

GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE 1960 CONVENTION AND RECOMMENDATION AGAINST DISCRIMINATION IN EDUCATION

Preparation of the 11th Consultation

Combating discrimination in education

Eleventh consultation of Member States on the application of the Convention and the Recommendation against Discrimination in Education (1960) (2024-2025)

GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE 1960 CONVENTION AND RECOMMENDATION AGAINST

GENERAL INFORMATION:

Country name: **MOZAMBIQUE**

Organization or entity responsible for the preparation of the report: **NATIONAL COMMISSION FOR UNESCO**

Name of contact person: **ÉLIA DOS ANJOS VAZ BILA – SECRETARY GENERAL**

Email and telephone number of contact person: elia.bila@mined.gov.mz - +258 84 314 0050

I. Ratification and applicability of the Convention against Discrimination in Education¹

- Is your country a State Party to the Convention?

☒ Yes

☐ No: Does your country plan to ratify this instrument?

☐ Yes: Please indicate the stage of ratification process reached by your country and whether assistance is needed:

☐ There is interest but no concrete action has been taken

☐ The ratification process has been initiated

☐ The ratification process is close to completion

- Please briefly explain the steps that have been taken and timeline when relevant, any difficulties encountered (legal, institutional, political or practical) in completing the ratification process. And how UNESCO can assist:

Mozambique has already ratified the Convention and submitted the instrument to UNESCO (ADG Education) last November 2023 during the 42nd General Conference.

¹ <https://www.unesco.org/en/legal-affairs/convention-against-discrimination-education>

☐ No, not considering ratification. Please explain why:

- Is the Convention directly applicable in your country's domestic law?

☒ Yes ☐ No

- Have courts, tribunals and/or administrative authorities adjudicated on issues or violations regarding the right to education?²

☒ No

☐ Yes: Have the provisions of the Convention been invoked?

☐ Yes ☐ No

- Please cite the case law and jurisprudence.

Information could also be given about the judicial, administrative and other competent authorities having jurisdiction with respect to the right to education.

According to the Constitution of the Republic of Mozambique, the Judicial Courts are the competent entities with jurisdiction regarding the right to Education.

II. Information on the implementation of the Convention or Recommendation in the context of Sustainable Development Goal 4 (SDG4)

1. Towards an inclusive non-discriminatory education system

For reference: This section relates to the main purpose of the Convention/Recommendation that is to underscore the state obligation to proscribe any form of discrimination in education while promoting equality of educational opportunity as laid out in Articles/Paragraphs 1(1), 2 and 3 of the Convention/Recommendation.

It further corresponds to the overall aspiration of SDG4 which aims to “ensure inclusive and equitable quality education and promote lifelong learning opportunities for all” by 2030. While it covers all the SDG4 targets, it also specifically covers SDG target 4.5.³

- Please indicate whether the rights and principles laid out in the Convention/Recommendation informed the elaboration of the education legal and/or policy framework:

☒ Yes ☐ No

- If yes, please provide reference:

² Judicial mechanisms play an important role in enforcing the right to education by ensuring legal accountability and therefore contributing to the practical realization of the right to education.

³ Which calls on states to “eliminate gender disparities in education and ensure equal access to all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations”.

The rights and principles laid out in the Convention informed the elaboration of (i): Law No. 1/2023 of March 17, which establishes the legal functioning of the Higher Education Subsystem; (ii): Decree No. 43/2023 of August 2, approves the Licensing and Operational Regulations of Higher Education Institutions; (iii): Law 26/2022 of 29 December, Professional Education Law and (iv): The Action Plan for the Acceleration of Literacy for Young People and Adults in Mozambique (2022 – 2029).

1.1 Non-discrimination and equality in education

- Please indicate measures adopted to both prevent and eliminate discrimination in education within the meaning of the Convention/Recommendation⁴, and ensure equal access to all levels and types of education (please tick all that apply):

For reference: This notably is covered under SDG target 4.1 and partly target 4.b⁵

■ Legal texts⁶ prohibit discrimination and guarantee equal access to education:

- ☐ In pre-primary education (including early learning and care)
- ☐ In primary education
- ☐ In secondary education
- ☐ In technical and vocational education and training
- ☐ In higher education
- ☐ In adult education and alternative learning

- Please indicate the relevant legal provisions:

1. The Government through the Ministry of Education and Human Development (MINEDH) has supported the most vulnerable students in primary schools using the funds made available by partners for Direct Support to Schools (ADE). This support consists, depending on local needs and priorities, in the provision of school materials (school folders, notebooks, books, pens, pencils and others), material for personal use (mosquito net, canteen and water jug, footwear, uniform/clothing and individual hygiene kit).
2. In light of Ministerial Diploma no. 191/2011, of 25 July, in 2011, Inclusive Education Resource Centers (CREI) were created at regional level, as in-service teachers research and training institutions, production of specific and compensatory materials, with a view to enhancing the inclusion of people with disabilities and/or Special Educational Needs in the educational system.

- Please list the prohibited grounds of discrimination in education as laid out in legal texts:

Article 35 of the Constitution of the Republic of Mozambique (2018) - establishes the principle of universality and equality of rights for all citizens regardless of color, race,

⁴ See: Article/Paragraph 1(1).

⁵ Which calls on states to "substantially expand globally the number of scholarships available [...] for enrolment in higher education, including vocational training and information and communications technology, technical, engineering and scientific programmes".

⁶ Constitution, laws, decrees, regulations, circulars, etc.

sex, ethnicity, origin, place of birth, religion, level of education, social position, parental marital status, profession and political option.

■ Policies, programmes and initiatives aim to prohibit and prevent discrimination and ensure equal access to education

- ☐ In pre-primary education (including early learning and care)
- ☐ In primary education
- ☐ In secondary education
- ☐ In technical and vocational education and training
- ☐ In higher education
- ☐ In adult education and alternative learning

- Please provide details:

1. **Law No. 18/2018**, of 28 December, the National Education System Law, in paragraph 4 of article 10 indicates that "*children, young people and adults with disabilities or profound mental retardation must receive education adapted to their abilities in appropriate schools.*";
2. **Education Strategic Plan (2020-2029)** - one of its strategic objectives is "Ensuring inclusion and equity in access, participation and retention."
3. **Policy for Persons with Disabilities**, approved by the Council of Ministers, through Resolution no. 20/99, of June 23, determines that the Government is responsible for and collaborates in carrying out actions and programs aimed at guaranteeing the realization of basic rights of people with disabilities, through multisectoral and multidisciplinary articulation, involving institutions and private entities, Non-Governmental Organizations and individuals.
4. **Law no. 1/2023** of March 17, which establishes the legal functioning of Higher Education Subsystem, presents the principles relating to: democracy and respect for diversity and human rights; inclusion, equity and equality as well as higher education as a fundamental right of citizens.
5. **Professional Education Law** establishes measures that aim to prohibit and prevent discrimination and guarantee gender equality in access to professional education.
6. **Pre- Primary Education Curricular Plan** is aligned with childhood learning and development standards.

