, se busca crear un espacio de formación docente para la generación de recursos educativos digitales de acuerdo con el contexto local. Finalmente, se realizará una actualización del portal de recursos educativos buscando la virtualización del currículo nacional.

- **Campamentos “Escuelas que me Inspiran”**

Es proyecto que tiene por finalidad contribuir, incentivar y empoderar a la comunidad educativa en actividades de investigación y fortalecimiento académico a través de la participación en eventos que promuevan iniciativas en “Educación Digital”, mediante la ejecución y evaluación de estrategias pedagógicas que incorporen las tecnologías para el aprendizaje y el conocimiento (TAC), en los docentes y estudiantes de las distintas instituciones educativas de las zonas priorizadas para cada año.

El desarrollo de los campamentos “Escuelas que me Inspiran” está basado en un enfoque pedagógico denominada Ruta Pedagógica 2030 impulsada por el Ministerio de Educación, el cual se enfoca en el trabajo colaborativo, la interdisciplinariedad y la reflexión, como ejes para pensar el desarrollo de actividades curriculares que desplieguen la potencialidad del estudiante, su capacidad de análisis, creación, pensamiento crítico, trabajo en equipo, resolución de problemas, alfabetismo digital, entre muchas otras competencias claves para enfrentar de mejor manera la complejidad del mundo en el que coexistimos, finalmente, hace énfasis en la interrelación entre estudiantes, que aprenden al desarrollar su actividad mental con el contenido objeto de enseñanza y aprendizaje, y con quien ejerce la docencia, que ayuda a sus estudiantes en el proceso de construcción de aprendizajes significativos.

Para la ejecución de los Campamentos “Escuelas que me Inspiran” se ha determinado implementar la capacitación a los miembros de la comunidad educativa a través de talleres que aborden la metodología STEAM+H (Ciencia, Tecnología, Ingeniería, Artes, Matemáticas y Humanidades), tertulias, concursos de robótica y festivales o ferias de cierre. Ello con el propósito de involucrar a los estudiantes en un contexto de aprendizaje multidisciplinar e interdisciplinar, derribando las barreras que han existido tradicionalmente entre las diferentes asignaturas, y ofrecer a los estudiantes oportunidades para establecer nuevas conexiones con la tecnología digital. En este sentido, la implementación se la realiza mediante las siguientes acciones:

- **Talleres:** son espacios para desarrollar aprendizajes prácticos alrededor de las áreas de la metodología STEAM+H y las capacidades para el Aprendizaje Digital y Ciudadanía Digital, dirigidos a estudiantes y docentes de todos los subniveles y niveles de educación de instituciones educativas de sostenimiento público y privado. En este contexto, las Coordinaciones Zonales, a través de los lineamientos emitidos por Planta Central,

establecen los procesos para la convocatoria, las inscripciones, las sedes de los talleres; así como, los listados de los participantes y de las instituciones educativas. A todos los participantes, se les entregará diplomas de participación.

- **Tertulias:** Las tertulias son espacios de dialogo entre expertos y la comunidad educativa, tienen como finalidad fomentar el desarrollo de capacidades para el Aprendizaje Digital y Ciudadanía Digital. Algunos temas generales que se plantean en las tertulias son el uso seguro de internet, la brecha de género en las ciencias y la tecnología, y la metodología STEAM+H.
- **Concurso Eugenia y la Robótica:** los concursos de robótica son un espacio para demostrar los conocimientos, habilidades y actitudes adquiridas por los docentes y estudiantes a lo largo de las jornadas de talleres. En este espacio se realiza una competición entre los equipos participantes de los programas de robótica, programación e ingeniería ante jueces e invitados. Las categorías que se presentan son: robot submarino, robot insecto, robot seguidor en línea, robot laberinto, puentes, programación.
- **Festival de cierre:** es un espacio para demostrar los conocimientos, habilidades y actitudes adquiridas por docentes y estudiantes a lo largo de las jornadas de talleres.

A continuación, se presenta un resumen de los participantes, desde el 2021 hasta abril de 2024:

Tabla 2. Resumen de participantes de Campamentos “Escuelas que me Inspiran”

En 2023 se implementó una encuesta de percepción dirigida a los participantes de los Campamentos “Escuelas que me Inspiran”. El cuestionario plantea cincuenta y seis preguntas, que recogen datos de los encuestados sobre su situación geográfica, género, nivel de instrucción y el perfil educativo. También, las preguntas planteadas se enfocaron en valorar el desempeño del facilitador, la pertinencia de los insumos, lugar y tiempo, la utilidad de los contenidos y actividades tecnopedagógicas, y la satisfacción del usuario sobre todo el evento. Durante el 2023, los principales resultados obtenidos fueron (en relación con el fortalecimiento de las habilidades y competencias digitales).

- El 64,94% de los docentes y autoridades indican que los contenidos y actividades de los talleres fueron útiles para fortalecer sus conocimientos sobre competencias digitales, y el 4,01% indica que no le fueron útiles. El 56,51% de los estudiantes indican que los contenidos y actividades de los talleres fueron útiles para fortalecer sus conocimientos sobre competencias digitales, mientras que, el 4,09%

- **Talleres de Alfabetización Mediática e Informativa**

La Organización de las Naciones Unidas para la Educación, la Ciencia y la Cultura [Unesco] (2022) menciona que la Alfabetización Mediática e Informativa (AMI) posibilita a las personas a pensar críticamente sobre la información y el uso de herramientas digitales y fortalece la toma de decisiones informadas para la construcción de la paz, la igualdad, la libertad de expresión, el diálogo, el acceso a la información y el desarrollo sostenible.

