

GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE 1974 RECOMMENDATION CONCERNING EDUCATION FOR INTERNATIONAL UNDERSTANDING, CO-OPERATION AND PEACE AND EDUCATION RELATING TO HUMAN RIGHTS AND FUNDAMENTAL FREEDOMS

I. Introduction

A. About the 1974 Recommendation

1. UNESCO's *1974 Recommendation concerning Education for International Understanding, Co-operation and Peace and Education relating to Human Rights and Fundamental Freedoms*¹ (the "*1974 Recommendation*") aims to promote international education and world peace through understanding, solidarity and cooperation. It was adopted on 19 November 1974 by the General Conference of UNESCO at its 18th session.

2. The *1974 Recommendation* applies to formal, non-formal and informal education and to all levels, from pre-primary to tertiary and adult education and lifelong learning. The General Conference recommended "*that Member States should apply*" the provisions included in the *1974 Recommendation* "*by taking whatever legislative or other steps*" that provide institutional (e.g. policies and legal frameworks) and pedagogical (e.g. curricula, teacher training, educational materials, equipment, and student assessment) support for its implementation, based on the "*objectives*", referred to in paragraph 4 of the *1974 Recommendation*, "*regarded as major guiding principles of education policy*" including: an international dimension and a global perspective on education, cultural diversity, interdependence, communication, rights and responsibilities, international solidarity and cooperation, and problem solving.

3. Today, the principles of the *1974 Recommendation* apply equally well to Education for Sustainable Development (ESD) and to Global Citizenship Education (GCED) and therefore represent a powerful tool for promoting the 2030 Agenda for Sustainable Development and in particular SDG Target 4.7 on the promotion of sustainable development and global citizenship through education, Target 12.8 on access to information on sustainable development and Target 13.3 on climate change education.

4. The General Conference in its 39th session recommended the use of the *1974 Recommendation* reporting process to support the implementation and monitoring of Target 4.7 of Sustainable Development Goal 4 (39 C/Resolution 79). The UNESCO Executive Board at its 209th session approved the use of the current guidelines for both the monitoring of the *1974 Recommendation* and the collection of data needed for the following global SDG indicator for which UNESCO is custodian (209 EX/Decision 18.II):

4.7.1, 12.8.1 and 13.3.1: *The extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education and (d) student assessment.*

5. Questions marked with an asterisk (*) will be used in the calculation of the respective indicators (**Table 1**). As approved by the Inter-Agency and Expert Group on the SDG Indicators, the indicators will be calculated for primary and secondary education only.

Table 1 Questions used in the calculation of the global SDG indicator for Targets 4.7, 12.8 and 13.3

Policies	Curricula	Teacher education	Student assessment

B. Reporting obligations

6. The General Conference, at its 18th session, when adopting the *1974 Recommendation* recommended “*that Member States submit [...] reports concerning the action taken by them in pursuance of this recommendation*”. Moreover, in accordance with Article VIII of UNESCO’s Constitution “*Each Member State shall submit to the Organization [...] reports [...] on the action taken upon the recommendations and conventions referred to in Article IV, paragraph 4.*”

7. Thus, **all UNESCO Member States are expected to report on the steps they have taken to implement the 1974 Recommendation** preferably by completing the following questionnaire. Such reporting takes place every four years.

II. Guidelines for completion of the questionnaire

8. This questionnaire and its accompanying guidelines are addressed to Ministers responsible for relations with UNESCO. The questionnaire is typically completed by Ministries of Education and other government authorities responsible for education. Responses should cover, as far as possible, education at all levels of government, including sub-national levels where applicable as well as education outside the government sector.

9. National respondents are encouraged to **consult widely** both within, across and beyond government, including with Ministries of Environment, with national human rights institutions, the education sector, civil society partners and others, as necessary, to gather the information needed to complete the questionnaire.

10. Responses to the seventh consultation should cover:

- (i) the time period 2017-2020;
- (ii) education at all levels of formal education from pre-primary to tertiary education as well as non-formal education;
- (iii) all levels of government that have responsibility for education within the country; and
- (iv) where possible, education outside the government sector.

11. To assist countries in responding to this questionnaire, UNESCO has developed the following set of global citizenship education and education for sustainable development themes. The list is based on a review of current common practices in many countries as well as a review of relevant literature. While the terms ESD and GCED may be used differently in some countries, the list of themes typically captures what are seen as key elements of Target 4.7. Please refer to the definitions of key terms in **Section III** before completing the questionnaire.

Global citizenship education and education for sustainable development

- 1. cultural diversity and tolerance
 - 1.1 international or intercultural understanding, solidarity and cooperation
 - 1.2 intercultural and interreligious dialogue
 - 1.3 local, national and/or global citizenship
- 2. gender equality education
 - 2.1 gender-based equal opportunities
 - 2.2 gender equality and justice
 - 2.3 gender roles, identity and stereotypes

3. human rights education
 - 3.1 equality and non-discrimination based on race, colour, language, religion, disability, political or other opinion, national or social origin, birth or other status
 - 3.2 human rights values, human dignity, justice, inclusion and participation
 - 3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)
4. peace and non-violence
 - 4.1 friendly relations among peoples and nations
 - 4.2 challenging negative stereotypes, promoting peaceful solutions, learning to live together, including others and preventing violent extremism
 - 4.3 preventing all forms of violence including bullying, verbal abuse and gender-based violence
5. climate change education
 - 5.1 mitigation
 - 5.2 adaptation
 - 5.3 impact reduction
 - 5.4 early warning
6. environmental sustainability
 - 6.1 caring for the planet, protecting nature
 - 6.2 environmental justice
 - 6.3 biodiversity, water
7. human survival and well-being
 - 7.1 environmental health as it pertains to human well-being, disaster risk reduction
 - 7.2 health of the planet for future generations
 - 7.3 sustainable cities and communities
8. sustainable consumption and production
 - 8.1 responsible and sustainable lifestyles
 - 8.2 green economy, green jobs
 - 8.3 sustainable energy

III. Definitions of key terms

Term	Definition
Themes of global citizenship and education for sustainable development	
1. Cultural diversity and tolerance	<i>Education about and for diversity including language, ethnicity, race, religion as well as the development of tolerance, mutual respect and appreciation for cultural diversity. It includes intercultural and interreligious dialogue, understanding, solidarity and co-operation, and citizenship education.</i>
2. Gender equality education	<i>Education that addresses the wider issue of gender equality by promoting new attitudes and patterns of belief, transforming the way people think about traditional gender roles and helping to build long-term sustainable change. It examines how gender roles, activities, needs, opportunities, rights and entitlements affect men, women, girls and boys differently. It deals with the relationships between females and males, their access to and control of resources and the constraints they face relative to each other. It respects the rights of all learners – women, men, boys and girls – equally and gives equal access to learning opportunities, resources and protections. All learners benefit from and are treated in education equally without the limitations set by stereotypes, rigid gender roles and prejudices. It covers gender-based equal opportunities, gender equality and justice, and gender roles, identity and stereotypes.</i>
3. Human rights education	<i>Education that promotes universal respect for and observance of all human rights and fundamental freedoms and thus contributes, inter alia, to the prevention of human rights violations and abuses by providing persons with knowledge, skills and understanding and developing their attitudes and behaviours, to empower them to contribute to the building and promotion of a universal culture of human rights.</i> <i>It includes equality and non-discrimination, human rights values, dignity, justice, inclusion and participation and respect for human rights and fundamental freedoms.</i>
4. Peace and non-violence	<i>Education about peace and peace-building, mediation, conflict prevention and resolution, non-violence, reconciliation and living together peacefully. It includes advocating for friendly relations among peoples and nations, challenging negative stereotypes, promoting peaceful solutions, learning to live together and preventing violent extremism and other forms of violence including bullying.</i>
5. Climate change education	<i>Education to help people, in particular youth, understand, address, mitigate, and adapt to the impacts of climate change. It encourages changes in attitudes and behaviours needed to put the world on a more sustainable development path, and build a new generation of climate change-aware citizens.</i> <i>It covers various responses to climate change including mitigation, adaptation, impact reduction and early warning.</i>
6. Environmental sustainability	<i>Education about responsible interactions with the environment to avoid depletion or degradation and to promote environmental quality and health. It includes, caring for the planet and protecting nature, environmental justice, biodiversity and water.</i>
7. Human survival and well-being	<i>Education that promotes social well-being and harmony including in future generations due to healthy environmental systems. It includes health of the planet and environment related to human well-being, disaster risk reduction and sustainable cities and communities.</i>