■ Combatting discrimination in terms of curriculum:

- ☐ In pre-primary education (including early learning and care)
- ☐ In primary education
- ☐ In secondary education
- ☐ In technical and vocational education and training
- ☐ In higher education
- ☐ In adult education and alternative learning

- Please provide details:

1. The curriculum promotes attitudes and values such as solidarity, respect for individual differences, love for others, among other aspects and creates conditions for students to feel free and exempt from any form of discrimination.
2. The Pre-Primary Education Curricular Plan foresees the development of community awareness actions, with a view to combating discrimination and stigma.
3. The Mozambican State guarantees access to the higher education Subsystem through the creation of policies and access criteria, fee reduction, incentives for the adoption of professional courses, see articles 43 and 44 of Decree nº 43/2023 of August 2, which approves the Licensing and Operating Regulations for Higher Education Institutions.
4. In Professional Education, there are ongoing programs to promote girls to Science, Technology, Engineering and Mathematics (STEM) courses through scholarships or exemption from some fees or school fees, application of a quota at the time of admission for girls and students who live close to training institutes.

☐ Other measures adopted to both prevent and eliminate discrimination in education and ensure equal access to all levels and types of education:

1. The law allows pregnant students to participate in schools;
2. Students with Special Education Needs (hearing, visual and learning difficulties or autism) benefit from specific programs, such as the use of **Mozambican Sign Language**, Braille spelling, monitoring and remediation;
3. Provision of school snacks, school uniform, distribution of school books;
4. The “EU SOU CAPAZ” (*I am Capable*) program provides uniforms and bicycles to students, dignity kits for girls;
5. In Professional Education, the emphasis is on the elaboration of the gender strategy (*ongoing*); Preparation of Inclusive Education Strategy (*ongoing*); the Manual on combating corruption and sexual harassment (distributed and presented in all institutes); creation of ramps and specific changing rooms for people with disabilities.

1.2 Equality of opportunities and inclusion in education

- Please indicate the actions taken/planned to ensure equality of opportunities (in terms of access, participation and completion), equal treatment and to support the inclusion of all learners in learning processes (*several items may be ticked*):

General measures:

☒ Legislation provides for inclusive education for all

☒ Policy measures aim to enhance inclusion in education for all

☒ Multiple and flexible learning pathways⁸ are provided for

☒ Curricula and teaching methods are inclusive in design⁹

⁸ Multiple and flexible learning pathways are ‘entry points and re-entry points at all ages and all educational levels, strengthened links between formal and non-formal structures, and recognition, validation and accreditation of the knowledge, skills and competencies acquired through nonformal and informal education’ ([Education 2030 Framework for Action](#), para. 33). This may include student transfers between courses and institutions and diverse learning modalities (online, in-person, full-time, part-time, etc.) to respond to individual needs and interests.

⁹ In designing the curricula and teaching methods, care is given to ensure that all students are provided with an inclusive and supportive learning experience that offers them the opportunity to succeed whatever their background.

☒ Teachers are trained on inclusive education⁷ and to value diversity

☒ Multilingual and intercultural education is supported

☒ Initiatives to address discrimination and promote cultural diversity and mutual acceptance

☐ Other:

- Please elaborate and, where appropriate, indicate the legal and policy measures taken:

1. The Constitution of the Republic of Mozambique emphasizes the principle of Equality, which establishes that all citizens are equal, enjoy the same rights and opportunities and are subject to the same duties, regardless of race, color, sex, ethnic origin, religion, social degree, among others, and the Principle of Gender Equality, which establishes that men and women are equal in all areas of political, economic, social and cultural life.
2. The Government changed the educational structure inherited from the educational system (Laws no. 4/83 revised by Law no. 6/92) and approved Law 18/2018, of December 28th, which establishes the legal regime of the National Education System (SNE). This law aims to promote the democratization of education, guaranteeing the right to fair and effective equality of opportunities in access and academic success for citizens;
3. The new curriculum plans for Basic Education and Secondary Education (PCEB and PCES) are guided by inclusive education that is based on equal opportunities for all citizens;
4. With the approval of Law 18/2018 of December 28th of the SNE, Bilingual Education is now considered a modality and there was a need to design the Bilingual Education Expansion Strategy 2020-2029, a document that defines the main objectives, actions and goals to be achieved during the period 2020-2029;
5. In Professional Technical Education, the legal measures that support the inclusion of all trainees in the learning processes are: Gender equity – which defends the promotion of access for girls and women to Professional Education, particularly in the areas of science, engineering and technologies; and inclusion – which advocates the promotion of access to Professional Education by trainees with disabilities and special educational needs.

- In general, what challenges were encountered in the implementation of non-discrimination and equal opportunities principles in education? If needed, brief quantitative information may be added.

1. Lack of professionals trained to deal with children with Special Educational Needs in Pre-Primary Education;
2. Lack of adequate infrastructure and equipment in Higher Education Institutions (HEI) for people with disabilities;
3. Lack of information on the number of people with disabilities who require professional training;
4. Weaknesses in joint dialogue with associations of people with disabilities involving employers;
5. Deficit in planning actions sensitive to gender in people with disabilities, mainly in Education and Professional Training.

Other relevant general measures, including gender equality

- | | |
|--|--|
| <ul style="list-style-type: none">■ Legislation provides for gender equality in education■ Policy measures aim to enhance gender equality■ Gender-responsive education sector planning is undertaken■ Providing positive or affirmative action measures■ Providing financial incentives and fellowships☐ Teachers are trained (initial and in-service) on gender equality■ Teachers are trained to combat stigmatisation¹⁰☐ Other: | <ul style="list-style-type: none">■ All barriers for pregnant girls and young mothers in education are eliminated to ensure the continuity of their education■ Re-entry programmes for young mothers are provided for■ Ensuring safe and adequate gender-sensitive sanitation facilities¹¹■ Curricula are rid of all stereotypes¹² and bias■ Ensuring gender parity in science, technology, engineering and mathematics (STEM)■ Ensuring gender parity in technical and vocational training education and training (TVET) |
|--|--|

- Please elaborate and, where appropriate, indicate the legal and policy measures taken:

1. Regarding gender equity, actions that promote girls' entry and the development of a strategy for their retention in school stand out. These include creating a safe environment and carrying out activities that attract girls to school.
 2. In Education and Vocational Training, the Government, in coordination with partners, has been designing training programs for girls in the areas of Engineering, through the provision of Scholarships. Similar programs are underway in Higher Education, where women are encouraged through government initiatives to pursue studies in STEM fields.