En junio de 2023, a través de la ejecución de talleres virtuales, se inició un proceso de capacitación a docentes y estudiantes cuyo objetivo es desarrollar sus capacidades para acceder, analizar, evaluar, crear y actuar utilizando las tecnologías de la información y la comunicación, pudiendo identificar, conceptualizar y ejercer estrategias de prevención frente a discursos de odio, noticias falsas (fake news), riesgos y peligros latentes en la navegación de la Internet, esto como parte de la ciudadanía digital. En relación con ello, se viene implementando ciclos de talleres virtuales para el régimen Costa-Galápagos y Sierra-Amazonía.

En los meses de junio y julio de 2023, se ejecutaron los talleres virtuales de Alfabetización Mediática e Informativa dirigido a docentes de las Zonas Educativas 1, 4, 5 y 8, en el marco de la Agenda Educativa Digital 2021 – 2025, que se llevaron a cabo del 05 al 08 de junio, participaron 550 docentes (390 mujeres y 160 hombres) de las provincias de Esmeraldas, Imbabura, Manabí, Santo Domingo de los Tsáchilas, Guayas, Los Ríos, Bolívar y Santa Elena.

En los talleres para estudiantes de bachillerato, de las mismas zonas educativas, llevados a cabo del 03 al 06 de julio, participaron 438 estudiantes de bachillerato (274 mujeres y 164 hombres) de las provincias de Esmeraldas, Imbabura, Manabí, Santo Domingo de los Tsáchilas, Guayas, Los Ríos, Bolívar y Santa Elena. En el taller para funcionarios públicos de planta central y la Zona 9, participaron 42 funcionarios (21 mujeres y 21 hombres). El total de beneficiarios de los talleres virtuales de Alfabetización Mediática e Informativa es de 1030 participantes.

En los talleres virtuales de Alfabetización Mediática e Informativa dirigido a docentes de las Zonas Educativas 1, 2, 3, 6, 7 y 9, en el marco de la Agenda Educativa Digital 2021 – 2025, que se llevaron a cabo del 02 al 04 de octubre, participaron 745 docentes (422 mujeres, 319 hombres, 4 no registra) de las provincias de Sucumbíos, Imbabura, Carchi, Pichincha (excepto Quito), Orellana, Chimborazo, Cotopaxi,

Tungurahua, Azuay, Cañar, Morona Santiago, Loja, Zamora Chinchipe, Pichincha (Quito).

En los talleres para estudiantes de bachillerato, de las mismas zonas educativas, llevados a cabo del 16 al 18 de octubre, participaron 438 estudiantes de bachillerato (266 mujeres y 172 hombres) de las provincias de Sucumbíos, Imbabura, Carchi, Pichincha (excepto Quito), Orellana, Chimborazo, Cotopaxi, Tungurahua, Azuay, Cañar, Morona Santiago, Loja, Zamora Chinchipe, Pichincha (Quito).

Considerando los talleres de ciclo Costa-Galápagos y Sierra-Amazonía, el total de beneficiados durante el año 2023, es de 2213 participantes.

- **El Mundo Virtual de Eugenia**

Esta iniciativa se centra en la promoción del uso adecuado de las tecnologías y prevención en la navegación de plataformas digitales y redes sociales. Además, brinda herramientas para el conocimiento, identificación y prevención en el uso seguro de la internet. A través del proyecto “El Mundo Virtual de Eugenia” se han creado una diversidad de recursos educativos digitales (RED) abiertos, entendiendo el concepto de “abierto” como de acceso libre y gratuito. Esto quiere decir que los miembros de la comunidad educativa (profesores, padres y madres de familias, estudiantes, familias de estudiantes, sociedad civil en general) pueden hacer uso de los RED en función de sus necesidades de aprendizaje.

Estos recursos están diseñados para estudiantes entre los 5 y 18 años, la población de mayor concentración de este proyecto; y, están publicados en el portal de recursos educativos del Ministerio de Educación. En el 2022, como parte del proyecto El Mundo Virtual de Eugenia se entregaron 400 kits (guías y juegos didácticos) para el uso seguro de internet y dispositivos tecnológicos distribuidos a nivel nacional.

Durante el período mayo 2022 a junio 2024, en el marco del proyecto Campamentos “Escuelas que me Inspiran” se implementaron los talleres de capacitación en el uso seguro de Internet convocando a autoridades de las instituciones educativas, quienes a su vez capacitaron a su personal docente. A continuación, se presenta un breve resumen:

Tabla 4. Talleres impartidos en Campamentos “Escuelas que me Inspiran” sobre el uso de internet

Asimismo, otras de las acciones que se busca implementar durante el 2024 son: a) curso virtual MOOC sobre el uso seguro de internet y actuación frente a casos de violencia digital; b) propuesta de aprendizaje híbrido para fortalecer el conocimiento sobre ciudadanía digital, conforme el currículo de la UNESCO. Estas acciones están previstas trabajarlas en cooperación con otras unidades administrativas del Ministerio de Educación y el Banco Interamericano de Desarrollo (BID).

- Red Intergeneracional de Agentes Multiplicadores de Uso Seguro de Internet (RIAMUSI)**

La RIAMUSI es un modelo de Red Intergeneracional, Interinstitucional e Interdisciplinaria, para la promoción del uso seguro del Internet integrada por niños, niñas, adolescentes, docentes, madres, padres y/o tutores, considerando la equidad de género; se constituye en un espacio de intercambio, participación y acción sobre el acceso, uso y seguridad en Internet (Instituto Interamericano de la niñez y el adolescente [INN], 2018).