8. Sustainable consumption and production	<i>Education on the use and production of resources, products and services that have a minimal adverse impact on the environment. It promotes resource and energy efficiency, sustainable infrastructure and green jobs. It includes responsible and sustainable lifestyles, the green economy and sustainable energy.</i>
Dimensions of learning	
Knowledge	<i>Factual information and understanding acquired through study and/or experience.</i>
Skills	<i>The ability to carry out a task well as a result of training, practice and innate aptitude. Skills may be physical, mental or both.</i>
Values	<i>Principles that form the foundation on which individuals conduct themselves and interact with others and with the environment around them.</i>
Attitudes and behaviours	<i>Ability to act on the basis of beliefs and knowledge acquired through study or experience.</i>
Levels of education	
Pre-primary	<i>Education designed to support children's early cognitive, physical, social and emotional development and introduce young children to organized instruction outside of the family context. Participants are usually aged from three years.</i>
Primary and secondary	<i>Education designed to:</i> <i>(i) provide students with fundamental skills in reading, writing and mathematics (i.e. literacy and numeracy) and establish a solid foundation for learning and understanding core areas of knowledge and personal development (primary education); and</i> <i>(ii) prepare students for further education at post-secondary and tertiary levels and for entry into the labour market (secondary education).</i> <i>It includes both general and vocational education.</i>
Tertiary	<i>Education designed to provide learning activities in specialised fields of education. It aims at learning at a high level of complexity and specialisation. It includes both what is commonly understood as academic education and advanced vocational or professional education.</i>
Types of education	
Adult education	<i>Education specifically targeted at individuals who are regarded as adults by their society to improve their technical or professional qualifications, further develop their abilities, enrich their knowledge with the purpose to complete a level of formal education, or to acquire, refresh or update their knowledge, skills and competencies in a particular field.</i>
Formal education	<i>Education that is institutionalized, intentional and planned through public organizations and recognized private bodies which – in their totality – constitute the formal education system of a country. Formal education programmes are recognized by the relevant national or sub-national education authorities. Formal education consists mostly of initial education (e.g., pre-primary, primary, secondary and tertiary education).</i>
Non-formal education	<i>Education that is an addition, alternative and/or a complement to formal education within the process of the lifelong learning of individuals. It is often provided to guarantee the right of access to education for all. It caters to people of all ages but does not necessarily apply a continuous pathway-structure. It may be short in duration and/or low-intensity, and it is typically provided in the form of short courses, workshops or seminars. Non-formal education mostly leads to qualifications that are not</i>

	<i>recognized by the relevant national or sub-national education authorities or to no qualifications at all. Non-formal education includes programmes on life skills including literacy and numeracy, work skills, and social or cultural development. Most types of adult education are also included.</i>
Vocational education	<i>Education that is designed for learners to acquire the knowledge, skills and competencies specific to a particular occupation or trade or class of occupations or trades. Vocational education may have work-based components (e.g. apprenticeships). Successful completion of such programmes leads to labour-market relevant vocational qualifications acknowledged as occupationally-oriented by the relevant national authorities and/or the labour market. Vocational education can be offered at secondary and post-secondary or tertiary levels of education.</i>

IV. Information about the respondent

Country:

Brazil

Organization:

Ministry of Education

Date of submission:

15/02/2021

V. Other contributors consulted during the completion of this questionnaire

Please indicate below the names of other organizations and contributors consulted during the completion of this questionnaire.

Government institutions including other Ministries (please specify):

National human rights institutions (please specify):

Local and regional authorities responsible for education (please specify):

Other local and regional authorities (please specify):

Organizations representing education stakeholders (e.g. teachers, students, parents, etc.)
(please specify):

Other civil society organizations (please specify):

Others (please specify):

VI. Questionnaire

A. Laws and policies (preamble and paras 4 and 7 of the 1974 Recommendation)

A1a. Please describe any specific national or sub-national laws, legislation or legal framework(s) in your country that govern the promotion of global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes² are mentioned explicitly or are inferred and what types or levels of education are covered.

1 – General Coordinator of Strategic Management of Basic Education:

Federal legislation that mentions the preparation for the exercise of citizenship as the purpose of education: Federal Constitution of 1988, Law No. 8,069/1990, Law No. 9394/1996, Law No. 13,005/2014.

Legal frameworks that guide the approach of education to citizenship and sustainable development in basic education curricula: Law No. 13,005/2014, General National Curriculum Guidelines for Basic Education and Common National Curriculum Base.

2 –General Coordinator of Didactical Materials, substitute:

The main law governing and organizing national education and Law 9,394 of December 20, 1996, which establishes the guidelines and bases of national education. The themes are inferred and cover every level of education - LDB.

We emphasize Decree No. 9,099 of July 18, 2017 regarding the National Book and Educational Material Program (PNLD). This program, implemented within the Ministry of Education, evaluates and makes available didactic, pedagogical and literary works, among other materials to support educational practice, in a systematic, regular and free of charge way, to public schools of basic education of the federal, state, municipal and district networks and to community, confessional or philanthropic non-profit institutions and with partnership with the Public Authorities.

The PNLD covers the evaluation and availability of didactic and literary works, for individual or collective use, collections for libraries, pedagogical works, educational software and games, materials for reinforcement and correction of flow, training materials and materials for school management, among other materials to support educational practice, including actions to qualify materials for the decentralized acquisition by the federative entities.

PNDL objectives are:

I - improve the teaching and learning process in public schools of basic education, with the consequent improvement of the quality of education;

II - ensure the quality standard of the material to support the educational practice used in public schools of basic education;

III - democratizing access to sources of information and culture;

IV - to encourage reading and stimulate the students' investigative attitude;

V - support the teacher's updating, autonomy and professional development; And

VI - support the implementation of the Common National Curriculum Base.

PNDL guidelines are:

I - respect for pluralism of pedagogical ideas and conceptions;

II - respect for social, cultural and regional diversity;

III - respect for the pedagogical autonomy of educational institutions;

² See the schema described in paragraph 11 of Section II of these guidelines.

IV - respect for freedom and appreciation of tolerance; and

V - the guarantee of isonomy, transparency and publicity in the processes of acquisition of didactic, pedagogical and literary works.

3 - General Coordinator of Care and Relation with The Education Networks, substitute:

Law no. 9394/96 establishes the Guidelines and Bases of National Education (LDB). As provided in article 26, the curricula of the 3 stages of Basic Education (early childhood education, elementary school and high school) must have a common national basis, to be complemented, in each education system and in each school, by a diversified part, required by the regional and local characteristics of society, culture, economy and students.

The document of the National Common Curriculum Base (BNCC) establishes the competencies and skills that should be developed by basic education students and highlights that the following themes should be considered in the development of the curriculum: rights of children and adolescents, education for traffic, environmental education, food and nutrition education, aging process, respect and appreciation of the elderly, education in human rights, education of ethnic-racial relations and teaching of Afro-Brazilian, African and indigenous history and culture, as well as health, family and social life, consumer education, financial and fiscal education, work, science and technology and cultural diversity. In the BNCC, these themes are contemplated in the skills of the curricular components, and it is up to the education systems and schools, according to their specificities, to treat them in a contextualized way.

The complementary document "Transverse themes at BNCC - proposals for implementation practices", presents the following themes: environment, economy, health, citizenship and civility, multiculturalism and science and technology.