- What challenges were encountered in achieving gender equality in and through education? If needed, brief quantitative information may be added.

1. Girls dropping out of school;
 2. Introduction of special higher education attendance regimes to allow the inclusion of all. Challenges facing the Mozambican people, such as working students, students practising sports, students with disabilities and special educational needs, see article 8 of Law No. 1/2023 of March 17th;
 3. In Professional Technical Education, the participation rate of girls is 61.4% of the total number of trainees. However, in the industrial sector, girls represent 23.6%;
 4. As a way to address this situation, the Vocational Education sector is developing a Gender Strategy in Vocational Education that includes vocational training.

¹⁰ ' Stigmatisation is the act of treating someone or something unfairly by publicly disapproving of them' (Cambridge Dictionary).

¹¹ ' Gender-sensitive sanitation includes clean, safe and separate toilets, with access to water and garbage disposal' ([UNGEI blog post](#), Gender-sensitive sanitation, 2018)

¹² Stereotype is a set idea that people have about what someone or something is like, especially an idea that is wrong' (Cambridge Dictionary).

- Does the legal minimum age for marriage conform to international standards (18 years) ¹³:

Please note that child marriage is a discriminatory practice as often girls can marry at a younger age than boys. Child marriage violates the child's right to education as they are more likely to drop out of school and children who are not in school are more likely to get married.

☒ Yes ☐ No

- Please provide reference to the relevant laws and provisions and indicate the exceptions to the legal age of marriage as well as the absolute minimum age:

Article 8 of Law No. 19/2019 of October 22nd, the law preventing and combating premature unions, establishes that unions between two people with the immediate purpose of creating a family are only permitted for those who have reached the age of 18 on the date of their birth. The article 30 of the same law establishes a penalty of eight to twelve years and a fine of up to two years for anyone who cohabits with a child. Paragraph a) of article 32, of Law 22/2019 of December 11th (Family Law) and Law 19/2019 of October 22nd, (Premature Unions Law)

National minorities:

For reference: Article/Paragraph 5(1)(c) of the Convention/Recommendation provides for the rights of national minorities.

- | | |
|--|--|
| ☐ Legislation provides for the right to education of national minorities | ☐ Teachers are trained on intercultural education |
| ☐ Policy measures aim to enhance the right to education of national minorities | ☐ Teachers are trained to combat stigmatisation ¹⁵ |
| ☐ Policy elaboration includes consultations with local communities | ☐ Multilingual and intercultural education are supported |
| ☐ The right to carry out their own educational activities is legally guaranteed for national minorities | ☐ Native language instruction is ensured for national minorities |
| ☐ Educational standards are established for educational institutions run by national minorities | ☐ Adapting curricula and teaching and learning methods to their needs for national minorities |
| ☐ Positive or affirmative action measures are provided for national minorities | ☐ Curricula are rid of all stereotypes ¹⁶ and bias |
| ☐ Financial incentives and fellowships are provided for national minorities | |

¹³ Please note that according to the Joint general recommendation No. 31 of the Committee on the Elimination of Discrimination against Women/general comment No. 18 of the Committee on the Rights of the Child on harmful practice, para. 20: "a marriage of a mature, capable child below 18 years of age may be allowed in exceptional circumstances, provided that the child is at least 16 years of age and that such decisions are made by a judge based on legitimate exceptional grounds defined by law and on the evidence of maturity, without deference to culture and tradition."

¹⁵ Supra note 15.

¹⁶ Supra note 16.

☐ Other¹⁴:

- Please elaborate and, where appropriate, indicate the legal and policy measures taken:

The Constitution of the Republic of Mozambique does not refer to the existence of Minority Groups (national minorities) in the country. All citizens are treated fairly. However, with regard to the use of national languages, the Government approved the Bilingual Education Strategy which encourages the use of national languages in the first classes of Primary Education in places of linguistic homogeneity.

- What challenges were encountered in realizing the right to education of minorities? If needed, brief quantitative information may be added.

Indigenous people:

- | | |
|--|--|
| ☐ Legislation provides for the right to education of indigenous people | ☐ Financial incentives and fellowships are provided for indigenous people |
| ☐ Policy measures aim to enhance the right to education of indigenous people | ☐ Teachers are trained on intercultural education |
| ☐ Policy elaboration includes consultations with local communities | ☐ Teachers are trained to combat stigmatisation ¹⁷ |
| ☐ The right to carry out their own educational activities is legally guaranteed for indigenous people | ☐ Multilingual and intercultural education are supported |
| ☐ Educational standards are established for educational institutions run by indigenous people | ☐ Native language instruction is ensured |
| ☐ Positive or affirmative action measures are provided for indigenous people | ☐ Adapting curricula and teaching and learning methods to their needs for indigenous people |
| | ☐ Curricula are rid of all stereotypes ¹⁸ and bias |

☐ Other:

N/A

- Please elaborate and, where appropriate, indicate the legal and policy measures taken:

Like national minorities, the Constitution of the Republic of Mozambique does not refer to the existence of Indigenous Groups in the country. However, in the process of developing policies and programs, communities, represented by civil society organizations and/or community-based organizations and parents' councils, are involved through consultation processes.

¹⁴ Please see: [UNESCO report](#) 'The right to education of minorities: Overview of States' measures reported in the 10th Consultation on the 1960 Convention and Recommendation against Discrimination in Education, 2023.

¹⁷ Supra note 15.

¹⁸ Supra note 16.

N/A

- What challenges were encountered in realizing the right to education of indigenous people? If needed, brief quantitative information may be added.