El objetivo del proyecto es establecer una red de miembros de la comunidad educativa para la prevención de riesgos y peligros que puedan enfrentar al navegar en Internet. La red tiene como facilitadores a especialistas del Instituto Interamericano de la niñez y el adolescente (INN-OEA); y, como acompañantes al Ministerio de Educación (MINEDUC), al Consejo Nacional para la Igualdad Intergeneracional (CNII) y ChildFund Internacional.

Al tratarse de la conformación de una Red intergeneracional, su implementación se deriva en dos fases o momentos. El primer momento se centra en la capacitación de los participantes seleccionados de las instituciones educativas, la conformación de los participantes está marcada por la presencia de estudiantes, docentes y familias. El segundo momento, implica que los participantes o equipo promotor capacitado, en cada institución lideren capacitaciones al resto del personal y promuevan una cultura de uso seguro de internet, dando paso así a la implementación de la RIAMUSI con el acompañamiento de los equipos nacionales de MIENDUC, CNII, IIN-OEA y ChildFund.

En el 2023 se implementó el piloto de la RIAMUSI en 4 instituciones educativas de San José de Minas; contó con la formación final de 27 participantes, miembros de la comunidad educativa (10 docentes, 6 padres de familia y 11 estudiantes) que evidenciaron un entendimiento conceptual sólido de los temas abordados. Además, como se beneficiaron indirectamente 56 docentes, 1176 estudiantes y sus familias.

Así también con el propósito de garantizar una implementación exitosa del proyecto RIAMUSI, se llevó a cabo una evaluación exhaustiva entre los principales enlaces de MINEDUC, CNII, ChildFund Ecuador e IIN-OEA que han acompañado el proceso.

En 2024, se ha convocado a analistas de los Distritos Educativos de Pichincha, Imbabura y Tungurahua para que cursen el Formador de Formadores de Uso Seguro de Internet (Fofousi).

- Inteligencia Artificial y Educación**

En el marco de colaboración entre la Universidad Nacional de Educación, Universidad de Cuenca y Escuela Politécnica del Litoral se están trabajando en cuatro líneas de acción para fortalecer el uso pedagógico y ético de la Inteligencia Artificial en Educación:

1. Retroalimentación y validación de los Lineamientos para el uso pedagógico y ético de la Inteligencia Artificial en Educación, desarrollados por la Dirección Nacional de Tecnologías

para la Educación.

2. Capacitaciones tecnopedagógicas a docentes del Sistema Nacional de Educación sobre la integración de Inteligencia Artificial en el proceso de enseñanza-aprendizaje (talleres virtuales y/o presenciales, cursos MOOC o NOOC, webinarios, entre otros).
3. Fortalecimiento de la Guía Ikig-AI (UNAE, 2023) para que los docentes del Sistema Nacional de Educación integren y reflexionen sobre la Inteligencia Artificial en su proceso de enseñanza-aprendizaje.
4. Levantamiento de una línea base sobre las habilidades de Inteligencia Artificial en una muestra de docentes del Sistema Nacional de Educación que será seleccionada por el Ministerio de Educación.

Así también, como parte del proceso de colaboración con otras instituciones se colaboró con la empresa Global New Ventures en un curso virtual “IA para Educadores: Fundamentos y Aplicaciones” dirigido a docentes de la Unidad Educativa Arupos, en la que participaron 51 docentes.

- **Franja de televisión y radio Educa**

La señal EDUCA del proyecto teleeducación del Ministerio de Educación salió al aire el 1 de octubre de 2012, por todos los canales de televisión y cableoperadoras del territorio nacional, amparada en el Art. 69 de la Ley de Radiodifusión y Televisión. Más de 60 canales a nivel nacional presentan los contenidos de Educa en el horario habitual de 15:00 a 16:00. En Ecuador TV, de: 14:00 a 15:00; sin embargo, a partir del 16 de agosto de 2021 hasta la fecha, Ecuavisa, TC Televisión, Canela TV, Teleamazonas, RTU y Oromar, dejaron de transmitir los contenidos educativos. Educa, desde el 2020, vincula la producción de sus contenidos al currículo priorizado. Estos se gestionan para todos los niveles y subniveles de educación.

Educa TV. La programación de Educa se clasifica por grupos etarios y niveles educativos, como se muestra en la siguiente tabla:

Tabla 5. Programación de la franja “Educa” por grupos etarios.

	Lunes	Martes	Miércoles	Jueves	Viernes
Nivel/Subnivel	Inicial y preparatoria	EGB Elemental	EGB Media	EGB Superior	Bachillerato

Algunos de los programas que se presentan en la parrilla semenal son:

- **¿Y ahora qué hago?** Propuesta serial de 20 episodios en la que un personaje de ficción intenta dar respuesta a la pregunta de un estudiante sobre una profesión u oficio de forma vivencial. Esta producción pretende enfatizar en las temáticas relacionadas al bachillerato acelerado y técnico.
- **Soy Arte Guambras.** Producir un serial edu-comunicacional sobre cómo el proceso de aprendizaje del arte, en sus diversas expresiones, transforma la vida de niñas, niños y adolescentes, brindando herramientas y destrezas para un proyecto de vida.
- **Amaze.** Serial audiovisual cuyo objetivo es brindar información relevante de educación integral para la sexualidad (EIS), a través de la adaptación de videos de la serie de “Educación Sexual Amaze”. El Ministerio de Educación, con participación de personas jóvenes, adaptará y difundirá 40 videos en español ecuatoriano y lengua de señas ecuatoriana, así como 10 vídeos en kichwa y en shuar por la franja educativa y sus redes sociales. Además, incorporará los vídeos en la implementación de la Guía Metodológica para la Prevención del Embarazo Adolescente y las Oportunidades Curriculares en Educación Integral en Sexualidad, que son herramientas del Ministerio de Educación para la implementación de la Educación Integral para la Sexualidad. Finalmente, convertirán a cómics para alcanzar a los territorios con menores niveles de conectividad.
- **Ipanc.** Durante el mes de enero de 2024 se lleva a cabo la revisión técnica y contenido del nuevo material audiovisual producido por el Instituto iberoamericano de Patrimonio Natural y Cultural y que será publicado por la franja educativa del Ministerio de Educación