In addition to the LDB and the BNCC, there are National Curriculum Guidelines for Basic Education, which include the general guidelines, the national curriculum guidelines for each of the stages (early childhood education, elementary school and high school), for the different modalities of education, including those aimed at specific populations, and for addressing the main themes that should guide the development of Brazilian education. They are : General National Curriculum Guidelines for Basic Education; National Curriculum Guidelines for Early Childhood Education; National Curriculum Guidelines for Elementary School of 9 (nine) years; National Curriculum Guidelines for High School; National Curriculum Guidelines for Technical Vocational Education of Medium Level; Operational Guidelines for Basic Education in rural schools; guidelines for the care of Field Education; Operational Guidelines for specialized educational care in Basic Education, Special Education modality; National Guidelines for the provision of education for young people and adults in situations of deprivation of liberty in criminal establishments; Operational Guidelines for Youth and Adult Education - EJA, ; National Curriculum Guidelines for Indigenous School Education; Guidelines for the care of school education of children, adolescents and young people in a situation of roaming; National Curriculum Guidelines for Quilombola School Education; National Curriculum Guidelines for the Education of Ethnic-Racial Relations and for the Teaching of Afro-Brazilian and African History and Culture; National Guidelines for Human Rights Education, and National Curriculum Guidelines for Environmental Education.

4 – Department of Policies for Bilingual Education for Deaf People:

The Federal Constitution of 1988, nobly, in its article 205, caput, erected the right to education by asserting "education as the right of all, duty of the State and the family, with the collaboration of society, aiming at the full development of the person, his preparation for the exercise of citizenship and his qualification for work", advocated in Article 206, item I, that the duty of the State will be effected by ensuring the "equal conditions for access and permanence in school" and ensuring in Article 214 that the actions of the Public Power must lead to the "universalization of the school 'scare".

Considering that the aforementioned Magna Carta is the supreme statute of a society that organizes the Brazilian State, the constitutional legislation, in turn, must reflect the legal provisions recommended in it. By legitimizing the right to quality education for all, the current legal, political and pedagogical frameworks of Brazilian education reinforce the need for elaboration and implementation of actions aimed at meeting the specific needs of students, especially the deaf.

Thus, access to an educational system that respects diversity, at all levels, presupposes the adoption of specific support measures to ensure accessibility conditions, necessary for the full participation and autonomy of people with disabilities, in environments that maximize their academic and social development, in accordance with the Convention on the Rights of Persons with Disabilities (UN/2006), which was duly incorporated into the Brazilian legal system, with the status of constitutional amendment, stating that:

[...] to enable persons with disabilities to live independently and participate fully in all aspects of life, States Parties shall take appropriate measures to ensure that persons with disabilities are given access, on equal opportunities with other people, to the physical environment, to transport, information and communication, including information and

communication systems and technologies, as well as other services and facilities open to the public or public use, both in the urban and rural areas[...]"

By recognizing the linguistic character of sign languages, we also recognize the linguistic community formed from that language. The Universal Declaration of Linguistic Rights (1996) presents definitions of linguistic groups in article 1. The definition described in item 4 of this same article can be applied to the relationship of the deaf community with its sign language:

"This Declaration considers as a linguistic group the entire human community that shares the same language and is rooted in the territorial space of another linguistic community". (UNESCO, 1996).

The Universal Declaration of Linguistic Rights (1996) also covers the question of the relationship between a community's language and teaching. Article 24 emphasizes that,

"all language communities have the right to decide what the degree of presence of the language should be, as a vehicular language and as an object of study, at all levels of education within their territory: pre-school, primary, secondary, technical and professional, university and adult training".

According to Law No. 10,436 of April 24, 2002, which provides for the Brazilian Sign Language in its article 1st, regulated by Decree No. 5626 of December 22, 2005, it provides the following measures:

Article 1

It is recognized as a legal means of communication and expression the Brazilian Language of Signs - Libras and other resources of expression associated with it.

Single paragraph. The Brazilian Sign Language is understood as Libras the form of communication and expression, in which the linguistic system of visual-motor nature, with own grammatical structure, constitute a linguistic system of transmission of ideas and facts, coming from communities of deaf people in Brazil.

In accordance with Decree No. 6,949 of 25 August 2009, which promulgates the International Convention on the Rights of Persons with Disabilities in Articles 21(e); 24, 1; 3, points a, b and c; and 30.1; Four, four, four.

Article 21

1. States Parties shall take all appropriate measures to ensure that persons with disabilities can exercise their right to freedom, freedom of expression and opinion, including the freedom to seek, receive and share information and ideas, on equal opportunities with other persons and through all forms of communication of their choice, in accordance with Article 2 of the Convention, including:

(e) recognize and promote the use of sign languages.

Article 24

1. States Parties shall recognize the right of persons with disabilities to education. In order to achieve this right without discrimination and on the basis of equality of opportunities, States Parties shall ensure an inclusive educational system at all levels, as well as lifelong learning, with the following objectives:

a) Facilitation of braille learning, alternative writing, modes, means and formats of increased and alternative communication, and orientation and mobility skills, as well as facilitation of peer support and counseling;

b) Facilitating the learning of sign language and promoting the linguistic identity of the deaf community;

c) Ensure that the education of people, in particular blind, deaf and deaf children, is taught in the languages and modes and media best suited to the individual and in environments that give maximum favor their academic and social development.

Article 30

1. States Parties shall recognize the right of persons with disabilities to participate in cultural life on equal opportunities with other persons, and shall take all appropriate measures to ensure that persons with disabilities can:

4. Persons with disabilities will be able, on equal opportunities with others, to ensure that their specific cultural and linguistic identity is recognized and supported, including sign languages and deaf culture.

The creation of Bilingual Schools is in the National Education Plan (Law 13,005/2014), specifically, in strategy 4.7, which we describe below:

Strategy 4.7: to guarantee the offer of bilingual education, in Brazilian Sign Language - LIBRAS as the first language and in the language of the Portuguese language as a second language, to deaf and hearing impaired students from 0 (zero) to 17 (seventeen) years, in bilingual schools and classes and inclusive schools, pursuant to Article 22 of Decree No. 5,626 of 22 December 2005, and arts.24 and 30 of the Convention on the Rights of Persons with Disabilities, as well as the adoption of the Braille Reading System for the blind and deaf blind. (our griffin).

Law No. 13,146/2015 also systematized the provisions relating to the right to education of people with disabilities, in the light of what the constitutional text already advocates. The positive guarantee in law represents the obligation of the State to ensure the necessary conditions for its full access, participation and learning in all levels, stages and modalities of education, having in Article 28, item II, and IV of said legal law, which is the responsibility of the Public Power to ensure, create, develop, implement, encourage, monitor and evaluate the:

II - improvement of educational systems, aiming to ensure conditions of access, permanence, participation and learning, through the provision of services and accessibility resources that eliminate barriers and promote full inclusion.

IV – offer of bilingual education, in Libras as a first language and in the written modality of Portuguese as a second language, in bilingual schools and classes and in inclusive schools;

5 – Director of Special Education:

Law No. 8,069/1990

- The Statute of the Child provides that the child and adolescent enjoy all the fundamental rights inherent in the human person, without prejudice to the full protection of this Law, ensuring them, by law or other means, all opportunities and facilities, in order to provide them with physical, mental, moral, spiritual and social development, in conditions of freedom and dignity.

Convention on the Right of Persons with Disabilities (Decree No. 6,949 of 25 August 2009)

- Brazil is a signatory to the Convention that was received in the Brazilian legal system with the status of Amendment to the Constitution of the Federative Republic of Brazil. This law is a legal framework through which policies and constitutional laws have been implemented that ensure the rights of people with disabilities in the country.

Brazilian Inclusion Law (Law 13,146 of July 6, 2015)

- The Brazilian Law of Inclusion or Statute of Persons with Disabilities ensures the rights of persons with disabilities and defines penalties for non-compliance with the precepts recommended therein.

Law of Guidelines and Bases of National Education (Law 9,394 of December 20, 1996)

- Law that defines, organizes and disciplines school education, contains a chapter dedicated to special education, defining the organization of education systems to contemplate guarantees to students with defiance, global development disorders and high skills or giftedness.

National Education Plan: (Law No. 13,005 of June 25, 2014)

- The National Education Plan sets a 10-year target for national education from 2014 to 2024.

Fundeb Law (Law 14,113 of December 25, 2021)

- Regulates the Fund for the Maintenance and Development of Basic Education and the Valorisation of Education Professionals (Fundeb). It is a fund of an accounting nature and constitutes the main financing mechanism for national education

The GCED and ESD human rights themes are explicitly mentioned: equality, non-discrimination, human dignity, inclusion, participation and justice.