N/A

People on the move (migrants, refugees, asylum-seekers, stateless persons and internally displaced persons) and trapped populations¹⁹:

- | | |
|--|--|
| ☒ Legislation provides for their right to education | ☐ Financial incentives and fellowships are provided for |
| ☒ Policy measures aim to enhance their right to education | ☒ Auxiliary assistance is provided |
| ☐ Inclusion in mainstream schools is ensured | ☒ Multiple and flexible learning pathways ²² are provided |
| ☒ Positive or affirmative action measures are provided for | ☒ Curricula are rid of all stereotypes ²³ and bias |
| ☒ All administrative barriers to access education are removed | ☐ Accelerated learning programmes are provided |
| ☐ Alternative administrative procedures (placement tests, portfolio of evidence, etc.) to overcome administrative barriers ²⁰ are provided for | ☒ Non-formal and/or alternative education programmes are provided |
| ☒ Teachers are specifically trained to ensure their inclusion | ☐ Language classes to newcomers are provided for |
| ☒ Teachers are trained to combat stigmatisation ²¹ | ☒ Multilingualism and intercultural education are encouraged |
| ☐ Other: | |

- Please elaborate and, where appropriate, indicate the legal and policy measures taken:

Teachers are trained in psychosocial support matters, in order to know how to deal with students who are in an emergency situation;
In the case of the Technical and Professional Education Schools grants and fellowships are provided to students in Cabo Delgado, a province affected by terrorists attacks.

¹⁹ 'Trapped populations are those who are unable to migrate to safe locations and remain trapped in locations vulnerable to the impacts of climate hazards' ([UNESCO report](#): The impact of climate displacement on the right to education, 2020, p. 2).

²⁰ While lack of documentation (such as identity papers, birth certificates, residency permits, etc.) should not be an obstacle to access education, these can constitute a barrier to education See: [UNESCO publication](#): Handbook on the right to education, 2018, p. 96.

²¹ Supra note 15.

²² Supra note 13

²³ Supra note 16.

- Have specific measures been adopted for climate displaced persons?

☒ Yes ☐ No

- Please elaborate:

1. In the event of adverse natural phenomena associated with the climate, the Government, with the support of partners, has provided temporary learning spaces that can be used as classrooms built with local materials or tents in the accommodation places. In other cases, students are integrated into safe schools.
2. In Pre-Primary Education, the Government has encouraged the creation of child-friendly spaces in accommodation centers for children from 0 to 5 years of age.

- What challenges were encountered in realizing the right to education of migrants, refugees, asylum seekers, stateless persons and IDPs? If needed, brief quantitative information may be added.

1. Lack of adequate infrastructure for the development of Pre-Primary Education;
2. Lack of financial resources for the construction of climate-resilient infrastructure;
3. Persistence of terrorist attacks in certain villages, forcing the displacement of communities;

People with disabilities:

- | | |
|---|--|
| ☒ Legislation provides for their right to education | ☒ Mainstream teachers are specifically trained on disabilities |
| ☒ Policy measures aim to enhance their right to education | ☒ Teachers are trained to combat stigmatisation ²⁴ |
| ☒ Inclusion in mainstream schools is ensured | ☒ Auxiliary assistance is provided |
| ☒ Special schools are used as resource centers to inclusive schools | ☒ Curricula and teaching and learning methods are adapted |
| ☒ Positive or affirmative action measures are provided | ☒ Curricula are rid of all stereotypes ²⁵ and bias |
| ☒ Financial incentives and fellowships are provided | ☒ Education infrastructure and learning materials are adapted |
| ☐ Other | |

- Please elaborate and, where appropriate, indicate the legal and policy measures taken:

1. The country has a National Inclusive Education Strategy;
2. Approval of the Law for the Promotion and Protection of the Rights of Persons with Disabilities;
3. Ensured compliance with the principles of the International Convention on the Rights of Persons with Disabilities;
4. Technical and Professional Education legislation enshrines the promotion of access to Professional Education for trainees with disabilities and special educational needs (SEN) in accordance with paragraph f) of article 5 of the Professional Education Law. As a way of materializing Government's opportunities, education and professional training institutions have benefited from initiatives to install ramps and bathrooms adapted for people with disabilities.

²⁴ Supra note 15.

²⁵ Supra note 16.

- What challenges were encountered in realizing the right to education of people with disabilities? If needed, brief quantitative information may be added.

1. Lack of educational infrastructure to serve all people with SEN, considering the nature of the disability;
2. The diversity of disability types;
3. Adequacy of infrastructure in terms of access for people with disabilities. For infrastructure under construction, adaptations for people with disabilities are already foreseen, including TVET.

Students from poor households:

- ☒ Financial incentives and fellowships for school enrolment are provided
- ☒ Teachers are trained to combat stigmatisation²⁶
- ☒ Transport, meals and education material are subsidised or provided free of charge beyond compulsory education
- ☒ Curricula are rid of all stereotypes²⁷ and bias
- ☒ Positive or affirmative action measures are provided
- ☐ Other:

- Please elaborate and, where appropriate, indicate the legal and policy measures taken:

1. As a way of retaining students at school and increasing access to food, the Ministry of Education and Human Development is implementing with support of partners the School Feeding Program, that aims to provide food in schools previously identified as most in need in certain districts through the administration of a snack, vegetable garden, school nutritional education, school uniform support, bicycle distribution program for girls and social action programs;
2. In TVET students from poor households benefit with measures such as free fees, free accommodation in and scholarships offered by civil society organizations and private enterprises;
3. Law 4/2007 of 7 February (Social Protection Law) and the National Basic Social Security Strategy 2016-2024 were approved.
4. The Mozambican Government has a scholarship line for students from poor households and for this purpose they must present documents proving the real situation of Families, see article 50 of Law No. 1/2023 of 17 March.

- What challenges were encountered in realizing the right to education of students from poor households? If needed, brief quantitative information may be added.

1. Lack of funds;
2. Expansion of the Basic Social Protection System;
3. Scholarships for Higher Education subsystem, combined with the financial crisis, are not available to all those in need. The demand exceeds supply.

²⁶ Supra note 15.

²⁷ Supra note 16.

2. Progress made with respect to implementing the right to education across all levels and forms of education

2.1 Early childhood care and education

For reference: Early childhood care and education (ECCE) is not explicitly provided for in the Convention/Recommendation. However, the international community has increasingly recognized the importance of ECCE over the years. The Committee on the Rights of the Child initially recognized “the right to education during early childhood as beginning at birth” (General Comment No. 7). This became more explicit with the 2010 Moscow Framework for Action and Cooperation²⁸ and more recently, the Tashkent Declaration and Commitments to Action for Transforming Early Childhood Care and Education²⁹. In the current context of the Education 2030 agenda, under SDG target 4.2, states have now committed to “the provision of at least one year of free and compulsory pre-primary education”.

