

GUIDELINES FOR THE PREPARATION OF REPORTS BY MEMBER STATES ON THE APPLICATION OF THE 1974 RECOMMENDATION CONCERNING EDUCATION FOR INTERNATIONAL UNDERSTANDING, CO-OPERATION AND PEACE AND EDUCATION RELATING TO HUMAN RIGHTS AND FUNDAMENTAL FREEDOMS

I. Introduction

A. About the 1974 Recommendation

1. UNESCO's 1974 *Recommendation concerning Education for International Understanding, Co-operation and Peace and Education relating to Human Rights and Fundamental Freedoms*¹ (the "1974 Recommendation") aims to promote international education and world peace through understanding, solidarity and cooperation. It was adopted on 19 November 1974 by the General Conference of UNESCO at its 18th session.

2. The 1974 *Recommendation* applies to formal, non-formal and informal education and to all levels, from pre-primary to tertiary and adult education and lifelong learning. The General Conference recommended "*that Member States should apply*" the provisions included in the 1974 *Recommendation* "*by taking whatever legislative or other steps*" that provide institutional (e.g. policies and legal frameworks) and pedagogical (e.g. curricula, teacher training, educational materials, equipment, and student assessment) support for its implementation, based on the "*objectives*", referred to in paragraph 4 of the 1974 *Recommendation*, "*regarded as major guiding principles of education policy*" including: an international dimension and a global perspective on education, cultural diversity, interdependence, communication, rights and responsibilities, international solidarity and cooperation, and problem solving.

3. Today, the principles of the 1974 *Recommendation* apply equally well to Education for Sustainable Development (ESD) and to Global Citizenship Education (GCED) and therefore represent a powerful tool for promoting the 2030 Agenda for Sustainable Development and in particular SDG Target 4.7 on the promotion of sustainable development and global citizenship through education, Target 12.8 on access to information on sustainable development and Target 13.3 on climate change education.

4. The General Conference in its 39th session recommended the use of the 1974 *Recommendation* reporting process to support the implementation and monitoring of Target 4.7 of Sustainable Development Goal 4 (39 C/Resolution 79). The UNESCO Executive Board at its 209th session approved the use of the current guidelines for both the monitoring of the 1974 *Recommendation* and the collection of data needed for the following global SDG indicator for which UNESCO is custodian (209 EX/Decision 18.II):

4.7.1, 12.8.1 and 13.3.1: *The extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education and (d) student assessment.*

5. Questions marked with an asterisk (*) will be used in the calculation of the respective indicators (**Table 1**). As approved by the Inter-Agency and Expert Group on the SDG Indicators, the indicators will be calculated for primary and secondary education only.

Table 1 Questions used in the calculation of the global SDG indicator for Targets 4.7, 12.8 and 13.3

Policies	Curricula	Teacher education	Student assessment
A2, A4, A5, E1a	B2, B3, B4, E1b	C2, C3, C4, C5, E1c	D2, D3, E1d

B. Reporting obligations

6. The General Conference, at its 18th session, when adopting the *1974 Recommendation* recommended “*that Member States submit [...] reports concerning the action taken by them in pursuance of this recommendation*”. Moreover, in accordance with Article VIII of UNESCO’s Constitution “*Each Member State shall submit to the Organization [...] reports [...] on the action taken upon the recommendations and conventions referred to in Article IV, paragraph 4.*”

7. Thus, **all UNESCO Member States are expected to report on the steps they have taken to implement the 1974 Recommendation** preferably by completing the following questionnaire. Such reporting takes place every four years.

II. Guidelines for completion of the questionnaire

8. This questionnaire and its accompanying guidelines are addressed to Ministers responsible for relations with UNESCO. The questionnaire is typically completed by Ministries of Education and other government authorities responsible for education. Responses should cover, as far as possible, education at all levels of government, including sub-national levels where applicable as well as education outside the government sector.

9. National respondents are encouraged to **consult widely** both within, across and beyond government, including with Ministries of Environment, with national human rights institutions, the education sector, civil society partners and others, as necessary, to gather the information needed to complete the questionnaire.