6 – Director of Specialized Modalities of Education and Brazilian Cultural Traditions:

The THEMES GCED and ESD are not explicitly mentioned in national laws but are inferred in the legislation on Indigenous School Education, Quilombola, field and education for ethnic-racial relations. The regulatory frameworks are about guaranteeing rights in the field of Basic and Higher Education.

I - Education for Ethnic-Racial Relations:

1.1 Normative Ordinance No. 21, of 08/28/2013: Provides for the inclusion of Education for Ethnic-Racial Relations, the teaching of Afro-Brazilian and African History and Culture, the promotion of racial equality and confronting racism in the programs and actions of the Ministry of Education.

1.2 Decree No. 7,824 of 10/11/2012: Regulates Law No. 12,711 of August 29, 2012, which provides for admission to federal universities and federal secondary technical education institutions.

1.3 Ordinance of MEC No. 18, of 11/10/2012: Provides for the implementation of vacancies reserves in federal educational institutions dealing with Law No. 12,711, of 08/29/2012, and Decree No. 7,824, of 10/11/2012.

1.4 Law No. 12,711, of 08/29/2012: Provides for admission to federal universities and federal secondary level technical education institutions - Quota Law.

1.5 Law No. 11,645, of 10/03/2008: Amends Law No. 9,394, of 12/20/1996, modified by Law No. 10,639, of 09/01/2003, which establishes the guidelines and bases of national education, to include in the curriculum of the school system the obligation of the theme "Afro-Brazilian and Indigenous History and Culture".

1.6 CNE/CEB Opinion No. 2 of 01/31/2007: Establishes guidelines on the scope of the National Curriculum Guidelines for the Education of Ethnic-Racial Relations and for the Teaching of Afro-Brazilian and African History and Culture.

1.7 CNE/CP Resolution No. 01 of 06/17/2004: Establishes the National Curriculum Guidelines for the Education of Ethnic-Racial Relations and for the Teaching of Afro-Brazilian and African History and Culture, according to CNE/CP Opinion No. 03 of March 10, 2004.

1.8 CNE/CP Opinion No. 03 of 03/10/2004: Deals with the National Curriculum Guidelines for the Education of Ethnic-Racial Relations and for the Teaching of Afro-Brazilian and African History and Culture.

1.9 Law No. 10,639, of 09/01/2003: Amends Law No. 9,394, of 12/20/1996, which establishes the guidelines and bases of national education, to include in the curriculum of the educational networks the mandatory theme of "Afro-Brazilian History and Culture".

II - Quilombola School Education:

2.1 CNE/CEB Resolution No. 08 of 11/20/2012: Defines the National Curriculum Guidelines for Quilombola School Education in Basic Education.

2.2 Cne/CEB Opinion No. 16, of 06/05/2012: Deals with the National Curriculum Guidelines for Quilombola School Education.

III – Itinerancy populations

3.1 CNE/CEB Resolution No. 03 of 05/16/2012: Defines guidelines for the care of school education for itinerancy populations.

3.2 Parecer CNE/CEB no. 14, of 12/07/2011: Deals with the Guidelines for the care of school education of children, adolescents and young people in itinerancy situations.

IV - Education in the Countryside

4.1 Mec Ordinance No. 1,344, of 11/30/2016: amends the MEC Ordinance No. 1,071, of 11/20/2015, which regulates the calculation of enrolment in community institutions that offer field education and that have as pedagogical proposal the training by alternation, adding § 5 and starting to consider elementary school enrolment - final years - computed as full-time.

4.2 MEC Ordinance No. 391, of 05/10/2016: establishes guidelines and guidelines to the normative bodies of the education systems for the process of closing rural, indigenous and quilombola schools.

4.3 Law No. 12,960 of 03/27/2014: amends Law No. 9,394 of 12/20/1996, which establishes the guidelines and bases of national education, to include the requirement of the manifestation of a normative body of the education system for the closure of schools in the countryside, indigenous and quilombolas.

4.4 Ordinance No. 579, of 07/02/2013: establishes the School of the Earth action, as one of the actions of PRONACAMPO and establishes its objectives.

4.5 Ordinance No. 86, of 02/01/2013: establishes the National Field Education Program (PRONACAMPO) and defines its general guidelines.

4.6 FNDE Resolution No. 38, of 10/08/2013: establishes guidelines and procedures for the payment of scholarships and research within the scope of the School of the Earth.

4.7 CNE/CEB Resolution No. 04, of 07/13/2010: defines the General National Curriculum Guidelines for Basic Education and establishes Field Education as a modality of basic education.

4.8 CNE/CEB Resolution No. 02, of 04/28/2008: establishes complementary guidelines, standards and principles for the development of public policies for the care of Basic Education of the Field.

4.9 CNE/CEB Resolution No. 01 of 04/03/2002: establishes Operational Guidelines for Basic Education in Rural Schools, including the duties of public authorities in offering Basic Education to rural communities.

4.10 CNE/CEB Opinion No. 36 of 12/04/2001: deals with the Operational Guidelines for Basic Education in Rural Schools.

V. Indigenous School Education

5.1 CNE/CEB Opinion No. 14 of 11/11/2015: deals with the Operational Guidelines for the implementation of the history and cultures of indigenous peoples in basic education as a result of Law No. 11,645/2008.

5.2 CNE/CEB Opinion No. 09 of 10/07/2015: establishes guidelines for promoting the access of indigenous peoples from recent contact to educational processes.

5.3 RESOLUTION CNE/CP no. 01, of 07/01/2015: establishes the National Curriculum Guidelines for the Training of Indigenous Teachers in higher education and high school courses and provides other measures, according to CNE/CP Opinion No. 06/2014.

5.4 Cne/CP Opinion no. 06, of 04/02/2014: establishes the National Curriculum Guidelines for the Training of Indigenous Teachers.

5.5 Ordinance No. 98, of 12/06/2013: regulates the action Indigenous Knowledge in the School and defines its complementary guidelines.

5.6 Ordinance No. 1,062, of 10/30/2013: establishes the National Program of Ethno-educational Territories - PNTEE.

5.7 MEC Ordinance No. 389, of 05/09/2013: creates the "Bolsa Permanência" Program that establishes differentiated values for indigenous and quilombola students, recognizing their socioeconomic vulnerabilities in the permanence and success in the academic career.

5.8 Ordinance No. 1,061, 10/30/2013: establishes the Indigenous Knowledge Action at school.

5.9 CNE/CEB Resolution No. 5 of 06/22/2012: defines National Curriculum Guidelines for Indigenous School Education in Basic Education.

5.10 CNE/CEB Opinion No. 13, of 05/10/2012: deals with the National Curriculum Guidelines for Indigenous School Education in Basic Education.

5.11 CNE/CEB Opinion No. 10 of 10/05/2011: deals with the supply of foreign language in indigenous high schools.

5.12 Law No. 12,416, of 06/09/2011: amends Law No. 9,394 of 12/20/1996 (Law of Guidelines and Bases of National Education), to provide for the provision of higher education for indigenous peoples.

5.13 Decree No. 6,861 of 05/27/2009: provides for Indigenous School Education and defines its organization in Ethno-educational Territories (TEE).

5.14 Law No. 11,645, of 10/03/2008: amends Law No. 9,394 of 12/20/1996, modified by Law No. 10,639 of 09.01/2003, which establishes the guidelines and bases of national education, to include in the official curriculum of the school system the obligation of the theme "Afro-Brazilian and Indigenous History and Culture".

5.15 CNE/CEB Resolution No. 3 of 11/10/1999: sets National Guidelines for the functioning of indigenous schools.

5.16 CNE/CEB Opinion No. 14 of 14/09/1999: provides for the National Guidelines for the functioning of indigenous schools.

5.17 Decree No. 26, of 02/4/1991: it assigns to the Ministry of Education the competence to coordinate actions related to Indigenous Education, at all levels and modalities of education, heard by FUNAI.

A3a. Please describe any specific current national or sub-national education policies, frameworks or strategic objectives in your country that promote global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes³ are mentioned explicitly or are inferred and what types or levels of education are covered.