- Please indicate the measures taken to ensure access to quality ECCE (several items may be ticked):

- | | |
|---|---|
| ☐ Prior to pre-primary education, ECCE services are free | ☒ ECCE services respect a child’s need for early cognitive and social development, foundational learning, responsive care, nutrition, health, safety, protection, and play. |
| ☐ Prior to pre-primary education, ECCE services are affordable | |
| ☐ ECCE services are accessible on a non-discriminatory basis | |

- Please elaborate further on the measures taken:

ECCE services are not free, as there is a registration fee and a monthly tuition fee (direct costs) that are not borne by the State.

- Is compulsory and free of charge pre-primary education available?

- ☐ Pre-primary education is compulsory. Please provide the age of enrolment and duration:

Pre-Primary Education is neither compulsory nor free.
Registration age: 0- 5 years
• Daycare – 2 months – 2 years
• Kindergarten: 2 - 5 years old

- ☒ Pre-primary education is **not** compulsory.

- ☐ Pre-primary education is free of charge for all. Please provide the duration and indicate the extent to which it is free:

Pre-Primary Education is neither compulsory nor free.
Registration age: 0- 5 years
• Daycare – 2 months – 2 years

²⁸ Which states that “ECCE is part of the right to education and the main foundation for holistic human development”.
²⁹ Which commits states to “Enhance policy and legal frameworks to ensure that the right to education includes ECCE”

- Kindergarten: 2 - 5 years old

☐ Pre-primary education is **not** free.

- Please list the relevant laws and policies. Where applicable, provide information on the direct costs (e.g., enrolment fees and tuition fees) and indirect costs (e.g., schools supplies, uniforms, transport and compulsory levies on parents). Brief quantitative information may be added.

Pre-Primary education is not free as there are direct costs to be paid, such as registration fees and tuition fees.
Ministerial Diploma No. 277/2010, of December 31st, which establishes the procedures for the functioning of children's centers.

- What challenges were encountered in realizing early childhood care and education and pre-primary education?

- | | |
|--|--|
| ☒ Limited access | ☐ Poor learning outcomes |
| ☒ Issues of equity and inclusion | ☒ Low number of professionally trained educators |
| ☐ Poor quality programmes | ☒ Lack of support to families |
| ☐ Other: | |

- Please elaborate. Brief quantitative information may be added.

2.2 Primary and secondary education

For reference: Article/Paragraph 4(a) of the Convention/Recommendation provides for universal primary and secondary education. In the context of the Education 2030 agenda, SDG target 4.1 calls on States to provide "12 years of free, publicly funded, inclusive, equitable, quality primary and secondary education – of which at least nine years are compulsory."

Primary education

- Please provide the age of enrolment and duration of primary education:

Registration: 6 years to be completed by June of the year of entry; duration: 6 years

- Is primary education compulsory and free of charge?

- ☒ Primary education is compulsory
- ☐ Primary education is **not** compulsory.
- ☒ Primary education is free of charge.
- ☐ Primary education is **not** free.

- Please list the relevant laws and policies. Where applicable, provide information on the direct costs (e.g., enrolment fees and tuition fees) and indirect costs (e.g., exam fees, schools supplies, uniforms, transport and compulsory levies on parents). Brief quantitative information may be added.

Law no. 18/2018, of 28 December, Law that approves the National Education System and the Regulation of the SNE Law, approved by Decree no. 79/2019, of 19 September.

- What challenges were encountered in realizing primary education?

☒ Limited access

☐ Issues of equity and inclusion

☐ High dropout rates

☐ Poor quality programmes

☐ Other:

☐ Poor learning outcomes in:

Foundation literacy

Numeracy

Social and emotional learning

Others

☐ Disparity in learning outcomes

☐ Low number of professionally trained teachers

- Please elaborate. Brief quantitative information may be added.

Secondary education

In this part, please provide information on the general availability and accessibility to all of secondary education, including technical and vocational secondary education and training.

- Please provide the age of enrolment and duration of lower secondary education:

12 years, duration of 3 years

- Please provide the age of enrolment and duration of upper secondary education:

1. Entry into Upper Secondary Education is at the age of 15, lasting 3 years;
2. For Professional Technical Education, the entry age is at least 16 years old, that is, after completion of the lower Secondary Education; lasting 3 years.

- Is lower and upper secondary education compulsory and free of charge?

☒ Lower secondary education is compulsory.

☐ Lower secondary education is **not** compulsory.

☒ Lower secondary education is free of charge.

☐ Lower secondary education is **not** free of charge.

☐ Upper secondary education is compulsory.

☒ Upper secondary education is **not** compulsory.

☐ Upper secondary education is free of charge

☒ Upper secondary education is **not** free of charge.

- Please list the relevant laws and policies. Where applicable, provide information on the direct costs (e.g., enrolment fees and tuition fees) and indirect costs (e.g., exam fees, schools supplies, uniforms, transport and compulsory levies on parents). Brief quantitative information may be added.

1. Regulation of the National Education System Law, (No. 2, of article 6)
2. Technical and Professional Education does not have an instrument that standardizes fees and tuition fees, which means that each institution applies fees depending on the reality of the institution (the preparation of the fees instrument is ongoing).

- Please indicate whether the legal minimum age for employment is aligned with the end of compulsory education: The legal minimum age for employment IS NOT aligned with the end of compulsory education

For reference: The employment laws and those related to compulsory education are interdependent and mutually reinforce each other. If the minimum age of employment is below that of compulsory education, the child is at risk of dropping out of school to work and therefore not completing compulsory education. On the other hand, if compulsory education is lower than the minimum age of employment, once the child has completed compulsory education, the door is open to child exploitation and the violation of labour laws.

Yes o No o

- Please provide reference to the relevant laws and provisions and indicate how the provision is enforced:

1. The compulsory education goes up to 9th grade, equivalent to 14 years of age. At this stage, the teenager is not yet ready to work, as the minimum age for admission to work is 18 years old (No 1 of article 29 of the Labor Law, Law 13/2023 of 25 August);
2. However, the Law makes an exception for minors who have reached 15 years of age, with the authorization of their legal representative, the teenagers can work (Labor Law, Law 13/2023 of 25 August No. 2 of article 29).

- What challenges were encountered in realizing secondary education?