(Educa) y sus redes sociales.

- **Educa-Inabio-DNMP.** En el marco del Proyecto “Educación para el Desarrollo Sostenible en Instituciones Educativas” liderado por el Instituto Nacional de Biodiversidad, se confirmó la entrega de cuatro (4) productos audiovisuales, de 10 minutos, para Educa.
- **Somos mujeres y hacemos ciencia.** En el mes de marzo de 2024 el equipo de Educa recibió el material audiovisual de la serie: “Somos mujeres y hacemos ciencia”, que se difundirá por la pantalla de Educa.
- **Aprendemos Juntos, Profe Pancho y Exploramundos.** El programa Profe Pancho es serial compuesto por 90 episodios de televisión que incluyen contenidos con vinculación curricular y enfoque de derechos, organizados por niveles (Inicial y preparatoria, elemental, media, superior, Bachillerato; de lunes a viernes, respectivamente) como un apoyo al proceso de aprendizaje en clase. El programa Exploramundos es un serial compuesto por 108 episodios de televisión que incluyen contenidos con vinculación curricular y enfoque de derechos, organizados por niveles (Inicial y preparatoria, elemental, media, superior, bachillerato; de lunes a viernes, respectivamente) como un apoyo al proceso de aprendizaje en clase. Así también, se han generado contenidos audiovisuales para Bachillerato técnico y salas para familias y docentes. A continuación, los enlaces y contenidos del canal de YouTube de Educa:

- What challenges were encountered in digital education provision (check all that apply)?

- ☐ Lack of quality, curriculum-aligned digital teaching and learning content that supports flexible learning and teaching pathways
- ☐ Lack of equity and inclusion in digital learning solutions
- ☒ inadequate safety measures and IT support to respond to issues of child online safety or reduce cyber security risks
- ☐ Other:
- ☒ Limited access to internet and/or electricity
- ☐ Limited access to hardware (devices, chargers, etc.)
- ☐ Difficulty in regulating the use of digital education solutions
- ☐ Difficulty in sustainably financing digital education solutions at national scale
- ☐ Lack of digital skills development for meaningful use of digital technology in teaching practice
- ☐ Disjointed or fragmented solutions that are not centrally systematized or regulated

El “Protocolo de actuación frente a situaciones de violencia digital detectadas o cometidas en el sistema educativo” tiene el objetivo de: “establecer lineamientos de actuación para todas las personas que conforman la comunidad educativa con el fin de garantizar la prevención, detección, intervención, derivación, seguimiento y reparación frente a situaciones de violencia digital detectadas o cometidas en el sistema educativo”.

El presente documento es de aplicación obligatoria para todas las instituciones educativas de sostenimiento fiscal, municipal, fisco-misional y particular, en todos sus niveles: inicial, básica y bachillerato (técnico, técnico profesional y complementario en artes) del Sistema Nacional de Educación. Asimismo, será aplicable en todos los programas de educación especializada e inclusiva, en las modalidades presencial, a distancia, semipresencial, escolaridad inconclusa y en todos los programas educativos que genere el Ministerio de Educación.

Este protocolo brinda lineamientos y acciones que deben ser implementadas por las autoridades de la institución educativa, por el equipo de profesionales del Departamento de Consejería Estudiantil (DECE) y por docentes, así como por el personal administrativo y de servicio. Este documento forma parte de los “Protocolos y rutas de actuación frente a situaciones de violencia detectadas o cometidas en el sistema educativo” e incorpora el enfoque restaurativo en la promoción, protección y reparación en casos de riesgos o vulneraciones de derechos de niños, niñas y adolescentes en entornos digitales. Además, fue emitido mediante Acuerdo Ministerial MINEDUC-MINEDUC-2023-00054-A, publicado el 11 de septiembre de 2023.

4 Strengthening governance systems

For reference: The Education 2030 Framework for Action states "to ensure quality education and conditions for effective education outcomes, governments should strengthen education systems by instituting and improving appropriate, effective and inclusive governance and accountability mechanisms; quality assurance; management information systems; transparent and effective financing procedures and mechanisms; and institutional management arrangements, as well as ensure that robust, timely and accessible data are available" (para. 18).

- Please indicate the measures taken in terms of governance (several items may be ticked):

☐ Monitoring mechanisms to assess compliance with the right to education obligations, including through management information systems.

☐ Monitoring results are made public. Please provide the link:

☐ Monitoring processes are participatory, inclusive and regular.

☐ Sector-wide and multisector approach is adopted to education governance.

☐ Financial resources are effectively allocated to prioritise the provision of free, quality, public education and are adequately budgeted for in government plans.

☐ The decision-making process for the allocation of resources to education is transparent.

☒ Ensuring crisis-sensitive and disaster risk-informed planning and programming, including the provision of quality education in emergencies.