10. Responses to the seventh consultation should cover:

- (i) the time period 2017-2020;
- (ii) education at all levels of formal education from pre-primary to tertiary education as well as non-formal education;
- (iii) all levels of government that have responsibility for education within the country; and
- (iv) where possible, education outside the government sector.

11. To assist countries in responding to this questionnaire, UNESCO has developed the following set of global citizenship education and education for sustainable development themes. The list is based on a review of current common practices in many countries as well as a review of relevant literature. While the terms ESD and GCED may be used differently in some countries, the list of themes typically captures what are seen as key elements of Target 4.7. Please refer to the definitions of key terms in **Section III** before completing the questionnaire.

Global citizenship education and education for sustainable development

- 1. cultural diversity and tolerance
 - 1.1 international or intercultural understanding, solidarity and cooperation
 - 1.2 intercultural and interreligious dialogue
 - 1.3 local, national and/or global citizenship
- 2. gender equality education
 - 2.1 gender-based equal opportunities
 - 2.2 gender equality and justice
 - 2.3 gender roles, identity and stereotypes

3. human rights education
 - 3.1 equality and non-discrimination based on race, colour, language, religion, disability, political or other opinion, national or social origin, birth or other status
 - 3.2 human rights values, human dignity, justice, inclusion and participation
 - 3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)
4. peace and non-violence
 - 4.1 friendly relations among peoples and nations
 - 4.2 challenging negative stereotypes, promoting peaceful solutions, learning to live together, including others and preventing violent extremism
 - 4.3 preventing all forms of violence including bullying, verbal abuse and gender-based violence
5. climate change education
 - 5.1 mitigation
 - 5.2 adaptation
 - 5.3 impact reduction
 - 5.4 early warning
6. environmental sustainability
 - 6.1 caring for the planet, protecting nature
 - 6.2 environmental justice
 - 6.3 biodiversity, water
7. human survival and well-being
 - 7.1 environmental health as it pertains to human well-being, disaster risk reduction
 - 7.2 health of the planet for future generations
 - 7.3 sustainable cities and communities
8. sustainable consumption and production
 - 8.1 responsible and sustainable lifestyles
 - 8.2 green economy, green jobs
 - 8.3 sustainable energy

III. Definitions of key terms

Term	Definition
Themes of global citizenship and education for sustainable development	
1. Cultural diversity and tolerance	<i>Education about and for diversity including language, ethnicity, race, religion as well as the development of tolerance, mutual respect and appreciation for cultural diversity. It includes intercultural and interreligious dialogue, understanding, solidarity and co-operation, and citizenship education.</i>
2. Gender equality education	<i>Education that addresses the wider issue of gender equality by promoting new attitudes and patterns of belief, transforming the way people think about traditional gender roles and helping to build long-term sustainable change. It examines how gender roles, activities, needs, opportunities, rights and entitlements affect men, women, girls and boys differently. It deals with the relationships between females and males, their access to and control of resources and the constraints they face relative to each other. It respects the rights of all learners – women, men, boys and girls – equally and gives equal access to learning opportunities, resources and protections. All learners benefit from and are treated in education equally without the limitations set by stereotypes, rigid gender roles and prejudices. It covers gender-based equal opportunities, gender equality and justice, and gender roles, identity and stereotypes.</i>
3. Human rights education	<i>Education that promotes universal respect for and observance of all human rights and fundamental freedoms and thus contributes, inter alia, to the prevention of human rights violations and abuses by providing persons with knowledge, skills and understanding and developing their attitudes and behaviours, to empower them to contribute to the building and promotion of a universal culture of human rights.</i> <i>It includes equality and non-discrimination, human rights values, dignity, justice, inclusion and participation and respect for human rights and fundamental freedoms.</i>
4. Peace and non-violence	<i>Education about peace and peace-building, mediation, conflict prevention and resolution, non-violence, reconciliation and living together peacefully. It includes advocating for friendly relations among peoples and nations, challenging negative stereotypes, promoting peaceful solutions, learning to live together and preventing violent extremism and other forms of violence including bullying.</i>
5. Climate change education	<i>Education to help people, in particular youth, understand, address, mitigate, and adapt to the impacts of climate change. It encourages changes in attitudes and behaviours needed to put the world on a more sustainable development path, and build a new generation of climate change-aware citizens.</i> <i>It covers various responses to climate change including mitigation, adaptation, impact reduction and early warning.</i>
6. Environmental sustainability	<i>Education about responsible interactions with the environment to avoid depletion or degradation and to promote environmental quality and health. It includes, caring for the planet and protecting nature, environmental justice, biodiversity and water.</i>
7. Human survival and well-being	<i>Education that promotes social well-being and harmony including in future generations due to healthy environmental systems. It includes health of the planet and environment related to human well-being, disaster risk reduction and sustainable cities and communities.</i>