☒ Limited access

☐ Issues of equity and inclusion

☐ High dropout rates

☐ Poor quality programmes

☐ Other:

☐ Poor learning outcomes

☒ Low readiness of primary graduates

☐ Low number of professionally trained teachers

- Please elaborate. Brief quantitative information may be added.

2.3 Higher education

For reference: Article/Paragraph 4(a) of the Convention/Recommendation provides for higher education. Ensuring higher education is essential to achieve SDG4, both targets 4.3³⁰, and target 4.4³¹. Article 4 of the Convention requires states to make “higher education equally accessible to all on the basis of individual capacity”. Article 13 of the International Covenant on Economic, Social and Cultural Rights (1966) further adds that this should be pursued by “every appropriate means, and in particular by the progressive introduction of free education”. Higher education includes technical and vocational education and training.

- Please indicate efforts made to ensure that higher education, including technical, vocation education and training, is equally accessible to all on the basis of individual capacity and/or is available free of charge (*several items may be ticked*):

- ☐ Higher education is free of charge
- ☒ Higher education is accessible on the basis of individual capacity (as assessed by reference to relevant qualifications and experience)
- ☒ Higher education is accessible through financial incentives and scholarships
- ☐ Higher education is accessible through positive or affirmative action measures
- ☒ Higher education is accessible through credit transfer system between states
- ☒ Higher education allows for multiple and flexible learning pathways (flexible entry and re-entry, recognition, validation, and accreditation of knowledge and skills acquired through non-formal and informal education).
- ☐ Other:

The government created in its legislation assumptions that guarantee the accessibility to Higher Education subsystem, through scholarships (article 50), teaching modality (article 46), social action and other educational support (article 51), supervision and inspection , sanctions, illicit acts (articles 53, 54, 55 and 56), accumulation and transfer of academic credits (article 29), Quality assurance and accreditation of programs and courses (articles 22 and 26) all from Law No. 1/2023 of 17 March, Law that establishes the Legal Functioning of Higher Education Subsystem.

³⁰ Which calls on states to “ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university”.

³¹ Which recommends to “substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship”.

- Please list the relevant laws and policies. Where applicable, provide information on the direct costs (e.g., enrolment fees and tuition fees) and indirect costs (e.g., exam fees, university supplies, transport, accommodation). Brief quantitative information may be added.

With regard to direct and indirect costs, for Higher Education Subsystem, versus tuition fees, the Government does not interfere in respect for the principle of autonomy of Higher Education Institutions. The Government only guarantees that the rates applied are in accordance with the general principles of the Mozambican legislation (see article 9 of Law no. 1/2023 of 17 March).

- What challenges were encountered in realizing higher education?

- | | |
|---|--|
| ☒ Limited access | ☒ Low number of professionally trained professors |
| ☐ Issues of equity and inclusion | |
| ☐ Poor quality programmes | ☒ Insufficient mechanisms to ensure smooth transition from secondary to tertiary |
| ☐ Poor learning outcomes | |
| ☐ Other: | |

- Please elaborate. Brief quantitative information may be added.

1. Access to Higher Education demand is greater than supply. There are fewer Higher Education Institutions (HEI) in the country in comparing with the demand. The existing ones are not represented throughout the country. There are fewer HEI in the north of the country, and a higher concentration of HEI in Maputo City.
2. The quality of Higher Education has been improving in recent years, as a result of the work carried out by the National Quality Assessment Council (CNAQ). However, some challenges still remain.

2.4 Adult education and alternative learning

For reference: Article/Paragraph 4(c) of the Convention/Recommendation provides for adult education and alternative learning. While SDG4 aims to “ensure inclusive and equitable quality education and promote lifelong learning opportunities for all”, target 4.6 specifically calls on states to “ensure that all youth and a substantial proportion of adults, both men and women, achieve literacy and numeracy”. Furthermore, under target 4.4, states are called “to increase and diversify learning opportunities, using a wide range of education and training modalities, so that all youth and adults, especially girls and women, can acquire relevant knowledge, skills and competencies for decent work and life.”

- Please indicate the measures taken to establish a system of continuing education and equitable access to learning and training opportunities (*several items may be ticked*):

- | |
|---|
| ☒ Provision of education for persons who have not received or completed the whole period of their primary education |
| ☒ Provision of literacy programmes |

- ☒ Provision of continuous learning (such as learning programmes to develop knowledge, skills, abilities, or competencies for personal and professional development)
- ☐ Provision of free of charge learning opportunities
- ☒ Provision of professional training including reskilling and upskilling programmes
- ☒ Recognition, validation and certification of non-formal and informal learning
- ☒ Provision of free of charge career guidance and counselling
- ☐ Lifelong learning entitlements including learning accounts, vouchers, etc.
- ☐ Other:

- Please elaborate further on the measures taken:

1. The Secretariat of State for Youth and Employment is responsible for providing initial and continuing professional training for young people and adults.
 2. Regarding the recognition, validation and certification of non-formal and informal learning, it is a challenge. Certification constitutes an added value, as it would be an input in improving family income through improved remuneration.

- What challenges were encountered in realizing adult learning and education?

- | | |
|--|--|
| ☒ Limited access | ☒ Limited funding |
| ☒ Issues of equity and inclusion | ☐ Poor learning outcomes |
| ☐ Poor quality programmes | ☒ Low number of professionally trained educators |
| ☐ Other: | |

- Please elaborate. Brief quantitative information may be added.

Lack of infrastructure and equipment for professional courses.

3. Quality education provision and learning environment

For reference: Articles/Paragraphs 2, 4(b) and 5(b) of the Convention/Recommendation provide for quality education. Quality education is fundamental to achieve all targets of SDG4. It is also particularly highlighted in SDG target 4.a that recommends states to “build and upgrade education facilities that are child, disability and gender sensitive and provide safe, non-violent, inclusive and effective learning environments for all”.

3.1 General measures

- Please indicate whether the legal or regulatory framework lays out the conditions and minimum education standards for the establishment and functioning of public education institutions regarding:

- ☒ State monitoring and inspections
- ☒ Health and sanitation
- ☒ Safety (children learn in a safe environment free from violence or harassment, including school-related gender-based violence (in and around schools))
- ☒ Infrastructure
- ☒ Curriculum
- ☒ Student-teacher ratio
- ☒ School fees (if relevant)
- ☒ Other

- Please elaborate on each of the measures taken:

You may include information on policies, protocols or codes of conduct.