1 – General Coordinator of Strategic Management of Basic Education:

BNCC Implementation Support Program - ProBNCC - Established by MEC Ordinance No. 331, of April 5, 2018, the Support Program for the Implementation of the National Common Curriculum Base (ProBNCC) aims to support the state and municipal departments of Education and the Department of Education of the Federal District in the process of review, preparation and implementation of basic education curricula aligned with BNCC.

The contemporary cross-cutting themes are addressed in curricula based on the provisions of the different national curriculum guidelines and the Common National Curriculum Base.

2 – General Coordinator of Didactical Materials, substitute:

One of the objectives of the National Book and Educational Material Program (PNLD) is to support the Common National Curriculum Base that has its reflexes in all basic education. Global citizenship education and education for sustainable development is with a greater emphasis on upper primary and secondary levels of basic education.

³ See the schema described in paragraph 11 of Section II of these guidelines.

4 – Department of Policies for Bilingual Education for Deaf People:

The specific national policy that promotes the education of global citizenship (GCED) even when it makes inferences related to the cultural and linguistic specificities of deaf people is Decree No. 5626 of 22 December 2005, which contains in its content the following provisions:

Art. 2º For the purposes of this Decree, a deaf person is considered to be the one who, because he/she has hearing loss, understands and interacts with the world through visual experiences, manifesting his culture mainly through the use of the Brazilian Sign Language - Libras.

Art. 14. Federal educational institutions must guarantee deaf people access to communication, information and education in select processes, activities and curriculum contents developed at all levels, stages and modalities of education, from early childhood education to higher education.

§ 1 - To ensure specialized educational care and access provided for in the caput, federal educational institutions must:

V - support in the school community, the use and dissemination of Pounds among teachers, students, staff, school management and family members, including through the provision of courses;

VI - adopt evaluation mechanisms consistent with second language learning, in the correction of written tests, valuing the semantic aspect and recognizing the linguistic singularity manifested in the formal aspect of the Portuguese language;

§ 3 - Private and public institutions of the federal, state, municipal and Federal District education systems will seek to implement the measures referred to in this article as a means of ensuring specialized educational care for deaf or hearing impaired students.

5 – Director of Special Education:

National Policy on Special Education – implemented by the federal government in a system of collaboration with federal entities to promote and guarantee the right to education of students with disabilities, their global development funds and high skills or giftedness.

Special education is a modality of school education preferably offered in the regular school system, for students with disabilities, global development disorders and high skills or gifted, transversal to all levels and modalities of education. The GCED and ESD human rights themes are explicitly mentioned: equality, non-discrimination, human dignity, inclusion, participation and justice.

6 – Director of Specialized Modalities of Education and Brazilian Cultural Traditions:

The themes GCED and ESD are not explicitly mentioned, but are inferred in policies, programs and actions on Quilombola School Education, Indigenous School Education, Field Education and Education for Ethnic-Racial Relations, coordinated by the DMESP. These policies, programs and actions are about guaranteeing rights within the scope of Basic Education.

The National Field Education Program (Pronacampo) covers initial and continuing teacher training actions, distribution of specific teaching material, access and recovery of infrastructure in all stages and modalities of teaching field education, such as the National Textbook Program for Field Education (PNLD Campo), The School action of the Earth, the PDDE Campo and the PDDE Water. It is divided into the following axes: I - Management and Pedagogical Practices; II - Initial and Continuing Teacher Training; III - Youth and Adult Education and Professional Education; and IV - Physical and Technological Infrastructure. It was established [by Decree No. 7,352 of 11/04/2010](#) and [Ordinance No. 86 of 02/01/2013](#).

The PNLD Campo consists of the acquisition and distribution of specific didactic collections for students and teachers in the field from the 1st to the 5th grade of elementary school, with curricular contents related to the reality of the field and that favor the interaction between scientific knowledge and the knowledge of communities. It was created by Resolution CD/FNDE No. 40, of 07/26/2011, with the goal of serving approximately 50,000 schools in the countryside in 2021, with the indicator of schools and students benefited.

The School of the Earth Action consists of the continuous training for teachers of the field and quilombola communities of the State and Municipal Networks that work in the initial years of elementary school in multi-serial or serial classes of the Countryside. It was created [by Ordinance No. 579, of 07/02/2013](#) and has as its main objective to promote continuing training for teachers in the field and quilombola communities of the State and Municipal Networks.

The PDDE Campo consists of the allocation of financial resources of costing and capital to the state, district and municipal public schools, located in the field, which have students enrolled in basic education, in order to provide adequacy and improvement in the physical infrastructure of these units, necessary to carry out educational and pedagogical activities aimed at improving the quality of education (performing repairs or small expansions and coverage of other expenses that favor maintenance, conservation and improvement of its facilities, as well as in the acquisition of school furniture and in the realization of other actions that contribute to the increase of school performance),.

The PDDE Água aims to serve public schools in the field and quilombolas, ensuring the necessary adaptations to the water supply under appropriate conditions for consumption and sanitary sewage, in school units that have declared in the Census the lack of water supply or sewage and have not yet benefited from this assistance.

PROLIND offers specific courses for the qualification of indigenous teachers for teaching in the final years of elementary school and high school. ([Notice of call no. 3, of June 24, 2008](#)), with the goal of promoting initial training for the qualification of indigenous teachers and by indicator the number of vacancies offered.

The Indigenous Knowledge Action at the School aims to offer specific continuing education courses for indigenous teachers who work, preferably, in the early years of elementary school. It is regulated by Ordinance [No. 98, of 12/06/2013](#), with the goal of continuing teacher training in the action indigenous knowledge and by indicator the number of vacancies offered.

The I National Plan for Indigenous School Education (I PNEEI) is an intergovernmental planning of Indigenous School Education (EEI) and aims to implement the deliberate proposals at the II National Conference on Indigenous School Education (CONEEI); strengthen the regime of collaboration between federated entities, social participation, transparency of actions and management by results, constituting an instrument of monitoring, evaluation and social control of the EEI. It has the following macro challenges: I - Organize the EEI with the participation of indigenous peoples, observed their territoriality and respecting their needs and specificities; II - Valuing the cultures of indigenous peoples and their ethnic diversity; III - Strengthen the sociocultural and mother tongue practices of each indigenous community; IV - Maintain training programs for education professionals working in indigenous communities; V - Support the development of curricula that value the cultural contents of indigenous peoples; VI - Support the preparation, publication and distribution of specific, intercultural and bilingual teaching material; VII - Support the affirmation of ethnic identities and societal projects defined autonomously by each indigenous people.

Considering the functioning of the collaboration regime between the Union, states and municipalities, the articulated actions of the Ministry of Education, the State and Municipal Departments of Education and the Education Councils form a set of initiatives, distributed in goals and organized from seven strategic axes: I – Management of Indigenous School Education and Regulation of the National Curriculum Guidelines for Indigenous School Education in Basic Education; II - Ethno educational Territories; III - Infrastructure; IV - Pedagogical practices and teaching material; V - Valorization and training of indigenous teachers; VI - Offer of Indigenous School Education and Higher Education; VII - Indigenous School Education Evaluation System.

The Action for the construction, expansion and reform of schools consists of giving technical and financial support to the States, Federal District and Municipalities to improve the infrastructure conditions of schools, meeting the needs of rural education, indigenous, quilombola and traditional peoples and communities, for the provision of pedagogical, professional, sports, cultural, school garden, housing for teachers and students and space for early childhood education. It aims to serve rural communities, indigenous peoples, quilombolas and traditional peoples and communities. This action aims to start the construction of 18 schools under the Alto do Rio Negro Project for the construction of indigenous schools and by indicator the schools built, expanded and renovated. The criteria for technical and financial support to public basic education networks in the States, Municipalities and The Federal District, under the Articulated Action Plan (PAR) are defined in Resolution/CD/FNDE No. 14 of June 8, 2012.

A3b. Please provide the full names of any education policies, frameworks or strategic objectives referred to in A3a and, where possible, web links to relevant documents.