8. Sustainable consumption and production	<i>Education on the use and production of resources, products and services that have a minimal adverse impact on the environment. It promotes resource and energy efficiency, sustainable infrastructure and green jobs. It includes responsible and sustainable lifestyles, the green economy and sustainable energy.</i>
Dimensions of learning	
Knowledge	<i>Factual information and understanding acquired through study and/or experience.</i>
Skills	<i>The ability to carry out a task well as a result of training, practice and innate aptitude. Skills may be physical, mental or both.</i>
Values	<i>Principles that form the foundation on which individuals conduct themselves and interact with others and with the environment around them.</i>
Attitudes and behaviours	<i>Ability to act on the basis of beliefs and knowledge acquired through study or experience.</i>
Levels of education	
Pre-primary	<i>Education designed to support children's early cognitive, physical, social and emotional development and introduce young children to organized instruction outside of the family context. Participants are usually aged from three years.</i>
Primary and secondary	<i>Education designed to:</i> <i>(i) provide students with fundamental skills in reading, writing and mathematics (i.e. literacy and numeracy) and establish a solid foundation for learning and understanding core areas of knowledge and personal development (primary education); and</i> <i>(ii) prepare students for further education at post-secondary and tertiary levels and for entry into the labour market (secondary education).</i> <i>It includes both general and vocational education.</i>
Tertiary	<i>Education designed to provide learning activities in specialised fields of education. It aims at learning at a high level of complexity and specialisation. It includes both what is commonly understood as academic education and advanced vocational or professional education.</i>
Types of education	
Adult education	<i>Education specifically targeted at individuals who are regarded as adults by their society to improve their technical or professional qualifications, further develop their abilities, enrich their knowledge with the purpose to complete a level of formal education, or to acquire, refresh or update their knowledge, skills and competencies in a particular field.</i>
Formal education	<i>Education that is institutionalized, intentional and planned through public organizations and recognized private bodies which – in their totality – constitute the formal education system of a country. Formal education programmes are recognized by the relevant national or sub-national education authorities. Formal education consists mostly of initial education (e.g., pre-primary, primary, secondary and tertiary education).</i>
Non-formal education	<i>Education that is an addition, alternative and/or a complement to formal education within the process of the lifelong learning of individuals. It is often provided to guarantee the right of access to education for all. It caters to people of all ages but does not necessarily apply a continuous pathway-structure. It may be short in duration and/or low-intensity, and it is typically provided in the form of short courses, workshops or seminars. Non-formal education mostly leads to qualifications that are not</i>

	<i>recognized by the relevant national or sub-national education authorities or to no qualifications at all. Non-formal education includes programmes on life skills including literacy and numeracy, work skills, and social or cultural development. Most types of adult education are also included.</i>
Vocational education	<i>Education that is designed for learners to acquire the knowledge, skills and competencies specific to a particular occupation or trade or class of occupations or trades. Vocational education may have work-based components (e.g. apprenticeships). Successful completion of such programmes leads to labour-market relevant vocational qualifications acknowledged as occupationally-oriented by the relevant national authorities and/or the labour market. Vocational education can be offered at secondary and post-secondary or tertiary levels of education.</i>

IV. Information about the respondent

Country:

Bulgaria

Organization:

Ministry of Education and Science

Date of submission:

31.01.2021

V. Other contributors consulted during the completion of this questionnaire

Please indicate below the names of other organizations and contributors consulted during the completion of this questionnaire.