1. Technical and Professional Education Institutions have a legal framework that establishes \ minimum educational conditions and standards for the functioning, whether public or private (Decree 28/2017 of 11 July, which approves the Licensing and Regulations for Technical and Professional Education Institutions).
 2. The Government carries out inspections to assess the suitability of the infrastructure for the courses intended to be offered.

- What challenges were encountered in realizing quality education?

- | | |
|---|--|
| ☐ Non-supportive or inadequate learning environments | ☒ Low quality educational infrastructure and materials |
| ☐ Violence in schools | ☐ Inadequate parental support to education |
| ☒ Cost of education | ☒ Long distances to schools |
| ☒ Conflicts or crises | |
| ☐ Other: | |

- Please elaborate. Brief quantitative information may be added.

3.2 Education personnel

For reference: Article/Paragraph 4(d) of the Convention/Recommendation provides for the education personnel. This corresponds to SDG target 4.c which is entirely devoted to the teaching profession as it calls on states to “substantially increase the supply of qualified teachers”.

- Please indicate the measures taken to improve the teaching and working conditions of education personnel, especially teaching staff at all levels and regarding the training for the teaching profession (several items may be ticked):

- ☒ Teacher training is provided without discrimination.
- ☒ Teachers' average salaries are competitive or at least comparable to those paid in other professions requiring similar or equivalent qualifications (at all levels).
- ☒ Initial training and continuous professional development are provided.
- ☒ Minimum standards and qualifications required for the teaching profession.
- ☐ Measures taken to strengthen the social status and attractiveness of the teaching profession.
- ☒ Measures taken to promote diversity in the teaching workforce, including to redress gender imbalances at different levels of education.
- ☒ Establishment of performance monitoring systems.
- ☒ Measures taken to increase women in leadership positions in education.
- ☐ Other:

- Please elaborate on each of the measures taken:

In Technical and Professional Education, the measures taken to improve professional training consisted of upgrading trainers into **Certificate B**, managers into **Certificate A** and training in Digital Education as a way of providing quality teaching and learning process and enabling trainers to ICT technologies.

- What challenges were encountered in the education personnel?

- ☒ Shortage of teaching staff
- ☒ Lack of qualified, trained and motivated teaching staff
- ☒ Lack of training centres
- ☐ Other:
- ☒ Low quality educational infrastructure and materials
- ☒ High student – teacher ratio

- Please elaborate. Brief quantitative information may be added.

To guarantee the quality of infrastructure, the government introduced pre-inspection as a pre-requisite to open training centers and inspection to start training courses. Regarding the qualification of the teaching staff, criteria were established relating to the academic level of the teaching staff, modalities of teaching (see articles 10, 33 and 35 all of Decree n° 43/2023 from August 2nd in conjunction with article 30 of Law n° 1/2023 of March 17th regarding the classification of Higher Education Institutions).

3.3 Respect for human rights and fundamental freedoms

For reference: Article/Paragraph 5(1)(a) of the Convention/Recommendation provides for the respect for human rights and fundamental freedoms. This is covered under SDG target 4.7.³² Please note that this section contributes to the general monitoring of Article/Paragraph 5(1)(a) of the Convention/Recommendation and that the future consultation on the 1974 Recommendation concerning Education for International Understanding, Co-operation and Peace and Education relating to Human Rights and Fundamental Freedoms // 2023 Recommendation on [...] will be used specifically for monitoring SDG4 indicator 4.7.1.

- Please indicate the national efforts taken in directing education to the full development of the human personality and the strengthening of respect for human rights and fundamental freedoms (several items may be ticked):

☒ Curriculum includes human rights education.

☒ Educational and/or extracurricular activities are organized on human rights education.

☐ Other:

- Please elaborate on each of the measures taken:

1. Qualifications (curricula) in Technical and Professional Education include life skills modules, which have human rights subjects.

2. Institutions have carried out activities in matters of human rights through other sectors such as Ministry of Justice, Ministry of Health, Ministry of Internal Affairs and Municipality, and Civil Society Organization.

3.4 Non-state actors in education

For reference: Articles/Paragraphs 2(c) and 5(1)(b) of the Convention/Recommendation provide for non-state education provision³³.

- Please indicate the measures taken to ensure the provision of quality non-state education (several items may be ticked):

☒ Legal provisions prohibiting discrimination on the grounds listed by the Convention/Recommendation³⁴ explicitly apply to non-state educational institutions. Please specify:

Law no. 18/2018, from 28 December, Law that approves the National Education System (SNE) and the Regulation of the SNE Law, approved by Decree no. 79/2019, from 19 September.

☒ Policies aim to guarantee that the development of non-state education does not generate discrimination and that non-state actors offer a relevant alternative (without supplanting public education). Please specify:

³² Which calls on states to “ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture’s contribution to sustainable development”.

³³ Private, faith-based, NGOs, community actors.

³⁴ See: Article/Paragraph 1(1).

There are 57 Higher Education Institutions in Mozambique, 35 of which are private and 22 are State-owned. This shows that the Private Sector has been increasingly intervening in Higher Education.

■ Legal provisions provide for the rights of the parents /legal guardians for providing religious and moral education for their children. [Please specify:](#)

1. According to number 4, of Article 12 of the Constitution of the Republic of Mozambique, the State recognizes the role of religious institutions in promoting peace and socio-economic development;
2. Decree No. 43/2023 from August 2, which approves the Licensing, Functioning and Regulations for HEI.

■ Legal or regulatory framework lays out the conditions and minimum education standards for the establishment and functioning of non-state educational institutions. [Please specify what is covered:](#)

- ☐ Registration
- ☐ State monitoring and inspections
- ☐ Qualifications of teachers
- ☐ Health and sanitation
- ☐ Safety (children learn in a safe environment free from violence or harassment, including school-related gender-based violence (in and around schools))
- ☐ Infrastructure
- ☐ Curriculum
- ☐ Student-teacher ratio
- ☐ School fees
- ☐ School closures
- ☐ Other

- [Please elaborate:](#)

- [What challenges were encountered in non-state education provision?](#)

- | | |
|--|--|
| ■ Low quality educational infrastructure and materials | ☐ Issues in terms of equity and inclusion |
| ■ Low number of professionally trained teachers | ■ Weak government regulatory and monitoring capacity |
| ■ High student – teacher ratio | |
| ☐ Other: | |

- Please elaborate. Brief quantitative information may be added.

--

3.5 Digital education

Digital education is both an opportunity for enhancing access but also can lead to challenges in terms of quality education and inclusion³⁵.