1 – General Coordinator of Strategic Management of Basic Education:

BNCC Implementation Support Program - ProBNCC: [%20http://basenacionalcomum.mec.gov.br/implementacao/pro-bncc/material-de-apoio/](https://www.gov.br/mec/pt-br/programas-e-acoas/programa-de-apoio-a-implementacao-da-base-nacional-comum-curricular-probncc)

4 – Department of Policies for Bilingual Education for Death People:

Law on the Brazilian Sign Language: Decree No. 5.626 of 2005

http://www.planalto.gov.br/ccivil_03/_ato2004-2006/2005/decreto/d5626.htm

5 – Director of Special Education:

National Special Education Policy: aims to promote and guarantee the right to education of students with disabilities, their global development and high skills or giftedness

In Brazil, there are subnational special education policies, because the states of the federation have autonomy to organize their education systems, implementing their own policies, which are based on national laws.

6 – Director of Specialized Modalities of Education and Brazilian Cultural Traditions:

The National Program for Field Education (Pronacampo) was established by [Decree No. 7,352 of 11/04/2010](#) and [Ordinance No. 86 of 02/01/2013](#).

The School of the Earth Action was created by [Ordinance No. 579, of 07/02/2013](#).

PROLIND has as [Call Notice No. 3, of June 24, 2008](#).

The Indigenous Knowledge Action is regulated by Ordinance [No. 98, of 12/06/2013](#).

*A4. Please indicate which GCED and ESD themes are covered in national or sub-national education policies, frameworks or strategic objectives affecting each level of education by entering the appropriate number in each white cell.

B. Curriculum (paras 4 and 10-19 of the 1974 Recommendation)

B1a. Please describe in which ways GCED and ESD are mainstreamed in school curricula. Indicate whether topics are taught as standalone subjects or are integrated into the curricula of other subjects. Explain whether GCED and/or ESD themes⁴ are mentioned explicitly or are inferred and what types or levels of education are covered.

1 – General Coordinator of Strategic Management of Basic Education:

Entities, networks, systems and educational establishments have autonomy to elaborate their curricular approaches, as provided for by Law No. 9394/1996 9Law of Guidelines and Bases of National Education - LDB).

GCED and/or ESD themes are explicitly mentioned in the Common National Curriculum Base of Basic Education (Pre-Primary, Primary and Secondary).

2 – General Coordinator of Didactical Materials, substitute:

The curricular integration as a strategy of organization of the curriculum in areas of knowledge that dialogues with all the elements provided for in the pedagogical proposal from the perspective of integral student education.

Thus, themes required by specific legislation and norms should be included, in the transversal and integrative form, such as the aging process and the respect and appreciation of the elderly; the rights of children and adolescents; traffic education; environmental education; food and nutrition education; human rights education; and digital education.

4 – Department of Policies for Bilingual Education for Death People:

As for the school curriculum, we want to emphasize that the guide document of our country is the Common National

⁴ See the schema described in paragraph 11 of Section II of these guidelines.

Curriculum Base - BNCC, which covers the themes related to the GCED and/or ESD, whose deaf education is inserted to date, although scientific evidence on the subject shows that deaf education has specific methodologies and didactics, applied to the context of this education, already preconized in the records of laws, decrees and universal declarations.

It is also necessary to reinforce that the bilingual education of deaf people in their own methodologies that is, based on the Brazilian Sign Language - Libras (L1) as the language of instruction to students in the deaf people and Portuguese as second language (L2), reading and writing, which establishes a bilingual education in fact.

6 – Director of Specialized Modalities of Education and Brazilian Cultural Traditions:

According to Art. 9º, item IV of the Law of Guidelines and Bases of National Education (Law 9.394/1996), the Union is responsible for establishing, in collaboration with the States, the Federal District and municipalities, competencies and guidelines for early childhood education, elementary education and high school, which will guide curricula and their minimum contents, in order to ensure common basic training.

In this sense, the states and municipalities are responsible for the elaboration of the curricula of their educational networks following the guidelines and guidelines established in the Common National Curriculum Base /BNCC.

According to Art. 26 of the LDB, the curricula of early childhood education, elementary school and high school must have a common national basis, to be complemented, in each education system and in each school, by a diversified part, required by the regional and local characteristics of society, culture, economy and students.

Paragraph 4 of Art. 26 of the LDB establishes that the teaching of the History of Brazil will take into account the contributions of different cultures and ethnicities to the formation of the Brazilian people, especially indigenous, African and European matrices.

Paragraph 9 of Art. 26 of the LDB establishes that the contents related to human rights and the prevention of all forms of violence against children and adolescents will be included, as transversal themes, in the school curricula that the **caput** of this article deals with, having as a guideline [Law No. 8,069, of July 13, 1990 \(Statute of the Child and Adolescent\)](#), observed the production and distribution of appropriate teaching material. [\(Included in Law No. 13,010, 2014\).](#)

Paragraph 8 of Art. 62 of the LDB establishes that the curricula of teacher training courses will have as reference the Common National Curriculum Base.

Art. 79 of the LDB establishes that the Union will technically and financially support education systems in the provision of intercultural education to indigenous communities, developing integrated teaching and research programs.

§ 1 - The programs will be planned with an audience of indigenous communities.

§ 2 - The programs referred to in this article, included in the National Education Plans, shall have the following objectives:

I - strengthen the socio-cultural practices and the mother tongue of each indigenous community;

II - maintain training programs for specialized personnel, aimed at school education in indigenous communities;

III - develop specific curricula and programs, including cultural content corresponding to their communities;

IV - systematically elaborate and publish specific and differentiated didactic material.

B1b. Please provide examples of curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents.

State and municipal curricula should be aligned with the Common National Curriculum Base (BNCC): http://basenacionalcomum.mec.gov.br/images/BNCC_EI_EF_110518_versaofinal_site.pdf

C. Teacher education (including the training of trainers and educators) (paras 4 and 33-37 of the *1974 Recommendation*)

C1a. Please describe in which ways GCED and ESD are mainstreamed in initial training and in continuing professional development of teachers, trainers and educators. Indicate whether all teachers, trainers and educators or only some are required to receive training to teach GCED and/or ESD.

1 – General Coordinator of Strategic Management of Basic Education:

The Law of Guidelines and Bases of Education establishes among the purposes of higher education:

I - stimulate cultural creation and the development of scientific spirit and reflective thinking;

II - to train graduates in different areas of knowledge, suitable for insertion in professional sectors and for participation in the development of Brazilian society, and collaborate in their continuous training;

III - to encourage the work of scientific research and research, aiming at the development of science and technology and the creation and dissemination of culture, and, thus, to develop the understanding of man and the environment in which he lives;

IV - to promote the dissemination of cultural, scientific and technical knowledge that constitutes a heritage of humanity and communicate knowledge through teaching, publications or other forms of communication;

V - to arouse the permanent desire for cultural and professional improvement and enable the corresponding realization, integrating the knowledge that is being acquired in an intellectual structure systematizing the knowledge of each generation;

VI - to stimulate knowledge of the problems of the present world, in particular national and regional ones, to provide specialized services to the community and to establish with it a relationship of reciprocity;

VII - promote the extension, open to the participation of the population, aiming at the dissemination of the achievements and benefits resulting from cultural creation and scientific and technological research generated in the institution.

VIII - to act in favor of universalization and improvement of basic education, through the training and training of professionals, the realization of pedagogical research and the development of extension activities that bring the two levels closer to the two levels of education.

In addition, the Ministry of Education offers continuing training courses through the <https://avamec.mec.gov.br/>.

4 – Department of Policies for Bilingual Education for Deaf People:

Decree No. 5626 of December 22, 2005, in article 14, states that educational federal institutions must guarantee deaf people access to communication, information and education in selection processes, activities and curriculum content developed at all levels, stages and modalities of education, from child to higher education.

§ 1 - To ensure specialized educational care and access provided for in the caput, federal educational institutions must:

I - promote teacher training courses for:

a) the teaching and use of Libras;

b) the translation and interpretation of Libras - Portuguese language; and

c) the teaching of the Portuguese language as a second language for deaf people;

II - offer, mandatorily, since early childhood education, the teaching of Libras and also of the Portuguese language, as a second language for deaf students;

III - provide schools with:

- a) Libras teacher or Libras instructor;
- b) translator and interpreter of Libras - Portuguese language;
- c) teacher for the teaching of Portuguese as a second language for deaf people; And
- d) professor class regent with knowledge about the linguistic singularity manifested by deaf students;

5 – Director of Special Education:

Human rights themes are inserted in specific disciplines, in the initial training of teachers and, in the specific continuing education of special education teachers, these themes are part of the ethos and are integrated in the school approach and are also addressed as a specific focus.