☐ There is a certain degree of decentralization in favour of local public authorities and autonomy for schools to ensure context relevance of their teaching.

- Please elaborate on each of the measures taken:

“Considerando que la educación en situaciones de emergencia y desastre no sólo es importante como derecho fundamental de los niños, niñas y adolescentes, sino también como forma de protección, recuperación psicológica e integración social, pues la educación les ofrece la capacidad de

emancipación”⁵⁷; el Ministerio de educación implementa en la estructura de respuesta para el componente de educación en emergencia las siguientes herramientas:

- Como antecedente, mediante resolución No. SGR-142-2017 de 09 de agosto de 2017, el Servicio Nacional de Gestión de Riesgos y Emergencia resolvió: “Artículo 1.- Acoger el contenido del Manual del Comité de Operaciones de Emergencias (COE); donde se establecen acciones que las instituciones que conforman las Mesas Técnicas de Trabajo (MTT) y los grupos de trabajo (GT) deben ejecutar ante la presencia de eventos peligrosos”, donde el Ministerio de Educación es responsable de liderar la Mesa Técnica de Trabajo (MTT 5) - Educación en Emergencia, por lo que solicita delegados de cada institución perteneciente para continuar con el proceso de preparación para la respuesta.

<https://www.gestionderiesgos.gob.ec/wp-content/uploads/downloads/2017/09/Manual-del-COE.pdf>

- Al respecto, Implementa el Plan Nacional para la Reducción de Riesgos de Desastres en Educación (Política Pública 2018 – 2030) en el año 20219, este documento tiene como visión: “Al 2030, el sistema educativo habrá fortalecido la resiliencia de la comunidad educativa a través de lineamientos y estrategias que orientan las fases de generación de conocimiento, prevención de riesgos, preparación para la respuesta, rehabilitación y reconstrucción, asegurando el derecho a la educación y protección de los niños, niñas y adolescentes en situaciones de emergencias y desastres”.

<https://educacion.gob.ec/wp-content/uploads/downloads/2019/11/Plan-Nacional-para-la-Reduccion-de-Riesgos-de-Desastres-en-el-Sistema-Educativo.pdf>

- Además, implementa el **Plan Nacional de Respuesta ante Emergencias, Desastres y Catástrofes en el Sistema Educativo - RespondEc Educ** en el 2019; este documento que tiene una organización modular que facilita a las estructuras organizativas del Ministerio de Educación organizar la atención de emergencias, desastres y catástrofes en función de sus competencias y responsabilidades, además de mantener una estrecha relación con el Plan Nacional de Respuesta ante Desastres - RespondEc del Sistema Nacional Descentralizado de Gestión de Riesgos. En este sentido, brinda un mayor soporte técnico a los tomadores de decisiones y responsables de la gestión de la Educación en Situaciones de Emergencia agrupado en 09 áreas de trabajo y 57 componentes.

Implementa la metodología para la construcción de escenarios de riesgos, para la identificación y descripción de las variables se utilizó la siguiente secuencia de pasos:

- Recopilación de datos, documentos e informes y análisis de la información técnica, histórica, narrativa y estadística.
- Revisión de escenario descrito por el Servicio Nacional de Gestión de Riesgos y Emergencias – SNGRE en el Plan Nacional de Respuesta RespondEc, IGENP u otros que se identifiquen.

Para la generación de escenarios

- Definir las localidades geográficamente relevantes,
- Identificar las zonas de alta probabilidad de afectación.
- Cobertura de sectores con población estudiantil.
- Estimación de comunidad educativa afectada.

Elaboración de mapas: relación entre las capas de amenazas y la base de datos:

- A través del manejo de un Sistema de Información Geográfica, se sobrepusieron las capas de zonas.
- Se hizo el geoprocesamiento.

⁵⁷ UNICEF/TACRO, Educación en situaciones de emergencia y desastres: Guía de preparativos para el sector educación, Ciudad de Panamá.

- Estimación de variables en base a la información validada:

- Infraestructura expuesta
- Instituciones educativas con pérdida funcional
- Comunidad educativa expuesta. Población estudiantil, Personal docente, Personal administrativo, Familias de población educativa (Opcional)

- Implementación del “ACUERDO Nro. MINEDUC-MINEDUC-2018-00090-A”, referente a los Protocolos de Manejo de Información ante Eventos Peligrosos en el Sector Educativo tienen por objeto regular el flujo de información que debe aplicarse frente a eventos peligrosos, salvaguardando la integridad física y psicológica de los niños, niñas y adolescentes y demás miembros de la comunidad educativa, garantizando de esta forma la continuidad de los procesos educativos.

<https://educacion.gob.ec/wp-content/uploads/downloads/2018/09/MINEDUC-MINEDUC-2018-00090-A.pdf>

A partir del 2021, se actualiza los documentos de la caja de herramientas de gestión de riesgos para el Sistema Educativo donde constan:

- Remite insumos a nivel territorial para la construcción de procesos de fortalecimiento donde la formación y capacitación es, potencialmente, un factor de cambio capaz de ayudar a las personas a identificar las necesidades en función de su realidad y puedan vincularse a los objetivos institucionales, identificar problemas, para crear y fortalecer capacidades así como generar conocimientos sobre las dinámicas de los riesgos en Ecuador, ayudando a planificar las acciones que se pueden implementar para reducirlos y definir estrategias para responder de manera adecuada, garantizando el derecho a la educación en situaciones de emergencias y/o desastres; por lo cual es indispensable realizar una coordinación transversal con todos los actores directos e indirectos del Sistema Nacional Descentralizado de Gestión de Riesgos, acciones que garantizarán el éxito de la presente propuesta.