Government institutions including other Ministries (please specify):

National human rights institutions (please specify):

Local and regional authorities responsible for education (please specify):

Other local and regional authorities (please specify):

Organizations representing education stakeholders (e.g. teachers, students, parents, etc.)
(please specify):

Centre for Qualification of Pedagogical Professionals; Curriculum Experts.

Other civil society organizations (please specify):

Others (please specify):

VI. Questionnaire

A. Laws and policies (preamble and paras 4 and 7 of the 1974 Recommendation)

A1a. Please describe any specific national or sub-national laws, legislation or legal framework(s) in your country that govern the promotion of global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes² are mentioned explicitly or are inferred and what types or levels of education are covered.

The Law on Pre-School and School Education A State Education Standard, enacted by Regulation 13 introducing the ESD and GCED topics into the school curricula and regarded as obligatory competences to be acquired by all up to the age of 16.

A1b. Please provide the full names of any laws, legislation or legal frameworks referred to in A1a and, where possible, web links to relevant documents.

The Law on Pre-School and School Education Ordinance 13 on Civic, Health, Environmental and Intercultural Education

*A2 Please indicate which GCED and ESD themes are covered in national or sub-national laws, legislation or legal frameworks on education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown, 99 = not applicable (e.g. where the given level of government is not responsible for education)

	National				Sub-national			
	Pre-primary	Primary/secondary	Tertiary	Non-formal	Pre-primary	Primary/secondary	Tertiary	Non-formal
1. Cultural diversity and tolerance	1	1	1	1				
2. Gender equality	9	1	1	1				
3. Human rights	1	1	1	1				
4. Peace and non-violence	1	1	1	1				
5. Climate change	1	1	1	1				
6. Environmental sustainability	9	1	1	1				
7. Human survival and well-being	1	1	1	1				
8. Sustainable consumption and production	9	1	1	1				

² See the schema described in paragraph 11 of Section II of these guidelines.

A3a. Please describe any specific current national or sub-national education policies, frameworks or strategic objectives in your country that promote global citizenship education (GCED) and/or education for sustainable development (ESD). Explain whether GCED and/or ESD themes³ are mentioned explicitly or are inferred and what types or levels of education are covered.

One of the major aims embedded in the Law on Pre-School and School Education states that education is to respond to global challenges by developing appropriate competences enabling the understanding of the global issues and processes, their interlinks and consequences for the sustainable development, to cultivate a culture of mindfulness and ability to contribute to building peaceful and sustainable societies. GCED is delivered in the formal pre-school and school education. Apart from that, global issues are mostly taught in an informal educational context. Either way, this educational provision contributes to Sustainable Development Goal 4, target 4.7.

A3b. Please provide the full names of any education policies, frameworks or strategic objectives referred to in A3a and, where possible, web links to relevant documents.

*A4. Please indicate which GCED and ESD themes are covered in national or sub-national education policies, frameworks or strategic objectives affecting each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
1. Cultural diversity and tolerance	1	1	9	1
2. Gender equality	9	1	9	1
3. Human rights	1	1	9	1
4. Peace and non-violence	1	1	9	1
5. Climate change	9	1	9	1
6. Environmental sustainability	9	1	9	1
7. Human survival and well-being	1	1	9	1
8. Sustainable consumption and production	1	1	9	1

³ See the schema described in paragraph 11 of Section II of these guidelines.