6 – Director of Specialized Modalities of Education and Brazilian Cultural Traditions:

The legislation regulating the Initial and Continuing Training Programs, coordinated by the DMESP, does not explicitly mention GCED and ESD. However, as can be seen below, some legislations establish some political-pedagogical guidelines.

In the case of ProInd, the Notice of convocation of higher education institutions - federal and state public HEIs, which want to present proposals for projects of specific Undergraduate Courses for teacher training for the exercise of teaching to indigenous peoples, should consider the political-pedagogical guidelines published in the Notice. In this sense, the Notice establishes that PROLIND will support projects of specific Undergraduate Courses for the training of teachers for the exercise of teaching to indigenous peoples, who integrate teaching, research and extension, promote the valorization of the study of relevant indigenous themes, such as mother tongues, management and sustainability of the lands and cultures of indigenous peoples, and enable the provision of basic intercultural education in indigenous schools. The projects supported also promote the political training of teachers who work in teaching indigenous peoples, as intercultural agents in the promotion and realization of the projects of their communities.

Ordinance [No. 98, of 12/06/2013](#) of the Indigenous Knowledge Act at the School establishes that the continuing education of teachers working in basic education in indigenous schools dev and include a bilingual/multilingual perspective, capable of contemplating the ethno-sociolinguistic complexity of the indigenous peoples served, and taking place on the basis of the following axes: I - literacy and numbering in indigenous languages as a first language; II - literacy and numbering in Portuguese as a first language; III - literacy and numbering in indigenous languages or Portuguese as a second language or additional language; and IV - indigenous verbal knowledge and arts.

C1b. Please provide examples of teacher training policies or curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents. If possible, include examples related to initial training and to continuing professional development.

1 – General Coordinator of Strategic Management of Basic Education:

The courses for the implementation of the National Common Curriculum Base (BNCC), available on the <https://avamec.mec.gov.br/>. Furthermore, the MEC provides financial assistance for the preparation and availability of training by federal entities to their professionals for the implementation of bncc. This assistance is performed through ProBNCC.

4 – Department of Policies for Bilingual Education for Death People:

The Ministry of Education - MEC offers continuing training courses through the <https://avamec.mec.gov.br/> in line with BNCC for all stages of teaching. The education of deaf people goes through all stages and the understanding is that the Brazilian Sign Language needs to be prioritized as a language of instruction in the educational process of this public. For this, the importance of the formation of the professors who will work with these students is totally in a bilingual

sphere, and appropriation of methodologies and didactics of their own, if these teachers preferably deaf or bilingual listeners, fluent in Libras.

5 – Director of Special Education:

In the initial training of teachers, the teaching of sign language (http://www.planalto.gov.br/ccivil_03/ato2004-2006/2005/decreto/d5626.htm) is mandatory

The Ministry of Education develops a broad program for training managers and teachers in special education, through RENAFOR (National Network for The Training of Education Professionals) addressing issues related to equality, non-discrimination, human dignity and others.

Ex. Training course for basic education teachers in an educational service specialized in the context of a pandemic.

6 – Director of Specialized Modalities of Education and Brazilian Cultural Traditions:

The School of the Earth Action consists of the continuous training for teachers of the field and quilombola communities of the State and Municipal Networks that work in the initial years of elementary school in multi-serial or serial classes of the Countryside. It was created [by Ordinance No. 579, of 07/02/2013](#) and has as its main objective to promote continuing training for teachers in the field and quilombola communities of the State and Municipal Networks.

PROLIND offers specific courses for the qualification of indigenous teachers for teaching in the final years of elementary school and high school. ([Notice of call no. 3, of June 24, 2008](#)), with the goal of promoting initial training for the qualification of indigenous teachers and by indicator the number of vacancies offered.

The Indigenous Knowledge Action at the School aims to offer specific continuing education courses for indigenous teachers who work, preferably, in the early years of elementary school. It is regulated by Ordinance [No. 98, of 12/06/2013](#), with the goal of continuing teacher training in the action indigenous knowledge and by indicator the number of vacancies offered.

*C2 Please indicate whether teachers, trainers and educators are trained to teach GCED and ESD during initial or pre-service training and/or through continuing professional development. Please enter the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Initial or pre-service training	1	1	9	9
For teachers of selected subjects only (in which GCED or ESD are typically taught)	1	1	9	9
For teachers of other subjects	1	1	1	9
Continuing professional development	1	1	9	9
For teachers of selected subjects only (in which GCED or ESD are typically taught)	1	1	9	9
For teachers of other subjects	1	1	1	9

*C3 Please indicate on which GCED and ESD themes pre-service or in-service training is available for teachers, trainers and educators at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
1. Cultural diversity and tolerance	1	1	1	9
2. Gender equality	1	1	1	9
3. Human rights	1	1	1	9
4. Peace and non-violence	1	1	1	9
5. Climate change	1	1	1	9
6. Environmental sustainability	1	1	1	9
7. Human survival and well-being	1	1	1	9
8. Sustainable consumption and production	1	1	1	9

*C4 Please indicate whether teachers, trainers and educators are trained to teach the following dimensions of learning in GCED and ESD. Please enter the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Knowledge	1	1	1	9
Skills	1	1	1	9
Values	1	1	1	9
Attitudes and behaviours	1	1	1	9

*C5 Please indicate whether teachers, trainers and educators are trained to use the following approaches to teach GCED and ESD in primary and secondary education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Global citizenship and education for sustainable development
GCED/ESD are taught as separate subject(s)	1
Cross curriculum approach (e.g. GCED/ESD are taught in more than one subject but not throughout the curriculum)	1
Integrated approach (e.g. GCED/ESD are taught throughout the whole curriculum)	1
Whole school approach (e.g. GCED/ESD are integrated in the school ethos, management, governance, curriculum, teacher training, teaching practices, the learning environment, and in learning experiences in the community and life outside school)	1

D. Student assessment (paras 4 and 5 of the 1974 Recommendation)

D1a. Please describe in which ways GCED and ESD are covered in student assessments and examinations. Indicate whether students are assessed only on their knowledge of and skills related to the topics being tested or also on their values, attitudes and/or behaviours.

4 – Department of Policies for Bilingual Education for Deaf People:

Brazil has the Basic Education Assessment System (SAEB), whose objective is to diagnose the performance of students and education at this stage, however, a specific bilingual format is necessary, with regard to the deaf students inserted in the teaching network, so that these assessments are in line with the bilingual education of the deaf. These models are being discussed and evaluated, and thus be implemented for greater evaluation effectiveness of this population according to established laws.

Site for consultation: <https://www.gov.br/inep/pt-br/areas-de-atuacao/avaliacao-e-exames-educacionais/saeb> ,

In this case of the school's own assessments in relation to its students, it is important to emphasize that they have autonomy to do them, but that in the case of deaf students, these evaluations need to be performed by video tests, as occurs in the National High School Exam - ENEM.

5 – Director of Special Education

The education systems are submitted to evaluations under the Basic Education Assessment System (SAEB) and undergraduate (Tertiary) students are submitted to the National Student Performance Exam (ENADE). To the examinations of the National System of Evaluation of Higher Education - SINAES

Assessments focused on skills and behaviors.

*D2 Please indicate whether the GCED and ESD themes below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
1. Cultural diversity and tolerance	1	1	1	1

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Knowledge	1	1	1	9
Skills	1	1	1	9
Values	1	1	1	9
Attitudes and behaviours	1	1	1	9

E. Mainstreaming of GCED and ESD in laws and policies, curricula, teacher education and student assessment (paras 4-5, 7, 10-19 and 33-37 of the 1974 Recommendation)

*E1 Based on your responses to questions in the previous four sections (laws and policies, curricula, teacher education and student assessment) please indicate to what extent global citizenship education (GCED) and education for sustainable development (ESD) are mainstreamed⁵ in (a) education laws and policies, (b) curricula (c) teacher education (including the training of trainers and educators) and (d) student assessment in your country. Please enter the appropriate number in each white cell in the table below.

KEY:

0 Not at all

1 Partially

2 Extensively

9 Not known

99 Not applicable

GCED and ESD are not mainstreamed.