Plan de Gestión de Riesgo: el documento es una herramienta de análisis y planificación estratégica en el que cada institución establece acciones y actividades que permite construir capacidades, gestionar recursos y fortalecer la organización institucional, con la finalidad de ofrecer a la comunidad educativa una preparación y respuesta oportuna y eficiente ante la presencia de eventos peligrosos que afecten el desarrollo de las actividades en el Sistema Educativo.

Metodología para ejercicios de simulación y simulacro: El documento permite definir el procedimiento para la realización de ejercicios de simulación y simulacro en el sector educativo a través de herramientas que permitan planificar, organizar, ejecutar y evaluar.

Modelo de gestión para la ejecución de procesos de capacitación: Donde los procesos de fortalecimiento permiten a las instituciones educativas planificar e implementar acciones y definir estrategias para responder de manera adecuada a los impactos negativos de los eventos peligrosos que afecten el desarrollo de las actividades educativas, promoviendo el derecho a la educación en situaciones de emergencias y desastres; por lo cual es indispensable realizar una coordinación transversal con todos los actores del Sistema Nacional Descentralizado de Gestión de Riesgos, para promover de forma efectiva el éxito de las propuestas de capacitación.

Implementación del Plan de Acción ante efectos negativos del evento denominado “Fenómeno de el Niño – Oscilación del Sur (ENOS)”

Al respecto, el Ministerio de Educación como parte de la estructura de respuesta a nivel nacional (Plenaria del COE y mesas técnicas de trabajo 4 y 5) y en su constante compromiso con fortalecer la misma, activa su Plan Nacional de Respuesta RespondEc-Educ, en base a las siguientes acciones:

- Monitoreo de eventos peligrosos principales y secundarios suscitados durante las declaratorias de

alerta para el evento.

- Monitoreo de uso de infraestructura.
- Monitoreo del proceso de Continuidad Educativa en situaciones de emergencia.
- Monitoreo de acciones realizadas por el Ministerio de Educación y por las instituciones que conforman la MTT-5.
- Participación del Sistema Educativo en COE Nacional, provincial y cantonal.
Soporte a las acciones establecidas en los COE nacional y territorial.

En este sentido, se han generado los siguientes insumos macro finales:

- Escenario base de afectación – EBA en el Sector Educativo Asociado a un evento por Fenómeno El Niño institucional y de la MTT5 – Educación en Emergencia.
- Línea contingente de la MTT N°5 ante efectos negativos del evento denominado “Fenómeno El Niño – Oscilación del Sur (ENOS)”.
- Plan de acción ante el fenómeno de “El Niño” en Ecuador 2023-2024.
- Modelo de gestión para la implementación del Plan de Continuidad educativa y emisión de guías pedagógicas.

- **Construcción del Plan de Continuidad Educativa ante la presencia de eventos de origen natural,** este plan establece enfoques, fases, prioridades, roles de los actores y condiciones mínimas en coherencia con las estrategias establecidas por el Ministerio de Educación, para la toma de decisiones por parte de las instituciones educativas en coordinación con las zonas y distritos en la continuidad del servicio educativo, en cumplimiento de las condiciones o recomendaciones mínimas con carácter obligatorio, a fin de establecer la modalidad educativa adecuada o necesaria, de acuerdo con la realidad territorial; por otra parte el documento está dirigido a toda la comunidad educativa y promueve acuerdos de la institución educativa entre directivos, docentes, padres de familia, comunidad y, muy especialmente, de estudiantes, para la permanencia escolar, la continuidad educativa, sin excepción alguna, y el uso progresivo de las instalaciones educativas.

Plan de Continuidad Educativa ante la presencia de eventos de origen natural; mismo que establece enfoques, fases, prioridades, roles de los actores y condiciones mínimas para la continuidad de la educación, permitiendo a las instituciones educativas en coordinación con las zonas y distritos tomar la decisión de su implementación, por lo que se ha previsto tres fases para la activación del Plan:

Fase 1: “Diagnóstico y análisis del contexto territorial”: en esta fase la institución educativa, liderada por su máxima autoridad, deberá realizar un diagnóstico de la realidad y contexto territorial para la toma de decisiones, según el siguiente detalle:

- Identificar las amenazas a las que se encuentran expuestas.
- Activar los Protocolos de Manejo de Información ACUERDO Nro. MINEDUC-MINEDUC-2018-00090-A.
- Ejecutar un proceso de monitoreo y seguimiento al desarrollo del evento
- Gestionar el acompañamiento y soporte técnico de la Coordinación zonal y distrito.
- Planificar la ejecución de procesos y estrategias de fortalecimiento institucional.
- Determinar si la institución educativa se encuentra susceptible a amenazas de origen natural.