*A5 Please indicate whether national or sub-national education policies, frameworks or strategic objectives on education provide a mandate to integrate GCED and ESD in the following areas by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown, 99 = not applicable (e.g. where the given level of government is not responsible for education)

	Pre-primary	Primary and secondary	Tertiary	Non-formal education

Assessment of student outcomes	9	1	99	99
Sub-national				
Design or revision of the curricula				
Setting of programme learning objectives				
Textbook development				
Teacher education and training				
Assessment of student outcomes				

B. Curriculum (paras 4 and 10-19 of the 1974 Recommendation)

B1a. Please describe in which ways GCED and ESD are mainstreamed in school curricula. Indicate whether topics are taught as standalone subjects or are integrated into the curricula of other subjects. Explain whether GCED and/or ESD themes⁴ are mentioned explicitly or are inferred and what types or levels of education are covered.

GCED & ESD are an intricate part of the curricula as a whole (global issues are always relevant and touched upon), however special thematic accents are delivered and attention is attached in particular to the study content of specific school subjects from the cultural and educational field "Social Sciences and Civic Education" – Philosophy, History, Geography as well as via the cross-curricular Civic Education.

Teaching about global issues at school (primary & secondary education) aims at equipping learners with relevant knowledge, skills, values and attitudes in order to enable them to develop as active and responsible local and global citizens. The acquisition of certain competences (operative and emotional), are described as expected learning outcomes:

- Sufficient knowledge about the contemporary aspects of the international humanitarian law and ability to analyze specific cases;
- Understanding and ability to analyze and argue about global topical issues, such as terrorism, xenophobia, ethnic tensions, radicalization, war and peace.

⁴ See the schema described in paragraph 11 of Section II of these guidelines.

- Ability to understand, analyze and approach the regional emergence of the global processes and their impact on one's life; /Environment and Culture in the context of globalization/
- Ability to analyze the global nature of various ecological and demographical issues.
- Capacity to explore and apply the possibilities of the global education in order to become aware and analyze the social problems on regional, national and global level.
- Capacity to develop an idea/a concept to provide solutions to topical global issues.
- Identifies contemporary tendencies in the health culture. Notions – Microenvironment, Globalization, Emigration and Immigration, Refugees, Terrorism, Crimes against Humanity, War, Humanitarian Law, Peace, Ecology, Health culture, Global Education /Market Economy and Social Policy/
- Ability to analyze and approach the economic fluctuations and processes in Bulgaria, EU and globally through the lens of sustainable development Notions: Social Policy & Poverty, Sustainable Development

It is considered essential for the GCED delivered in Bulgaria to underpin in young people the ability for reflexive critical thinking, observation, dialogue and argument-based discussion that would enable learners to analyze and weigh the existing ideas/perceptions for the meaning of a life worthwhile and a good society. Moreover, GCED is regarded as effective only if it encourages the independent thinking and actions of the learners, irrespective of whether it deals with issues via empathy and tolerance or via sustainable development.

The general education preparation at school is built upon the 8 key competences embedded in the European Key Competences Reference Framework. However, with the legislative developments as of 2016/2017 school year, a 9th competence has been added – teaching skills and abilities for understanding and supporting sustainable development (incl. civic participation) together with maintaining healthy lifestyles and practicing sports activities.

A new legislative basis has been developed (2017), encompassing a state education requirement on civic, health, environmental and intercultural education, to be implemented throughout the whole study content by different topics and supporting practical activities.

- The objective of the specific legislative provision was to enable the acquisition of social, civic and intercultural competences together with competences related to healthy lifestyles and maintaining a sustainable environment (reflecting UNESCO priorities – GCED & ESD);
- According to the new legal provisions, as of 2020/2021 school year a separate, standalone school subject has been introduced on civics, for 12th grade, and is dedicated explicitly to GCED topics as well as to the acquisition of global competence (incl. attitudes, values and skills);
- As of 2013 the MoES has been holding every year an Olympiad on Civic Education, organized in an interactive way, enabling pupils from 10th -11th grade to carry out an action research and stand their viewpoint on a controversial issue on either civic, social or environmental aspect of GCED.

The state educational requirement for civics, intercultural, health and environmental education claims that education plays a fundamental role for a much-needed change in the values, attitudes, behaviors and lifestyles by cultivating competences for democratic culture and sustainable

development. It is conceived and designed as open-ended, enabling further elaboration, drawing on best practices, achievements under project work, other resources resulting from partnership and international cooperation, etc.