Some GCED and/or ESD themes⁶ are mainstreamed. Select this option if GCED is mainstreamed but ESD is not (or vice versa).

Most GCED and ESD themes are mainstreamed.

It is not known whether GCED and ESD are mainstreamed or not.

The given level of government does not have responsibility for the given component (policies, curricula, teacher education or student assessment) and/or does not have responsibility for the given level or type of education. This may occur at the national level in federal countries where education is the responsibility of individual states or at the sub-national level in small countries where there is only one level of government.

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
National				
(a) Education laws and policies	2	2	2	1
(b) Curricula	2	2	2	1
(c) Teacher education	2	2	2	1
(d) Student assessment	2	2	2	1
Sub-national				
(a) Education laws and policies	2	2	2	1
(b) Curricula	2	2	2	2
(c) Teacher education	2	2	2	2
(d) Student assessment	1	1	1	9

⁵ GCED and ESD are mainstreamed if their themes are mentioned explicitly in relevant documents and are expected to be implemented by the relevant authorities (e.g. Ministries, regional or local education authorities), educational institutions (e.g. schools, colleges and universities) and/or education professionals (e.g. teachers, lecturers, trainers and educators) as appropriate.

⁶ Refer to the schema in paragraph 11 of Section II of these guidelines.

F. Technical and vocational education and training (paras 25-29 of the 1974 Recommendation)

F1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in technical and vocational education and training. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

Between 2014 and 2018 there was the offer of specialization, training and extension courses under the Sustainable and COM-Life Schools Program, offered by federal universities, with mec funding.

The courses trained teachers from the Basic Education network and universities to support the creation of the Environment and Life Commissions (COM-Vidas) in schools.

G. Adult education (para 30 of the 1974 Recommendation)

G1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in adult education and other forms of non-formal education including youth education, out-of-school education, etc. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

1 – General Coordinator of Strategic Management of Basic Education:

In addition to the Approach to Education for Sustainable Development (ESD) and The Education of Global Citizenship (GCED) in the National Common Curriculum Base (BNCC), the Ministry of Education (MEC) promoted five editions of the National Conference for Children and Youth for the Environment (CNIJMA) (2009 to 2018), which established in public schools throughout Brazil the creation of the Committees on Environment and Life (COM-Vidas) and the offer of specialization courses, training and extension under the Sustainable and COM-Life Schools Program, offered by federal universities, with mec funding.

7 – General Coordination for Youth and Adult Education:

Recent initiatives regarding the norms of Youth and Adult Education are in line with an education aimed at those who have not had access or continuity of studies in elementary and high school in their own age and also as an instrument for Education and Lifelong Learning.

In this context, the most recent legal framework, at the national level, which considers this concept was consolidated in Law No. 13,632 of March 6, 2018, which amended Law No. 9,394/1996 (LDB), which establishes the guidelines and norms of national education, having as a principle the right of Education and Lifelong Learning, within the scope of the EJA and in Special Education, as set out below:

[...]

Art. 1. Law No. 9,394, of December 20, 1996 (Law of Guidelines and Bases of National Education), comes into force with the following wording:

"Art. 3rd

XIII - guarantee of the right to education and lifelong learning." (NR)

Art. 37. The education of young people and adults will be aimed at those who have not had access to or continuity of studies in primary and secondary education in their own age and will be an instrument for education and lifelong learning..... (NR)

"Art. 58.

§ 3 - The offer of special education, pursuant to the caput of this article, begins in early childhood education and extends throughout life, subject to item III of Art. 4 and Art. 4 and the sole paragraph of Art. 60 of this Law." (NR)

This legal framework is one of the most important thrusts for thinking and elaborating Lifelong Learning and Education projects for the special education and EJA public.

Lifelong Learning and Education in the context of The JaS implies an opportunity to provide access to non-formal and informal learning, in addition to formal ones. Through the Student Life Project, the most appropriate paths to learning conditions, validation of basic skills already acquired, consolidation of the possibilities of integration with professional proposal and adaptations necessary to the structural conditions of life, locomotion, materials and access to the curriculum can be determined.

Resolution No. 11 of October 7, 2020 was published, establishing the procedures for the use of the existing financial balances in the accounts of the states, municipalities and the Federal District, arising from previous transfers of the Program to Support Education Systems for The Care of Youth and Adults Education - PEJA.

This important milestone of the modality aims to articulate the new classes with a professional qualification course as a strategy to combat evasion, stimulate frequency and access to the labor market. Currently there are 294 state and municipal entities with the potential to serve more than 19,100 young people and adults.

We also mention the Operational Guidelines for The Education of Youth and Adults (EJA) that have already undergone a public consultation from which they received contributions from various organs and individuals and is in the final phase of homologation and aims to adapt to the precepts of the National Common Curriculum Base (BNCC), and other legislation and norms of recent promulgation.

H. Research and International Co-operation (paras 41-45 of the 1974 Recommendation)

H1 Please describe what kinds of research or experimentation have been carried out to improve the implementation of GCED and/or ESD. Describe briefly how the results of such activities have influenced education policies, curricula and/or teaching practices.

1 - General Coordinator of Strategic Management of Basic Education:

The National Education Plan (PNE) determines guidelines, goals and strategies for educational policy. Continuous monitoring is carried out and reports with important data on Brazilian education are disseminated. <http://pne.mec.gov.br/>. The PNE monitoring reports, carried out by INEP, serve as a subsidy for the improvement education policies.

In line with the actions of the PNE, the National Common Curriculum Base (BNCC), as a guiding document for the learning and elaboration of the curriculum referential of all stages of Basic Education, guarantees the approach of Education for Sustainable Development (ESD) and the Education of Global Citizenship (GCED) throughout Basic Education.

5 – Director of Special Education:

Partnership with UNESCO under the 914BRZ1060 - PROJECT TITLE: Alignment of the Processes of Planning, Management, Evaluation and Monitoring of Policies and Programs of competence of the Secretariat of Continuing Education, Literacy, Diversity and Inclusion to the goals of the National Education Plan 2014 - 2024

A study on basic education educational establishments that contain students enrolled in basic education with some type of disability, autism spectrum disorder or high skills/gifted care in the period from 2008 to 2019. Analysis groups such as the large geographic regions, the census location of the school, i.e., urban or rural schools, and administrative network such as public network and private networks were selected, which allowed identifying the advances and challenges still to be faced over the years of initiatives and actions adopted in favor of the target public students of special education. The study allowed verifying the evolution of enrollment as well as the evolution of schools in the period from 2008 to 2019, with accessibility cuts and functional resource room that are characteristic of the school and that served as subsidies for monitoring and planning actions, public policies and decision-making in the field of special education.

4 – Department of Policies for Bilingual Education for Deaf People:

The Education of the Deaf, in the current government, is being rethought with a focus on the linguistic respect of these students. Curricula, teaching materials, training of professionals in the area, schools and bilingual classes, that is, every framework necessary for this public to have a fair and full school performance, and therefore, acquire with ownership all relevant content that concerns GCED and ESD through a proposal of bilingual education, with Libras as a first language and Portuguese written as a second language. This education goes through all stages of teaching.

H2 Please indicate which types of activities are available that promote international co-operation at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Hosting of international meetings on GCED and/or ESD	1	1	1	1
Participation in international meetings abroad on GCED and/or ESD	1	1	1	1
Support for programmes hosting foreign students, researchers and/or teachers	9	1	1	1
Membership of international networks including ASPnet	1	1	1	1
Joint research projects on GCED and/or ESD with foreign institutions	9	1	1	1
Other activities (please specify):	9	1	1	1

I. Any other comments

I1 Please indicate whether your country has faced any constraints, in particular related to global or national crises, including natural disasters, in implementing the 1974 Recommendation during the reporting period.

Health crises: Pandemic corona virus and Zika virus outbreak

- 12 Please provide any other relevant information or clarifications regarding the implementation of the 1974 Recommendation or the mainstreaming of GCED and ESD in your country's education system.

The Ministry of Education acts intersectorally with other ministries, seeking to develop actions to promote human rights, including:

- Ministry of Women, Family and Human Rights
- Ministry of Citizenship
- Ministry of Health
- Ministry of Science, Technology and Innovation