Fase 2: “Educación ante la presencia de amenazas de origen natural”: En esta fase se establece la modalidad para la continuidad de la educación ante la presencia de amenazas de origen natural donde se considerarán las recomendaciones y resoluciones de los COE y GAD respectivos, según el siguiente detalle:

Instituciones Educativas	Descripción del proceso para la continuidad de la educación		
Sin afectación	Las instituciones educativas que NO tengan afectación de ningún tipo desarrollarán sus actividades educativas con normalidad en la presencialidad.		
Con afectación	IE sin daño estructural (de la infraestructura) con daño funcional (no hay acceso a la IE)	La institución educativa podrá: - Postergar el inicio de las actividades escolares, debidamente justificado por la máxima autoridad distrital, acogiendo las recomendaciones del GAD y COE-territorial. - Si la suspensión de actividades escolares es superior a 5 días, deberá acoger la modalidad a distancia de acuerdo con el diagnóstico realizado.	
	IE con daño estructural	Nivel de afectación bajo	La institución educativa podrá: - Ejecutar clases bajo la presencialidad. - Ejecutar clases bajo la semipresencialidad, aplicando el plan de contingencia.
		Nivel de afectación media	La institución educativa podrá: - Ejecutar clases bajo la presencialidad. - Ejecutar la semipresencialidad, aplicando el plan de contingencia. Acoger la Educación a Distancia, aplicando el plan de contingencia.
		Nivel de afectación alto	La institución educativa deberá: Acoger la Educación a Distancia, aplicando el plan de contingencia.
Descripción de los niveles de afectación			
- Bajo: Presenta daños menores e sanitario, eléctrico). Cuentan inmediatamente. - Medio: Presenta daños moderados en sus elementos estructurales, no estructurales y sistemas (hidráulico, sanitario, eléctrico). Cuentan con el servicio y abastecimiento de forma parcial y este puede restablecerse en un periodo corto de tiempo. - Alto: Presenta daños graves en sus elementos estructurales, no estructurales y sistemas (hidráulico, sanitario, eléctrico). No cuentan con el servicio y abastecimiento, por lo que este puede restablecerse en un periodo largo de tiempo.			

Fase 3: “Retorno a la normalidad”: El Ministerio de Educación, a través de sus niveles desconcentrados analizará y definirá de manera conjunta con todas las instituciones estatales a nivel territorial, la ejecución de esta tercera fase.

- Implementación de la metodología para el análisis de riesgos en el Sistema Educativo: Proceso de acercamiento gradual al conocimiento analítico de un hecho o problema que permite destacar los elementos más significativos de una alteración en la realidad analizada. El diagnóstico de un determinado lugar, entre otros datos, permite conocer los riesgos a los que está expuesto por la eventual ocurrencia de un evento (SGR).

El análisis de riesgos aplica para repotenciaciones bajo el financiamiento de AFD u otros créditos externos, reaperturas y selección de predios previo a la construcción de nueva infraestructura.

Para realizar un informe de Análisis de Riesgo se debe partir de que el Riesgo es igual a la Amenaza por la Vulnerabilidad siendo ($R = A * V$). El 50 % de la información que contiene el informe de análisis de riesgos se enfoca en realizar una revisión de los insumos cartográficos disponibles de los Institutos Técnicos Científicos, Gobiernos Autónomos Descentralizados y Servicio Nacional de Gestión de Riesgo, los cuales permitirán identificar los diferentes niveles de susceptibilidad frente a las amenazas, este análisis cartográfico.

 - Rules for the organization of inclusive education approved by the decision of the Cabinet of Ministers of the Republic of Azerbaijan No. 43 dated February 11, 2023.
 - Order issued by the Ministry of Science and Education regarding the expansion of the scope of inclusive education.
 - Pilot projects by the State Agency on Preschool and General Education regarding the inclusion of students with disabilities into extracurricular activities

Measures taken:

In 2021–2023 the Institute of Education of the Republic of Azerbaijan collaborated with the Ministry of Science and Education of Azerbaijan and the United Nations Children's Fund (UNICEF) on the third stage of the project titled "Expanding the network of general educational institutions with inclusive classes." The main goal of the project was to increase the number of general educational institutions offering inclusive classes, support the education rights of children with disabilities in Azerbaijan, and enhance the quality of inclusive education by empowering school staff. As part of the project, 38 inclusive classes were set up. As part of the project, training sessions were organized for school teaching staff, alongside discussions, provision of necessary materials, and recommendations for implementing activities in inclusive classes. Meetings were also held with students and their parents to foster an inclusive culture within these classes. Additionally, an Individual Training Plan was devised and put into action to facilitate the adaptation of students enrolled in inclusive classes to the learning process.

Law of the Republic of Azerbaijan on ensuring gender (men and women) equality.

Measures taken:

Since 2021, the Institute of Education of the Republic of Azerbaijan, with support from the UN Population Fund (UNFPA) and the European Union, has been implementing the project "Promoting a Gender-oriented Approach in General Education." As part of this initiative, various activities have been conducted to ensure equal opportunities for all students, including:

- Publishers and textbook authors attended training sessions aimed at enhancing their ability to develop gender-transformative content suitable for primary and secondary education contexts;
- An analysis was carried out on 7 sets of textbooks used in grades I-V, with a specific focus on a gender-sensitive perspective, and feedback and suggestions were provided accordingly.
- Pedagogical and administrative staff from general educational institutions, along with psychologists, participated in training sessions aimed at enhancing their knowledge and skills to promote gender equality within schools.
- School psychologists actively work with students to increase support for students and promote gender equality through school-based counseling and support systems;
- Meetings were held with students and their parents to promote a gender-oriented approach;
- Parents, guardians, and family members are provided with information on gender-responsive schooling practices through the School Improvement Plan.

The project titled "Promoting gender transformative approaches in primary and secondary education in Azerbaijan" funded by the United Nations Population Fund (UNFPA) and implemented by the Institute of Education of the Republic of Azerbaijan (ARTI) is to ensure effective gender mainstreaming in primary and secondary education settings in Azerbaijan by achieving gender responsiveness in content, assuring an equitable approach to gender in teaching and learning, and creating a gender-sensitive environment in schools.