The state educational requirements in this case define, in particular:

1. The place of the citizenship, intercultural and health education in the pre-school and school education;
2. The aims and objectives of the citizenship, intercultural and health education in pre-school and school education;
3. The means and forms for the implementation of the citizenship, intercultural and health education;
4. The institution-based policies aimed to support the citizenship, intercultural and health education.

The citizenship, intercultural, health and environmental thematic issues are regarded as a cross-curricular set of principles, content and activities, implemented in various forms and by diverse means, methods and approaches in pre-school and school education with a view to ensuring the acquisition of social, civic and intercultural competences by learners at school.

The expected learning outcomes from this citizenship, intercultural, health and environmental teaching should have cultivated:

- Understanding of the importance to be an active citizen for sustainable political, economic and social development;
- Capacity for development despite the contemporary global challenges, such as terrorism, refugee crises, environmental problems and climate changes;
- Ability to critically analyze the implications of the climate changes and their impact on the ecosystems and capacity to provide sustainable food, energy, water supply, etc.;
- Ability to interpret the need for adaptation to the climate changes and alleviation of their effects;
- Ability to differentiate between different sustainable practices for renewal of the natural resources and explain the benefits for the society, including financial and social.

The specific objectives of the civic, intercultural, health and environmental education provision also apply to the

- (1) Formation of an independent and proactive personality through education;
- (2) Development of the education institutions as independent, proactive as well as a community center.

The Civic, Intercultural, Health and Environmental topics are based on and intended to support the development of general social and civic competences, such as:

1. Self-knowledge, ability to create a positive self-image, self-expression;
2. Effective interpersonal communication, empathy (understanding the feelings and the experience of the others), constructive communication in diverse environment and

contexts, understanding the different social roles, voicing and understanding different viewpoints;

3. Generate trust and ability to sympathize, to feel empathy;
4. Ability to envision and plan joint actions, collaborate efficiently and work in a team;
5. Negotiating skills, conflict resolution and mediation skills, ability to compromise, violence prevention and management;
6. Ability to handle stressful experiences and frustration, and their constructive expression;
7. Ability of critical thinking and resilience to manipulation, ability for constructing reasonable arguments, and for establishing and maintaining a dialogue;
8. Ability of critical processing and presenting information from various sources;
9. Global and eco-thinking;
10. Resilience to pressure and interference, making informed decisions and ability of maintaining a healthy and productive lifestyle;
11. Life planning and lifelong learning.

The civic, intercultural, health and environmental educational standard is implemented in school education in the following types of school provision and organizational activities:

- (1) As integral part of the taught general education school subjects from I to XII grade.
- (2) As integral part of the obligatory modules of the profiled subjects, taught in XI and XII grade.
- (3) As a general standalone subject, entitled "Civic Education", launched in 2020/2021 school year;
- (4) As school subjects in their own right within the extended school preparation, at all stages and levels of secondary school education;
- (5) In the form of additional facultative classes, developed on the basis of the study content, taught in various school subjects and activities;
- (6) In the head teacher's class, at all levels of education;
- (7) In the framework of activities related to the all-day organization of schooling;
- (8) In out-of-school activities;
- (9) In the framework of activities intended for schools, kindergartens and the general personal development support centers.

B1b. Please provide examples of curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents.

3.3 respect for human rights and fundamental freedoms (as outlined in international conventions and declarations)	9	1	1	1

C. Teacher education (including the training of trainers and educators) (paras 4 and 33-37 of the 1974 Recommendation)

C1a. Please describe in which ways GCED and ESD are mainstreamed in initial training and in continuing professional development of teachers, trainers and educators. Indicate whether all teachers, trainers and educators or only some are required to receive training to teach GCED and/or ESD.

HEIs are the responsible entities/authorities for initial teacher training, incl. on topics encompassed in GCED & ESD.