- Please indicate the measures taken to ensure the provision of quality digital education (several items may be ticked):

☒ Digital technology use in education is provided for in the legal framework.

Please indicate the relevant text and provisions:

1. Education Strategic Plan 2020 – 2029; Secondary Education Curriculum Plan. 2. Article 46, of Law No. 01/2017 of March 17, which establishes the Legal Functioning of the Higher Education Subsystem.
--

☐ Core legislations, policies, strategies or plans for the management, privacy, security, storage, transfer, use, and sharing of education data internally and externally to ensure the right to privacy of learners and education stakeholders (e.g., informed consent, transparent usage policies, etc.)

☐ Regulatory framework establishes minimum education standards for digital education to which all actors in education must comply.

☒ Measures to remove barriers to accessing digital content³⁶, including ensuring access to curriculum-aligned digital content available on free, public, multi-modal national platforms; high-quality content is available in core subjects, official national language(s), and designed with inclusive features to assist learners with disabilities.

☒ Digital skills incorporated into pre- and in-service teacher and leadership training curricula to create a culture of digital innovation and growth anchored in equity and inclusion that enables ongoing professional development for existing and emerging staff.

☐ Future-ready skills (including digital skills, data and AI competencies, critical thinking, etc.) integrated into formal curriculum at all levels of education

☐ Measures address the digital divide, including ensuring access to reliable electricity, meaningful internet connectivity at school and at home, devices suitable for learning and teaching, safe and sustainable software and secure platforms, and integrated education data systems.

☐ A well-established, sustainable, and cost-effective budget secured from a range of funding sources and intersectoral cooperation, supported by impact focused reporting linked to regional strategic goals.

³⁵ Please see General Comment No. 25 (2021) of the Committee on the Rights of the Child which covers children's right to education in relation to the digital environment.

³⁶ Lack of internet connection, basic infrastructure or devices.

- Please elaborate on each of the measures taken:

Technical and Professional Education does not have relevant policies and regulations for the use of ICT.
Distance Learning presupposes digital education. In this modality, all content is in digital format

- What challenges were encountered in digital education provision (check all that apply)?

- | | |
|---|--|
| ☒ Lack of quality, curriculum-aligned digital teaching and learning content that supports flexible learning and teaching pathways | ☒ Limited access to internet and/or electricity |
| ☒ Lack of equity and inclusion in digital learning solutions | ☒ Limited access to hardware (devices, chargers, etc.) |
| ☒ inadequate safety measures and IT support to respond to issues of child online safety or reduce cyber security risks | ☒ Difficulty in regulating the use of digital education solutions |
| ☐ Other: | ☒ Difficulty in sustainably financing digital education solutions at national scale |
| | ☒ Lack of digital skills development for meaningful use of digital technology in teaching practice |
| | ☐ Disjointed or fragmented solutions that are not centrally systematized or regulated |

- Please elaborate. Brief quantitative information may be added.

1. Technical and Vocational Education qualifications already include in the Curriculum Plan the use of technologies and innovations, including digitalization;
2. Existence of specific digital packages in the training process.

4 Strengthening governance systems

For reference: The Education 2030 Framework for Action states "to ensure quality education and conditions for effective education outcomes, governments should strengthen education systems by instituting and improving appropriate, effective and inclusive governance and accountability mechanisms; quality assurance; management information systems; transparent and effective financing procedures and mechanisms; and institutional management arrangements, as well as ensure that robust, timely and accessible data are available" (para. 18).

- Please indicate the measures taken in terms of governance (several items may be ticked):

- ☒ Monitoring mechanisms to assess compliance with the right to education obligations, including through management information systems.
- ☐ Monitoring results are made public. Please provide the link:

- Monitoring processes are participatory, inclusive and regular.
- Sector-wide and multisector approach is adopted to education governance.
- Financial resources are effectively allocated to prioritise the provision of free, quality, public education and are adequately budgeted for in government plans.
- The decision-making process for the allocation of resources to education is transparent.
- Ensuring crisis-sensitive and disaster risk-informed planning and programming, including the provision of quality education in emergencies.
- There is a certain degree of decentralization in favour of local public authorities and autonomy for schools to ensure context relevance of their teaching.

- Please elaborate on each of the measures taken:

The governance of the entire education subsystem is guided by the Government, through policies, regulations contained in Ministerial Diploma n° 38/2021 of June 1st, Law n° 1/2023 of March 17th, Decree n° 43/2023 of August 2nd, Decree n° 71/2023 of August 18th for the Higher Education Subsystem.

The monitoring carried out by the Secretariat of State for Professional Technical Education includes provincial and district bodies, and the results of the monitoring exercise are shared for the consumption of everyone involved.

Provincial and District authorities have the autonomy granted by legislation for active involvement and play an extremely important role as they monitor the day-to-day activities of institutions, supporting them directly. It is also important to highlight the active participation of local communities.

Furthermore, Technical and Professional Education Institutions have the scientific and pedagogical autonomy that gives them the ability to define teaching areas, programs, research and technology, cultural, sporting and artistic projects, in accordance with paragraphs b) and article 19 of the Professional Education Law.

- What challenges were encountered in terms of governance?

- | | |
|--|--|
| ■ Budgetary constraints | ☐ Absence of supportive/ inconsistent/obsolete legal and policy environment |
| ☐ Lack of involvement of relevant stakeholders and lack of cooperation/coordination at different levels | ■ Lack or weakness of monitoring systems – including the lack of reliable data |
| ■ Poor dialogue with teachers' trade unions | |
| ☐ Other: | |

- Please elaborate. Brief quantitative information may be added.

III. Methods used to draw the attention of the various authorities in the country to the instruments

For reference: UNESCO governing bodies have underlined the need for awareness raising. Given the importance of normative action at the national level, wide dissemination of the Convention must be ensured, with the support of National Commissions for UNESCO.

- Have activities been carried out to draw the attention of the various authorities of the country to the Convention/Recommendation and their provisions about the right to education and to raise awareness of the principles of non-discrimination and equality of educational opportunities? (Several items may be ticked)

- ☒ Translation of the Convention/Recommendation into the national and possibly local languages
- ☒ Dissemination and advocacy of the core content of the Convention/Recommendation or the core principles of the right to education including through appropriate materials and resources
- ☒ Activities undertaken or supported by the National Commission to promote non-discrimination and equality of educational opportunities and to foster debate on critical issues in relation to the rights enshrined in the instruments
- ☐ Other:

The Convention/Recommendation have been translated into Portuguese.