Within the project scope, there is a focus on ensuring a more gender-transformative content- the goal is to facilitate the development of gender-unbiased content by eliminating gender bias, social stereotypes, discriminative social and cultural attitudes, behaviors, as well as gender-based language from textbooks, and other relevant teaching materials. As well as assure a more gender-inclusive social and educational environment - the goal is to create a more gender-inclusive culture and promote gender responsive teaching and learning practices.

What challenges were encountered in achieving gender equality in and through education? If needed, brief quantitative information may be added.

With the support of the United Nations Population Fund (UNFPA) and the European Union, the Institute of Education of the Republic of Azerbaijan held meetings and trainings with the school's teaching staff, psychologists, students, and their parents within the framework of the "Promoting a Gender-oriented Approach in General Education" project. However, several challenges were faced during this period, including:

- Training participants sometimes hesitate to engage in discussions about gender-based approaches, often because of local cultural norms and deeply ingrained social expectations.
- Textbook authors have sometimes had an ambiguous approach to the gender-oriented design of textbooks, taking into account the local context;
- During the training sessions, participants often express their concerns that adopting a gender-oriented approach might result in the erasure of long-standing traditions in our country.
- During the training sessions, it is noticed that even some participants who had prior gender training misunderstood the gender-oriented approach

Does the legal minimum age for marriage conform to international standards (18 years) [1]: Please note that child marriage is a discriminatory practice as often girls can marry at a younger age than boys. Child marriage violates the child's right to education as they are more likely to drop out of school and children who are not in school are more likely to get married. [1] Please note that according to the Joint general recommendation No. 31 of the Committee on the Elimination of Discrimination against Women/general comment No. 18 of the Committee on the Rights of the Child on harmful practice, para. 20: "a marriage of a mature, capable child below 18 years of age may be allowed in exceptional circumstances, provided that the child is at least 16 years of age and that such decisions are made by a judge based on legitimate exceptional grounds defined by law and on the evidence of maturity, without deference to culture and tradition."

Yes

- Please provide reference to the relevant laws and provisions and indicate the exceptions to the legal age of marriage as well as the absolute minimum age:
Pursuant to Article of 10.1 of Family Code of the Republic of Azerbaijan , the age of marriage in the Republic of Azerbaijan is 18 years old. Pursuant to Article 10.2 of Family Code of the Republic of Azerbaijan, if there are extenuating circumstances , the age of marriage may be reduced by no more than one year.

In 2021-2023 the Institute of Education of the Republic of Azerbaijan with the collaboration of the Ministry of Science and Education of Azerbaijan and the United Nations Children's Fund (UNICEF) implemented the project titled "Expanding the network of general educational institutions with inclusive classes" to protect the educational rights of individuals with disabilities. During the implementation process several challenges emerged. ● ☐ Students with severe disabilities in inclusive classes can sometimes complicate the progress of the educational process, which may lead to objections from the parents of other students. ● ☐ In most schools across the country, the existing infrastructure is not suitable for organizing inclusive classes. ● ☐ The lack of specialists in inclusive education for schools with inclusive classes. ● ☐ Negative attitudes and stereotypes about disabilities can sometimes create a challenging learning environment and discourage the inclusion of students with disabilities.

2. Progress made with respect to implementing the right to education across all levels and forms of education

2.1 Early childhood care and education For reference: Early childhood care and education (ECCE) is not explicitly provided for in the Convention/Recommendation. However, the international community has increasingly recognized the importance of ECCE over the years. The Committee on the Rights of the Child initially recognized “the right to education during early childhood as beginning at birth” (General Comment No. 7). This became more explicit with the 2010 Moscow Framework for Action and Cooperation[1] and more recently, the Tashkent Declaration and Commitments to Action for Transforming Early Childhood Care and Education[2]. In the current context of the Education 2030 agenda, under SDG target 4.2, states have now committed to “the provision of at least one year of free and compulsory pre-primary education”. - Please indicate the measures taken to ensure access to quality ECCE (several items may be ticked): [1] Which states that “ECCE is part of the right to education and the main foundation for holistic human development”. [2] Which commits states to “Enhance policy and legal frameworks to ensure that the right to education includes ECCE” [Prior to pre-primary education, ECCE services are free]

Roughly half of the students in Azerbaijan are enrolled in non-state funded programs. The tuition fees for these students are determined by the Cabinet of Ministers of the Republic of Azerbaijan, following recommendations from the higher education institutions. There are no fees for exams taken during the registration process for higher education. However, students who need to retake a subject in order to fulfill academic requirements must pay an exam fee, which cannot exceed 25% of the original tuition fee for that subject.

- Please elaborate on each of the measures taken:

According to the joint action plan of the Ministry of Science and Education of the Republic of Azerbaijan and the United Nations Children's Fund (UNICEF), the project "Promoting Child Safeguarding (CS) mechanism for the education system in Azerbaijan" has been underway since 2021. Its primary objective is to enhance the protection of children's rights and well-being in educational institutions in Azerbaijan and establish a mechanism for "Child Safeguarding". Within the project framework, trainings on CS were conducted for the teaching staff of 51 schools and parents. As a result of the trainings, CS groups were established within schools, comprising parents, teachers, and school management. Through meetings organized for students, they were introduced to detailed information about the mechanism. Additionally, "Listening" boxes have been installed in schools, providing students with a platform to report incidents of discrimination and violence they face within and around the school premises. Students can describe the situation and place their reports in these boxes. The CS group reviews these cases and offers tailored support to school children in need. As a continuation of the project, it is planned to implement the CS mechanism in 80 schools by the end of this year.