As regards the further/in-service trainings for continuous professional development, the National Centre for Training and Qualification of the Pedagogical Professionals has carried out targeted trainings on all GCED & ESG topics in 2019-2020 for 2000 professional educators in order to equip them with competences to teach the recently introduced standalone subject "Civic Education" at school.

In addition, other 238 pedagogical professionals have undergone such in – service trainings for teaching the new curriculum for 10th school grade on History and Civilization, where also GCED & ESD topics are included.

C1b. Please provide examples of teacher training policies or curricula in which GCED and/or ESD are mainstreamed and, where possible, web links to relevant documents. If possible, include examples related to initial training and to continuing professional development.

*C2 Please indicate whether teachers, trainers and educators are trained to teach GCED and ESD during initial or pre-service training and/or through continuing professional development. Please enter the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education

5. Climate change	1	1	9	9
6. Environmental sustainability	1	1	9	9
7. Human survival and well-being	1	1	9	9
8. Sustainable consumption and production	1	1	9	9

*C4 Please indicate whether teachers, trainers and educators are trained to teach the following dimensions of learning in GCED and ESD. Please enter the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Knowledge	1	1	9	9
Skills	1	1	9	9
Values	1	1	9	9
Attitudes and behaviours	1	1	9	9

*C5 Please indicate whether teachers, trainers and educators are trained to use the following approaches to teach GCED and ESD in primary and secondary education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Global citizenship and education for sustainable development
GCED/ESD are taught as separate subject(s)	1
Cross curriculum approach (e.g. GCED/ESD are taught in more than one subject but not throughout the curriculum)	1
Integrated approach (e.g. GCED/ESD are taught throughout the whole curriculum)	0
Whole school approach (e.g. GCED/ESD are integrated in the school ethos, management, governance, curriculum, teacher training, teaching practices, the learning environment, and in learning experiences in the community and life outside school)	1

D. Student assessment (paras 4 and 5 of the *1974 Recommendation*)

D1a. Please describe in which ways GCED and ESD are covered in student assessments and examinations. Indicate whether students are assessed only on their knowledge of and skills related to the topics being tested or also on their values, attitudes and/or behaviours.

In all regular student assessments of their progress in the course of studying, it is their knowledge, skills and attitudes that are in focus as the assessment on all school subjects, in all levels, is competence-based. Behaviors, anyway, are difficult to be measured and taken in account.

The Art. 8, Para 2 of Ordinance 11 on the Assessment and Evaluation in School System states that the grade from the assessments is indicative for the level of acquisition of the competences (incl. social and civic), defined by the given State Educational Standard.

In Civics and Chemistry and Environment Protection subject, e.g., as well across other subjects, are envisaged competences aimed at cultivation of proper GCED & ESD attitudes and behavior. However, when speaking of matura / matriculation examination at the end of 12th grade as well in the case of all other external evaluations (at the end of 4th and 10th grade) the assessment and evaluation of the knowledge and skills prevail. The working method on assessing the attitudes and behavior in the format of standardized test has not yet been developed.

*D2 Please indicate whether the GCED and ESD themes below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
1. Cultural diversity and tolerance	1	1	1	1
2. Gender equality	0	0	1	1
3. Human rights	1	1	1	1
4. Peace and non-violence	1	1	1	1
5. Climate change	9	1	1	1
6. Environmental sustainability	9	1	1	1
7. Human survival and well-being	1	1	1	1
8. Sustainable consumption and production	9	1	1	1

*D3 Please indicate which of the dimensions of learning in GCED and ESD below are generally included in student assessments or examinations at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Knowledge	1	1	9	9
Skills	1	1	9	9
Values	1	1	9	9
Attitudes and behaviours	1	1	9	9

E. Mainstreaming of GCED and ESD in laws and policies, curricula, teacher education and student assessment (paras 4-5, 7, 10-19 and 33-37 of the 1974 Recommendation)

*E1 Based on your responses to questions in the previous four sections (laws and policies, curricula, teacher education and student assessment) please indicate to what extent global citizenship education (GCED) and education for sustainable development (ESD) are mainstreamed⁵ in (a) education laws and policies, (b) curricula (c) teacher education (including the training of trainers and educators) and (d) student assessment in your country. Please enter the appropriate number in each white cell in the table below.

KEY:

0 Not at all

GCED and ESD are not mainstreamed.

1 Partially

Some GCED and/or ESD themes⁶ are mainstreamed. Select this option if GCED is mainstreamed but ESD is not (or vice versa).

2 Extensively

Most GCED and ESD themes are mainstreamed.

9 Not known

It is not known whether GCED and ESD are mainstreamed or not.

99 Not applicable

The given level of government does not have responsibility for the given component (policies, curricula, teacher education or student assessment) and/or does not have responsibility for the given level or type of education. This may occur at the national level in federal countries where education is the responsibility of individual states or at the sub-national level in small countries where there is only one level of government.

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
National				
(a) Education laws and policies	1	1	0	9
(b) Curricula	1	2	9	9
(c) Teacher education	2	2	2	9
(d) Student assessment	1	1	9	9
Sub-national				
(a) Education laws and policies				
(b) Curricula				
(c) Teacher education				
(d) Student assessment				

⁵ GCED and ESD are mainstreamed if their themes are mentioned explicitly in relevant documents and are expected to be implemented by the relevant authorities (e.g. Ministries, regional or local education authorities), educational institutions (e.g. schools, colleges and universities) and/or education professionals (e.g. teachers, lecturers, trainers and educators) as appropriate.

⁶ Refer to the schema in paragraph 11 of Section II of these guidelines.

F. Technical and vocational education and training (paras 25-29 of the 1974 *Recommendation*)

- F1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in technical and vocational education and training. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

Regrettably, there have been no worthwhile initiatives in this field over the indicated period

G. Adult education (para 30 of the 1974 *Recommendation*)

- G1 Please describe any major initiatives that have been undertaken to promote GCED and/or ESD in adult education and other forms of non-formal education including youth education, out-of-school education, etc. Describe briefly the outcomes and impact of such initiatives and provide examples of good practices.

Regrettably, there have been no worthwhile initiatives in this field over the indicated period

H. Research and International Co-operation (paras 41-45 of the 1974 *Recommendation*)

- H1 Please describe what kinds of research or experimentation have been carried out to improve the implementation of GCED and/or ESD. Describe briefly how the results of such activities have influenced education policies, curricula and/or teaching practices.

In 2018 - 2019 the MoES concluded an agreement with the UNESCO Regional Bureau in VENICE (BRESCE) for the implementation of a joint project dedicated to GCED enhancement in in-service teacher education. The project was well acclaimed and successfully integrated into the teaching qualification training system. The social partners – the teachers trade union, also joined and supported the MoES and BRESCE in carrying out the project. All teachers from UNESCO ASP-net, approximately 300 teachers in civics and history, have undergone these trainings. The teacher trainings then explored primarily the possibilities and teaching methods for GCED topics and were based on the CoE Reference Framework on Competences for Democratic Culture.

H2 Please indicate which types of activities are available that promote international co-operation at each level of education by entering the appropriate number in each white cell.

KEY: 0 = no, 1 = yes, 9 = unknown

	Pre-primary	Primary and secondary	Tertiary	Non-formal education
Hosting of international meetings on GCED and/or ESD	0	1	9	9
Participation in international meetings abroad on GCED and/or ESD	9	1	9	9
Support for programmes hosting foreign students, researchers and/or teachers	0	1	9	9
Membership of international networks including ASPnet	1	1	9	9
Joint research projects on GCED and/or ESD with foreign institutions	0	1	9	9
Other activities (please specify):				

I. Any other comments

I1 Please indicate whether your country has faced any constraints, in particular related to global or national crises, including natural disasters, in implementing the 1974 Recommendation during the reporting period.

--

I2 Please provide any other relevant information or clarifications regarding the implementation of the 1974 Recommendation or the mainstreaming of GCED and ESD in your country's education system.

--
